ACCOUNTS AND PAPERS:

1866.

THIRTY-NINE VOLUMES:—CONTENTS OF THE

SECOND VOLUME.

N. B.—*THE* Figures *at the* beginning of the line, *correspond with the* N° *at the foot of each* Paper; *and the* Figures *at the* end of the line, *refer to the* MS. Paging *of the Volumes arranged for The House of Commons.*

FINANCE, &c.

Loan Societies:

216. Abstract of Accounts of Loan Societies in *England* and *Wales*, to 31st December 1865; by *John Tidd Pratt*, Esq., the Barrister appointed to certify the Rules of Savings Banks - - - - - - - - - - - p. 1

Mint (Bullion for Coinage):

11. Sums advanced in each Year from the Consolidated Fund for the Purchase of Bullion for Coinage, and of the Sums Paid in each Year to the Account of Her Majesty's Exchequer at the Bank of *England*, in Repayment thereof (pursuant to Act 7 Will. 4, c. 9, s. 4) - - - - - - - - - 53

Mint (Gold, Silver, and Copper Monies Coined):

401. Gold, Silver, and Copper Monies of the Realm, coined at the Mint, for each Year from the 1st day of January 1856 to the 31st day of December 1865, showing the real Cost or Value of the Metal, and the Amount represented by the Coin (in continuation of Parliamentary Paper, No. 417, of Session 1865) - - - - - - - - - - - - - - 55

Mint (Trial of the Pyx and Coinage subjected thereto):

293. Report to the Comptroller General of the Exchequer upon the Trial of the Pyx and the Coinage subjected to this Public Trial, dated the 10th day of February 1866, by Mr. *H. W. Chisholm*, Chief Clerk of the Exchequer - - 61

National Gallery:

122. Returns of all Pictures Purchased for the National Gallery, from the 8th day of June 1860, up to the present time, giving the Date of each Purchase, the Painter, &c.:—Pictures presented to the National Gallery, giving the Date of Presentation, the Donor, whether by Gift or by Bequest, the Painter, the Subject:—Total Amount expended in the Purchase of Pictures for the National Gallery between the above Dates:—And, Cost of the Establishment for each Year - - - - - - - - - - - - - - 109

Newspapers:

491. Return of the Registered Newspapers of the United Kingdom, and of the Number, if any, of Stamps at One Penny issued to each, for each Quarter respectively, from the 30th day of June 1864 to the 30th day of June 1866; also of Stamps at Three Halfpence issued to any such Newspaper during such Period (in continuation of Parliamentary Paper, No. 471, of Session 1865) - - - 113

Piers and Harbours (Ireland):

447. Case submitted and Opinion of the Law Officers of the Crown as to a Grant of 4,500 *l.* and 500 *l.* for the Assistance of Piers and Harbours in *Ireland*, and Assistance of Poor Fishermen in that Country (5 Geo. 4, and other Acts) - - - - - - - - - - - p. 147

Post Office Mail Service (African Mail Packet Service):

107. Correspondence between the Postmaster General and the Liverpool African Association, and of any Memorials from the African Association to the Postmaster General, on the subject of the African Mail Packet Service during the Years 1865 and 1866 - - - - - - - - - 151

Post Office Mail Service (Australian Mails):

14. Contract for the Conveyance of the Mails between *Point de Galle* and *Sydney, New South Wales* - - - - - - - - - - 165

Post Office Mail Service (Cunard Mail Steamers):

253. Return from 1861 to the present time, of the Passages of the Cunard Mail Steamers to and from *England*, *Ireland*, and *America*, showing the Hour of Sailing of the Steamers from *Liverpool*, Arrival at *Queenstown*, Departure from *Queenstown*, Arrival at *Halifax*, Departure from *Halifax*, &c. (in continuation of Parliamentary Paper, No. 188, of Session 1862) - - - - 175

Post Office Mail Service (Cunard, &c. Steamers):

339. Return of the Steamers belonging to the Cunard and to the Liverpool, New York, and Philadelphia Company which, during 1864 and 1865, left *Liverpool* for *New York* and *Boston* in *North America*; specifying Name and Company; whether Screw or Paddle; Time of Departure from *Liverpool*, and Arrival at *Queenstown*; Demurrage at *Queenstown*; and Departure and Arrival at *Boston* or *New York*; Time at which the Mail intended for such Steamer was despatched from *London*, and Arrived in *Cork*; and Time from the Arrival of the Mail until the Departure of the Steamer:—Similar Return of Steamers which left *New York* and *Boston* for *Liverpool*:—And, Average Time occupied, &c., in Voyages from *Boston* and *New York* to *Liverpool* - - - - 187

Post Office Mail Service (Eastern Mails):

466. Report from Captain *Tyler*, R.E., to Her Majesty's Postmaster General, of his recent Inspection of the Railways and Ports of *Italy*, with reference to the use of the Italian Route for the Conveyance of the Eastern Mails - - 207

Post Office Mail Service (North American Mails):

445. Correspondence between the Liverpool Chamber of Commerce and the Postmaster General, and between the Postmaster General and the Contractors for carrying the North American Mails in reference to a Change in the Day of Dispatch of the Mails:—And, between other Chambers and Commercial Associations and the Postmaster General, and the Replies of the Postmaster General thereto - - - - - - - - - - - - 223

Post Office Mail Service (Peninsular and Oriental Steam Navigation Company):

331. Agreement made between Her Majesty's Postmaster General and the Peninsular and Oriental Steam Navigation Company, dated the 27th day of February 1866 - - - - - - - - - - - - - 239

Post Office Mail Service (Southampton and St. Thomas Mails):

341. Particulars connected with each individual Voyage, between *Southampton* and *St. Thomas* and *St. Thomas* and *Southampton*, made by the Royal Mail Steam Company's Steamers carrying the Mails; extending from the 2nd day of March 1864 to the 2nd day of March 1866, both Dates inclusive - - - 247

Post Office Mail Service (West African Mails):

205. Correspondence between Mr. *Gregory* and the Post Office with reference to the renewal of the West African Mail Contract - - - - - - 251

Post Office Mail Service (West African Mails):

434. Contract between the Postmaster General and the West African Steam Ship Company for the Conveyance of the Mails - - - - - - 259

Post Office Mail Service (West Indies, Mails):

337. Return from the Post Office of the following particulars connected with the Receiving and Delivering of Letters carried by the Royal Mail Steam Company's Vessels, between this Country and the *West Indies*, extending from 2nd day of March 1864 to the 2nd day of March 1866, both days inclusive; the Return to be made for each day during the period - - - p. 271

Post Office (Revenue):

404. Comparative statement of the Gross Revenue, Cost of Management, and Net Revenue of the Post Office, for each Year from 1838 to 1865 inclusive; to be made in a manner similar to that adopted in Appendix F. of the Postmaster General's Ninth Report, that is to say, calculated throughout in the mode in use when Penny Postage was established, excluding on the one hand the Cost of the Packet Service and of Stationery, and on the other hand the Produce of the Impressed Newspaper Stamp - - - - - - 275

Probate Duty, &c.:

271. Amount of Probate Duty of Wills, Grant of Letters of Administration, Legacy Duty or Succession Duty, for the last Fifteen Years; distinguishing the Amount derived from each Source, in each Year - - - - - - 277

Redundant List (Public Departments):

402. Number of Persons on the Redundant List of the Public Departments at the Commencement of the Year 1865; the Number that have Died or become Incapable of Service during the Year; the Number that have Re-entered the Public Service during the Year; the Number that have been added to the List during the Year; and the Number that remained on the List at the Close of the Year 1865 - - - - - - - - - - - 279

Revenue Departments, 1864–5:

31. Appropriation of the Sums granted by Parliament for the Salaries and other Effective Services, and for the Superannuations and other Non-effective Services of the several Revenue Departments, for the Year 1864–65 - - - - 281

Revenue (Ireland):

490. Abstracts of the Gross Revenue of *Ireland* to 31st March 1865:—Net Produce of the Revenue of *Ireland* paid into the Exchequer:—Net Public Income and Expenditure of *Ireland*:—Amount of Duties of Excise in each Inland Revenue District of *Ireland*:—Amount of Duties of Customs collected at each Port of *Ireland*:—And, Amount of Stamp Duties collected in *Dublin*, and in each Stamp District of *Ireland*, in the Year ended 31st March 1866 (in continuation of Parliamentary Paper, No. 375, of Session 1865) - - - - 297

Russian Dutch Loan:

7. Sums which have been paid and applied within the Year 1865, by virtue of an Act, 55 Geo. 3, c. 115, intituled, "An Act for carrying into effect a Convention between His Majesty and the King of the *Netherlands* and the Emperor of *All the Russias*, for paying and satisfying the Interest on the Part of the Loan therein agreed to be borne by His Majesty, on all or any of the Securities therein mentioned, and towards paying and satisfying the Principal thereof (in case the Principal of any of the said Securities shall have been paid), and also for paying the Expenses of carrying the said Act into Execution, and the Sinking Fund for the Extinction of the same" - - - - 303

Sardinian Loan:

8. Total Sums issued out of the Consolidated Fund, and advanced to His Majesty the King of *Sardinia*, by virtue of the Acts 18 Vict. c. 17, and 19 & 20 Vict. c. 39; and also of the Sums received to 31st December 1865, for Interest and Sinking Fund thereof - - - - - - - - - - - - 305

Savings Banks and Friendly Societies (National Debt Accounts):

106. Average Rate of Interest actually allowed by the Trustees of Savings Banks in *England* to Depositors, for the Year ending the 20th day of November 1865 307

212. Number of Depositors, and of Charitable Institutions and Friendly Societies depositing their Funds in Savings Banks, and of the Sums deposited, divided into Classes, from 20th November 1864 to 20th November 1865, and various other Returns relating to Savings Banks - - - - - - 309

Savings Banks and Friendly Societies (National Debt Accounts)—*continued.*

212–I. Weekly and Total Increase or Decrease of Sums Paid or Withdrawn by the Trustees of Savings Banks, between the 20th November 1864 and 20th November 1865, with the Amounts of Stock Purchased or Sold by the Commissioners for the Reduction of the National Debt, and Amount of Uninvested Balances in the Hands of the said Commissioners on account of Savings Banks, during the same Period (in continuation of Parliamentary Paper, No. 250–I., Session 1865) - - - - - - - - - - - - - p. 325

322. Return from each Savings Bank in *England* and *Wales, Scotland,* and *Ireland,* containing the Names of the Officers, Salaries and Allowances; Amount of Security; Number of Accounts remaining open; Total Amount owing to Depositors; Total Amount invested with the National Debt Commissioners; Rate of Interest paid to Depositors, and the Average Rate of Interest on all Accounts; Total Amount of the separate Surplus Fund on the 20th November 1864; the Rate per Centum on Capital for the Expenses of Management; Annual Number of Receipts from Depositors; Annual Number of Payments; Average Amount of Receipts; Average Amount of Payments; Number and Amount of Annuities granted; Annual Expenses of Management, for the Year ended 20th November 1864; also, the Year in which Business commenced in each Bank, Name of the Day or Days, and Number of Hours in the Week, on which the Banks are Open (in continuation of Parliamentary Paper, No. 439, of Session 1865) - - - - - - - - - - - - - 329

37. Gross Amount of all Sums Received and Paid by the National Debt Commissioners on account of Banks for Savings and Friendly Societies in *Great Britain* and *Ireland,* to 20th November 1865; Aggregate Amount of the separate Surplus Fund of Savings Banks, and Gross Amount of Sums transferred to or Paid out of such Surplus Fund in the course of the Year; and, Expenses incurred during the Year ended 20th November 1865; Detail of the several Transactions in the Investment of all Monies for Savings Banks and Friendly Societies, and of Variations in Securities; Aggregate Amount of the Liabilities of the Government to the Trustees of Savings Banks and Friendly Societies, and Nature, Amount, and Value of the Securities held by the Commissioners, and Amount of Deficiency; Gross Amount of all Bank Annuities and Long Annuities, and any other Annuities, for Terms of Years, transferred, and Gross Amount of Annuities for Lives and for Terms of Years, granted under the Provisions of the Acts 10 Geo. 4, c. 24, 3 Will. 4, c. 14, and 16 Vict. c. 45, within the Year ended 5th January 1864; Gross Amount of all Sums Received and Paid, and Gross Amount of Stock bought, sold, and transferred on account of "The Fund for the Military Savings Banks," pursuant to Act 8 & 9 Vict. c. 27, s. 5, from the 19th September 1845 to the 5th January 1866 - - - - 425

Post Office Savings Banks:

146. Account of all Deposits Received and Paid under the Authority of the Act 24 Vict. c. 14, during the Year ended 31st December 1865, and of the Expenses incurred from 16th September 1861 to 31st December 1865, &c.:—Also, Account of the Sums Received and Paid by the Commissioners for the Reduction of the National Debt, on account of the Fund for the Post Office Savings Banks, per Act 24 Vict. c. 14, from 1st January 1865 to 31st December 1865, both inclusive - - - - - - - - - - - - 435

Seamen's Savings Banks:

215. Deposits Received and Repaid by the Board of Trade, under the Authority of the Seamen's Savings Bank Act, 1856, 19 & 20 Vict. c. 41, during the Year ended 20th November 1865, and of the Interest thereon - - - - 439

South Kensington Museum (New Buildings):

432. Correspondence between the Treasury and the Science and Art Department 441

Superannuations (Public Offices):

143. Allowances or Compensations granted as Retired Allowances or Superannuations in all Public Offices or Departments which remained payable on the 1st January 1865; the Annual Amount which was granted in the Year 1865; the Annual Amount which ceased within the Year; and the Total Amount remaining payable on the 31st December 1865 - - - - - 449

Taxes:

✓ 508. Rates of all Taxes and Imposts from which the Imperial Revenue of the United Kingdom was raised, together with the Gross Amount yielded by each Tax or Impost, showing the Total Gross Revenue in the Year ending the 31st day of March 1866 - - - - - - - - - - p. 605

Treasure Trove:

✓ 354. Returns of all Objects coming under the Denomination of Treasure Trove which have been claimed by the Solicitor to the Treasury on behalf of the Crown, between 10th May 1865 and 10th May 1866, setting forth the Date of each Claim, Description of Treasure, Estimated Value, and how Disposed of (in continuation of Parl. Paper, No. 385, of Sess. 1865):—And, of all Objects of Treasure Trove unaccounted for from 1st January 1859 to 10th May 1866 507

Treasury Chest, 1864-65:

133. Sums Received into the Treasury Chest, and Paid out of the same, between the 1st April 1864 and the 31st March 1865, and of the Assets and Liabilities of the Chest on the latter Day - - - - - - - - 509

Woods, Forests, and Land Revenues:

34. Abstract Accounts of the Commissioners of Her Majesty's Woods, Forests, and Land Revenues, for the Year 1864-65 - - - - - - - 531

Works and Public Buildings:

137. ✓ Abstract Accounts of the Receipt and Expenditure of the Monies Granted or otherwise Received and Appropriated in the Department under the Control or Management of the Commissioners of Her Majesty's Works and Public Buildings, in the Year ended 31st March 1865 - - - - - 549

LOAN SOCIETIES.

ABSTRACT of Accounts of Loan Societies in *England* and *Wales*, to 31st December 1865; by *John Tidd Pratt*, Esq., the Barrister appointed to certify the Rules of Savings Banks.

[*All Shillings and Pence are omitted.*]

(*Presented pursuant to* 3 & 4 *Vict. c.* 110, *s.* 27.)

Ordered, by The House of Commons, *to be Printed*,
27 *April* 1866.

216.

ABSTRACT of ACCOUNTS of LOAN SOCIETIES in *England* and *Wales*, to 31 December 1865;

TO SIR WILLIAM DUNBAR, BART., COMPTROLLER-GENERAL OF THE EXCHEQUER.

REPORT upon the TRIAL of the PYX, and the COINAGE subjected to this Public Trial, by Mr. *H. W. Chisholm*, Chief Clerk of the Exchequer.

Objects of the Report.

THE following Report is prepared with the object of placing upon record information relating to the several proceedings connected with the ancient ceremony of the trial of the Pyx, from the earliest period to the present time; and also of calling attention to the trial of the Pyx itself, and to the consideration of the questions, whether it has degenerated, as has been alleged, into an "empty ceremony," or how far it is of real importance in verifying the justness of the gold and silver currency of the kingdom, as it is issued from the Mint; and whether any and what alterations may be desirable with respect to the trial of the Pyx.

Why desirable at the present time.

This information appears to be more deserving of record at the present time, when the still more ancient office of the Exchequer which has existed in this country for 800 years as a great office of the State, and at which and by the aid of whose officers, the trial of the Pyx has always been held, is about to be abolished as a separate and distinct department, and when other provisions may require to be made for the performance of the duties connected with the Pyx trial, which have been hitherto executed at the Exchequer. At the conclusion of the Report some suggestions will be found as to the future custody of the standard trial plates, now placed by law in the custody of the Comptroller-General of the Exchequer, and for which it will be necessary to make Legislative provision, under the new arrangements of the duties and functions of the office.

Historical and descriptive statement of trial of the Pyx.
Appendix 1.

A historical and descriptive statement of the several proceedings connected with the trial of the Pyx, a subject necessarily involving some notices of the coinage submitted to this public trial, is appended to this Report, and contains the fullest details of these proceedings.

Origin of trial of the Pyx.

Ruding's Coinage, 3d Edition, 1840, vol. 1, p. 6.

It is probable that an examination of the justness of the coinage of this country, by assay, and comparison with trial plates, was practised here at a very early date, so early indeed as by the Saxons, to whom, according to Ruding, the introduction of the old standard of sterling silver, both of fineness and weight, into the Mints of Britain, may, with great probability, be ascribed. There is even reason to believe that it was practised at a still earlier period, under the Roman dominion. This is the opinion of a learned antiquarian, Mr. W. H. Black, formerly of the Public Record Office, based upon the discovery of some antiquities at the Tower, and especially of a small plate of silver bearing a Roman stamp; the evidence upon which Mr. Black's opinion rests will appear in the edition of the Antonine Itinerary, a work now preparing for publication, under the authority of the Master of the Rolls. The word Pyx, itself, is of Roman origin, derived from the Greek, and signifies a box, although its use has not been limited to purposes connected with coinage. The trial of the Pyx, or box, containing duly certified specimens of the coinage, does not appear to have been practised by the Normans, at the time of the Conquest, but to have been first authorised in this country by a Norman Sovereign, Henry 2d, about a century later. There is clear evidence of the trial of the Pyx, or Mint box, having been established about the year 1279, in the time of Edward the 1st, at the period when the Royal Mints were consolidated under one Mint Master, and when the assay was ordered to be made at the Exchequer, by the King's assayer. But the more formal establishment of the trial of the Pyx, according to the present form, and probably of the regulation that

App. 1, p. 11.

p. 14.

that the assay should be made by an independent jury of qualified persons, sworn to deliver a verdict upon the justness of the coins, appears to have been settled by Edward 3d, in 1345, the date of the earliest Mint Indenture, and to have been continued by unbroken usage up to the present day.

Authority for trial of the Pyx.

App. I., p. 15.

The trial of the Pyx was formerly directed to be made from time to time by the Royal authority, and was continued by the authority of Parliament in the latter period of the reign of Charles 1st. During the Commonwealth it was held under warrant of Protector Cromwell. Since the Restoration, the Royal authority for holding trials of the Pyx has been conveyed through the Privy Council, by special Orders, as directed in the Mint indentures, under the Great Seal.

Existing regulations for trial of the Pyx.

App. II., p. 25.

App. III., p. 32.

The regulations for the present practice of the trial of the Pyx are contained in the Mint indenture of 1817, a copy of which is appended to this Report. In the Report of the Mint Commission of 1849, (p. xii.) it was recommended "that the document called the 'Masters' Indenture,' hitherto serving as the chief authoritative regulation for the government of the Mint, should be replaced by a more precise system of regulations, sanctioned by the Lords Commissioners of Her Majesty's Treasury, under an authority of an Act of the Legislature." This recommendation was so far carried out that by an Order in Council of 7th March 1851, for the purpose of altering and improving the system of coinage at the Mint, it was ordered that instead of the rules and directions by which the Master was then bound, new rules and directions should from time to time be made by the Treasury and given to the Master of the Mint, subject to the provisions of the statutes for the time being in force, concerning the coin of the realm. This Order in Council was confirmed by a Sign-manual Warrant, dated 20th March 1851, and new regulations for the proceedings of the coinage at the Mint, and for the constitution of that department, were consequently authorised by the Treasury, but no alteration has been made by the Treasury in the regulations affecting the trial of the Pyx.

Reference to details in App. I., of subjects relating to the trial of the Pyx.

Various information relating to the coinage subjected to the trial of the Pyx, from the earliest period to the present time; the variations of the standards and of the current value of the gold and silver coinage; the amount of coinage submitted to trial since 1816, and the periods at which the trials have been held; the Exchequer standard trial pieces, which form the basis of the trial; as well as the proceedings preliminary to and at the trial of the Pyx, including the assay, will be found in the historical and descriptive statement appended to this Report.

Subjects for consideration.

The practical points to which it appears requisite that attention should be drawn are as follows:—

1. Whether the trial of the Pyx is now of practical use.
2. Whether any, and what, alterations may be desirable in the course of proceeding now usually adopted.
3. What provision it is expedient to make for the performance of the duties connected with the trial of the Pyx, which are now executed at the Exchequer.

If trial of the Pyx of practical use, or an "empty ceremony."

The first question is, how far the trial of the Pyx is of real importance in verifying the justness of the current coin of the kingdom, or whether, as has been alleged, it has degenerated into an "empty ceremony."

Ruding's opinion in 1817, that more frequent trials are absolutely necessary.

This question was raised by Ruding, in his "Annals of the Coinage," published in 1817, and which contains the best account of the trial of the Pyx hitherto published. Ruding concludes his account of the trial of the Pyx by observing, that "according to the mode in which it is now conducted it is little better than an idle ceremony." He grounded this observation on the allegations—1st, that the number of pieces selected for the assay may not be equal to the number of deliveries, by which the coins of some deliveries will not be subjected to any trial; and 2dly, and principally, that although the original intent of this examination was doubtless to check, by its frequent recurrence, all temptation to the issue of coins inferior to the standard, yet the modern practice affords but little security in that respect, on account of the long intervals which are allowed to take place between the trials, and the very large sums that are coined during these periods. If the coins were proved to be deficient, the Master of the Mint would be liable to punishment; but the public would have to bear all the inconveniences

veniences attending the circulation of that debased money, which could not be recalled without great trouble and expense, and which would cease to be legal from the moment of its detection. He stated his opinion, therefore, that the trial has thus shrunk by degrees almost into an empty show, of consequence only to the Master of the Mint, who cannot obtain his quietus until the coins have been submitted to it; but perfectly nugatory with respect to the public, as it no longer operates as a sufficiently frequent check upon the private assays of the Mint, and that it appeared to be absolutely necessary that the ancient regulation should be restored, and that the private assays should be confirmed as soon as possible by this solemn public trial.

Of still greater weight at the present time.

App. I., p. 20.

If Ruding's opinion formed before the issue of the new coinage consequent on the Act of 1816, of the importance of holding more frequent trials of the Pyx, was at that time well founded, it should have much greater weight at the present time, when, as may be seen from the tabular statement appended, not only have the intervals between the trials become considerably longer, but the total amount of coinage submitted to trial has also so very largely increased. The trial of the Pyx monies, after their issue from the Mint, may indeed be considered analogous to the audit of the public accounts of expenditure which necessarily occurs after the expenditure is made. In each case the efficiency and importance of the check depends principally upon its being made at the earliest practicable period.

How question affected by new system of coinage at the Mint by Government Officers.

Attention may here be drawn to another fact bearing upon this question. Previously to 1816, and until the change in the constitution of the Mint and in the system of coinage there made in 1851, the coinage was executed at the Mint by contractors, over whom Government officers were placed to check their proceedings. The public trial of the Pyx might thus appear to have been a repetition of an examination already made by independent assayers, and of value only as conveying a satisfactory assurance to the public that a wholesome check had been actually kept over the contractors by the Queen's assayer. Since 1851, however, in pursuance of the recommendations of the Mint Commission of 1849, the coinage operations at the Mint have been executed by the Government officers there, amongst whom is the Queen's assay-master, whose office the Commissioners describe in their Report as "the most effective check on all the proceedings of the operative departments, and is the principal guarantee for the integrity of the coin put in circulation." But the only independent check now exercised upon the whole of the coinage is that of the public trial of the Pyx. In the Report dated 2d February 1852, by Sir John Herschell, then Master of the Mint, of the changes made at that period in the management of the Mint, which Report was laid before Parliament, he says, "Let me add that the verification of the quality of the coins ought not to be dependent upon a single assayer, not even on two, if there be a possibility of communication between them respecting their assays."

Mint Report 1849 p. ix.

Parl. Paper 76 of 1852, p. 3.

Difference of test by the public, of the gold and silver coinage when in circulation.

It is true that, so far as relates to the gold coinage, in which the current value and the intrinsic value agree, any undue variation from the standard, either in excess or deficiency, would be detected almost immediately after issue from the Mint by the bullion dealers, who are so directly interested in determining the exact weight and fineness of the gold coinage. But any undue variation from the standard would not be so easily and certainly detected in the silver coinage, which is intrinsically of less value than its current value, and is not subjected to the same critical test as bullion by the public when in circulation.

Practical use of trial of the Pyx.

The practical use of the trial of the Pyx is, 1st, that full assurance should be thereby afforded to the public of the justness of the coins issued from the Mint, through an examination of a jury of independent members of the Goldsmiths' Company, acting under the authority of the highest judicial authority under the Crown; and, 2d, that the Master of the Mint, who is bound in the amount of 20,000*l.* duly to execute his duties, should from time to time be discharged from his liabilities. Such a trial with these results, and with the prescription of long-established usage, can hardly be designated, either truly or justly, as an "idle ceremony" or an "empty show."

Authority for altering practice of trial of the Pyx rests with the Treasury.

But the decision as to this question, as well as to the expediency of making any alterations in the present practice of the trial of the Pyx that may be thought desirable, appears to rest with the Treasury, to whom it more properly belongs, to decide upon the question of the real importance of this ancient ceremony in determining and assuring the public of the justness of the gold and silver currency when issued from the Mint. The authority for making any new regulations from time to time in the system of coinage at the Mint, as directed by the Mint Indentures, which was conferred upon the Treasury by the Order in Council and Sign-manual Warrant of 1851, and which includes the regulation of the proceedings for the trial of the Pyx, appears to be limited only by the existing statutable provisions. These provisions appear to refer only to the standard weight and fineness, and to the current value of the gold and silver coinage, and to be contained in the Act of 1816, 56 Geo. 3, c. 68, for regulating the currency of the gold and silver coin of this realm. Section 4 of this Act specifies and determines the present standard of the silver coinage, its weight, fineness, and current value, anything in the Mint Indenture to the contrary notwithstanding. Under Section 11 of the same Act, declaring gold coin to be the only legal tender, it is enacted, "That the said gold coin shall hold such weight and fineness as are prescribed by the present Indenture with His Majesty's Master and Worker of the Mint for making gold monies at His Majesty's Mint in London, and with such allowance, called the remedy, as is given by the said Master by the said Indenture, which weight and fineness are hereby declared to be, and shall remain to be, the standard of and for the lawful gold coin of the realm," &c. Practically, the existing statutable provisions apply only to the standard weight and fineness of the gold and silver coinage, and their current value, which they fix and determine; with this exception, the Treasury are empowered to make such new regulations respecting the coinage at the Mint as they may judge expedient, "any usage or practice at the Mint to the contrary notwithstanding."

App. III., p. 32.

See Master's Remedy, in Mint Indenture, App. II., p. 28.

More frequent trials of the Pyx recommended by Mint Commission of 1849.

The question of the period of holding trials of the Pyx, and the intervals between these trials, has already been referred to as being of considerable importance as affecting the practical use of the trial of the Pyx. That these trials should be held at much more frequent intervals than of late was also amongst the recommendations of the Mint Commission of 1849. In their Report they recommend,—

> "That the proceeding, called the trial of the Pyx, for determining the sufficiency in weight and fineness of the coin issued from the Mint, should take place at least once in every year, and oftener, when the coinage may be of such an amount as to render it expedient."

This recommendation has escaped the attention which it appears to deserve.

And that the Pyx verdict should specify the variation from the standard in fineness, as well as in weight.

App. VIII., p. 43.

It will be seen from the appended copy of the verdict of the jury at the last trial of the Pyx, that whilst the verdict specifies the exact variation of the *weight* of the coins from the standard, it declares in general terms only with respect to the *fineness* of the coins, that by the trials and assays thereof, they find the same to be agreeable to the standard trial plates of the Exchequer. It was also amongst the recommendations of the Mint Commission of 1849, that the verdict of the jury should specify the exact variation in fineness (if any) from the standard, of the Pyx coins assayed by them; they recommended,

> "That the verdict of the Pyx jury should explicitly declare whether the assay shows an exact conformity with the trial plates, or only an approximation to it, within the limits of the legal remedy; and that in the latter case it should state, as nearly as possible, the precise extent of the difference, in the same manner as it at present states that of the weight."

Suggestion that greater publicity be given to the trial of the Pyx and the verdict.

Attention may be called to the question whether it may not be desirable, with a view to assuring the public of the justness of the coinage, that greater publicity should be given to the proceedings and results of the trial of the Pyx. The proceedings are held in open and public court, but the verdict is not delivered in public, nor is it the custom to publish it, or to take any steps for making it known to the public. It may be suggested that both the Order in Council directing the trial to be held, as well as the verdict of the jury, should be published in the Gazette.

As to number of coins placed in the Mint Pyx box.

There is another point which may be noticed. It is now the practice at the Mint, as directed in the Mint Indentures, to take for the Pyx box, one coin out of every journey (15 pounds of standard gold, and 60 pounds of silver) coined during the day, and at the close of the day to seal up all the coins, so taken, in one parcel, which is placed in the box. Thus, at the last trial, the Pyx box contained

App. VII., p. 39.

contained 49,830 gold coins, in 263 parcels, or upon an average 190 coins in each parcel. At the trial of the Pyx, however, it is customary, and considered sufficient for the purpose of making the assay, to take one coin only out of each parcel. It appears, therefore, wholly unnecessary to place so many coins in the Pyx box, and that it would be quite sufficient to take indiscriminately one coin out of the whole number coined during the day at the Mint, one denomination only being coined in a single day, and to place this single coin in the Pyx box. Such a course would have prevented the existing necessity of locking up gold coins in the Pyx box to the amount of 47,656 *l.* accumulated in five years, and would have much lessened the practical difficulty and labour in dealing with and manipulating so large a number of coins, and of such great weight.

Balances and weights used at trials of the Pyx.

App. I., p. 23.

App. IX., p. 44.

It may be suggested that at the trial of the Pyx, authoritative instructions be given to the jury of goldsmiths to use the Exchequer standard weights and balances. At present, the balances and weights used by the jury at Goldsmiths' Hall are those belonging to the Goldsmiths' Company, although the Exchequer standard weights are produced to the jury for their use, in obedience to the warrant of the Chancellor of the Exchequer. It was directed by the Treasury in 1842, at the suggestion of the Comptroller-General of the Exchequer, that in future the Exchequer balances and weights should be used at trials of the Pyx. The transfer of the assay from the Exchequer to Goldsmiths' Hall in 1844, appears to have been the cause of this direction not having been carried into effect; but there would be no difficulty in conveying some of the Exchequer balances, which are of the finest and latest construction, together with the standard weights, to Goldsmiths' Hall, to be used for the assay; and all that is required appears to be, that authoritative instructions for their use should be given to the jury of goldsmiths.

Suggestions of transfer of custody of standard trial plates, &c. to Treasury.

With respect to the legislative provision that may now be required to be made for the custody of the standard trial plates, under the proposed new arrangements of the functions and duties of the officers of the Exchequer, and particularly with reference to the proposed transfer of the duties connected with the standard weights and measures to the Board of Trade, it may be suggested that the custody of the standard trial plates, and the keys of the Pyx box in which they are deposited, the certificates of their verification, the Comptroller-General's keys of the Pyx Chamber, and the books and records relating thereto, together with the duties and functions connected with them, be transferred to the Treasury Board, in charge of whose assistant secretary one set of the keys of the Pyx Chamber now remains.

Present duties of Exchequer officers, in relation to the standard trial pieces.

App. I., p. 19.

App. V., p. 34.

App. IV., p. 34.

In addition to the custody of the standard trial pieces, the duties now imposed upon the officers of the Exchequer, in relation to them, consist only of attendance at the trial of the Pyx and the production of the trial pieces, in obedience to the Warrant of the Chancellor of the Exchequer, in order to furnish a portion of them to the jury for the purposes of the assay. The most important connection of the Exchequer with the trial of the Pyx, is the holding of this ancient ceremony at the Exchequer. This has been the usage from the earliest times, and it is prescribed in the existing form of Order in Council, directing the trial to be held, which authority orders where the Court shall assemble for the trial.

Suggested deposit of locked Pyx box with the Imperial Standards of length and weight.

It may also be suggested, that instead of being deposited in the ancient Pyx Chamber in the cloisters of Westminster Abbey, the Pyx box containing the standard trial plates be deposited in such place and in such manner as the Treasury Board should by warrant direct. Should their Lordships so think fit, such Pyx box might be deposited in the strong room in which the Imperial Standards of length and weight are now placed, and might remain under the charge of the President of the Board of Trade, or his chief officer of the Standard Department, subject to removal from time to time by Treasury Warrant, when required for use, or otherwise. This arrangement would provide a far more secure place of deposit for the standard trial pieces than the ancient Pyx Chamber, and at the same time keep up the ancient and established practice of placing the standard trial pieces practically under the joint custody of two distinct public officers, although their legal custody would rest with the Treasury Board alone.

Pyx Chamber left free for any improvements consequent on contemplated restoration of Chapter House.

The Pyx Chamber being now used solely as a place of deposit for these standard trial plates, their removal would enable this ancient vault to be made available for any other purpose that might be judged proper by the Board of Treasury. As the Pyx Chamber immediately adjoins the vestibule of the Chapter House, with which it formerly communicated, it may be desirable that it should be left free to be included in any improvements of the locality that may be determined upon, in connexion with the contemplated restoration of the Chapter House.

Conclusion. Summary of points for consideration and decision.

In conclusion, it remains only to recapitulate the several points to which attention has been drawn in this Report, viz.

1. The practical use of the trial of the Pyx.
2. Its being held at more frequent intervals than of late.
3. The verdict of the jury to specify variation from the standard in fineness as well as in weight.
4. Greater publicity being given to the proceedings, and to the verdict.
5. The number of coins placed in the Mint Pyx box.
6. The use of the Exchequer balances and standard weights by the Pyx jury.
7. The transfer of the custody of the standard trial plates &c., to the Treasury.
8. The deposit of the locked Pyx box with the Imperial Standards under the Board of Trade.
9. Disposition of the ancient Pyx Chamber.

The consideration and decision of these questions rests principally with the Treasury Board. It may be expedient, if their Lordships should so think fit, that the questions of the intervals between the trials of the Pyx and the periods to be fixed for the trials, and of the verdict specifying the exact variation of the fineness of the coins from the standards, should be referred to the Master of the Mint and to the Goldsmiths' Company, for any observations they may have to make upon these questions. But the transfer to the Treasury of the custody of the standard trial plates and the duties connected with them, now vested in the Comptroller-General of the Exchequer under sect. 7 of the Exchequer Act of 1834, 4 & 5 Will. 4, c. 15, will require the sanction of Parliament. This may be effected by inserting a clause in the proposed Bill to be introduced this Session, "for amending the Acts relating to the standard weights and measures," in which case the following words may be added to the title, "and to the standard trial pieces of the coin of the realm."

H. W. Chisholm,
Chief Clerk.

Exchequer, 10 February 1866.

A Historical and Descriptive Statement of the Trial of the Pyx and of the Coinage subjected to this Public Trial.

Appendix I.

Sources from whence the information derived.

THE information contained in this statement has been partly derived from a paper drawn up for the use of Lord Chancellor Brougham on the occasion of the trial of the Pyx on 5th May 1833, by Mr. Bedford, then chief clerk of the Exchequer, as well as from an official programme of the proceedings at the trial of the Pyx on 22nd June 1842, and from various Exchequer Records and other sources of information. The more technical details of the assay of the coin have been supplied by Mr. Field, Queen's Assay Master at the Mint, and by Mr. Prideaux, the clerk of the Goldsmiths' Company.

Mr. Bedford's account of the trial of the Pyx is to the following effect:

Institution of trial of the Pyx.

The trial of the Pyx is a process instituted at an early period of English history, for the purpose of ascertaining the standard purity of such coin of the realm as may be in actual circulation, and of preserving that advantage to monies about to be issued from the Royal Mint. It is held before the members of the Privy Council, the Lord Chancellor acting as its President, and a jury of 12 of the Goldsmiths' Company is sworn to take assay of the coin then submitted to its investigation, and to return a verdict declaratory of its quality in accordance with that assay. In other words, the Master and Worker of the Mint, whose coinage is then subjected to test, is by this process put upon his personal trial.

Formerly held before the king himself.

In former times the King himself was present at the trial of the Pyx. Leake, in his "Historical Account of English Money" (page 275), says of King James 1st, "The 9th May "1611, being the 9th year of his reign, the King, as usual, was present at the trial of "the Pyx."

And held frequently.

It is probable that at the commencement of this institution, and indeed long afterwards, these trials were held frequently, perhaps after every act of coinage. How or when they fell into any degree of desuetude, it may not be easy to discover. In more modern times they have become still more rare (being held at the pleasure of the sovereign or the Privy Council) till a popular but erroneous opinion has prevailed that they are mere acts of ceremony and of no utility.

Trial plates deposited at the Exchequer form the basis of the trial of the Pyx.

In giving such an account of this custom as may be collected from the scattered notices relating to it which are extant, it is proper to premise, that as the basis of the trial, plates of gold and silver, of a certain degree of purity ordained by the legal authority, were deposited with the Chamberlains and Auditor of the Exchequer, who were required to lodge them in a box specifically called the Pyx. It was so called from the Latin Pyxis, derived from the Greek Πυξις, a box. This Pyx box was deposited in one of the ancient treasuries of the Crown, situated in the eastern cloister of Westminster Abbey, and secured under various keys, kept in the separate possession of the above-named officers. They were, in all probability, selected to be the custodes of the plates on account of that life tenure of office which was conferred upon them from their earliest existence, in order to render them independent of any superior power in the legal and constitutional performance of their functions, and which were executed under the sanction of an oath vesting them with and binding them in personal responsibility for all their official acts.

But used only under warrant of the Chancellor of the Exchequer.

The deposit being made in the treasury before mentioned, the plates were no longer accessible to those officers of the Exchequer, except through the operation of a warrant emanating from the Chancellor of the Exchequer, directing them to produce the plates before the Privy Council, when assays of the coin should be held. By these means the identity of the plates forming the standard of the current coin was preserved; and the same practice, without variation in its principle, is continued to the present day. The only alterations which have taken place have arisen out of the abolition, in the year 1826, of the office of the Chamberlains and the transfer of their functions into the hands of the Auditor; and again from the abolition of the office of Auditor in 1834, and the transfer of his functions to the Comptroller General of the Exchequer, who consequently became the sole custos of the Pyx and its contents, but under the same limitations as to power of access to them as heretofore controlled the several officers jointly.

Origin of trial of the Pyx obscure.

It might form a feature in the history of the Coinage of the country, curious and interesting to those officially concerned in it, as well as to the antiquary, if all the facts connected with the observance of the trial of the Pyx had been handed down to us; but so it is, that these acts, which for a length of time are practically and in a manner mechanically performed, are least likely to be the subjects of continual record, and their origin and history naturally and by slow degrees become involved in obscurity.

Ceremonial observed in Queen Elizabeth's time, according to Ruding.

Ruding, in his "Annals of the Coinage," first published in 1817, states that the earliest account of the ceremonial observed is of that which took place at a trial of the Pyx in the reign of Elizabeth, but that it "professes to be the order of older time." The following is an extract from his work:—

Appendix I.

3rd Edit., 1840, Vol. 1, p. 73.

"The order of rating th' assays of the Mynte in the Realme of Ingland by the Queen's Majesties most Honourable Counsell in the Starre Chamber of old tyme."

"First, the L. Chansell'or L. Keeper of the Great Seall for the tyme beinge, and the Tresurer of England, and other of the Counsell, have used to cause to be sommoned the Tresurer and all other officers of the Mynt, and also the master and wardons of the Goldsmyths of London, and xij other of the most wysest and discrete men of that company, to apear before them the said Co'nsel in the Starre Chamber, at a sarten daye by them to be apoynted; and the said Tresurer and other officers of the sayd Mynts, to bring with them, at that tyme and place, all the Pyxes, and the severall indentures of coynag, by and for the holle tyme the said assaye shall be taken. In which Pyxes ought to be, for every monethe they have used coynage and no assaye taken, one bag of lether, and the moneth written thereupon, and in the same certaine pec's of ev'ry jorney that was coyned the same moneth, which bage is wont to be called Sinthia."

"Item: On the same daye of appearance there ought to be attendant upon the said Counsell the Lord Treasurer, his clarke, and the Chamberlain's depute of the receipt of the Queen's Exchequer, bringing with them the counterparts of the indentures of the coynage, the standerds, and the troye weights; the Queen's Remembrancer of the said Court of the said Exchequer, or his deputy, also to attend with the records of the old assais and to wright that appertaineth, and to state ther verdit" (*i. e.* the verdict of the jury of goldsmiths) "& to make a record thereof accordynglye."

"Item, the Co'nsell being assembled in the midle chamber, next the Mynt furnace in in the said Stare Chamber, the said tresurer and the other officers ought to bring in the said pixe or pixes locked with their sev'rall keys, and the same shall open with ther several keys before the said Co'nsell, and then every bage, called Sinthia, for every moneth to be opened, and if so many pec's found in the said Sinthia as wold make a pound w^{eit} of silver or gold troye, to be weighed by troye weights, and after to be numbred, to try yf yt hold out in nomber, according to the standerd and indenture; and after that all the holle money in every of the said baggs called Sinthia to be laid on one heape, and thereof taking so many pound w^{ets} as shall pleas the Co'nsell to have put to the fyer to trye the assaie. That done, the wardens and goldsmiths to be sworn to try the said monie, and to take the assaye accordingly; the tenore of whose othe hereafter ensueth; that is to saye: Ye shall well and trewely, after your knolege and descrecions, make thassais of theis moneys of gold and silver, and trewly report yf the said monys be in wight and fines accordyng to their the King's standerds of his Treasury, and alls yf the same monys be sufficient in allaie, &c., according to the covenant comprised in the Indenture thereof mad betwyne the King's grace and the M^{r} of his Mints, so help y Godde.

"And that done, one of the said severall pond w^{its} of the mony put in severall fier potts to be delivered to the formane of the jury to be molten and tryed by the assaye, wherby y^{t} may be knowen whether the said pound w^{its} containe so many oz. and penny weits in puer and good syllver as by the standerd and indenture is appoynted or not; and, as then y^{t} shall be found by the said jurye, to be sygnified unto the Coñsell, whos verdict with the nomber of all the other coyned by any such indenters within the tyme of the said assaye, to be delivered from the said Coñsell to the said Remembrancer, to record all their doings accordingly as apertayneth.

"Item, the lyke assaye to be mad of the gold, mutat' mutand."

Auditor of the Exchequer formerly Lord Treasurer's clerk and acting for him.

It is to be observed that the Lord Treasurer's clerk here mentioned was the Writer of the Tallies, who was subsequently known by the higher designation of Auditor of the Receipt. According to a manuscript account of the Exchequer prepared by Mr. Lowndes, Secretary of the Treasury, in the early part of the last century, and to other documents of higher antiquity, this officer, the Writer of the Tallies, in common with others in the Exchequer who did not hold their offices by serjeanty, was "considered as no other than a clerk of the Lord Treasurer," being in fact his representative in the absence of the latter from the Court of the Receipt, and having in his possession, as Madox, vol. 2, page 205, says "those keys of the King's Treasury which do belong to the Treasurer in his stead." Having consequently the joint custody of the trial plates, his attendance at the assay became indispensable.

Trial of the Pyx of French origin, about 1320, according to Ducange, cited by Ruding.

But shown by Madox to have been customary in England at an earlier period.

To return from this digression, when Ruding says that the foregoing account is the earliest he could find, it must be supposed that he meant it of the ceremonial only, not of the trial itself; for in a paper of his, printed among the Transactions of the Society of Antiquaries, vol. 16, he states that the first trial he could find noted is mentioned in Ducange's Glossary, under the word *Assaia*, that it was of French institution and took place in the reign of Phillip 6th, (between 1328 and 1350) which he says is erroneously put for that of Phillip 5th, (between 1316 and 1320). Madox, however, produces evidence of the existence of the custom in England at an earlier period, namely, in the ninth or tenth of Edward 1st, corresponding with the years 1281 or 1282, 30 or 40 years before the before-mentioned dates. Nor does even this early assay of the coinage appear to have been the first that was made in England; for in the writ that was issued to the Barons (of the Exchequer) for holding it, they are commanded to make it in "such manner as the King's Council were wont to do" "Rex mandat eisdem quod assaium illud, prout alias per quosdam de Consilio Regis fieri consuevit," &c.).

And by Rapin.

Again, Rapin states that in the 18th year of the same reign (1290) "an indented trial piece, of the goodness of old sterling, was lodged in the Exchequer, and every pound weight

Process of shearing money described by him.

"weight troy of such silver was to be shorn at 20 *s.* 3 *d.*" According to this, the value of silver was 1 *s.* 8¼ *d.* an ounce. The process of shearing money is thus detailed by Rapin, who ascribes the introduction of it into England to Edward 1st: in this 18th year of this reign this monarch sent for foreign mint masters, (namely, William de Turnemire, and others from Marseilles, and one Frescobald and others from Florence) to inform him of the manner of making and forging money, which is said to be thus: first, the silver was cast from the melting-pot into long bars; these bars were cut with shears into square pieces of exact weight, then with the tongs and hammer they were forged into a round shape, after which they were made white by boiling and afterwards stamped with a hammer to make them perfect money.

Other assays also mentioned by him, and powers of punishment.

Other assays are mentioned by the same author, as in the defalcation of Giles de Hertebergh, one of the joint masters of the money in the 12th of Edward 2d (1319) to the amount of 258 *l.* 5 *s.* 10 *d.* out of 40,730 *l.* minted at the same time, for which and for another debt of 100 *l.*, making together the sum of 358 *l.* 5 *s.* 10 *d.*, the said Giles "was "committed prisoner to the Marshall." It thus appears that this court of assay possessed the power of punishment, and this is also shown by a quotation cited by Ducange from Rymer, in which the terms "Assaiam examinationem et punitionem" occur; punitio being explained as meaning "punitio omnium et singulorum tam criminaliter quam civiliter in "cassione monetæ delinquentium."

Trial of the Pyx stated to have been formerly prescribed by Edw. 3, in 1345, though previously observed by customary usage. *See* post, p. 15.

Rapin, in the coin note at the end of the reign of Edward 3rd, says that the trial of the Pyx was established by an indenture made between that king in the eighth year of his reign (1345) and Perceval de Perche, Master of the Mint; from which it may be inferred that the formal and legal prescription as an usage, to be thenceforward observed, of that which had previously existed as a custom dependent on the arbitrary pleasure of the king, may be fixed as having its origin at the date of that indenture.

As evidenced by ancient trial pieces remaining in the Exchequer. *See* p. 15.

It may be worthy of notice that a considerable portion of one of the bars of silver before described remained among the ancient standard pieces of gold and silver in the Pyx Chapel at Westminster. The angles of it had partly undergone the process of rounding, and there was stamped upon it the head and reverse of a coin apparently to try the impression of the dies. It was not the head of Edward 1st, but one of the Henrys, much resembling that of his predecessor Henry 3rd.

(End of Mr. Bedford's Paper.)

First introduction of an assay of the coin, and establishment of a standard. Leake, Introd. p. 21.

In his "Historical Account of English Money," Mr. Leake assigns the first introduction of an assay of the coin, and of the establishment of a standard, or, as it was then termed, sterling money, to the period of the reign of Henry 1st. Other authorities have ascribed it to Henry 2nd, Richard 1st, and to King John. It appears to have been rendered necessary by the deterioration of the coined money both in fineness and in weight. At that period there were numerous mints in various parts of the kingdom. The several mints were first consolidated by King Edward 1st, and the establishment of an improved system of coining money was not effected until the reign of Edward 3rd, who was the first of our monarchs who coined gold money.

Saxon coinage previous to the Conquest. Leake, Introd. p. 13, &c.

Previously to the Conquest, the silver coins of the Saxons were all pennies. Of gold money they had none of their own, although foreign gold money, called Bizantini or Bezants, as being coined at Constantinople, were current in England, and generally all over Europe. The Saxon scilling or shilling was purely nominal, as marks or nobles afterwards. At that period and subsequently, all money accounts passed under the designation of *pence, shillings, pounds,* and mancuses. The Danes, when they governed here, used the Saxon pennies.

p. 18. Money in England after the Conquest.

The Normans continued to coin the same sort of money as their predecessors, the Saxons, only a little lighter, for some of the Saxon pennies weigh above a pennyweight, whereas few of the Norman pennies reach 22 grains.

All great payments were made in silver by weight.

Computation was made by marks and half marks, ounces and half ounces of gold, and silver in pounds, marks, half marks, shillings, and pence.

The mark of gold was equal to 120 shillings of silver.

Ounce „ - -	15 „
Pound of silver -	20 „
Mark - - -	13 shillings and fourpence.
Shilling - - -	12 pence.
Penny - - -	a pennyweight, or the 20th part of an ounce of silver.

So that a pound of silver was then a pound both in weight and in tale, and till the time of Edward 1st the English pennies were nominally a pennyweight each, though they had actually fallen short two grains.

Appendix I.

Dues payable to the Crown in kind changed into payments of money.

After the Conquest certain dues to the Crown, payable in kind, called purveyances, were changed into payments of money, and were collected by the sheriff in the following proportions:—

Bread for 100 men	One shilling.
One pasture-fed ox	One shilling.
A ram or a sheep	Fourpence.
Provender for 20 horses	Fourpence.

These were gathered by the collectors, and paid in gross by weight into the Exchequer.

When money deteriorated, assay established.

But by reason of the lightness or badness of the money it was ordained that payments should be made according to a fixed scale by paying 6 *d.* above the pound, or 20 shillings, at first thought sufficient to make good the weight. The money afterwards growing worse, the deficiency of weight was to be made good by paying as much money for a pound sterling as weighed twelve ounces: and because the money might be correct both in weight and tale, and yet be mixed with copper or brass, a method of assaying the money, called the trial by combustion, became in use under Henry 1st.

Later, in the time of Henry 2nd, an officer was constituted, called Miles Argentarius, or Assay Master, to try the money by a process little or nothing differing from the present method of assaying silver for its fineness.

Sterling money introduced by Henry 2nd.

Ruding, 1840, vol. 1 p. 8.

To this regulation we may owe the first record of the introduction of a standard, and the origin of *sterling* money in England. The name of sterling, or easterling, is generally considered to be derived from the Germans in the neighbourhood of Denmark, who from their Eastern situation had the name of *Easterlings,* and being the best refiners were called in to assay our English money. Ruding assigns the origin of the word to the period between the year 1086, when the great survey of the kingdom was completed in the reign of William the Conqueror, and 1158, 4th Henry 2nd, when the first instance of its use is now to be found; for if the word had been introduced before the completion of Doomsday Book, it is scarcely possible that it should not have appeared in that record, where such various modes of payment are mentioned.

And probably the trial of the Pyx.

Mint Report, Appendix, p. 11.

It is stated in the Report of the Mint Commission of 1849, as not improbable that the trial of the Pyx, to ascertain and determine the real value of the coins made by authority, was first settled by Henry 2nd; and that it was in the reign of this monarch, about the year 1180, that the office of Assayer of Silver in the Exchequer was established, and, in the first place, for the purpose of testing the quality of the debased money then called in to be re-coined.

Ruding, vol. 1, p. 70.

Mint Report, 1849, Appendix, p. 11.

Ruding mentions the first public trial upon record, of the coin of the realm, both the old and new money, on " 24 February 1248, the 32d year of Henry 3d, before the Barons of " the Exchequer, by a jury of 12 discreet and lawful citizens of London, with 12 skilful " goldsmiths of the same place. This, however," he observes, " was not exactly a trial of the " Pyx. * * The first known writ for such a trial is dated in the reign of Edward 1st, in " 1281."

More formal establishment of the trials of the Pyx by Edward I., in 1279.

Mint Report, p. 1.

Ruding, vol. 2, p. 137.

There can be but little doubt that it was about the latter period that the trial of the Pyx, or Mint box, as now practised, and as against the Master of the Mint, was first formally established; for it was not until the year 1279, in the 7th and 8th year of King Edward 1st, that all the Royal Mints were consolidated under one Mint Master, and that a Mint agreement, analogous to the subsequent Mint indentures, was entered into between the King and the Master of the Mint, whereby the latter contracted to execute and to be individually responsible for the genuineness of the entire coinage. It may be observed that the custom of coining money in the subordinate mints did not entirely cease until the reign of Queen Mary, the whole of whose money was struck in the Tower.

Rotulus de Monetâ, or Roll of the Mint, to regulate its proceedings.

Mint Report, Appendix, p. 13.

An ordinance was passed in the same year, called Rotulus de Monetâ, or the Roll of the Mint, to regulate the proceedings there.

A copy of this ordinance is appended to the Report of the Mint Commission of 1849. It ordains:—

1. That a standard should be made to be kept at the Exchequer, or where the king wished, and that the coin should be made according to the standard, and of the same goodness as the standard.

(Premerement qe hom doit fere un estandart qe doit demorer al Escheker, on en quel lieu qe nostre Seignor le Roy vodra. Et selone la forme del estandart serra fete la moneye, et de tiel bonte come lestandar.)

The 6th clause of this Ordinance refers more particularly to the trial of the Pyx, and directs that there should be a Pyx box, with two keys, one to be kept by the Master of the Mint, the other by the Warden. In this Pyx box there was to be placed a sterling coin, out of every ten pounds, to make the assay. The Pyx box was to be delivered four times a year by the King's Assayer, at the request of the Master of the Mint. This was to be done at the Exchequer.

(Encor qe hom doit, avec une boiste a deus clefs dont, lune doit garder le Maistre de la Monoye, et lautre le Gardein. Et en le dite boiste doit home mettre de chescons dis livrees fetes, un esterling par fere lassai. Et cele boiste doit estre delivre quatre fois par an par lassaior le Roy a la requeste du Mestre de la Monoie. Et ceo seit fet al Escheker.)

This evidence is conclusive as to the establishment of the trial of the Pyx by the King's

Assayer

Assayer at an earlier date than the reign of Edward 3rd, in 1345, the date of the first Mint indenture already referred to, and which prescribes the form of this trial (*see* ante, p. 13).

Trials held four times a year till Queen Elizabeth's time.

Ruding, vol. 1, p. 71.

The regulation for making a trial of the Pyx every three months appears to have continued in force, though occasionally infringed, until the reign of Queen Elizabeth.

Ruding quotes from an account of the Mint proceedings in her reign, as follows:—

"And uppon reasonable warning thereof given, it (the Pyx box) shal be op'ned once "in three monnethes before some of the Quene's Counsell assined, in the presence of the "said warden and master; and ther shalbe maid assaies as well of the finness as of the "waight of the said monies of gold and silver, by enie meannes, in the said boxe."

Trials of the Pyx under Charles 1st and the Commonwealth.

During the reign of Charles 1st, trials of the Pyx were held at uncertain periods. In 1657 a trial of the Pyx was held of monies of the Commonwealth coined since 1649, under the authority of a warrant signed by the Protector Cromwell. The warrant was as follows:—

"Oliver P.

"Whereas amongst other weighty affairs of the Commonwealth, the care of assaying "and trying of the monies thereof by the standard of England according to the ancient "custom of the realm is not the least. We judging it necessary that the trial and "assay of the said money be forthwith made, do therefore hereby signify such our will "and pleasure to be, commanding you forthwith to cause a trial and assay to be made of "the Pyx now being in the Mint within the Tower of London, by a jury of goldsmiths "of our said City of London, of integrity and experience, to be empannelled, and sworn "on a day certain to be by you in that behalf appointed, in the place accustomed within "our Palace of Westminster, and that the Lords Commissioners of our Treasury, the "Justices of the several Benches, and Barons of the Exchequer, or some of them, be then "there present, and counselling and assisting you in the execution of our service.

"Given at Whitehall the 9th day of November 1657.

"To our trusty and well-beloved Nath. Fiennes and John Lister, Lords Commissioners "of our Great Seal of England."

Authority for holding trials of the Pyx.

Vol. 1, p. 72.

Trials of the Pyx were anciently held by Royal authority, and appear to have so continued until the latter part of the reign of Charles 1st. Ruding states that trials were held in 1643, 1644, 1645, and 1649, under the special authority of Parliament.

It has been shown that in 1657 a trial was held under a warrant from the Protector Cromwell. From the Restoration to the present time, it has been the established usage that the sole authority for holding trials of the Pyx has been that of the Sovereign, acting through the Privy Council, and moved by the Chancellor of the Exchequer. There appears to be no legislative statute for holding trials of the Pyx.

Earliest standard of silver coin.

Leake, p. 25 and p. 62.

Ruding, vol, 1., p. 6.

No record exists of any stated standard of the silver coin being established in England previous to the reign of Edward 1st, further than the term "sterling" denoted a certain degree of fineness or goodness, and was a known and approved standard in England, in all probability, from the beginning of King Henry 2nd's reign.

Ruding, indeed, assigns a much earlier date to the use of the old standard of silver in this country, and considers that its introduction, both as to fineness and weight, into the mints of Britain may be referred with great probability to the Saxons.

Portion of trial piece of old sterling silver remaining at the Exchequer.

Reference has already been made (*see* page 13) to the evidence of the existence in the Exchequer of a remaining portion of a trial piece of the old sterling silver, as mentioned by Mr. Bedford. Since that paper was written, this old assay piece, together with many others which were principally of the time of Henry 8th, and had been used at trials of the Pyx, was transferred from the Pyx Chamber to the custody of the Master of the Mint, on 20th January 1843, by directions of the Treasury.

A report upon these old pieces, and other ancient relics which were at the same time removed from the Pyx Chamber, containing a full description of them, was at that time drawn up by Mr. Black, then one of the assistant keepers of the public records, and was printed in the journal of the Archæological Association, vol. 1, p. 131. The following description is given by Mr. Black of the above-mentioned remaining portion of the old sterling silver standard.

"No. 29. The extremity of a bar or ingot of silver $\frac{7}{8}$ by $\frac{6}{8}$ inch diameter, the upper "surface of which is rounded and impressed with the dies of a coin (a silver penny) of "Henry 3d $\frac{7}{8}$ inch diameter. The letters visible are, on the obverse, ENRI. REX., and "on the reverse PHE only. The extreme length is $2\frac{1}{2}$ inches and the weight 7 oz. "10 dwt. 15 gr." "From one end have been anciently cut, portions for trials of the Pyx. "It is probably the remainder of the earliest standard in existence."

Old standard of Edward 1st.

There is, however, no direct evidence of a specific degree of fineness having been duly established until 1275; the third year of King Edward 1st, who ordained as a legal standard what has been supposed to be the earliest standard of the English coin, viz., that in a pound of money containing 12 ounces, there should be as afore 11 oz. $2\frac{1}{4}$ dwt. of fine silver, and $17\frac{3}{4}$ dwt. of alloy.

By the statute De Monetâ, generally cited as having been passed in the 20th year of King Edward 1st, but the exact date of which is uncertain, the pound of new money was to weigh 20 shillings.

Ancient standard trial pieces of gold

In addition to the before-mentioned relics of old assay pieces transferred to the Mint in 1843, a number of more perfect ancient standard trial pieces of gold and silver were formerly

Appendix I.

and silver coin formerly deposited at the Exchequer and now at Mint.

formerly deposited at the Pyx Chamber, under the custody of the officers of the Exchequer. They were of various dates, extending from the time of Edward 4th, since which period they had been used on occasion of trials of the Pyx at the Exchequer. Under the direction of a Treasury warrant, dated 20 June 1837, these ancient trial pieces were transferred to the custody of the Master of the Mint, to be preserved at the Mint as records of the state of the coin of the realm at the several periods to which they relate.

The following is a list of those ancient trial pieces:—

LIST of ANCIENT TRIAL PIECES of GOLD and SILVER, formerly deposited in the PYX CHAMBER, and which were transferred to the Custody of the Master of the Mint, 23d June 1837.

Two standard pieces, one of gold, the other of silver - -	17 Edward 4, 1477
Two - - ditto - - - ditto - - - -	18 Henry 8, 1527
Three standard pieces of silver for Ireland, one dated 32nd Henry 8, another dated anno 1600, and third without date.	
One gold standard piece, called New Angel standard, without date.	
Two standards of gold, one for Crown, the other for fine gold -	Anno 1560
One standard of silver - - - - - - -	Anno 1560
Two standard pieces, one of gold, the other of silver - -	Anno 1663 and 1563
Three gold standard pieces - - - - - - -	Anno 1605
One standard piece of Crown gold - - - - -	Anno 1593
One - ditto - of gold - - - - - -	Anno 1649
One - ditto - of silver - - - - - -	Anno 1601
One - ditto - ditto - - - - - - -	Anno 1604
One - ditto - ditto - - - - - - -	Anno 1649
Four standard pieces of gold - - - - - -	Anno 1660
One - ditto - of silver - - - - - -	Anno 1660
Two standards, one of gold, the other of silver - - -	Anno 1688
One standard piece of gold - - - - - - -	Anno 1707
One - ditto - of silver - - - - - -	Anno 1707
Four trial pieces of gold* - - - - - - -	Anno 1728
There were five of these, but one of them was delivered to the Goldsmiths' Company 13th March 1815, under Treasury Warrant; the duplicate of this gold plate, which had been delivered to the Goldsmiths' Company on 13 December 1728, having been entirely worked out.	
Three trial pieces of silver* - - - - - - -	Anno 1728
There were four of these, but one of them was delivered to the Warden of the Goldsmiths' Company, 19 May 1778, under Treasury Warrant.	

N.B.—* These last-mentioned standard pieces of gold and silver were used at the trials of the Pyx preceding that held on 6th May 1833.

A copy of this list of standard pieces of gold and silver is appended to the First Report of the Record Commission, 1800, page 129. It is there stated that to some of the earlier standards is annexed a parchment label containing the day of the month, and the year of the king or queen's reign, when the standard was made, and the quantity of gold or fine silver, and the quantity of alloy mixed with it, and certifying that it was made thus according to the old standard; to others of the standard pieces there was no label, but the year when the standard was made, and the quantity of gold or silver and the quantity of alloy mixed with it was engraved on the standard pieces.

"Old standards" of gold and silver coin.

Certificates of "the gold standards."

The following are the certificates of the "old standards" of the gold and silver coin, here referred to:—

"The 1st day of July the 8th yere of the reign of Kyng Edward the ffourth, Robert "Hill, William Wodeward, John Kyrkeby, and Miles Ades were sworen upon the hooly "Evangeliste in the Sterre Chamber, before the Chaunceler of England, Tresourer, and "Pryve Seale, and many other Noble Lords of the Kyngs Counseill, spũall and "tempãll, to make this standard of xxiij carrats[*] iij greynes and half of ꝑfite fyne gold, "and half a greyne of alloy, according to the old standard, as it appereth in the record "in the Kyng's Chauncery and Eschequer of Kyng Edward the iiide, and Kyng Richard "the secunde, Henry the iiijth, the Vth, and the VI., Kyngs of England. The which "Robert Hill, William Wodeward, John Kyrkeby, and Miles Ades, have certified that "this standard is truly made as is aforsaid."

A similar certificate follows of the standard of "xi uncs and 11 penweights of ꝑfite "fyne silver and xviii^{d} weights of alloy." It may be noticed that the silver standard now in use agrees with this old standard.

Variations in standards of the English coinage.

The following variations have occurred in the standards of the English coinage. The most ancient standard on record, for both gold and silver coin, is the old standard of Edward 3d just mentioned, viz.:—

Gold, 23⅞ carats of fine gold.

" ⅛ carat alloy, specified in the Mint indenture of 1350 (23 Edwd. 3).

Silver, 11 oz. 2 dwt. of fine silver.

Mint Report, 1849, Appendix, p. 38.

" 18 dwts. of alloy, specified in the Mint Indenture of 1357 (30 Edwd. 3) as the "old right standard of England." This old standard of silver is identical, within a fraction, with the earliest silver standard of Edward 1st.

Variation

---

[*] The carat, when used for weighing diamonds, is 3⅙ grains. The term when applied to gold has a relative meaning only. Every mass of alloyed gold is supposed to be divided into 24 equal parts. Thus, the standard of gold is 22 carats fine, that is, it consists of 22 parts of pure gold, and 2 parts of alloy.

Variations of Gold Standard.

Of gold standard; Mint Report, 1849, p. 38.

For nearly two centuries the old standard of gold was maintained without any change. In 1526 Henry 8th established also the new standard of 22 carats gold and 2 carats alloy, and the two standards had currency together for more than a century by the name of angel (or fine) gold, and crown gold respectively. In 1543 Henry 8th established also an intermediate standard of 23 carats fine gold. In 1547 Edward 6th established the debased standard of 20 carats fine gold and 4 carats alloy, the lowest ever authorised in this century. In 1550 Edward 6th raised his gold coinage to the new standard, and in 1553 Mary restored it the old standard, from which she allowed no variation. In 1576 Elizabeth permitted a trifling debasement of 1-16th of a carat in fineness, her coinage being then $23\frac{15}{16}$ carats of fine gold and 3-16ths of alloy; and in 1593 she further debased it to the new standard. James 1st, in 1605, restored the old standard. In 1626 Charles 1st sanctioned both standards, the old and the new; and in 1670 Charles 2nd authorised the new standard only (crown gold), which has ever since been continued as the sole standard of gold coin in this country.

Variations of Silver Standard.

Of silver standard.

No alteration was made in the old standard of silver until Henry 8th, in 1543, authorised a silver coinage of 10 oz. fine and 2 oz. alloy. In 1550 Edward 6th sanctioned a standard of 8 oz. fine to 4 oz. alloy for shillings and half-shillings, and of 4 oz. fine to 8 oz. alloy for smaller monies. In 1553, he sanctioned a coinage of 3 oz. fine to 9 oz. alloy for sixpences, groats, and smaller moneys, the basest ever sanctioned in this country. Queen Mary, on her accession, immediately restored the silver to a standard of 11 oz. fine to 1 oz. alloy, corresponding to the proportions of the new standard of gold, and if her regulations had been adhered to, there would have been the same proportion of alloy in the gold and silver currencies, viz., 1-12th. Elizabeth, in 1559, restored the old standard of 11 oz. 2 dwts. fine, from which, however, in 1516, she suffered a debasement to 11 oz. 1 dwt. fine; she afterwards restored the old standard of silver, which has since continued in force.

Variations in the current value of standard gold and silver coin.

The variations in the current value of the standard gold and silver of the English coinage, in other words, the variations in the rate of the number of pounds sterling coined out of 1 lb. weight troy of standard gold and silver have been as follows:

Gold Coinage.

Mint Report, 1849, Appendix, p. 35.

At the first coinage of gold by Edward 3d in 1344, the current value of 1lb. of the old standard gold was 15 *l.* It was progressively raised in the several next indentures up to 25 *l.* 2 *s.* 6 *d.* in 1526, by Henry 8th, who at the same time also fixed the current value of 1lb. of the new standard gold at 27 *l.* In 1547 the current value of the debased gold of Edward 6th was 30 *l.*, and in 1549 it was raised to 31 *l.* In 1550 the current value of the restored new standard gold was 28 *l.* 16 *s.* the 1lb. weight, being (strange to say) less in current value, though greater in intrinsic value, than the gold coinage of the previous year. Upon the restoration of the old standard by Queen Mary, on her accession in 1553, the current value was 36 *l.* In 1626, when Charles 1st sanctioned both the old and new standards, their current values were respectively 41 *l.* and 44 *l.* 10 *s.* The new standard continued at the same current value in 1670, when it was established by Charles 2d as the sole standard. It was raised to 46 *l.* 14 *s.* 6 *d.* in 1718, since which year there has been no variation, 1lb. weight of standard gold being now coined after the rate of $46\frac{29}{40}$ sovereigns to the pound weight troy.

Silver Coinage.

The current value of 1lb. weight of the old standard silver increased progressively from 20 *s.* in 1279 to 2 *l.* 5 *s.* in 1526. In 1543 the current value of the lowered silver standard of Henry 8th was 2 *l.* 8 *s.*, and in 1549 it was increased to 4 *l.* 16 *s.* In 1553 the depreciated current value of the debased standards of Edward 6th were respectively 2 *l.* and 1 *l.* 16 *s.* Later in the same year, Queen Mary cut 1lb. weight of her restored standard, containing 11 oz. 1 dwt. of fine silver, into 60 shillings. In 1601, Queen Elizabeth's restored old standard silver was coined into 62 shillings the 1 lb. weight. In 1817 the current value of the pound of standard silver was fixed at 66 shillings, after which rate it has since been coined into the several denominations of silver coinage.

Authority for determining the value and standard of the coinage anciently vested solely in the Sovereign, in later times in the Legislature.

Ruding, 4th edition, 1840, vol. i. p. 2.

With respect to the authority for determining the current value of the coinage, it appears this was certainly, in ancient times, the King's prerogative, and that it was exercised by the sovereign. In later issues it has been fixed or confined by the legislature. Sir Matthew Hale says, "The legitimation of money and the giving it its denominated "value is justly reckoned *in jure majestatis*; and in England it is one special part of the "King's prerogative." And further, "In the first institution of any coin within this king-"dom, the King, and he alone, sets the weight, the alloy, and the denominated value of all "coin; this is done commonly by indenture between the King and the Master of the Mint." This ancient prerogative is recited in the older statutes; thus, in the 11th Henry 4th, c. 5, in 1409, "Et outre ceo voet mesme nostre Seignur le Roy qe toutz les estatutz et ordin-"ances faitz devant ces heures par luy ou par ces nobles progenitours nient repellez sibien "de la moneye d'Escoce come de la moneye des aultres Roialmes et parties de pardela "meer soient tenuz and gardez et mys en due execution."

According to Lord Bacon, Henry 7th judged it expedient to permit all matters relating to his Mint to pass under the cognizance of Parliament.

That the Sovereigns of this kingdom have, in later times, always thought right to avail themselves of the advice and support of Parliament in regulating the weight and fineness of the coinage is shown in the Act 7 & 8 Will. 3, c. 1, ordaining that such weight and fineness as are prescribed in the therein recited Mint indenture should be declared to be and should remain to be the standard of and for the lawful silver coin of the realm, and by the Act 56 Geo. 3, c. 68, passed in 1817, which repealed this provision of 1696, and legalised the standard of our present gold and silver coinage.

Seignorage, or charge for coining.

From the earliest period a fixed charge, payable to the Sovereign, had been levied at the Mint for the expense of coining gold and silver there. This seignorage was relinquished in 1666, and under the Act 18 Chas. 2, c. 5, all persons were entitled to have their gold and silver coined at the Mint without charge. But in 1817, under section 9 of the Act 56 Geo. 3, c. 68, this charge was reimposed upon the silver coinage, at the rate of 4 *s.* in the pound weight, that is to say, for every pound weight of standard silver brought to the Mint to be coined into 66 shillings, 62 shillings are to be delivered to the party bringing in the bullion, and four shillings retained at the Mint for the expenses of assaying, coining, and waste in coining. Under section 10, all such sums were to be applied, in the first place, towards the expenses of the coining such silver, and the surplus, if any, was to be paid to the Consolidated Fund. This regulation was altered in 1837, and under section 3 of the Act 7 Will. 4, c. 9, the whole of the seignorage was directed to be carried to the Consolidated Fund.

Loss of recoining deficient gold.

It appears now to be an established principle that the State should undertake the charge of making good the loss occasioned by recoining the deficient gold coinage; at the period of the re-coinage of gold in 1774, the loss appears to have been divided between the State and the individual holder.

The Act 14 Geo. 3, c. 70, for calling in and re-coining deficient gold coin of the realm recited, that it was proper that all guineas weighing less than 5 dwts. 8 grs., and all half-guineas weighing less than 2 dwts. and 16 grs., and all quarter-guineas weighing less than 1 dwt. and 8 grs. shall be called in and re-coined, according to the established standard of the Mint as to weight and fineness. The Act enacted that the deficient gold coins should be received in payment of taxes, &c. up to a certain date, to be fixed by royal proclamation, provided that the deficiency did not exceed that to be stated in such proclamation.

The Act further recited an address from the Lords, that it was their opinion that the public should bear the loss arising from the deficiency and re-coinage of the gold coin, provided the deficiency did not exceed certain rates, and that the deficient coin was brought in within a certain period, and enacted accordingly, that such deficient coin might be received at the Bank of England, and there exchanged for current coin, within certain times to be also fixed by royal proclamation; that a sum not exceeding 250,000 *l.*, which had been voted for that purpose, be applied in repaying to the Bank the amount of all deficiencies, and in defraying the expenses of re-coining the deficient coin, and of other incidental expenses connected with its receipt and re-coinage. After the date fixed for receiving the deficient gold coin, all persons were authorised to deface any such coin tendered to them, and the person tendering such coin was to bear the loss.

The total amounts voted which were actually paid out of the public revenue for thus making good the deficiency of the gold coinage were as follows:—

	£.
In the year ended 10 October 1774 - - - - - -	72,500
,, ,, ,, 1775 - - - - - -	74,846
,, ,, ,, 1776 - - - - - -	271,926
,, ,, ,, 1777 - - - - - -	202,700
,, ,, ,, 1778 - - - - - -	109,227
TOTAL Expenditure - - - £.	731,199

The existing regulation as to exchanging at the Mint deficient silver coin of the realm for its full nominal value in new silver coin is contained in section 5, and the subsequent clause of the Act 56 Geo. 3, c. 68. But the benefit of this exchange is limited to a period to be named by proclamation.

On the restoration of the silver currency of the kingdom in 1696, under King William 3rd, the expenditure out of the public revenue for making good the deficiency arising from the difference between the amount of the old clipped and hammered money and the net produce of the new money amounted to 2,599,797 *l.*

In 1816 a sum of 500,000 *l.* was granted by the Act 56 Geo. 3, c. 68, s. 8, for making good the loss arising from the deficiency and re-coinage of the silver coin, and formed part of the actual expenditure in that and in the following years.

Legal tender of gold and silver coins.

Previously to 1817 both the gold and silver coins of the realm were at various times equally a legal tender for payment to any amount. This fact is recited in section 11 of the Act 56 Geo. 3, c. 48, which enacts also, that from thenceforth the gold coin made according to the indenture of the Mint should be the sole standard measure of value and legal tender for

Appendix I.

for payment, without any limitation of amount, and that the silver coin should be a legal tender for a limited amount only for the facility of exchange and commerce.

In the next clause of the Act this limitation is fixed at 40 *s.* at any one time, to take effect after a day to be fixed in the King's proclamation for that purpose.

Standard trial pieces now used at trials of the Pyx.

The trial pieces of gold and silver now used at trials of Pyx were received at the Exchequer on 4th May 1833. They were transmitted from the Treasury, together with a certificate dated 31st October 1829, signed by a jury of goldsmiths, and verified by the officers of the Mint, that these trial plates were respectively of the necessary fineness, viz.: the gold plates in the proportion of 22 carats of fine gold, 2 carats of alloy in the lb. weight troy, and the silver plate of 11 oz. 2 dwts. of fine silver and 18 dwts. of alloy in the lb. troy. A Treasury warrant, dated 4th May 1833, was at the same time transmitted, directing the Auditor of the Exchequer, or his chief clerk in his office, to deposit the trial plates and certificates in a chapel in the eastern cloister of Westminster Abbey, commonly called the Pyx Chapel, and to produce the same at such times or occasions of future trials of the Pyx as he may be required to do, by such directions as may be signified to him in the ancient and customary form.

Certificate of their verification.

It appears, from the certificate of the jury of goldsmiths, that the standard trial piece of gold, as made by them and described in their certificate, weighed 71 oz. 17 dwts., and was divided into 12 indented pieces; the trial piece of silver weighed 110 oz. 16 dwts., and was divided into 15 indented pieces.

Disposal of other similar trial pieces.

It further appears, from the Treasury Minute of 27th January 1830, on the subject of the new trial plates, that the several indented pieces were disposed of as follows:

One of gold and one of silver to the Goldsmiths' Company, for their use.

One of gold and one of silver to the Master of the Mint, for his use; and

One of gold and one of silver to the King's Assay Master, for his use.

One of gold and one of silver, together with the verified certificate, to be deposited in the custody of the Auditor of the Exchequer, to be used at the trials of the Pyx from time to time at the Exchequer, and to be produced by him on all proper occasions.

The remaining eight pieces of gold and 11 of silver were to be forwarded to the several places where assay offices are established by law, and were meanwhile to be delivered into the custody of the Master of the Mint, to be held by him subject to such instructions as my Lords should hereafter give him upon the subject. Of these 11 silver trial plates three were delivered on 24th March 1830 to the treasurer of the East India Company, for the use of the Mints belonging to the Company in India.

Commons Paper, No. 465, of 1837.

Full details respecting the preparation and disposition of these new standard trial pieces are contained in the Appendix to the Report of the Select Committee on the Mint, in 1837. (Appendix 42, page 235).

Exchequer Pyx box for trial pieces.

The Exchequer trial pieces were formerly kept in a mahogany Pyx box, which, having become decayed and unfit for use, a new iron Pyx box was furnished by Messrs. Chubb, in which the trial plates were deposited on 22d January 1862, when the box was duly deposited in the Pyx Chamber, and placed in one of the old chests there, the key of which is kept by the chief clerk. The keys of the iron Pyx box remain in the custody of the Comptroller General himself.

Pyx Chamber, in which trial pieces deposited.

The Pyx Chamber, in the Cloisters of Westminster Abbey, is one of the ancient treasuries of the Exchequer. It is generally considered that the architecture of this vaulted chamber is of the period of Edward the Confessor, and that the chamber was used by him as a chapel. The stone altar still remains.

Kal. and Invent. of Exchequer, vol. ii, p. 310.

The four ancient Treasuries of the Exchequer, of which the Pyx Chamber was one, are referred to in Sir Francis Palgrave's Kalendars and Inventories in the Exchequer, and a curious description of their contents in 1610 is contained in the Appendix to that work.

The keys of the Pyx Chamber are stated to have been kept in the treasury of the Court of Receipt, amongst the contents of which appears,—

p. 316.

" Item, the auncyent keys of the Treasaury of Leagues in the Cloyster of Westminster " Abbey," with the following marginal note:—

" These being rustie and unserviceable are made newe, A°. D^{ni}. 1624."

The Pyx Chamber appears to have been then known as the Treasury of Leagues, from a number of these ancient deeds deposited in it. With the exception of the Pyx box, containing the Exchequer standard trial pieces, all the contents of the Pyx Chamber have been, from time to time, removed to the Mint, or to the Record Office.

There are double doors to this ancient chamber, each door having three large locks and as many keys; there is also a strong iron bar and padlock on the outer door.

Custody of its keys by Exchequer officers.

All the keys were formerly kept by officers of the Exchequer, the keys of the inner door being held by the auditor or his chief clerk, and those of the outer door by the chamberlain of the Exchequer.

Upon the abolition of the office of the Chamberlains in 1826, and the transfer of their duties to the Auditor, the latter became sole custos of the keys; and on the reconstruction of the Exchequer on the 10th October 1834, all the keys were transferred to the custody of

Appendix I.

of the Comptroller General, in pursuance of section 7 of the Exchequer Act, 4 & 5 Will. 4, c. 15.

Transfer of one set of the keys to the Treasury in 1836.

On 25th March 1836, the Comptroller General called the attention of the Treasury to this fact, and stated that for the better security of the trial plates, it had been the ancient practice that two distinct officers should each retain a set of keys, so that neither officer could get access to the chamber where the trial plates were deposited without the presence of the other. On 5th April 1836, the Treasury accordingly directed that the keys formerly in the custody of the Chamberlain of the Exchequer, should be delivered to their Lordships' Assistant Secretary, who had been charged to receive them, and in whose custody they have since remained.

Trials of the Pyx held since 1816, and value of coinage.

Since the passing of the Act of 1816, the 56 Geo. 3, c. 68, from which period gold coins of the denominations now in circulation have been issued from the Mint, trials of the Pyx have been held at the dates shown in the following Table, in which the total value of the gold and silver coinage of the Mint verified at each trial are also stated.

Date of Trial of the Pyx.	Value of Gold Coinage.	Value of Silver Coinage.	Total Value of Coinage.
	£.	£.	£.
July - 1817 - - -	703,678	3,078,108	3,781,786
July - 1818 - - -	6,434,632	1,567,962	8,002,594
April - 1822 - - -	10,473,849	2,720,144	13,193,993
July - 1823 - - -	5,356,787	31,430	5,388,217
June - 1824 - - -	1,390,535	488,142	1,878,677
July - 1825 - - -	5,046,300	137,761	5,184,061
October 1827 - - -	10,968,693	1,000,599	11,969,292

TOTAL Amounts from 1816 to 1866 - - - - £.	187,199,291	18,929,028	206,128,319

At what periods trials now held.

Mint Pyx boxes, deposit of the coin therein.

It becomes requisite to appoint a trial of the Pyx, when the Pyx boxes of the Mint are filled with specimens of the several coinages of gold and silver. There are two Pyx boxes, one for the gold coin, and one for the silver, each with three distinct locks, the keys of which are kept by different officers of the Mint, viz., the Master, the Deputy Master and Comptroller, and the Queen's Assay Master. In these boxes there is placed a single coin as a specimen of every melting and coinage, technically called a journey (a corruption of the French word *journée,* or a day's work, in former times). A journey of gold consists of 180 ounces, or 15 pounds of standard gold, and a journey of silver of 720 ounces, or 60 pounds of standard silver. Each journey, either of gold or silver, is coined into one description of coin only. At the close of each day, the Pyx coins, corresponding in number with the number of journeys, are put up in a parcel, which is sealed by each of the three officers with their private seals, and placed in the Pyx box. It should be added that out of every journey coined at the Mint two coins are taken. One is assayed by the Assay Master there before the coin, of which it is a specimen, is issued from the Mint. This is called the Mint Pyx Assay. The other is deposited in the Pyx box, for the subsequent public trial of the Pyx. Previously to the meltings, the Queen's Assay Master always assays the bullion, and takes care to ascertain that it is made of the proper standard.

Number and amount of Pyx monies, and coinage at trial of the Pyx in 1861.

On the occasion of the trial of the Pyx on 17th July 1861, the contents of the Pyx boxes consisted of specimens of the gold and silver monies coined at the Mint during the six and a half years from 1st July 1854 to 31st December 1860. In this period Professor Graham had succeeded Sir John Herschel as Master of the Mint on 27th April 1855, and a distinct

Appendix I.

a distinct account was shown of the monies coined by each Master of the Mint. The number and value of the monies put into the Pyx and coined during the whole of the period are as follows:—

<table>
<tr><th colspan="6">NUMBER OF COINS IN THE PYX.</th><th colspan="3" rowspan="3">Total Value of the Pyx.</th><th colspan="3" rowspan="3">Total Value of the Coinage.</th></tr>
<tr><th colspan="6">GOLD.</th></tr>
<tr><th colspan="2">Sovereigns.</th><th colspan="3">Half Sovereigns.</th><th>Total.</th></tr>
<tr><td colspan="2"></td><td colspan="3"></td><td></td><td>£.</td><td>s.</td><td>d.</td><td>£.</td><td>s.</td><td>d.</td></tr>
<tr><td colspan="2">33,804</td><td colspan="3">6,017</td><td>39,425</td><td>36,416</td><td>10</td><td>–</td><td>27,623,039</td><td>12</td><td>11</td></tr>
<tr><td colspan="5">SILVER.</td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr>

</table>

An account in detail of the gold and silver monies coined and put into the Pyx boxes during this last period is appended to the Report. A similar account is always printed for each trial of the Pyx.

App. VII., p. 35.

The gold monies are coined after the rate of $46\frac{29}{40}$ sovereigns to the pound troy of standard gold of 22 carats of fine gold, and two carats of alloy, in pursuance of the Act 56 Geo. 3, c. 68, s. 11. The silver monies after the rate of 66 shillings to the pound troy of standard silver of 11 oz. 2 dwts. of fine silver and 18 dwts. of alloy, in pursuance of sect. 4 of the same Act.

Preliminary proceedings for the trial of the Pyx.

The period of the trial of the Pyx depends, therefore, upon the quantity of gold and silver coined at the Mint, and the consequent accumulation of coin in the Pyx boxes.

When a trial of the Pyx becomes requisite, the Master of the Mint makes the necessary communication in a memorial to the Treasury; the Chancellor of the Exchequer moves Her Majesty in Council, and an Order in Council is issued appointing a day for the trial of the Pyx. The Chancellor of the Exchequer issues his warrant accordingly to the Comptroller General of the Exchequer, directing him to produce the necessary standard trial pieces and standard weights. For this purpose, immediately before the trial, the Pyx Chamber is opened by the officers of the Treasury and Exchequer, and the Pyx box of trial pieces and the certificates delivered to the chief clerk of the Exchequer. At the trial a small piece of each trial plate of gold and silver is cut off by the assayer, who is one of the jury of goldsmiths, for their use, and at the conclusion of the trial the Pyx box and certificates are again deposited in the Pyx Chamber.

App. IV., p. 34.

App. V., p. 34.

Notice is also given by the Treasury to the Lord Chancellor, and to the Queen's Remembrancer of the day appointed for the trial of the Pyx, and thereupon a precept is directed by the Lord Chancellor to "his loving friends the Wardens of the Mystery of Goldsmiths of the City of London," requiring them to nominate a competent number of sufficient and able freemen of the company "skilful to judge of and present the faults "of the coins, if any be found," to be of the jury, and to attend at the trial for that purpose.

App. VI., p. 34.

Appendix I.

Proceedings at trial of the Pyx.

The proceedings at the Trial of the Pyx are as follows:—

The several persons whose province it is to attend meet at the office of the Comptroller General of the Exchequer, 6, Old Palace-yard, in a room appropriated for that purpose; they consist of members of the Privy Council, who constitute the Court, the Lord Chancellor acting as president; the Comptroller General and other officers of the Exchequer, the Serjeant-at-Arms attending the Great Seal, the Queen's Remembrancer and his officers, the Master of the Mint, the Queen's Assay Master and other officers of the Mint, the jury, freemen of the Goldsmiths' Company, including, in their number, their Assay Master, together with the clerk of the Goldsmiths' Company, and their attendants.

It was formerly considered necessary that not less than five Privy Councillors, in addition to the Lord Chancellor, should be present to form a quorum; but there appears to be no established regulation to this effect, and, practically, the said Chancellor, who presides for the time being, decides as to the number sufficient to constitute the Court. Previously to 1854 there were never less than five Privy Councillors present, besides the Lord Chancellor; in 1854 and 1861, four were present; and in 1866 three, in addition to the Lord Chancellor.

It is usual for the meeting at the Exchequer for the trial of the Pyx to be fixed at 9 a.m.; this early hour is necessary, in order that the process of the assay, which occupies many hours, and must be continued without interruption until completed, may be got through during the day.

When all the parties are met, the Queen's Remembrancer being placed on the right hand of the Comptroller General of the Exchequer, who is next, or near the Lord Chancellor, the Clerk of the Goldsmiths' Company hands to the Queen's Remembrancer a list of the names of the jury in attendance, which being called over by the Queen's Remembrancer, he administers the oath to them, first to their foreman, and afterwards to the remainder of the jury. The oath is as follows:—

"You shall well and truly, after your knowledge and discretion, make the assays of "these monies of gold and silver, and truly report if the said monies be, in weight and "fineness, according to the Queen's standard in her Treasury for Coins; and also if the "same monies be sufficient in alloy, and according to the covenants comprised in an inden-"ture thereof, bearing date the 6th day of February 1817, and made between his Majesty, "King George 3rd, of the one part, and the Right Honourable William Wellesley Pole, "of the other part. So help you God."

The foregoing oath being taken by the foreman of the jury, the following oath is administered to the others by four and four, and three at a time, successively:

"The oath which A. B. has taken as foreman of this jury, you and each of you respectively take. So help you God."

Thereupon the Chancellor charges the jury; and notice is then given, through their foreman, that the jury will deliver their verdict at Goldsmiths' Hall in the afternoon, or at a time and place fixed by the Lord Chancellor: a portion of the Exchequer trial pieces having been cut off and delivered to the foreman of the jury, the Council and Queen's Remembrancer, and his officers, if they think fit, retire.

It was formerly the practice for the jury then to retire, attended by the officers having the charge of the Exchequer standard trial pieces and the Pyx of the Mint, into a room at the Exchequer appropriated for that purpose, and furnaces, crucibles, measures, and tests being ready, and the Pyx and Exchequer standard trial pieces being placed on the table, for the jury, to count and weigh the total number of coins in the Pyx. They next took out from the Pyx successively such quantities of gold and silver coin as they might think fit, and having ascertained how near the weight corresponds with the tale, they proceeded to melt them, and ascertain the alloy. They then retired to their own hall, where they prepared their verdict, which being fairly transcribed and signed by each of the jury, and the Council, the Queen's Remembrancer, and other officers having repaired thither according to the appointment of the jury, the verdict was read by the clerk of the company to the Lord Chancellor, if present, or if not, to the senior member of the council, who delivered it to the Queen's Remembrancer for enrolment, after which the jury were dismissed. The Queen's Remembrancer, upon his return to his office, enters the verdict in a book kept for the purpose, and preserves the signed verdict.

Process of assay described.

A. p. X., p. 44.

The actual process of the assay is as follows:—From the whole mass of the gold coin and silver coin a certain number of pieces of each denomination are taken, and are melted into two ingots of standard gold and silver respectively. A small piece is cut off from the corner of each, which is flattened with a hammer, and passed between rollers till it is made into a long narrow strip of fillet of about the thickness of a sixpence. From this strip or fillet a number of small pieces are cut off, each of which is weighed with the greatest accuracy, and placed upon a small piece of paper which is numbered, and the weight of the standard metal is written upon it. These pieces are then subjected to the process of cupellation,* which frees them from the copper alloy. For this purpose, they are carefully

---

* *Cupellation* is the art of refining gold and silver by means of a *cupel*, which is a small vessel which absorbs metallic bodies, when charged by heat, into a fluid scoria, but retains them so long as they continue in their metallic state. The cupel is commonly made of the ashes of animal bones ground into powder, moistened with a glutinous liquid, and moulded into the required form (*see* "Cupellation" in the "Encyclopædia Britannica"). The derivation of the word "cupel" is not known; it probably has reference to the cup-like form of the vessel.

fully folded in a determinate quantity in sheet lead, in proportion to the quantity of alloy, and a certain amount of fine silver is added to each gold piece. They are then placed in due order in the cupel furnace, and left until the gold and silver alone are left in the cupels. As regards the silver assay this process is sufficient, and the silver pieces have only to be now actually weighed, and the amount of loss determined. But the gold pieces undergo a second process. They are again flattened, and boiled in nitric acid, contained in flasks, which are placed in sand baths, or over an arrangement of gas jets. The silver which forms part of the alloy is thus extracted and dissolved, and the gold is left pure. Each piece is then taken out of its flask, is washed in distilled water, well dried, and again weighed to ascertain the loss of alloy.

The proportion of gold and silver, and of alloy can thus be calculated and accurately determined, and a just result is obtained of the proportion of fine metal and of alloy in the whole of the monies in the Pyx, and of the whole amount of coinage which they represent. This process of assay is at the same time applied to the trial pieces of standard gold and silver delivered to the jury for this purpose, and the same result of the proportions of fine metal and of alloy ought to be obtained both in these trial plates and in the coin, in order to prove the complete accuracy of the assay, and to ensure a satisfactory verdict of the requisite fineness of the gold and silver coinage.

Remedy allowed.

In the assay a very small variation from the standard is allowed in the Mint indentures, which is called the master's remedy, and it is very satisfactory that this variation has never been exceeded, so far as the records extend, since the date of the first Mint indenture in 1290. The amount of the remedy on gold was originally $\frac{1}{8}$ of a carat ($1\frac{1}{4}$ dwt.) per lb., it was varied in 1350 to $\frac{1}{6}$, and so continued with trifling variations during the debasement of the coinage and afterwards till 1815, when it was lowered to $\frac{1}{16}$ of a carat or 15 grains, both in weight and fineness, at which the remedy in fineness now remains, but in 1817 the remedy in weight was reduced to $\frac{1}{20}$ of a carat or 12 grains, and so continues. Under section 11 of the Act 56 George III. cap. 68, declaring gold to be the only legal tender, it is provided that the gold coins shall be of the weight and fineness of the Mint indenture "with such allowance, called the remedy, as is given to the master by the said indenture."

Mint Report, 1849, Appendix, p. 40.

See Master's Remedy, in Mint Indenture. Appendix II., p. 28.

The remedy on silver at the assay of the Pyx in 1279 was fixed at $2\frac{1}{2}$ dwts. per lb., equivalent to the proportion of $\frac{1}{4}$ of a carat on gold. In 1350 it was fixed at 2 dwts. both on weight and fineness, and so continued with trifling variation until 1815, when it was halved and made 1 dwt., at which it now continues.

Transfer of assay from Exchequer to Goldsmiths' Hall in 1844.

At the trial of the Pyx on 22nd June 1842, at the Exchequer Office, 1, Whitehall-yard, as thus described, the assay was made at the Exchequer for the last time. On 22nd of August 1842, the Exchequer Office was removed to No. 3, Whitehall-yard, where there was no sufficient accommodation for making the assay, and at the suggestion of the Comptroller General it was directed by the Treasury that in future the meeting of the Privy Council should be held at the Exchequer, but the assay operations be performed at Goldsmiths' Hall. Accordingly, at the next trial of the Pyx, on 9th February 1844, after the Lord Chancellor had delivered his charge to the jury, and the Pyx boxes had been given into their custody by the Mint officers, and a portion of each of the trial pieces been furnished to them by the Comptroller General of the Exchequer, the jury retired to Goldsmiths' Hall to make the assay, with directions for their verdict to be sent to the Lord Chancellor. They were accompanied by an officer of the Exchequer, who had in charge the necessary standard weights, which had been provided for the purpose, and who remained at Goldsmiths' Hall until the whole process was completed, when the standard weights were returned to the Exchequer. A similar course has been followed at all subsequent trials of the Pyx.

Weights now used at the trial of the Pyx.

Although the Exchequer standard weights are now produced at the trial, and conveyed to Goldsmiths' Hall for the use of the jury, the balances and weights actually used by them are those of the Goldsmiths' Company, and the production of the Exchequer standard weights, though required by the warrant of the Chancellor of the Exchequer, appears to be a mere matter of form. It was not so considered in 1842, when the attention of the Treasury was called to the subject. Up to 1842 it was the practice to use the Mint weights at the trial at the Exchequer, but upon the jury objecting to this practice, the Treasury, at the suggestion of the Comptroller General of the Exchequer, directed in their letter of 24th June 1842, that in future the Exchequer weights and scales should be used at the trial of the Pyx. A new set of nine Exchequer troy weights from 1 lb. upwards to 30 lb. was consequently constructed in 1845 for the express purpose, being supplementary to the set of Exchequer standard troy weights, from 1 lb. downwards to 1 grain. Since this period, the set of 30 Exchequer standard decimal bullion weights from 500 oz. downwards to .001 oz. were constructed in 1855. All these Exchequer weights are now produced for the use of the jury. A practical disadvantage has, therefore, resulted from the removal of the assay operations in the trial of the Pyx from the Exchequer to Goldsmiths' Hall, that the jury no longer make use of the most authoritative weights in the kingdom, nor of the Exchequer balances, which are now of the finest and latest construction.

See List of Exchequer Standards, Appendix to Report on Standards, Commons Paper, No. 115 of 1864, p. 44.

Proportion of coins melted for the trial.

It is in the discretion of the jury to take what coins they may think fit, and in what proportions from the Pyx for the trial. But it is generally the practice to take one coin from

Appendix I.

from each sealed packet, each of which coins is considered to represent the number of journeys in one day's work. Thus, the coins melted at the last trial were as follows:

App. VIII. p. 43.

Gold Coin.—Sovereigns	224	
„ Half sovereigns	39	
	263	pieces, weighing 62·533 *oz.*

Silver Coin.—Florins	42	
„ Shillings	60	
„ Sixpences	30	
„ Maundy Money	35	
	167	pieces, weighing 30·363 *oz.*

Verdict of the jury, App. VIII.

A copy of the verdict of the jury on the last trial of the Pyx is appended to this Report. They found that in fineness both the gold and silver coins were "agreeable to the standard trial plates" of the Exchequer;

That the Pyx gold monies, amounting by tale to 47,656 *l.* should have weighed 12,239·102 oz., and were found to weigh 12,239·713 ounces, being in excess 0·611 oz.; and the master's remedy being 25·498 oz. either in excess or deficiency, they were within remedy 24·887 oz. The excess, therefore, was only 2·396 per cent. of the variation allowed;

That the silver Pyx monies, amounting by tale to 494 *l.* 7 *s.*, should have weighed 1,797·637 oz., and were found to weigh 1,796·943 oz., being a deficiency of ·694 oz.; and the Master's remedy being 7·490 oz. either in excess or deficiency, they were within remedy 6·796 oz. The deficiency, therefore, was only 9·265 per cent. of the variation allowed.

The jury found, therefore, that the gold and silver monies were, "in weight and fineness, according to the Queen's standard in her Treasury for coins, and that by the assays and trials therof they were sufficient in alloy, and according to the Mint indentures, to the best of their knowledge and discretion."

Public services of the Goldsmiths' Company in connection with the trial of the Pyx.

It has been the custom of late years for the proceedings of the trial of the Pyx to conclude with an entertainment at Goldsmiths' Hall, to which the Wardens of the Company invite the principal public officers, and where the Lord Chancellor, if he accepts the invitation, receives the verdict of the jury. The Goldsmiths' Company not only undertake the elaborate duties of the examination and assay of the Pyx monies, without any cost to the public, but also crown their labours by dispensing their splendid hospitality to the Government officers. It has already been noticed (page 14) that even in the time of Henry 3rd, at the earliest trial of the coin on record, one-half of the jury consisted of 12 skilful goldsmiths of the City of London. The earliest record that remains of the trial of the Pyx being made by a jury of goldsmiths only is of the date of the 37th year of Queen Elizabeth, when a trial of the Pyx was held in the Star Chamber. It would appear that certainly from this period, if not before, the goldsmiths have continued their valuable services, not only on the trial of the coin, but also in the preparation and verification of the Exchequer trial standard plates when new plates have been required. It is due to the Company of Goldsmiths here to add that their public services have not been confined to these proceedings relating to the coin. It may be seen from the First Report of the House of Commons' Committee of 1758, upon the original standards of weights and measures, that the primary standard weights and measures of the Exchequer in use from the reign of Queen Elizabeth to that of George the 4th (1583 to 1825) were sized and verified by a jury of goldsmiths at Goldsmiths' Hall. The duty of accurately determining the justness of these standards, as well as of the coins at the trial of the Pyx, appears to have been fitly entrusted to and duly executed by these citizens of London, who put forward as their motto, "Justitia virtutum Regina."

Appendix II.

Appendix II.

Copy of Mint Indenture, 6 February 1817.

(From Appendix to Mint Report, 1837, Comm. Paper No. 465.)

INDENTURE of the Mint, made the 6th day of February 1817, between the King's Most Excellent Majesty and the Right Honourable *William Wellesley Pole*, Master and Worker of the Mint.

Mint Indenture, dated 6 Feb. 1817.

This Indenture made the Sixth day of February in the fifty-seventh year of the reign of our Sovereign Lord George the Third, by the Grace of God of the United Kingdom of Great Britain and Ireland King, Defender of the Faith, and in the year of our Lord One thousand eight hundred and seventeen, between our said Sovereign Lord the King's most Excellent Majesty of the one part, and the Right Honourable William Wellesley Pole of the other part; witnesseth, that whereas our said Sovereign Lord the King by his Letters Patent under the great seal of the United Kingdom of Great Britain and Ireland, bearing date at Westminster the Thirtieth day of September in the fifty-fourth year of his reign, for the considerations therein mentioned, did give and grant unto the said William Wellesley Pole the office of Master and Worker of all his Majesty's monies both gold and silver within his Majesty's Mint in the Tower of London and elsewhere within that part of his Majesty's United Kingdom of Great Britain and Ireland called England, together with the net yearly salary or sum of Three thousand pounds to be paid half-yearly to him as therein is mentioned, to have and to hold the said office of Master and Worker unto the said William Wellesley Pole to be executed by himself or his sufficient deputy or deputies, for whom he would be answerable, and also the said yearly salary of Three thousand pounds for and during his Majesty's pleasure: And whereas it is provided by the said Letters Patent that the said William Wellesley Pole after he should be in possession of the said office should make and execute on his part such and the like Indenture and Agreement for and concerning the making several sorts of money of gold and silver and for payment of the several officers of the Mint and other matters and things relating thereto and to the execution of the said office as were formerly made, with such alterations and additions as should be thought fit and directed by his Majesty for the better management and carrying on of that service: And whereas by an order of his Royal Highness the Prince Regent in Council made on the Seventeenth day of March One thousand eight hundred and fifteen, his Royal Highness was pleased in the name and on the behalf of his Majesty, and by and with the advice of his Majesty's Privy Council, to approve of a new arrangement for the establishing of the officers of his Majesty's Mint: Now this Indenture witnesseth, that for and in consideration of the Covenants and Agreements hereinafter contained on the part of the said William Wellesley Pole our said Sovereign Lord the King of his especial grace certain knowledge and mere motion hath given and granted ratified and confirmed, and doth by these presents give grant ratify and confirm unto the said William Wellesley Pole the said office of Master and Worker of all his Majesty's monies both gold and silver within his Majesty's Mint within his Tower of London and elsewhere within that part of his Majesty's United Kingdom of Great Britain and Ireland called England, together with the aforesaid salary of Three thousand pounds sterling to be paid by half-yearly payments (that is to say) at and upon the Fifth day of April and the Tenth day of October yearly during his continuance in the said office, by even and equal portions out of the monies and in the manner directed in and by an Act of Parliament made in the thirty-ninth year of the reign of his said Majesty, intituled, "An Act to ascertain the Salary of the Master and Worker of his Majesty's Mint:" And our said Sovereign Lord the King for the considerations aforesaid, hath also given granted and confirmed and by these presents doth give grant and confirm unto the said William Wellesley Pole all edifices buildings gardens and other profits privileges franchises and immunities belonging to the aforesaid office, to have hold and enjoy the said office of Master and Worker unto the said William Wellesley Pole, and to exercise the same by himself or his sufficient deputy, to be approved in writing by the Commissioners of his Majesty's Treasury for the time being, and for whom the said Master and Worker shall be answerable; and also to hold and enjoy the said salary of Three thousand pounds sterling, together with the said edifices buildings gardens profits advantages privileges franchises liberties and immunities for and during his said Majesty's pleasure, in as full and ample manner to all intents and purposes as Richard Earl of Clancarty or any other person or persons did or at any time heretofore might or ought to hold and enjoy the same; provided nevertheless, that such profits and advantages shall be received applied and accounted for in the manner directed by the said Act of Parliament: And his said Majesty doth grant and confirm by this Indenture to all officers and ministers of the Mint the charters and franchises to them before this time granted, after the effect and purport of the said charters: And

Office of Master.

Expenses of re-coinage of silver.
56 Geo. 3, c. 68, s. 8.

Coinage of silver.
s. 19.

Denominations of gold coinage.

And whereas by an Act of Parliament made in the first year of his present Majesty's reign, intituled, "An Act to continue the duties for encouragement of the Coinage of Money," which Act is made perpetual by an Act made in the ninth year of his present Majesty's reign, it is amongst other things enacted that certain Duties on the importation of certain articles in the said Act of the first year specified shall be paid and payable to his Majesty his heirs and successors, and that it shall and may be lawful for the High Treasurer or any three or more of the Commissioners of the Treasury for the time being and he or they are thereby empowered and directed out of the monies arising by the same Act or out of any other public supplies granted or to be granted by Parliament, to cause so much money to be applied as shall be necessary for defraying the expenses of the Mints of England and Scotland respectively by way of imprest and upon account for that service, so as the same together with the coinage duties arising by that Act do not exceed in any one year the sum of Fifteen thousand pounds, and so as the said monies be issued out of the Exchequer of Great Britain, to the Master of the Mint in England, and to the Master of the Mint in Scotland respectively for the said purposes: And whereas by an Act made in the fifty-sixth year of his present Majesty's reign, intituled, "An Act to provide for a new Silver Coinage and to regulate the Currency of the Gold and Silver Coin of this realm," after reciting that it was expedient that provision should be made for the loss arising from the deficiency and re-coinage of the silver coin of the realm, it is enacted amongst other things that it shall and may be lawful for the Lord High Treasurer, or the Commissioners of his Majesty's Treasury for the time being, or any three or more of them, and he or they is and are thereby authorised and required to issue and apply, or cause to be issued and applied from time to time as they shall see occasion, such sum and sums of money not exceeding the sum of Five hundred thousand pounds, out of any of the aids or supplies granted for the year One thousand eight hundred and sixteen as shall appear to be the amount of any such deficiency or deficiencies, according to such accounts, to be from time to time delivered to the said Lord High Treasurer or Commissioner of the Treasury by the Master and Worker of his Majesty's Mint as the said Lord High Treasurer or Commissioners of the Treasury shall for that purpose direct and require, and likewise any such sum and sums of money as shall appear to them to be requisite to defray all charges and expenses in melting down such deficient money, and casting the same into ingots and assaying the same; and also to advance such sum and sums of money as they shall see occasion from time to time to the Master and Worker of his Majesty's Mint, for and towards the several expenses to be incurred in and about the coinage of the silver coin under the said Act now in recital: And whereas it is by the said last-mentioned Act further enacted, that from and after such day as shall be named and appointed in and by any proclamation which shall be made and issued for that purpose by or on behalf of his Majesty, by and with the advice of his Majesty's Privy Council, it shall and may be lawful for any person or persons, native or foreign, to bring any foreign coin, or any other coin or reputed coin, plate, or bullion, of silver, in mass, molten or alloyed, or any sort of manufacture of silver, and to deliver the same at his Majesty's Mint in London, to be there melted down and coined into current silver coins of this kingdom; and such silver coin, plate, bullion or manufacture so brought or delivered, shall be assayed at the said Mint and melted down and coined with all convenient speed into silver coins, of a standard in fineness of eleven ounces two pennyweights of fine silver, and eighteen pennyweights of alloy in the pound troy, and in weight after the rate of sixty-six shillings to every pound troy, whether the same be coined in crowns, half-crowns, shillings or sixpences, or pieces of a lower denomination; and that as soon as conveniently may be after any such silver coin, plate, bullion, or manufacture respectively so brought to the Mint, shall be melted and assayed, there shall be delivered to the person bringing in and delivering the same a sum in silver coins of crowns, half-crowns, shillings or sixpences, after the rate of sixty-two shillings of the standard fineness and weight hereinbefore mentioned for every pound troy of standard silver of the fineness aforesaid, by such reason brought and delivered into the Mint, and so proportionably for a greater or lesser weight; and that for the defalcation or diminution, and for the charge for the assaying, coinage and waste in coinage of all such silver so to be brought to the Mint as aforesaid, there shall and may be retained at the said Mint the sum of four shillings of the standard and weight aforesaid for every pound troy of such standard silver so brought in and delivered, and so proportionably for any greater or lesser weight, making in the whole after the rate of sixty-six shillings for every pound troy of such standard silver; and it is by the same Act further enacted, that an account shall be kept at the Mint of the amount of all sums of money arising from the allowance of four shillings for every pound troy of silver to be retained at the said Mint in manner aforesaid, and that all such sums so retained shall in the first place be applied in or towards the payment of the expenses of coining of such silver; and the surplus thereof, if any, after the payment of such expenses, shall be carried to and made part of the Consolidated Fund: Therefore our said Sovereign Lord the King doth by these presents ordain and appoint that the said Master and Worker shall receive out of his Majesty's Exchequer from time to time, and retain all such monies as are by the said Act of Parliament appointed to be paid unto him or retained by him to be applied and accounted for in the manner therein directed: And the said William Wellesley Pole by these presents doth covenant, undertake and agree to and with our said Sovereign Lord the King, to make his Majesty's monies in manner and form following (that is to say) To make four sorts of money of Crown

Crown gold, one piece which shall be called the half-sovereign or ten shilling piece, running for ten shillings sterling, of which there shall be One thousand eight hundred and twenty-nine contained in twenty pounds weight troy, and so in the like proportion in one pound weight troy; one other piece called a sovereign or twenty shilling piece, running for twenty shillings or one pound sterling, of which there shall be Nine hundred and thirty-four and one ten shilling piece contained in twenty pounds weight troy, and so in the like proportion in one pound weight troy; one other piece which shall be called the double sovereign or forty shilling piece, running for forty shillings sterling, of which there shall be four hundred and sixty-seven and the weight of half a ten-shilling piece contained in twenty pounds weight troy, and so in the like proportion in one pound weight troy; one other piece which shall be called the gold five pounds or one hundred shillings piece, running for one hundred shillings or five pounds sterling, of which there shall be one hundred and eighty-six and nine ten shilling pieces contained in twenty pounds weight troy, and so in like proportion in one pound weight troy;

Coinage of gold.

and that every pound weight troy of all the monies of gold aforesaid, shall be in value forty-six pounds fourteen shillings and sixpence, and shall be in fineness at the trial of the same twenty-two carats of fine gold and two carats of allay in the pound weight troy, which standard aforesaid of twenty-two carats of fine gold and two carats of allay in every the pound weight troy our Sovereign Lord the King doth will and ordain and establish by these presents to be the right standard of Crown gold; and the gold to be brought into his Majesty's Mint to be coined shall be coined into such pieces as his Majesty by his royal sign manual shall direct, in case he shall be pleased to give directions touching the same:

Denominations of silver coinage.

And the same William Wellesley Pole doth hereby further covenant undertake and agree to and with our said Sovereign Lord the King, to make eight manner of monies of silver; that is to say, one piece which shall be called the crown, running for five shillings sterling, of which there shall be thirteen and one shilling piece in the pound weight troy; one other piece which shall be called the half-crown, running for two shillings and sixpence sterling, of which there shall be twenty-six and one shilling piece in the pound weight troy; one other piece which shall be called the shilling, running for twelve pence sterling, of which there shall be sixty-six in the pound weight troy; one other piece which shall be called the half-shilling, running for sixpence sterling, of which there shall be one hundred and thirty-two in the pound weight troy; one other piece which shall be called the groat, running for fourpence sterling, of which there shall be one hundred and ninety-eight in the pound weight troy; one other piece which shall be called the half-sixpence, running for threepence sterling, of which there shall be two hundred and sixty-four in the pound weight troy; one other piece which shall be called the half-groat, running for twopence sterling, of which there shall be three hundred and ninety-six in the pound weight troy; and one other piece which shall be called the penny, running for one penny sterling, of which there shall be seven hundred and ninety-two in the pound weight troy; and every pound weight of the silver monies aforesaid shall be and hold in number as aforesaid, and be in value three pounds and six shillings sterling, and shall be in fineness at the trial of the same eleven ounces and two pennyweights of fine silver and eighteen pennyweights of allay, which eleven ounces and two pennyweights of fine silver and eighteen pennyweights of allay in the pound weight troy as aforesaid, is the old right standard of the monies of silver of England:

Charges for coining.

And our said Sovereign Lord the King doth hereby grant that there shall be allowed and paid for the coinage of any pound weight troy of gold and silver monies the prices set down in the Schedule to these presents annexed, such prices to be received by such person as the Commissioners of his Majesty's Treasury for the time being shall have appointed or shall appoint in that behalf, under the provisions of the said Act of the thirty-ninth year aforesaid, and to be applied in paying bearing and sustaining all manner of wastes provisions necessaries and charges coming arising and growing in and about the coinage of his Majesty's said gold and silver monies: And our said Lord the King doth hereby declare, that it shall be lawful for the said Master and Worker out of the said prices to be allowed and received as aforesaid for every pound weight troy of the monies of gold and silver, from time to time to cause to be paid unto the moneyers for their labour wastes and charges in the coining of every pound weight troy of the said gold and silver monies, such prices as shall be agreed from time to time between the said Master and Worker and the said moneyers, and approved by the Commissioners of the Treasury for the time being, not exceeding the prices set down in the Schedule to these presents annexed; and that it shall also be lawful for the said Master and Worker out of the said prices to be allowed and received as aforesaid for every pound weight of the monies of gold and silver, from time to time to cause to be paid unto the melter for his labour and charges such prices as shall be agreed from time to time between the said Master and Worker and the said melter, and approved by the Commissioners of the Treasury for the time being, not exceeding the prices set down in the Schedule to these presents annexed:

Standards of gold and silver coinage.

And our said Sovereign Lord the King doth hereby direct that the said Master and Worker shall be bound to make all the monies of crown gold aforesaid agreeable in fineness to the respective indented trial pieces made by the direction of the late King James the Second in the fourth year of his reign; and all the monies of standard silver aforesaid agreeable in fineness to the respective indented trial pieces made by the direction of his late Majesty King George the Second in the first year of his reign, or agreeable in fineness to such indented trial pieces as shall hereafter be made by the direction of his present Majesty, which said indented trial pieces do now remain and shall be and remain in the several places hereafter mentioned (that is to say) one indented piece of crown gold and one indented piece of standard silver in his Majesty's Treasury in England, to try the monies of gold and silver from time to time coined by the said Master and Worker for the time being in fineness thereby, the like with the King's Assayer for the time being to try the monies of gold and silver from time to time coined by the said Master and Worker for the time being in fineness thereby, and also to try the gold and silver bullion brought thither, if any difference shall happen to arise between the said Master and Worker and the bringers in of the same, the like with the said Master and Worker to make the said monies in fineness thereby, the like with the Wardens and the Company of Goldsmiths within the City of London in Goldsmiths' Hall, for the trial of their plate and other works as well of gold as of silver in fineness thereby:

Mode of coinage.

And our Sovereign Lord the King doth will that all the gold and silver that the said Master and Worker shall deliver to the moneyers to be coined, shall be in clean bars and delivered by weight, and the said moneyers having the said gold and silver delivered unto them in clean bars fit to be wrought, shall make and deliver seven-twelfth parts of the same into money, so that there be but five parts in twelve scissell, and the said moneyers shall make and coin the same into monies, and then deliver the same again to the said Master and Worker in clean pieces proportionably by the same weight, and if any thing lack of the same weight at any time of deliverance, then they shall consent and pay unto the said Master and Worker for the same at any deliverance the balance, and this done the said Master and Worker shall cause the wages that belong to them to be paid;

The Master's remedy—

but because the said monies may not continually be made in all things according to the right standard, but peradventure in default of the said Master and Worker it shall be found sometimes too strong or too feeble by too much or too little in weight in fineness or in both, our Sovereign Lord the King doth will and command that

For gold coinage.

when the said monies of gold shall be found at the assay before the deliverance too strong or too feeble, all only in fineness the sixteenth part of a carat, or all only in weight twelve grains in the pound weight of gold and no more, the which sixteenth part of a carat in fineness and twelve grains in weight shall be called remedy for the Master; then that money shall be delivered for good, but if default be found in the same money in weight or in fineness or in both over the remedy aforesaid, then the deliverance shall cease, and that money shall be challenged and adjudged less than good, and be new melted and re-coined at the expense of the said Master and Worker till it be put to point as money deliverable, so always that such respective defaults happen by casualty, otherwise not:

For silver coinage.

And our Sovereign Lord the King doth further will that when the said monies of silver upon the assay before the delivery be found too strong or too feeble, all only in weight by one pennyweight, or all only in fineness by one pennyweight in the pound weight troy, after the old computation of twenty pennyweights in the ounce and no more, the which one pennyweight in fineness or one pennyweight in weight shall be called remedy for the Master, then such monies to be delivered for good, so always the same default do happen by casualty or otherwise not, but if default be found in the same monies in weight or in fineness or in both over the remedy aforesaid, then the deliverance of the money shall cease and the same shall be challenged and adjudged less than good, and at the cost of the said Master and Worker be new melted and re-coined till it be put to point as money deliverable as aforesaid:

Private marks on coinage.

And our said Sovereign Lord the King doth by these presents give full power and authority unto the said Master and Worker from time to time to put some privy mark or marks upon the edges or flat side of the said gold and silver monies so to be coined as aforesaid, as he the said Master and Worker shall judge most safe and convenient for the same monies, and from time to time to alter and change such privy mark or marks according as he shall judge the same most convenient and necessary, so that the said Master and Worker may from time to time know and discover which of gold and silver amongst other be made by him and which not:

Purchase of bullion.

And our said Sovereign Lord the King doth further will that the said Master and Worker be bound and holden to receive all manner of gold and silver brought to the Mint after the very value (that is to say) every parcel in its degree, one to the more the other to the less, after the quantity it shall appear by the assay to be better or worse than the standard: And if the said Master and Worker and the merchant which bringeth in the said gold and silver may not accord between them of the true value, or if the bullion be not malleable or cannot be worked until purified, or be not sufficiently nigh to the standard, according to the custom

Assay of bullion.

and regulations of the Mint in that behalf, then the King's Assayer in the presence of the said Master and Worker and the Comptroller ought and shall try the truth in that part, and the said Master and Worker shall thereupon receive the same and stand thereafter charged in manner as it becometh; and the said Master and Worker shall be holden and bound to bring or cause to be brought all the gold and silver that he shall receive by colour of his office to the Mint to be molten and made into monies for help and increase of the monies for his Majesty's profits and ease of his people, without sale aliening or putting it to any other use, excepting all such seals and medals of gold and silver as shall be made for his Majesty's use or by his Majesty's command; and the said Master and Worker doth covenant promise and grant to and with his said Majesty from time to time to bring into the said Mint convenient and sufficient supplies of gold and silver, and make full payments and deliverances of all manner of monies with all convenient speed according

according to the Acts of Parliament in that behalf, for the profit of his Majesty his heirs and successors and ease of the people; and if any person or persons happen to bring into the said Mint any manner of gold and silver nigh to the standard aforesaid agreeably to the custom and regulations of the Mint in that behalf, then the said Master and Worker shall receive it for the value accordingly, so as the charge to make it agreeable in fineness to the several standards aforesaid be borne and sustained out of the sums to be issued out of the Exchequer as aforesaid and according to the rates which shall be agreed on between the said Master and Worker and the melter for refining from time to time, which shall in all cases be at the least one-sixth part below the then trade price charged by the refiners; and our said Sovereign Lord the King willeth agreed and granteth by this indenture to and with the said Master and Worker, that the said Master and Worker for the time being do and shall receive and as well his Majesty's own bullion of gold and silver as the bullion of any other person or persons whatsoever repairing to the Mint with any bullion of gold and silver aforesaid to be coined into the monies before mentioned by the weight, delivering to the parties bringing the same bullion bills testifying the weight fineness and value thereof, together with a day and order of its delivery into the said Mint, and within as convenient a time as may be deliver the same again to our Sovereign Lord the King for his bullion and to the other parties or to their attornies, delivering the Mint bills as aforesaid, their bullion according to the value of the same, at such times and in such manner and form and with such deduction as this present indenture is limited and appointed; and our Sovereign Lord the King doth will and command by this indenture that the said Master and Worker and the said Comptroller, and also his Majesty's chief Clerk and Clerk of the Papers for the time being, shall enter and record in their ledger-books all such bullion of gold and silver as shall from time to time be brought into the said Mint, which entry shall comprehend the weight as declared by the weigher and teller, the fineness as reported by the Master's Assayer and the value of the said bullion, the parties names that brought it and what day; and after the said bullion of gold and silver shall be received and the assays and weight thereof made reported and entered in the said ledger-books, the same bullion shall be forthwith put into a chest or room, and the chest or room shall be locked with three keys, whereof one key shall remain with the said Master and Worker and one other key with the said Comptroller, and the other key with the said chief Clerk of his Majesty for the time being, and there shall continue until such time as the same shall be delivered to the surveyor of the meltings and the melter for melting into bars for making the monies; and the said Master and worker and the melter shall calculate and prepare the proper combination of bullion for the meltings, and shall keep a book of the meltings called the pot-book, declaring in the same the quantities and fineness of all manner of gold or silver and allay put into each pot in the meltings, and the said book shall also contain the receipts of the melter and the moneyers for the bars and scissell respectively passed between them, which bars and scissell shall be weighed in the office of receipt by the weigher and teller in the presence of one of the check officers of the said pot-book; which said pot-book shall be monthly or oftener examined figured and subscribed by the Comptroller and the King's Clerk, in order that the balances in the hands of the melter and moneyers may be ascertained and they may be charged therewith; and the King's Assayer shall keep one book of all such bullion of gold and silver as shall be brought into the said Mint whereby the quantity and fineness may appear, with the report also of the assay of every several pot commonly called the pot-assay, which pot-assay shall be made of some bar of the said bullion to be taken by the Comptroller the King's Assayer and the Surveyor of the meltings or any one of them, after the pot is cast out; and the Surveyor of the meltings shall survey the meltings and take care that the ingots with their proper allay only be put into the pot they are respectively set out for, and that nothing but scissell of gold and silver respectively be put into the pots of scissell, and that no bars either of gold or silver be delivered out of his custody until such time as they have been duly assayed and reported good, and that he during the whole time the pots are melting shall not absent himself or be out of the view of the pot so melting until they have been poured off, and the said Surveyor of the meltings shall keep a book containing the weight of such gold and silver as shall be molten from time to time, with the assays put into the same, and the Comptroller and King's Assayer shall oversee and survey the assaying and melting, and together with the superintendent of machinery shall oversee the rolling sizing and making the said monies of gold and silver at all times and in all places, and shall endeavour and procure that the said monies and every of them shall be made and perfected according to the true intent of this indenture and the charge committed to them, and they shall also see and procure that the balances and weights be always amended and put to point from time to time when they shall need, so that no default be found by them to the hurt of his Majesty and his people; and when the monies shall be coined and complete the said Master and Worker Comptroller and chief Clerk of his Majesty shall put them into a chest or room locked with three keys, whereof one shall remain with the said Master and Worker, one with the said Comptroller, and the third with the said chief Clerk of his Majesty, until such time as proof and trial be had of the said monies and payment be made to the bringers in of the said bullion accordingly, which proof shall be had and made before the deliverance of the said monies, and shall be made in the presence of the said Master and Worker Comptroller and chief Clerk of his Majesty by the King's Assayer for the time being, the same assay to be taken as well of the fineness as of the weight, by such quantity and after such sort

Melting of bullion.

Mint assay of coin.

Mint Pyx box.

Trial of the Pyx,

and acquittance of Master,

or penalty for default.

Allowance for waste.

Audit of Mint accounts.

as shall be agreed on by the said Comptroller chief Clerk and King's Assayer, and after the said monies of gold and silver shall be assayed and proved to be good as is aforesaid, before any deliverance be of the whole sum a portion of the said monies shall be taken and put into a box by the said Comptroller and King's Assayer in the presence of the said Master and Worker, whereof the assay shall be made before our Sovereign Lord the King from time to time, or such of his Council as have been accustomed or shall be appointed by his Majesty at Westminster or elsewhere, as it shall please his Majesty or his said Council to appoint, (that is to say) for every journey weight of gold not exceeding fifteen pounds weight two pieces, whereof one to be for the pyx and the other to be for the assay, and out of every journey weight of silver containing sixty pounds weight two pieces at least, one moiety thereof to be for the pyx and the other for the assay, and they shall be ensealed with the seals of the said Master and Worker, Comptroller, and King's Assayer, and the said box shall be shut with three keys, whereof one key shall abide with the said Master and Worker, and one key with the said Comptroller, and the third with the said King's Assayer, which pyx shall remain in a chest or room as is aforesaid, and upon reasonable warning thereof given it shall be opened from time to time before our Sovereign Lord the King or such of his Council as shall be by his Majesty appointed at Westminster or elsewhere, as it shall please his Majesty or his said Council to appoint, and in the presence of the said Master and Worker Comptroller and King's Assayer there shall be assays made as well of the fineness as of the weight of the said monies of gold and silver in the said box, after the most just manner as can be thought of to be made by fire, by water, by touch or by weight, or by all or by any of them, to the end that if any of the said monies of gold and silver be found and proved good and convenable after the covenants orders and agreements aforesaid, the said Master and Worker shall be quit excused and discharged against his said Majesty and all his people unto that day, and then the said Master and Worker at his will shall have letters patent of our Sovereign Lord the King under the Great Seal of the United Kingdom of Great Britain and Ireland to be made for his acquittance, specifying the said assays to be made and found as is aforesaid in such sorts as in ancient times has been accustomed and without fee therefor paying, for the making such letters patent these presents shall be a sufficient warrant and discharge to the Lord Chancellor or Lord Keeper or Lords Commissioners for the custody of the Great Seal of the United Kingdom of Great Britain and Ireland for the time being, without any further or special warrant to be issued out for the same; and if it shall be found by the assays that the pound weight troy thoroughly tried answereth not the full standard in fineness aforesaid but shall be worse, but yet within the remedies aforesaid, the lack thereof shall be entered of record by the said Comptroller and a true account thereof shall be made to his Majesty and the same fully and wholly to be answered to his Majesty without any profit or commodity to grow unto any person or persons for the same; saving always that in case by the said assay, it shall be found that the same monies of gold and silver do pass at any time the said standards or any of them so as the same be better in fineness or in weight or in both than is appointed by the standards and yet within the remedies aforesaid, then so much to be entered of record and hold place to the said Master and Worker in the charge which he shall have when any lack shall be found by the said assays under the standard aforesaid; and if it shall happen in the said monies of gold and silver or either of them upon either of the just assays as shall be made of the abovesaid boxes in manner aforesaid, be it in weight or in fineness, any default be found without the said remedies ordained for the said Master and Worker as is aforesaid or any of them, the said Master and Worker shall make fine and ransom to his said Majesty at his will; and our said Sovereign Lord the King doth hereby authorise and require the said Master and Worker to allow and cause to be paid all manner of wastes and provisions necessaries and charges coming arising and growing in and about the coining of his Majesty's gold and silver monies respectively, according to the allowance in that behalf made by his Majesty by this present indenture, out of the monies to be received by the person in that behalf by the Commissioners of his Majesty's Treasury under the Act of the thirty-ninth year aforesaid: And the said Master and Worker is hereby likewise appointed and authorised out of the monies to be paid to him as aforesaid, to retain and keep in his own hands yearly a competent sum of money for the paying and discharging of the several and respective salaries of the several and respective officers of the Mint and clerks mentioned in the Schedule hereunto annexed, according to the distribution and appointment mentioned in the said Schedule, and which salaries shall be by the said Master and Worker paid net and without deduction, and such other expenses as have usually been paid by him: And our said Sovereign Lord the King doth hereby require and command that the said Master and Worker do account yearly before the Commissioners for auditing the public accounts, and that upon his said account, after the charges therein shall be properly avouched by the officers of the Board hereinafter named or any three of them, the said Master and Worker shall have full allowance defalcation and discharge of and for all such sums of money as he shall duly pay and disburse according to the directions in these presents expressed, and according to the course of the said Mint as by the said Acts of Parliament is directed and appointed: And his said Majesty by these presents doth also will and ordain that the said Comptroller of the Mint for the time being shall deliver upon oath taken before one of the Barons of the Exchequer, a roll which shall be called a Comptroller's Roll, containing an account of all the gold and silver monies coined monthly in the said Mint: And our said Sovereign Lord the King for the better management of the

Mint officers.

the affairs of the Mint and for ordering examining and avouching the accounts and expenditure of the Mint doth hereby ordain, that the Master and Worker or his deputy, the King's Assayer the Comptroller and the King's Clerk, and the Superintendent of Machinery shall form a Board, of whom any three of the said officers, the Master and Worker or his deputy being one, shall be competent to act, and the said Board shall meet every Wednesday or on such other days as they shall appoint and shall determine the hours of attendance of the several officers for the receipt of all such bullion as shall be brought into the Mint, and for delivery out of the coined monies and all other business of the Mint, and shall give directions in all matters wherein authority is given to them by these presents: And the said Board as often as need shall require shall and may take up as many engravers to grave irons at his Majesty's price as also as many smiths workmen and labourers and other necessaries to and for the making the said irons and monies as aforesaid, and the doing of all manner of business within the Mint, as to the said Board shall seem needful; in which taking of such engravers smiths workmen and labourers and other necessaries, our Sovereign Lord the King doth will and command by this indenture all mayors sheriffs and other officers that they be assisting aiding helping and fortifying as to right doth belong: And our Sovereign Lord the King doth will and grant by these presents that it shall be lawful for the said Board at all times such and so many of the said engravers smiths workmen and labourers as by their directions be not of good bearing in their offices and labours to punish and put out and avoid and amove, as to the said Board shall seem meet, according to right and for his Majesty's weal: And our said Sovereign Lord the King doth hereby will and require that neither the Provost nor any other of the Master Moneyers either singly by himself or jointly as a corporation do or shall take any apprentice to be instructed and brought up in the art and mystery of a moneyer or any part thereof, without the license and permission of the said Master and Worker first had and obtained in writing under his hand: And our said Sovereign Lord the King doth hereby further command that no deputy master shall be at any time appointed or amoved by the said Master and Worker without the consent and approbation in writing of the Commissioners of his Majesty's Treasury for the time being, and that it shall not be competent for the deputy master at any time hereafter to contract for or derive any advantage from the melting of any bullion of gold or silver, but that it shall be lawful for the Master's first clerk to make any such contract, and that every person contracting for such melting shall contract to employ and instruct the Master's second clerk in the art of melting bullion of gold and silver: And our said Sovereign Lord the King doth further command that the King's Assayer shall be bound to instruct in the art of assaying the probationer assayer, who shall be nominated by the King's Assayer and approved by the Master and Worker for the time being: And our Sovereign Lord the King doth further command that no person or persons do live or inhabit within his Majesty's Mint on Tower Hill aforesaid except such officers workmen moneyers and ministers of the said Mint, and such other persons as have a right thereto, and that the melter and also his Majesty's Chief Clerk and Clerk of the Papers be henceforward required to reside therein: And also our Sovereign Lord the King doth will that the said melter moneyers and all workmen and ministers of the said Mint shall be ready to do their work at all times without denial, when they shall be wanted by the said Master and Worker, upon pain of losing their franchises and bodies in prison: And our said Sovereign Lord the King doth hereby command and enjoin the Provost and the rest of the moneyers of the Mint with their respective apprentices, that they do duly attend his Majesty's service in the present way of coining as need shall require, both morning and afternoon, and to work in such tasks and so many hours every day (Sunday only excepted) as shall be thought fit and appointed by the said Board, according to the labour of their respective tasks and the length of the days, and in case the said Provost and moneyers or any of their apprentices shall wilfully neglect or refuse to attend, and do their duties accordingly, then the said Board are hereby required and authorised to proceed against any of the said persons so offending, and to expel remove or otherwise punish them and every of them as in reason and justice they shall think fit for his Majesty's service, according to the ancient powers and authorities of right belonging to the principal officers of the Mint; and it is hereby strictly commanded and enjoined by his said Majesty, that neither the Provost nor any of the moneyers of the said Mint their apprentices or servants do or shall at any time after the date hereof, presume to vend pay or distribute any piece or pieces of his Majesty's coined monies either of gold or silver, until the same shall be delivered by them according to the course of the Mint into his Majesty's office of receipt there and duly assayed and pixed, upon pain of forfeiting their franchises and bodies to prison: And our Sovereign Lord the King doth hereby will and command, that the Superintendent of Machinery and Clerk of the Irons do superintend the die-press rooms, and to purchase or procure to be forged at the cheapest rate, to be approved by the said Board, all such dies as shall be ordered by the said Board for the time being, and do keep a true account of all the blank dies for the coinage of the gold and silver monies which shall from time to time be delivered to the Chief Engraver or engravers of his Majesty's Mint for the time being, and also of the blank dies which shall be sunk or stampt, which after sinking shall be fit for use and hardened; and the engravers are hereby likewise enjoined monthly to return unto the said Superintendent and Clerk as many dies as shall from time to time be found faulty and worn by using in the said Mint or otherwise, to be defaced in the presence of the Master and Worker or Comptroller of the said Mint and not otherwise: And

And the said Superintendent and Clerk is hereby further enjoined to give and account to the said Master and Worker and Comtroller, as he shall be thereunto required by them, of what blank dies have been delivered unto the engravers or sunk by them or hardened by the smith, and what faulty and worn dies have been returned by them to be defaced, as also what others are remaining in their hands, that a just account may be kept of the same; and it is hereby enjoined that the said engraver shall not work or make or grave any puncheons matrices dies or stamps for the making or coining of any money gold or silver, but only in such houses or places in his Majesty's Mint as shall have been thereunto assigned; and for the covenants agreements grants and premises abovesaid well and truly to be holden and performed on the part of the said Master and Worker, and that he shall bear himself towards his said Majesty and his people in the said office well and conveniently, and for more surety to make gree to the King and to the merchants of that belonging to them of the gold and silver which he shall receive by and in manner as is aforesaid, while he shall be in the said office, the aforesaid William Wellesley Pole hath found burrows and sureties before our Sovereign Lord the King in his Majesty's Exchequer in the sum of 20,000 *l.*, and that upon pain thereof he shall make gree to the King's Majesty and merchants in manner and form as is aforesaid, and our Sovereign Lord the King doth hereby grant and agree, that when the said William Wellesley Pole his heirs executors or administrators shall have duly passed his her and their final account and paid what balance shall appear thereon due to his Majesty his heirs and successors, and delivered to the proper officers of the Mint for the time being all such bullion of gold and silver scissell and coined monies as shall be in his her or their hands sufficient to make full payment and discharge to his Majesty and the bringers in of such gold and silver, that then and upon the said William Wellesley Pole his heirs executors or administrators having duly obtained his her or their quietus or discharge and certificate from the officers of the Mint of his Majesty and the bringers in of such gold and silver bullion being duly satisfied, the said William Wellesley Pole his heirs executors or administrators shall have not only the bond or obligation entered into by himself, but also all the other bonds or obligations entered into by his burrows and sureties delivered up to him to be cancelled: And his Majesty doth hereby further declare his pleasure to be, that these presents and the agreements herein contained shall be of force and have continuance only during his Majesty's pleasure, anything in these presents contained to the contrary notwithstanding: In witness to be one part of these present indentures remaining with the said William Wellesley Pole, his Majesty hath caused the Great Seal of the United Kingdom of Great Britain and Ireland to be affixed, and to the other part thereof remaining with his said Majesty, the said William Wellesley Pole hath set his hand and seal the day and year first above written.

Master's bond for 20,000 *l.*

Appendix III.

Copy of an Order in Council and Sign Manual Warrant, authorising the Treasury from time to time to amend Regulations of Mint Indenture respecting the Coinage.

Copy of Order in Council.

At the Court at Buckingham Palace, the 7th day of March 1851.

Present,—The Queen's Most Excellent Majesty in Council:

Whereas there was read at the Board a representation from Sir J. F. W. Herschel, Bart., Master and Worker of Her Majesty's Mint, in the words following, that is to say:

"In consequence of a Commission appointed by your Majesty on the 15th day of February 1848, to inquire into the department of your Majesty's Mint, whose Report was presented to both Houses of Parliament by your Majesty's command in the year 1849; and on the attention of the Right Honourable R. L. Shiel, late master and worker of your Majesty's Mint, as well as the present master, being directed by the Lords Commissioners of your Majesty's Treasury to the subject of that Report, it having appeared both to the said R. L. Shiel, and to the present master, that several very material alterations and improvements should be made, both in the system of carrying on the coinage of the realm in that establishment, and in its internal organization, which alterations and improvements the said Lords Commissioners of your Majesty's Treasury have been pleased to approve, but which, however, cannot be carried into effect under the present constitution of the Mint, and under the rules and directions by which the master and worker is at present bound; I therefore beg leave most humbly to represent and submit for your Majesty's consideration, that for the purpose of enabling the said alterations and improvements,

improvements, as well as such others as shall from time to time hereafter become necessary to be carried into effect, it is expedient that the rules and directions whereby the master and worker of your Majesty's Mint has hitherto been governed, should be altered, and that the present constitution and establishment of the Mint should also be altered, and that new rules and directions should be issued to the said master and worker, whereby he should be authorised and empowered to coin gold and silver into the current coin of this realm, subject to the provisions of the statutes for the time being in force concerning the coin of this realm, and subject to such directions as from time to time shall be made and given to the said master and worker for the time being, by the Lords Commissioners of your Majesty's Treasury; and to enter into such contracts, and to appoint such officers, and require from them from time to time such securities, and to engage, when requisite, such additional temporary assistants, and to establish such regulations for the orderly and convenient performance of the duties of master and worker of your Majesty's Mint, as he may from time to time deem necessary and direct, subject as aforesaid to the approval of the Lords Commissioners of your Majesty's Treasury, and any usage or practice in the said Mint to the contrary in anywise notwithstanding: and further, that your Majesty would be graciously pleased, by warrant under your Majesty's Royal Sign Manual, to dispense with the existing warrant of the 17th day of December 1850, under which the master of the Mint is at present directed to execute his duties, and to authorise and to empower him to execute them in accordance with such order as your Majesty shall be graciously pleased to make in the premises."

Her Majesty having taken the said representation into consideration, was pleased, by and with the advice of Her Majesty's Privy Council, to approve thereof, and to order, as it is hereby ordered, that the same, and every part thereof, be acted upon and carried into effect; and the Lord's Commissioners of Her Majesty's Treasury, and the master and worker of Her Majesty's Mint, are to issue and give such rules and directions as to them may respectively appertain for effecting the several matters and things hereby ordered to be carried into effect.

C. Greville.

Copy of Sign Manual Warrant.

Victoria R.

Whereas by Our Royal Warrant, given at Our Court at Windsor, the 17th day of December, in the 14th year of Our reign, We did authorise and command you to cause all the gold and silver which is and shall be imported into Our Mint, within Our Tower of London, or elsewhere, for coinage, to be coined in the current coin of this Our Kingdom, according to the rules and directions contained in a certain indenture or agreement in Our said Warrant mentioned, until such time as an indenture for the like purpose should be passed between Ourself and you: And whereas it has seemed good to Us, by and with the advice of Our Privy Council, to order that the rules and directions aforesaid should be altered, and that you should in future be guided and directed in all things appertaining to your office, by and according to the rules and directions contained in an Order given at Our Court, holden at Buckingham Palace, on the 7th day of March, in the 14th year of Our reign, or made in pursuance of the said Order: And whereas it is Our pleasure that you should in future conform yourself in all things touching and concerning the coining of gold and silver monies in Our Mint aforesaid, to the rules and directions contained in the said Order, and to such rules and regulations as from time to time shall in that behalf be made and given to you by and under the hands of the Lords Commissioners of Our Treasury until Our further Order, and this for and notwithstanding Our aforesaid Royal Warrant, or any usage or practice in Our Mint to the contrary notwithstanding: And we do hereby charge and require you, together with all others the officers of Our Mint, to conform themselves in all things to the said Order in Council, and to the said rules and regulations from time to time to be made and given as aforesaid, until Our further Order; and for so doing, this shall be your sufficient warrant.

Given at Our Court, at Osborne House, the 20th day of March 1851, in the 14th year of Our reign.

By Her Majesty's Command,

(signed) *W. Gibson Craig.*
R. M. Bellew.

To the Master and Worker of Our Mint.

APPENDIX IV.

Appendix IV.

COPY of ORDER of COUNCIL appointing TRIAL of the PYX.

AT the Court at Windsor, the 11th day of December 1865.

PRESENT:—The Queen's Most Excellent Majesty in Council.

IT is this day ordered by Her Majesty in Council that the Lords of Her Majesty's most Honourable Privy Council do meet at the office of the Comptroller General of Her Majesty's Exchequer, in Old Palace Yard, Westminster, on Friday the 19th day of January 1866, at nine o'clock in the forenoon, for the trial of Her Majesty's coins in the Pyx of the Mint, and the Right Honourable the Lord High Chancellor of Great Britain and Ireland is to require the wardens and company of Goldsmiths to give attendance on their Lordships at the place aforesaid, and for making the assays for the said trial of the Pyx at such other place as shall be approved by the Lords of the Council; and the Right Honourable the Lords Commissioners of Her Majesty's Treasury are to direct the master and worker, and the Comptroller of Her Majesty's Mint, with the officers therein concerned, to be present.

(signed) *Arthur Helps.*

APPENDIX V.

Appendix V.

COPY of WARRANT of Chancellor of the Exchequer, for producing the Standard Weights and Trial Pieces at Trial of the Pyx.

WHEREAS the Right Honourable the Lords of Her Majesty's Most Honourable Privy Council have been pleased to order a trial of the Pyx and assay of gold and silver coins by a jury of goldsmiths, to be empannelled on Friday the 19th of this instant January 1866, at the hour of nine in the forenoon, at the Exchequer at Westminster, for that purpose:

These are, therefore, to pray and require you to bring forth the several standard weights and trial pieces in your custody before their Lordships and the said jury, as hath been usual and customary in like cases. And for so doing this shall be your sufficient warrant.

Dated 3 January 1866.

To Sir Wm. Dunbar, Bart., (signed) *W. E. Gladstone.*
Comptroller General
of Her Majesty's Receipt of Exchequer.

APPENDIX VI.

Appendix VI.

"COPY of PRECEPT of Lord Chancellor to Goldsmiths' Company.

(This precept bears no date. It is endorsed "Received 5th March 1847.")

AFTER my hearty commendations: Whereas Her Majesty in Council hath ordered the Lords of Her Most Honourable Privy Council to meet at the office of the Comptroller General of Her Majesty's Exchequer, in Whitehall Yard, Westminster, on Tuesday the 16th day of March 1847, at half-past nine of the clock in the forenoon, for the trial of Her Majesty's coins in the Pyx of the Mint, within the Tower of London: These are to will and require you forthwith, upon receipt hereof, to nominate and set down the names of a competent number of sufficient and able freemen of your Company (skilful to judge of and present the defaults thereof, if any be found) to be of the jury to attend their Lordships at the said time and place, and to certify to me, in due time, a schedule of their names of whom you shall make choice, that they may have due summons to attend the said service accordingly. Whereof requiring you not to fail, I bid you heartily farewell,

Your loving friend,
Cottenham.

To my loving friends
The Wardens of the Mystery of Goldsmiths
of the City of London.

Total Value of the Coinage - - - 1,556,100 *l.* 11 *s.* 10 *d.*

Certified by *W. H. Barton*, Deputy Master and Comptroller.

Thomas Graham, Master and Worker.

Mint Office, 31 December 1865.

APPENDIX VIII.

VERDICT OF THE JURY.

Appendix VIII.

WE, whose names are hereunder written, having been sworn, this 19th day of January 1866, before the Right Honourable the Lords of Her Majesty's most Honourable Privy Council, at the office of the Comptroller General of Her Majesty's Exchequer, in Old Palace Yard, Westminster, for this purpose, have made the assays and trials of Her Majesty's coins in the pyx of the Mint, within the Tower of London, and which, according to accounts produced by the officers of the Mint, were coined in the said Mint from the 1st day of January 1861 to the 31st day of December 1865, both days inclusive, Thomas Graham, Esq., Master and Worker, William Henry Barton, Esq., Deputy Master and Controller, and Henry William Field, Esq., Assay Master.

We found in and took out of the said pyx gold coins, consisting of 45,482 sovereigns, or 20-shilling pieces, and 4,348 half sovereigns, or 10-shilling pieces, coined after the rate of 46 *l.* 14 *s.* 6 *d.* (or 46·725 *l.*) to the pound weight troy (pursuant to the Act of Parliament 56 Geo. 3, c. 68, s. 11, and to the Mint indenture dated the 6th day of February 1817, and made between his late Majesty King George 3 of the one part, and the Right honourable William Wellesley Pole of the other part), and making by tale 47,656 *l.*, and weighing 12,239·713 ozs.; but which, at the rate of 46 *l.* 14 *s.* 6 *d.* (or 46·725 *l.*) to the pound weight troy, should weigh 12,239·102 ozs., and having taken 224 of the said sovereigns, and 39 of the said half sovereigns, being in tale 243 *l.* 10 *s.* (or 243·500 *l.*), and in weight 62·533 ozs, did find the same to be, by the assays and trial thereof, agreeable to the standard trial plate of gold in Her Majesty's Exchequer, dated the 31st day of October 1829.

We also found in and took out of the said pyx silver moneys, consisting of 2,936 florins, 3,367 shillings, 1006 sixpences, and of maunday moneys, 10 fourpences, 545 threepences, 10 twopences, 10 three-halfpenny pieces, and 30 penny pieces, coined after the rate of 66 shillings to the pound weight troy, pursuant to the aforesaid Act of Parliament, 56 George 3, c. 68, s. 4, and to the aforesaid Mint indenture, the said silver coins making by tale 494 *l.* 7 *s.* and weighing 1,796·943 ozs., but which, at the said rate of 66 *s.* to the pound weight troy, should weigh 1,797·637 ozs.; and having taken of the said silver coins, 42 florins, 60 shillings, 30 sixpences, 2 fourpences, 26 threepences, 1 twopenny piece, 4 three-halfpenny pieces, and 2 pennies, being in tale 8 *l.* 7 *s.* (or 8·350), and in weight 30·363 ozs., did find the same to be, by the assays and trial thereof, agreeable to the standard trial plate of silver in Her Majesty's Exchequer, dated the 31st day of October 1829.

And we find that the remedy on the said gold coins in the pyx amounts to 25·498 ozs., but that their excess of weight is 0·611 ozs., so that they are within remedy 24·887 ozs., and also that the remedy on the said silver coins in the pyx is 7·490 ozs., but that their lack of weight is 0·694 ozs., so that they are within remedy 6·796 ozs.

Finding, therefore, the said several gold moneys and the said several silver moneys to be, in weight, tale, and alloy, within the remedies provided by the before-mentioned indenture, under which the said master, Thomas Graham, Esq., by Her Majesty's warrant, dated the 11th day of May 1851, was appointed to act, and hath since continued to act, we do report that the said several moneys are, in weight and fineness, according to the Queen's standard in Her Treasury for coins, and that by the assays and trials thereof they are sufficient in alloy and according to the covenant comprised in the said indenture, to the best of our knowledge and discretion.

Correspondence on Transfer of Assay at Trial of Pyx to Goldsmiths' Hall; and Use of Exchequer Standard Weights and Balances.

Comptroller General of Exchequer to Treasury.

My Lords, Exchequer, 24 June 1842.

The trial of the pyx being now concluded, I feel it my duty to call your Lordships' attention to the mode in which this duty has been heretofore performed at this office. One of the rooms on the basement is fitted up with a furnace and other apparatus for the melting, the assaying, as well as the weighing of the coin produced from the Mint. If this system be continued, and it be intended by your Lordships that my department should be removed to another building, it would be requisite to make provision in the new office for those duties.

But it may deserve your Lordships' consideration whether these merely mechanical and scientific duties might not be effectually and safely and more conveniently performed, either at the Mint or at the Goldsmiths' Hall, at either of which places I believe facilities are already provided for executing these duties.

It has also been suggested, and with some reason, that the weight to be employed should be weights provided by the Exchequer and not by the Mint. But upon both these points your Lordships' superior wisdom will best decide.

I have, &c.
(signed) *Monteagle,*
Comptroller General.

The Lords of the Treasury,
&c. &c. &c.

Treasury to Comptroller General of the Exchequer.

My Lord, Treasury Chambers, 2 August 1842.

In answer to your Lordship's representation of 24th June last, I am commanded by the Lords Commissioners of Her Majesty's Treasury to acquaint your Lordship that my Lords concur in the opinion expressed by the jury lately empanneled for the trial of the pyx, that the weights and scales used on that occasion should not be those belonging to the Mint, and their Lordships are pleased to authorise your Lordship to make such additions to the weights and scales under the charge of the Exchequer as may be necessary for this purpose. With regard to the other point adverted to in your Lordship's letter, it appears to their Lordships that the meeting of the Privy Council, at which the Lord Chancellor delivers his charge to the jury, ought to be at the Exchequer, but that the melting, assaying, and other operations may be performed at the Goldsmiths' Hall, if the Goldsmiths' Company shall have no objection.

I am, &c.
(signed) *C. E. Trevelyan.*

The Comptroller General of
Her Majesty's Exchequer.

Appendix X.

Appendix X.

Statement of Proceedings at the Mint as to the Deposit of the Gold and Silver Coins in the Mint Pyx Boxes; and at Goldsmiths' Hall, in the Assay of the Gold and Silver Pieces, constituting the Public Trial of the Pyx; by Henry W. Field, Queen's Assay Master at Her Majesty's Mint.

Preliminary Remarks.

All coin before issued to the public from the Mint undergoes severe test as to accuracy of weight and fineness by a private pyx in the Master's Department within the Mint.

It is usual as soon as 100 journeys (each 15 lbs. troy) of gold have been coined, to pyx them, which is effected as follows:

One of the officers of the coining department brings the 100 bags of coin to the Mint Office Pyx Room, where the Deputy Master, the Queen's Assay Master, a senior clerk, and two juniors are assembled; the senior clerk counts by inspection (having the aid of a simple machine for that purpose) the number of pieces in a pound troy from each bag.

The Queen's Assay Master carefully weighs each lb., and his report is registered by the clerks. The deputy master takes from each of these pounds two pieces which he weighs accurately,

accurately, and notes any discrepancy from its proper or standard weight. These two pieces are set aside, one for assay before the money leaves the Mint, the other for the public trial. Thus 100 of the selected pieces are given to be assayed, the other 100 are folded in paper, sealed with the private seals of the master, deputy master, and Queen's Assay Master, and docketed as to contents and date; these packets are then deposited in the iron pyx chest having three locks, the keys being in the custody of the three officers who sealed the packets; there they remain until the day of "trial" at the Exchequer or public trial.

The packets of coin above alluded to are opened by the jury of goldsmiths, the contents counted and examined with the particulars docketed on the outside; from each of these packets one piece is taken by the jury, and after the whole pyx has been examined these pieces are collected by the foreman into one bowl, the standard weight computed, and then they are carefully weighed to ascertain the nearness to the computed weight, in other words, whether within the legal "remedy."

This bowl of coins is then melted and poured into a mould forming an ingot, from which a certain number of pieces are cut, flattened by a hammer on an anvil till reduced to the thickness of a sixpence; they are then passed through rollers to further reduce their thickness, and from these pieces a certain portion is cut and adjusted to the weight of the assayer's pound, a conventional weight, varying from 10 to 15 grains troy.

Thus far this description is applicable to both gold and silver.

A digression must here be made to introduce the test by which the purity is to be ascertained: this is effected by "trial plates," mixtures of pure metal with the legal quantity of alloy. Such plates have been made from time to time, even previously to the reign of Edward the 4th. Of late years, these "fiducial pieces" of gold and silver have been commixed by the Goldsmiths' Company, but under the strict check of the Queen's Assay Master and the other Mint assayers, and are now placed in the custody of the chief officer of the Exchequer.

To resume the subject of the examination of the gold.

Several portions of the ingot, melted from the coin, as well as of the "trial plates" by which they are to be tested, are weighed accurately to the assayer's pound, and separately placed in cases of sheet lead, the weight of which is regulated to the presumed quantity of alloy in the metal; to each of these portions is added a certain amount of pure silver, free from gold, which amount also depends on the supposed quality of the gold; these, the silver and gold, being carefully wrapped in the sheet lead, and charged into cupels, which have been brought to sufficient heat in an assay furnace, are melted together, the lead and alloy is oxidized and absorbed by the cupel, which has the peculiar property of absorbing oxides of metal, being made of phosphate of lime or bone ash, and the silver and gold remain as a button on the surface of the cupel. When sufficiently cool, the cupels are removed from the muffle, the buttons flattened by hammering, and rolled to the thickness of an ordinary card; this operation having rendered the slips or fillets hard, they are annealed by being made red hot, and each is rolled up loosely into what is called a "cornet."

The cornets are charged into flasks, with about 1½ oz. of nitric acid, and by means of a convenient arrangement of gas-burners they are boiled for a certain number of minutes; the acid is then poured off, and a dose of stronger is substituted, in which they are again boiled; this acid is also removed, and the cornets receive two washings with distilled water.

The acid having deprived the gold of all the silver, the cornets are again subjected to the heat of the furnace and annealed to brightness. After this annealing they are accurately weighed, and the plus or minus above or below the standard trial plate is ascertained.

The silver is prepared in the same way to the assayer's pound, subject to cupellation, and the resulting button weighed, and thus the plus or minus from the standard silver trial plate is also shown.

Her Majesty's Mint, (signed) *Henry W. Field,*
6 February 1866. Queen's Assay Master.

APPENDIX XI.

Appendix XI.

REMARKS on the Standard Trial Plates and Trial of the Pyx, by the Mint Assay Master.
(*See* Appendix to Mint Report, 1837, p. 84.)

"I HOPE it will have been seen how important a part in the regulation of our coin "trial plates occupy, how they compel the greatest care, skill, and circumspection. It "is true, it would be possible, even easy to those practised in the operation, to continue "the coin of this country in any prescribed state of fineness, without having any reference, "or even applying to trial plates as a guide; but then, were this attempted, what proof "or satisfaction would the public have that this was fully accomplished; what further "satisfaction would they have than was to be found in the confidence they could put "in those employed to effect this object? Even to those engaged in regulating the "purity of the coin, the knowledge that there was no trial plate, no standard by which "at

Appendix XI.

" at any time their operations might be judged of, and with which the coin might at any " time be compared, might possibly operate to tend to remove some little of that attention so constantly requisite, and might in time have an unfavourable influence on the " character of the coin. As it now is, these trial plates render all fear on the subject of " any depreciation or alteration of the currency unnecessary. To those who have no " other means of judging of the probable accuracy of our coin, the unanimous verdict of the " Goldsmiths' Company, at the public trial of the pyx, relieves them from all doubt. The " gold and silver coin are here compared minutely with their respective trial plates; all " are similarly treated, subjected to similar agencies, and have hitherto, at each successive " trial, proved themselves fully conformable and similar each the one to the other.

" I may add here, that the trial plates not only regulate the coin of the country, " but are the standards by which the Goldsmiths' Company regulate all their wrought " plate."

King's Assay Office,
January 1830.

(signed) *H Bingley.*

RETURN to an Order of the Honourable The House of Commons,
dated 24 July 1866;—*for*,

COPY "of the CASE submitted and OPINION of the LAW OFFICERS of the CROWN as to a GRANT of £.4,500 and £.500 for the Assistance of PIERS and HARBOURS in *Ireland*, and Assistance of POOR FISHERMEN in that Country (5 Geo. 4, and other Acts)."

Treasury Chambers,
25 July 1866.

GEORGE WARD HUNT.

CASE.

IRISH COAST FISHERY.

THE following is copy Letter received from the Secretary of the Treasury:—

Sir, Treasury Chambers, 3 March 1866.

I AM commanded by the Lords Commissioners of Her Majesty's Treasury to call your attention to the last paragraph in the Report of the Select Committee of the House of Commons on the Taxation of Ireland.

The Committee there strongly recommend that the question as to whether the grant of 5,000 *l.* a-year, originally made for the encouragement of the Irish Coast Fisheries, under the Act 59 Geo. 3, c. 109, is still in force or capable of effect, should be submitted for the opinion of the legal advisers of the Crown.

I am to request that you will observe that this recommendation is founded upon a statement handed in to the Select Committee by Mr. Andrews, dated 27th April 1865, which is to be seen in the Appendix to the Report, pages 79 to 85, and that a counter statement by the solicitor of the Board of Works was transmitted to the Chairman of the Committee in a letter, dated 15th June, which statement is contained in the same Appendix, page 91.

My Lords deem it expedient that in accordance with the recommendation of the Select Committee, the opinion of the law officers should be taken whether, having reference to the statement of Mr. Andrews on the one hand, and Mr. Stewart on the other, the original grant of 5,000 *l.* a-year is still in force or capable of effect.

I am, &c.

The Solicitor. (signed) *Hugh C. E. Childers.*

THE following are Extracts from the Statement of Mr. Andrews, referred to in the above Letter, which have reference to the 5,000 *l.*:—

"By the 66th section of the Act 59 Geo. 3, c. 109, a sum of money not exceeding 5,000 *l.* per annum, Irish currency, was placed at the disposal of the Commissioners for the encouragement of the Coast Fisheries of Ireland, under such regulations and rules as to them might appear best calculated for the furtherance of their objects. Page 79 *et seq.* of report, 59 Geo. 3, c. 109, s. 66.

"This fund had been suffered to lapse in the years 1819 and 1820. The Commissioners, however, obtained the whole of the arrears of the fund, with that for 1823, from the Lords of the Treasury, which was most usefully allocated in the completion of piers, constructing new safety harbours, building and repairing fishermen's boats, and other aids to the poorer fishermen of the coast. In this they had been munificently assisted by the London Relief and Tavern Committees."

"The Act 5 Geo. 4, c. 64, restricted the application of all future grants to two specific objects, namely, the erection and repairs of piers and quays, and repairs of poor fishermen's boats; 5 Geo. 4, c. 64.

boats; 4,500 *l.* annually for the former purpose, and 500 *l.* for the repairs of poor fishermen's boats, at such ports or places where piers or quays are or shall be built."

1 & 2 Will. 4, c. 33, s. 106.

"The 1 & 2 Will. 4, c. 33, s. 106, transferred all right, title and interest in the Irish Fisheries, with all powers and authorities vested by 1 Will. 4, c. 54, in the Directors of Inland Navigation to the Commissioners of Public Works.

5 & 6 Vict. c. 106.

"This Act placed the Irish Fishery Laws on a most comprehensive and extensive basis. It consolidated and amended 26 statutes and all such enactments then in force in Ireland relating to the Fisheries.

Section 1.

"That from and after the passing of this Act the several Acts and parts of Acts hereinafter-mentioned, so far only as they or any part of them relate to the Fisheries of Ireland, and all Acts, or parts of Acts, continuing or perpetuating the same, so far only as relates to such continuation or perpetuation, and all enactments whatsoever now in force in Ireland, relating to the Fisheries thereof, shall be repealed (except only so far as is hereinafter excepted and provided for), that is to say: An Act, &c. &c. &c.

"Provided always that nothing herein contained shall be construed to repeal any enactments or provisions of the said Acts, or any of them which relate to piers or quays or assisting poor fishermen, or any powers in respect thereof now vested in the Commissioners of Public Works in Ireland, or any moneys applicable to such purposes, in the hands of the said Commissioners of Public Works; but that all such enactments and provisions relating to piers or quays, or the assistance of poor fishermen, and all such powers in respect thereof, or of the application of the moneys applicable to such purposes, shall remain in full force and effect."

"The Act 5 & 6 Vict. clearly shows that so much of the Act of 59 Geo. 3, c. 109, and the 5 Geo. 4, c. 64, as regards the annual grant of 5,000 *l.* per annum for piers and quays and aiding poor fishermen, is still in force in Ireland."

The following is the Counter Statement by the Solicitor to the Board of Works referred to in the same letter:—

Fisheries.

Page 91 of report, 59 Geo. 3, c. 109, s. 66.

"Authorised the Lord Lieutenant to place at the disposal of the then Fishery Commissioners any sum not exceeding 5,000 *l.* per annum, to be applied in the encouragement of the coast fisheries, subject to the regulations the Commissioners might make for the purpose.

"This Act was only for five years from the passing and until the end of the then next Session of Parliament, that is to say, until the end of the Session of 1825. One year before the expiration of that Act, viz., 17th June 1824, the Act in margin was passed; and section 19 directs that the sum of 5,000 *l.* per annum should be applied and employed in building and making piers, and not for any other purpose whatsoever, except only in providing materials for the repair of boats of poor fishermen at those piers, not exceeding 500 *l.* per annum for this latter object."

5 Geo 4, c. 64.

"By the 7th Geo. 4, cap. 34, passed on the 8th May 1826, all clauses and provisions, regulations, matters and things, and all powers and authorities given by the 59 Geo. 3, and the other Acts therein mentioned, were revived and continued from the end of the then last Session of Parliament until 5th April 1830.

"Provides for the recovery of the promissory notes given by poor fishermen.

10 Geo. 4, c. 33, s. 1.

Section 10.

"Authorises the Commissioners, so far as the extent of the funds vested in them for the encouragement of the fisheries would admit, to enter into contracts for the erection of any piers, or for the advance or repayment of any loans under the Acts therein recited (59 Geo. 3 and 5 Geo. 4), although the time necessary for the completion of such works, or for the repayment of such loans, might extend to a period beyond the 5th April 1830, anything in the said Act, or in any other Act or Acts relating to the fisheries, or to the duration of the several Acts, to the contrary, in anywise notwithstanding.

"Thus it will be seen that the Act of 59 Geo. 3 expired at the end of the Session of the year 1825, and in the following year was revived from the year previous until the 5th April 1830, when both the original Act of 59 Geo. 3 and the continuing Acts all came to an end, and the Lord Lieutenant ceased to have power to issue any money whatever thereunder.

1 Will. 4, c. 54, s. 8.

"Three months later, viz., 16th July 1830, the Act in margin was passed, and by that a new fund was created, but applicable to piers only, and the Lord Lieutenant was authorised to issue for five years; viz.:

	£.
1st year - - - - - - - - -	4,500
2d " - - - - - - - - -	3,500
3d " - - - - - - - - - -	2,500
4th " - - - - - - - - - -	1,500
5th " - - - - - - - - - -	1,000
Making in all - - - £.	13,000;

to be applied in completing piers commenced before 5th April 1830, and in paying the
officers

officers employed, and also the expenses incurred in relation to any loans made prior to 5th April 1830.

"The Directors General were appointed to carry out this Act, and the Board of Works was subsequently authorised to act in place of the Directors General. 1 & 2 Will. 4, c. 33, s. 9.

"It will be seen, from the foregoing, that it is an error in stating that either the Board of Public Works, or any other department, had any funds available for fishery purposes except the sums limited for five years by the Act of 1 Will. 4, c. 54, and applicable only to the completion of piers commenced before the 5th April 1830, when the funds applicable under the 59 Geo. 3 and other Acts ceased.

"See 1st, 2d, and 3d Reports of the Commissioners of Public Works, in which the whole facts are laid before Parliament.

(signed) "*Alexander Stewart.*

"Office of Public Works, Dublin,
"25 May 1865."

The Blue Book is left herewith.

The Attorney and Solicitor General are requested to advise—

Whether the original grant of 5,000 *l.* a-year is still in force or capable of effect?

We are of opinion that the original grant of 5,000 *l.* a-year is not now in force, or capable of effect.

AFRICAN MAIL PACKET SERVICE.

RETURN to an Order of the Honourable The House of Commons,
dated 20 February 1866;—*for*,

COPY "of CORRESPONDENCE between the Postmaster General and the Liverpool African Association, and of any MEMORIALS from the African Association to the Postmaster General, on the subject of the AFRICAN MAIL PACKET SERVICE during the years 1865 and 1866."

General Post Office,
7 March 1866.

J. TILLEY,
Secretary.

— No. 1. —

The Liverpool African Association to the Postmaster General.

3, Brown's Buildings, Liverpool,
16 March 1865.

My Lord,

I AM instructed by the Liverpool African Association to request your Lordship's early and particular attention to the memorial forwarded to your Lordship by the traders at Brass River, relative to the alterations in the arrangements of the Royal African Mail Steam Ship Company, whereby the "Retriever" has been withdrawn from that river, and all communications between the merchants and their agents is reduced to calls by the regular steamers off the bar; whilst, for half the year at least, all approach to them will be impossible, and during the remainder of the period, seldom unattended with danger. The merchants employed in the trade, if not so numerous as at other parts of the coast, have a very large amount of capital involved, and feel convinced that a deviation from the previously existing arrangements will be attended with serious loss to themselves; and as no provision is made for supplying the means of transmitting stores, &c., to the agents, hitherto afforded by the "Retriever's" periodical visits, the comfort, and perhaps the health, of the agents may be seriously affected.

The merchants naturally feel much aggrieved that they, as parties most interested, were never consulted prior to the carrying out this alteration in the postal arrangements, and their surprise is not lessened by their receiving the first intimation of the fact from the coast, in the memorandum of which the enclosed is a copy:—

Receiving, as the Mail Company does, a handsome subsidy from Government, for duties including this particular service, it is strange that their convenience should have been exclusively consulted, and their arrangements agreed to, regardless of the interests of the trade; and in conclusion, I have to pray, on behalf of this Association, that the Mail Company may be instructed that the "Retriever" ought to be replaced upon the station forthwith, and that orders to that effect be sent out by the next mail.

I have, &c.
(signed) *J. B. Cooper*,
Secretary.

To the Right Hon. Lord Stanley of Alderley,
Her Majesty's Postmaster General.

Enclosure in No. 1.

H. & C. Brass River, West Coast of Africa,
31 January 1865.

We the undersigned agents trading in the Brass River, beg most respectfully to bring before your Lordship's notice the fact that, on the 25th instant, we received a notice from the master of the African mail steamer "Calabar," to the effect that for the future the branch steamer "Retriever" would not call at this river for the homeward mail as heretofore, but that we are to send said homeward mail out to meet the return steamer off the bar.

We would further call your Lordship's attention to the fact of our having received no prior notice of this alteration, and that such a sudden change interferes most injuriously with our existing arrangements.

And we most respectfully beg to inform your Lordship that for six months of the year the weather here is such that it is often totally impossible to cross the bar at the mouth of the river in open boats (which are the only means of crossing we have), and that during such months, say from May to October inclusive, the crossing of said bar, even when possible, is always attended with great risk to life.

And lastly, we would mention that the amount of capital invested in the trade of this river is quite equal to that of Fernando Po, Cameroons, or Old Calabar, which places are to have increased accommodation at the expense of this river.

The only reason we can imagine for the change is, that the branch steamer seldom or ever gets any homeward cargo in this river, therefore the African Company wish to save the expense of her coming, little caring whether we get our letters home or not.

We respectfully beg that your Lordship will take the above matters into consideration, and that you will be pleased to direct that the branch service of the African mail contract (for which the Company receive 5,000 *l.* per annum) may be carried out as heretofore.

We are, &c.
(signed) *D. J. Pearman,*
Jas. Bell,
John Taylor,
J. B. Walker,
Joseph Matton.

To the Right Honourable Lord Stanley of Alderley,
Her Majesty's Postmaster General.

(Sub-Enclosure.)

Gentlemen, S. S. Calabar, off Brass, 25 January 1865.

I have the honour respectfully, to inform you that the mail steamer "Calabar" will call off Brass and the Nun, on the 4th proximo, in the afternoon, for the homeward mails, according to the new time table. The "Retriever" will not call at Brass at all.

I am, &c.
(signed) *A. J. M. Croft.*

To the Supercargoes.

— No. 2. —

Mr. *F. Hill* to Mr. *Cooper.*

Sir, General Post Office, 18 March 1865.

I am directed by the Postmaster General to acknowledge the receipt of your letter of the 16th instant, in which you refer to the memorial recently forwarded to this department by the principal merchants at Brass River, on the subject of the alterations which have been made in the postal communication between this country and Brass River, and I am to state to you, for the information of the Liverpool African Association, that the matter shall have due consideration.

I am, &c.
(signed) *F. Hill.*

— No. 3. —

Mr. *F. Hill* to Mr. *Cooper.*

Sir, General Post Office, 19 April 1865.

With reference to your letter of the 16th ultimo, I am directed by the Postmaster General to request that you will state to the Liverpool African Association,

ciation, that his Lordship has been in communication with the African Steam Ship Company respecting the memorial which has been addressed to him by the traders at the River Brass, representing that they are injuriously affected by the recent alteration in the arrangement for the performance of the Intercolonial Packet Service, and under which the return mails from the Nun and Brass Rivers are called for by the steamer on the main line instead of by the branch packet.

In order to obviate the inconvenience complained of, the Company propose that the branch steamer shall be dispatched from Bonny concurrently with the main line packet on its homeward voyage, so that the smaller steamer may enter the rivers, and land and receive the mails, while the steamer of greater draught remains at anchor at the rivers' mouth. This service performed, the branch steamer to return to Bonny.

This arrangement, which Lord Stanley of Alderley trusts will prove satisfactory to the memorialists, appears calculated to put an end to any further inconvenience, and his Lordship has accordingly sanctioned it, and requested the Company to send out orders for giving effect to it by the packet appointed to carry this month's mails to the West Coast of Africa.

A reply to the above effect has been made to the memorialists.

I have, &c.
(signed) *F. Hill.*

— No. 4. —

Mr. *Cooper* to the Postmaster General.

My Lord, 3, Brown's Buildings, Liverpool, 22 April 1865.

I AM instructed by the Liverpool African Association to acknowledge with thanks, the receipt of your Lordship's communication of the 19th April, and have to express the thanks of the trade generally for the prompt attention given to the memorials of the traders at Brass, and of this Association.

The new arrangement seems to be a decided improvement on the recent course adopted by the Royal African Steam Ship Company, although it does not appear from your Lordship's letter how the outward correspondence is to be delivered.

If the letters from England are to be taken in by the "Retriever" when calling for the home mail, it is hoped that sufficient time will be given to the traders to reply to them; otherwise an extra month must elapse ere inquiries can be answered. Hoping that this contingency will have been foreseen and provided against in the recent arrangements,

I have, &c.
(signed) *J. B. Cooper,*
Secretary.

To the Right Honourable
Lord Stanley of Alderley,
Her Majesty's Postmaster General.

— No. 5. —

Mr. *Cooper* to the Postmaster General.

3, Brown's Buildings, Liverpool,
21 November 1865.

My Lord,

I AM instructed by the African Association to address your Lordship on the subject of the new contracts for the conveyance of the mails to the West Coast of Africa; and, in the first place, this Association would beg to draw your Lordship's attention to the memorial addressed to the Lords Commissioners of Her Majesty's Treasury in 1858; setting forth the advantages which would result to the commercial community of this country engaged in trade with the West Coast of Africa, by making Liverpool the port of arrival and departure of the mail steamers; and also that it was found, on mature consideration, that London, with Plymouth as the port of departure, did not offer equal advantages to the steamers themselves, nor adequately supply the wants of the trade; and as experience has proved

proved that the convenience of the public generally, and of the commercial community in particular, has been benefited by Liverpool being made the port of arrival and discharge, I am instructed to express a strong hope on behalf of this Association that in this respect no alteration may be made in existing arrangements.

The Association is further of opinion that the mail service has of late years been generally carried out with regularity and fair dispatch, but would urge upon your Lordship that, in any future contracts, it should be arranged that steam communication (both out and home) shall be kept up with each and all the Oil rivers, viz.:—Benin, Brass, Bonny, Old Calabar, and Cameroons, as a regular monthly service in that case would meet the present requirements of the trade, and render the increased expense of a bi-monthly mail unnecessary.

I am, &c.
(signed) *J. B. Cooper*,
Secretary.

To The Right Honourable
Lord Stanley of Alderley,
Her Majesty's Postmaster General.

— No. 6. —

Mr. *F. Hill* to Mr. *Cooper.*

Sir, General Post Office, 25 November 1865.

I am directed by the Postmaster General to acknowledge the receipt of your letter of the 21st instant, on the subject of the new contract about to be made for the conveyance of mails to the West Coast of Africa; and to acquaint you that this letter shall receive his Lordship's consideration.

I am, &c.

J. B. Cooper, Esq.

— No. 7. —

Mr. *Cooper* to the Postmaster General.

3, Brown's Buildings, Liverpool,
24 January 1866.

My Lord,

Having been informed that the contract for carrying the mails has been renewed to the Royal African Mail Steam Ship Company for six years, I am instructed to express the hope of this Association that the suggestion as to a regular monthly mail to and from all the Oil rivers has been adopted in the new arrangements with the Company, and, if not premature, would respectfully request that your Lordship will kindly inform the Association, for the convenience of the several houses trading with the West Coast, what arrangements have been come to, with the view of putting the service on a more satisfactory basis as regards Brass, referred to in my letters of 16th March and 22d April, last year.

I have, &c.
(signed) *J. B. Cooper*,
Secretary.

To The Right Honourable
Lord Stanley of Alderley, &c. &c.
Her Majesty's Postmaster General.

— No. 8. —

Mr. *F. Hill* to the Secretary of the Liverpool African Association.

Sir, General Post Office, 5 February 1866.

In reply to your letter of the 24th ultimo, I am directed by the Postmaster General to inform you, that he has accepted the tender of the African Steam Ship Company to enter into a new contract for the conveyance of mails, once a month, between Liverpool and the West Coast of Africa.

In consequence of the Company having offered to make a large reduction in the subsidy, provided the branch service to the Rivers Nun and Brass were omitted (in comparison with which reduction the amount of postage derived from the correspondence to the rivers is quite insignificant), his Lordship, with the sanction of the Lords Commissioners of the Treasury, has decided to accept this offer; and, in the new contract, to omit the service to Nun and Brass.

The Company, however, have expressed their willingness to allow the steamer to come to off the rivers during the fine season; say, from November to April.

I am, &c.
(signed) *F. Hill.*

The Secretary,
African Association, Liverpool.

— No. 9. —

TENDER from the African Steamship Company referred to above, together with a Letter and Memorandum from the Company accompanying their Tender.

TENDER of the AFRICAN STEAM SHIP COMPANY.

Seven Years from 24th September 1866.

TENDER for conveying Her Majesty's Mails between the United Kingdom and the West Coast of Africa.*

Sir,

WE hereby offer to convey Her Majesty's mails by steam vessels between the United Kingdom and Bonny, and on the conditions marked A once each way in each calendar month for the sum of 25,000 *l.* per annum; and twice each way in each calendar month for the sum of 40,000 *l.* per annum.

The port in the United Kingdom at which the mails are to be embarked and landed to be Liverpool.

Should the service be extended to St. Paul de Loanda the vessels calling also at Cabenda, we will perform it once each way in each calendar month for the sum of 7,500 *l.* per annum; and twice each way in each calendar month for the sum of 10,000 *l.* per annum additional.

If the 13th condition be dispensed with at any time we will agree to an abatement of *l.* per annum if the service be monthly, and to an abatement of *l.* per annum if it be bi-monthly.

We will agree to an abatement of *l.* in the amount of the subsidy on condition that the penalties for delay on the voyage instead of being absolute shall not be payable when it is proved to the satisfaction of the Postmaster General that the delay has arisen from causes beyond our control.

We will further agree to an abatement of *l.*† in the amount of the subsidy, if, in lieu of Conditions, 6, 7, 8 and 9 the Postmaster General be merely invested with power to require the withdrawal from the service of any vessel shown by experience to be unfit for the performance of the terms of the contract.

If the contract be made for five years certain we will agree to a yearly abatement of *l.* from the subsidy, and if it be made for seven years certain we will agree to a yearly abatement of *l.*

We propose as our sureties in the penalty of 5,000 *l.* Mr. Archibald Hamilton of St. Helen's-place, London; and Mr. Archibald Cockburn, of Mark-lane, London;

---

* All tenders must be addressed to the Secretary of the Post Office, with the words, "Tender for the conveyance of mails between the United Kingdom and the West Coast of Africa," in the left hand corner of the envelope; other things equal, a preference will be given to a tender made upon this printed form, and in exact accordance therewith. Even however when this form is used the parties tendering may, *in a separate letter*, to be forwarded with the tender, suggest, for consideration, any alteration in the conditions or otherwise. The Postmaster General does not engage, irrespective of other considerations to accept the lowest tender, or even to accept any tender.

† It is not compulsory to fill up these blanks.

London; and we refer you to Barclay, Bevan, and Co., Lombard-street, and the Union Bank of London, as persons of whom inquiry can be made as to the responsibility of such sureties.

We engage that the vessels shall be complete and ready for sea when required, in failure of which we agree to pay to Her Majesty the sum of 10 *l.* for every day's delay beyond that time. And should the 6th, 7th, 8th and 9th Conditions be retained, we further engage that the hulls of the vessels shall be ready for survey when required, and that the vessels shall be complete and ready for final survey when required, in failure at either of which times we agree to pay to Her Majesty a like sum of 10 *l.* for every day's delay, but so that these penalties shall not in the aggregate exceed the sum of 5,000 *l.*

We agree to commence the service on the 24th September 1866, and should such service not be commenced on such day, or on the first day thereafter which the Postmaster General may fix as the day of sailing, we agree to pay to Her Majesty the sum of 100 *l.* for every day from that time until the said service shall be begun by us; but so that the whole amount of penalties for such failure shall not exceed 5,000 *l.*

And we agree to execute a contract for the performance of the said service according to the said conditions marked A.

Given under the common seal of the African Steam Ship Company,
in presence of

P. D. Hadow, Chairman.
Duncan Campbell, Secretary.

The Secretary of the Post Office.

LETTER of the African Steamship Company to the Secretary of the Post Office.

African Steam Ship Company
(Incorporated by Royal Charter),
14, Leadenhall-street, London, 1 November 1865.

Sir,

I AM desired by the Directors of this Company to enclose their tender for the conveyance of Her Majesty's mails to and from the West Coast of Africa, for a period of seven years, from the 24th day of September 1866, at a reduction of 5,000 *l.* per annum on the present subsidy, to offer sundry remarks in explanation, and to submit a plan differing from the present system by which the service would be as efficiently performed at a still further reduced cost to Her Majesty's Government.

They deem it right to state, for his Lordship's information, the circumstances under which the service was first commenced, to trace its progress, and to record the results as regards this Company, Africa, and the commercial community trading there.

In consequence of numerous representations made to Her Majesty's Government on the benefits which would result to the African race, the assistance which would be afforded to Her Majesty's squadron engaged in the suppression of the slave trade, and the facilities which would be rendered for communication with the various governors and military stations on the coast, by the establishment of direct steam communication with England, tenders were invited in 1852 for the service, and this Company obtained the contract for 10 years, with an average annual subsidy of 21,000 *l.*

Owing to the necessarily imperfect knowledge of the African coast, the great expense attending the organization and development of a new trade, and the formation of coal depôts, considerable loss was sustained by the Company, no dividend could be paid to the proprietors, and the capital stock became greatly depreciated.

In 1857 the Directors were forced to the conclusion that unless they could obtain an increased subsidy from Her Majesty's Government they would be compelled to abandon the service.

In 1858 a new contract was entered into. Sundry ports previously called at were left out; two rivers, "The Nun" and "The Brass," were added to the service, which was also generally re-organized. These two rivers were added in order that direct communication might be maintained with the Government

Exploring Expedition in the River "Niger," and not on account of their commercial importance.

Under the new contract the Directors have been enabled to work the service with punctuality and with satisfaction to the trade, and they have further succeeded in placing the Company in a sound financial position; they have a small but highly efficient fleet of steam vessels in the service, and their coast establishments and coaling stations are in thorough working order.

Both Africa and the commercial community trading there have benefited, and a largely increased trade is now done, as will be seen by reference to the Board of Trade returns: in 1852, the declared value of the imports from the West Coast of Africa was 651,175 *l.*; in 1863, 1,734,227 *l.*; and of shipments to the West Coast of Africa in 1852 the declared value was 808,809 *l.*; in 1863, 1,433,952 *l.* In 1857 the number of letters passing through the Post Office was 51,000, and in 1863, 103,000.

Hitherto, however, the enterprise, as a commercial one, has not proved adequately profitable to the Company, the shareholders having received but a small average dividend, considering the nature and risk of a steam navigation adventure.

Considerable assistance has been rendered to the local Governments and Her Majesty's squadron on the coast by this Company's operations.

In the present position of the Company, the Directors venture to reduce the cost of the service, as per enclosed tender, and they are satisfied, from 13 years' experience in carrying out the contract, that the sums they have named are the lowest at which the work can be performed, consistent with efficiency and a moderate profit.

In the tender they have not made any allowances for a naval officer in charge of the mails, or for penalties for delay on the voyages. Hitherto, the commanders have been entrusted with the care of the mails, and with but a very few, and these very trifling exceptions, they have performed this part of their duty satisfactorily. The orders of the Directors are very stringent upon this point. As to penalties for delay on the voyages the Directors beg respectfully to represent that the Company's interests are best served by punctuality, and they can point with confidence to past performances in proof of their desire to keep time. There are no penalties for delay in the present contract, and their omission has not contributed to the prolongation of the voyagers. Under these circumstances the Directors trust his Lordship will not deem it necessary to insist upon the insertion of penalties for delays on the voyages.

The other clauses in the conditions are agreed to, with the exception of that portion of No. 19, which provides for the conveyance of third-class Government passengers, to which they beg to object. This objection, however, only applies to the conveyance of third-class passengers from England.

Should the service be continued as at present, and the proposals of the Directors accepted, they contemplate employing the following ships:—

Retriever - -	420 tons - -	120 horse-power.
Ethiope - -	690 " - -	160 "
Athenian - -	1,057 " - -	200 "
M. Laird - -	969 " - -	200 "
Calabar - -	1,208 " - -	250 "
Mandingo - -	1,284 " - -	275 "
Lagos - - -	1,284 " - -	275 "
	6,912 tons.	1,480 horse-power.

With leave to withdraw the "Retriever" and the "Ethiope" on giving six months' notice, and to replace them with a small steamer for the branch line.

The Directors have had the question of the establishment of a bi-monthly line frequently before them, and they are convinced of its necessity, and of the great benefits which such an extension of the service would confer on all the interests involved. Should it be established, they propose to build two steam vessels similar to the two at present in course of construction.

They have ample subscribed, but uncalled-up, capital, and they would be quite prepared to commence the bi-monthly service nine months after they received intimation their proposal was accepted, and they believe that the objects which led to the formation of the service would be thereby largely promoted.

They have to suggest, that in the event of the service not being continued to St. Paul de Loanda, Fernando Po be made the terminal port, instead of Bonny. Porto Isabel, formerly Clarence Cove, is a natural harbour, and can be entered with safety and ease at all hours, whereas the River Bonny has a most dangerous bar, in addition to the Baleno Bank, which renders entrance during darkness impossible.

They beg further to suggest, that Monrovia, the capital of Liberia, be added to the ports of call. A most important trade is now being carried on there, and regular visits by the mail steamers will materially assist the inhabitants.

A *pro formâ* time table is enclosed in this communication.

The Directors will be happy to wait on you and afford any information you may require.

I have, &c.
(signed) *Duncan Campbell*, Secretary.

To the Secretary,
Post Office.

Enclosures in the foregoing Letter.

Enclosure (A.)

Memorandum.

African Steam Ship Company, 14 Leadenhall-street,
London, 1 November 1865.

The Mail Service to the West Coast of Africa was organised on its present plan in 1858.

In order to render certain facilities to the expedition engaged under Government auspices in exploring the River Niger, the service was divided into two parts, the main and the intercolonial, it being impossible, on account of the bars at the entrance of the principal mouths of the Niger, say the Nun and the Brass, for the steamers performing the service from England to enter these rivers.

The expedition above referred to has been abandoned by Her Majesty's Government for several years, and no trade of any consequence is carried on in any of the rivers. At present there is only one trading station in the Nun, and only about seven European traders in the Brass, and they do not depend in any degree on the steamers for goods.

It becomes, therefore, a question how far calling at these rivers is necessary, and what reduction in cost to Her Majesty's Government would be effected in the event of their being abandoned as places of call.

Their abandonment as regular places of call would enable the Directors to withdraw the intercolonial steamer, and perform the whole service direct without transhipment of mails, a result very much to be desired.

The Directors have gone very fully into this matter, and they are willing in the event of their proposal being accepted, to perform the service as per enclosed time table, for a period of seven years, from the 24th day of September 1866, once each way in each calendar month, for 20,000 *l.* per annum, as against 25,000 *l.* per annum; and twice each way in each calendar month, for 35,000 *l.* per annum, as against 40,000 *l.* per annum.

The enclosed time table is drawn up to include the extension of the service to St. Paul de Loanda.

Should this extension be determined on, a further subsidy of 7,500 *l.* per annum for once each way in each calendar month, and 10,000 *l.* per annum for twice each way in each calendar month, would be required.

During the fine season, say from November to April, communication can be maintained by boats between the mail steamers and the Rivers Brass and Nun, and the Directors would have no objection to order the commanders to come to off these rivers to admit of communication. During the rainy season and the smokes, intercourse could be maintained between these rivers and the Bonny, through the creeks.

Should a contract be entered into on the terms stated in this memoranda, the conditions agreed to in the accompanying letter would apply.

Given under the common seal of the African Steam Ship Company this 1st day of November 1865. In presence of,

(signed) *P. D. Hadow*, Chairman.
Duncan Campbell, Secretary.

Enclosure (B.)

MEMORANDUM on accompanying Time Tables for African Steam Ship Company.

The Time Tables herewith are based on the assumption that the intercolonial steamer is withdrawn, and the service extended to St. Paul de Loanda.

The Rivers " Nun " and " Brass " are left out, and the ports of " Monrovia," " Cabenda," and " St. Paul de Loanda," are added to the present places of call; to the two former, say Monrovia and Cabenda, it is proposed to make two visits each way each month. St. Paul de Loanda will be the terminus.

Under the present system Bonny is the terminus, and the Rivers " Benin," " Old Calabar," and " Cameroons," receive only one visit each voyage. Under the system now suggested, these rivers would be visited by each steamer twice each voyage.

The 9th and 24th days of each month are suggested as the days of sailing from Liverpool, except when the 8th and 23d fall on a Sunday, when the days of sailing would be the 10th and 25th.

The following Table will show the sailings from, and arrivals at, Liverpool during the year.

Departure from Liverpool.	Arrival at Liverpool.	Course of Post.		Departure from Liverpool.	Arrival at Liverpool.	Course of Post.

— No. 10. —

Memorial of the Liverpool African Association to the Postmaster General.

3, Brown's Buildings, Liverpool,
14 February 1866.

To the Right Honourable Lord *Stanley of Alderley*, Her Majesty's
Postmaster General.

The Memorial of the Liverpool African Association by the Undersigned,

Showeth,

That your Memorialists are deeply interested in the trade of the West Coast of Africa, and addressed your Lordship on the 16th March 1865, calling your Lordship's attention to the fact that the mail service with the River Brass on the West Coast of Africa had been summarily discontinued. On the 19th of April they had the honour to receive from your Lordship a letter stating that in order to obviate the inconvenience complained of, the Branch (or Intercolonial) Steamer should accompany the Mail Boats to the River Brass, and establish with efficiency and safety the communication with that river, whilst the mail steamer remained at anchor outside.

Notwithstanding that assurance of your Lordship, your Memorialists find with surprise and regret, from your Lordship's communication of the 5th February, that your Lordship has authorised the acceptance of a new contract for the conveyance of mails to the West Coast, in which the service to the Rivers Nun and Brass are omitted, in consequence of the postage received being inadequate to the expense incurred, a principle against which your Memorialists most respectfully but firmly protest, as the receipts from postage bear no proportion to the importance and extent of the interests involved, and here they would mention that the River Brass, as regards the amount of trade transacted, is the third in importance on the coast. Your Memorialists would further remark that by the proposed arrangements it would be necessary for boats to be outside the bar waiting, perhaps for days and nights, the arrival of the Mail Steamer, and they consequently anticipate very serious loss of life during the six months when the Company's Steamers propose to call off the river, whilst for the remainder of the year the various establishments would be cut off entirely from all communication with their merchants or friends in England, beyond the occasional opportunity afforded them by the dispatch or arrival of sailing vessels.

In addition to this source of anxiety your Memorialists beg respectfully to inform your Lordship that almost every vessel now tows out of Bonny and the other rivers, employing the Intercolonial Steamer for that purpose, and that the consequence has been a great reduction in the loss both of lives and vessels. The removal of the steamer, however, will deprive the commercial community of this important advantage, and most certainly will result in a greatly increased loss of life and property.

Your Memorialists therefore most respectfully pray your Lordship will not confirm any new contract for conveying the mails to the West Coast of Africa, which does not secure a regular monthly service to and from all the oil rivers, to the full efficiency of which the maintenance on the station of the Intercolonial Steamer is absolutely necessary.

And your Petitioners will ever pray.

Signed on behalf of the Liverpool African Association.

(signed) *Thomas Harrison*,
Vice-Chairman.

Liverpool, 13 February 1866.

AFRICAN MAIL PACKET SERVICE.

COPY of Correspondence between the Postmaster General and the Liverpool African Association, and of Memorials from the African Association to the Postmaster General, on the subject of the African Mail Packet Service, during the Years 1865 and 1866.

AUSTRALIAN MAILS.

COPY of CONTRACT for the Conveyance of the MAILS between *Point de Galle* and *Sydney, New South Wales.*

CONTRACT, 17th November 1865.

ARTICLES OF AGREEMENT made this Seventeenth day of November One thousand Eight hundred and Sixty-five between the Right Honourable Edward John Lord Stanley of Alderley Her Majesty's Postmaster-General for the time being of the one part and the Peninsular and Oriental Steam Navigation Company of the other part.

WITNESS that the Company for themselves and their successors hereby covenant with the Postmaster-General his executors administrators successors and assigns Her Majesty's Postmaster-General for the time being in manner following (that is to say)

Company to provide steam-vessels to convey mails between Point de Galle and Sydney *viâ* King George's Sound and Melbourne.

1. That the Company will at all times during the continuance of this Agreement or so long as the whole or any part of the services hereby agreed to be performed ought to be performed in pursuance thereof provide keep seaworthy and in complete repair and readiness for the purpose of conveying as herein-after provided all Her Majesty's mails (in which term "Mails" all boxes bags or packets of letters newspapers books or printed papers and all other articles transmissible by the Post without regard either to the place to which they may be addressed or to that in which they may have originated and all empty bags empty boxes and other stores and articles used or to be used in carrying on the Post Office Service which shall be sent by or to or from the Post Office are agreed to be comprehended) which shall at any time and from time to time by the Postmaster-General or any of his Officers or Agents be required to be conveyed as herein-after provided between Point de Galle in Ceylon and Sydney in New South Wales *viâ* King George's Sound and Melbourne a sufficient number of good substantial and efficient steam vessels of adequate power and supplied with first rate appropriate steam engines.

Vessels to be equipped and manned, and subject to approval.

2. That the vessels to be employed under this Agreement shall be always furnished with all necessary and proper machinery engines apparel furniture stores tackle boats fuel lamps oil tallow provisions anchors cables fire pumps and other proper means for extinguishing fire lightning conductors charts chronometers nautical instruments and whatsoever else may be requisite for equipping the said vessels and rendering them constantly efficient for the service hereby agreed to be performed and also manned and provided with competent officers with appropriate certificates granted pursuant to the Act or Acts of Parliament in force for the time being relative to the granting certificates to officers in the merchant service and with a sufficient number of efficient engineers and a sufficient crew of able seamen and other men to be in all respects as to vessels engines equipment officers engineers and crew subject in the first instance and from time to time and at all times afterwards to the approval of the Postmaster-General or of such other person or persons as he shall at any time or times or from time to time authorize to inspect and examine the same and the Company shall (if required by the Postmaster-General) submit the designs plans and sections of every vessel intended to be employed in the performance of this Agreement to the Postmaster General and be bound to adopt such fittings and scantlings as he or the Lords Commissioners for executing the office of Lord High Admiral of the United Kingdom of Great Britain and Ireland shall consider suitable and requisite and no vessel

Designs to be submitted to the Admiralty.

shall be employed under this Agreement until it and its machinery shall have been previously tried under weigh and finally approved as aforesaid.

Times of starting.

3. That one of such vessels so approved equipped and manned as aforesaid shall on such days and at such hours as shall be fixed by the Postmaster-General upon or before the day herein-after appointed for the commencement of this agreement (until and unless any other days or hours shall under the proviso herein in that behalf contained be substituted instead thereof) and immediately after the mails are embarked put to sea from the ports of Point de Galle and Sydney and the Company shall convey in such vessels to and from and cause to be delivered and received at such of the ports or places herein-before mentioned all such mails as shall or may be tendered or delivered to or received by the Company or any of their agents officers or servants by or from the Postmaster-General or any of his officers or agents.

Postmaster-General may delay starting for twenty-four hours.

4. That should it be deemed by the Postmaster-General his officers or agents requisite for the public service that any vessel to be employed under this Agreement should at any time or times delay her departure from any port from which the mails are to be conveyed under this Agreement beyond the period appointed for her departure therefrom the Postmaster-General his officers or agents shall have power to order such delay (not however exceeding 24 hours) by letter addressed by him or them to the master of any such vessel or person acting as such and which shall be deemed a sufficient authority for such detention.

Duration of voyages.

5. That the Company shall convey the said mails from Point de Galle *viâ* King George's Sound and Melbourne to Sydney in 516 hours and from Sydney *viâ* Melbourne and King George's Sound to Point de Galle in 564 hours which several periods of 516 hours and 564 hours respectively are exclusive of stoppages for the purpose of the delivery and reception of mails the duration of which will be from time to time fixed by the Postmaster-General And it is hereby agreed that if the Company shall fail to deliver the said mails at Sydney from Point de Galle in 516 hours or at Point de Galle from Sydney in 564 hours then or in either of such cases and so often as the same shall happen the Company shall forfeit and pay to Her Majesty her heirs and successors the sum of 200 *l.* for every complete period of 24 hours consumed on the respective voyages beyond the periods herein-before respectively specified Provided always that the full amount of such sums payable on any one voyage shall never exceed the portion of the sum of the subsidy herein-after agreed to be paid by the Postmaster-General as applicable to such voyage and provided further that the payment of any such sum shall not be enforced against the Company if it be shown by them to the satisfaction of the Postmaster-General that the delay has arisen from causes over which they had not and could not have had any control.

Penalty for delay.

Premium for time saved.

6. And the Postmaster-General doth hereby covenant to pay to the Company a premium of 50 *l.* for every complete period of 24 hours by which the time occupied in any voyage from Point de Galle to Sydney shall be less than 516 hours.

Postmaster-General may alter times of departure and arrival.

7. That if at any time or times the Postmaster-General shall desire to alter the particular days times or hours of departure from and arrival at any of the ports or places to or from which Her Majesty's mails are to be conveyed under this Agreement he shall be at liberty so to do on giving three calendar months' previous notice in writing of such his desire to the Company at their offices in London.

And may make certain modifications in the services on terms.

8. That if at any time or times the Postmaster-General shall desire otherwise to modify the services hereby agreed to be performed (as for example to increase or decrease the frequency of the conveyance of mails between any of the ports or places to or from which such mails are to be conveyed under this Agreement) or to extend the conveyance of such mails to any other ports or places not specified in this Agreement or to discontinue the conveyance of mails to any port he shall be at liberty so to do on giving reasonable notice to the Company and on paying to them for such increased or extended services such further consideration and in the event of the services hereby agreed to be performed being reduced on his paying to them such reduced consideration as herein-after provided or in any case not herein-after provided as may be mutually agreed upon between the Company and

and the Postmaster-General or failing such mutual agreement by arbitration in the manner herein-after provided.

Such alterations to be binding on the Company.

9. That the particular days times and hours of departure from and arrival at any such ports or places or other services if any which may be appointed by any such alteration under the two preceding clauses shall for the time being be deemed to be the days times and hours of departure and arrival of mails and other services under this Agreement and shall be observed and kept by the Company accordingly.

Penalties for failing to provide vessels.

10. That if the Company fail to provide an efficient vessel at Point de Galle or Sydney in accordance with the terms of this Agreement ready to put to sea on and at the appointed day and hour then and so often as the same shall happen the Company shall forfeit and pay unto Her Majesty her heirs and successors the sum of 500 *l.* and also the further sum of 100 *l.* for every successive 24 hours which shall elapse until such vessel actually proceeds to sea on her voyage in the performance of this Agreement Provided always that the aggregate amount of the penalties to be recoverable under this clause in respect of any one voyage or contemplated voyage shall not exceed by more than the sum of 2,000 *l.* the portion of the subsidy herein-after agreed to be paid by the Postmaster-General as applicable to such voyage such portion being in all cases in proportion to the mileage of the voyage or contemplated voyage in respect of which such penalties may have been incurred.

Company to receive a Naval Officer and servant on each vessel.

Duties of officer.

11. That the Company shall receive and allow to remain on board each of the vessels so to be and while employed in the performance of this Agreement and also while remaining at any port or place to or from which mails are to be conveyed under this Agreement and with or without mails in charge an officer in Her Majesty's Navy to be appointed by the Postmaster-General to take charge of the said mails and also a servant of the said officer (if required) and that every such officer shall be recognized and considered by the Company their officers agents and seamen as the agent of the Postmaster-General in charge of mails and as having full authority in all cases to require a due and strict performance of this Agreement on the part of the Company their officers servants and agents and to determine so far as relates to the levying of penalties every question whenever arising relative to proceeding to sea or putting into harbour or the necessity of stopping to assist any vessel in distress or to save human life and that the decision of such officer as aforesaid shall in every such case be final and binding on the Company unless the Postmaster-General on appeal by the Company thinks proper to decide otherwise Provided however that the words "to determine every question" shall not confer upon such officer the power of control over the commander of the vessel conveying the said mails.

Postmaster-General may substitute a Civil for a Naval Officer.

12. That if the Postmaster-General at any time or times think fit he shall be at liberty to substitute for such naval officer and his servant a civil officer in the service of the Postmaster-General to have charge of the said mails and thereupon any such last-mentioned officer and his assistant (if required) shall be received and be allowed to remain on board each of the said vessels as herein-before provided with respect to any such naval officer and his servant but when any civil officer in the service of the Post Office shall be in charge of the said mails his duties shall be confined to the Post Office business.

Accommodation for officer and servant to be provided.

13. That a suitable first-class cabin with appropriate bed bedding and furniture shall at the cost of the Company be provided and appropriated by them for the exclusive use and accommodation of every such naval or civil officer and also (to the satisfaction of the Postmaster-General) a proper and convenient place of deposit on board with secure lock and key for the mails and that every of the said officers shall be victualled by the Company as a chief cabin passenger without any charge either for his passage or victualling and that should any such naval officer require a servant or should any such civil officer require an assistant such servant or assistant shall also be provided with a proper and suitable berth and be duly victualled by and at the cost of the Company as a fore-cabin passenger without any charge being made for the same.

Also for sorting mails.

14. That the Company shall provide on board each of the vessels to be employed under this agreement all necessary and suitable accommodation to the satisfaction of the Postmaster-General for the purpose of sorting and making up

the mails thereby conveyed and on being required by the Postmaster-General so to do shall erect on each of such vessels a separate and convenient room the actual cost of erecting such sorting room and of providing all such furniture lamps and other conveniences as may be necessary or convenient for the purpose of sorting and making up such mails being paid for by the Postmaster General but such furniture lamps and other conveniences being cleansed and kept in repair and the oil for the lamps supplied by the servants and at the cost of the Company.

Also a boat to convey officer between vessel and the shore.

15. That at each port or place where the said mails are to be delivered and received the officer having charge of mails shall whenever and as often as by him shall be deemed practicable or necessary be conveyed on shore and also from the shore to the vessel employed for the time being in the performance of this Agreement together with or (if such officer shall consider it requisite for the purposes of this Agreement so to do) without mails in a suitable and seaworthy boat of not less than four oars to be furnished with effectual covering for the mails and properly provided manned and equipped by the Company and that the directions of such officer shall in all cases be obeyed as to the mode time and place of receiving and delivering such mails.

Postmaster-General may require masters of vessels to take charge of mails.

16. That if the Postmaster-General during the continuance of this Agreement think fit to entrust the charge and custody of the mails to the master or commander of the vessels to be employed for the time being in the performance of this Agreement and in all cases where the officer or other person appointed to have charge of the mails shall be absent the master or commander of such vessel shall (without any charge other than that herein provided to be paid to the Company) take due care of and the Company shall be responsible for the receipt safe custody and delivery of the said mails and each of such masters or commanders shall make the usual oath or declaration or declarations required or which may hereafter be required by the Postmaster-General in such and similar cases and furnish such journals returns and information to and perform such services as the Postmaster-General or his agents may require And every such master or commander or officer duly authorised by him having the charge of mails shall himself immediately on the arrival at any of the said ports or places of any such vessel deliver all mails for such port or place into the hands of the Postmaster or other person at such port or place as the Postmaster-General shall authorize to receive the same receiving in like manner all the return or other mails to be forwarded in due course and that the crew of each of the said vessels respectively shall assist in conveying the mails between the mail room and the sorting-room to be erected (if required) in each of the said vessels as herein-before mentioned.

No letters to be received on board but Her Majesty's mails.

17. That the Company shall not nor shall any of the masters of any of the vessels employed or to be employed under this Agreement receive or permit to be received on board any of the vessels employed under this Agreement any letters for conveyance other than those duly in charge of the said naval officer or other person authorized to have charge of the said mails or which are or may be privileged by law nor any mails for conveyance on behalf of any colony or foreign country without the consent of the Postmaster-General And the said naval officer or other person shall report to the Postmaster-General any default in these respects And in case of any such default respectively the Company shall be liable to be proceeded against for a breach of this Agreement.

Postmaster-General may survey vessels.

18. That the Postmaster-General shall have full power whenever and as often as he may deem it requisite to survey by any of his officers or agents all or any of the vessels employed and to be employed in the performance of this Agreement and the hulls thereof and the engines machinery furniture tackle apparel stores equipments and the officers engineers and crew of every such vessel and any defect or deficiency that may be discovered on any such survey shall be forthwith repaired or supplied by the Company And that for the purposes aforesaid the said vessels shall (if necessary) be opened in their hulls whenever the said officers may require And if any of such vessels or any part thereof or any engines machinery furniture tackle apparel boats stores or equipments shall on any such survey be declared by any of such officers or agents unseaworthy or not adapted to the service hereby agreed to be performed every vessel which shall be disapproved of or in which such deficiency or defect shall appear shall be deemed insufficient for any service hereby agreed to be performed and shall not be again employed in the conveyance

of

of mails until such defect or deficiency has been repaired or supplied to the satisfaction of the Postmaster-General.

Postmaster-General's orders as to the landing, &c. of mails to be attended to.

19. That the Company and all commanding and other officers of the vessels employed in the performance of this Agreement and all agents seamen and servants of the Company shall at all times punctually attend to the orders and directions of the Postmaster-General his officers or agents as to the mode time and place of landing delivering and receiving mails.

Company to convey Government passengers.

20. That the Company shall when and as often as in writing they or the masters of their respective vessels are required so to do by the Postmaster-General or by any naval or other officers or agents acting under his authority (such writing to specify the rank or description of the person or persons to be conveyed and the accommodation to be provided for him or them) receive provide for victual and convey to and from and between any of the ports or places to which any vessels are to proceed in the performance of this Agreement on board every or any of the vessels to be employed in the performance of this Agreement (in addition to the naval or other officers authorised to have charge of the said mails) any number of naval military or civil officers or other persons in the service of Her Majesty hereinafter described as Government contract passengers (not exceeding four in any one ship) with or without their wives and children as first-class passengers and any number of Government contract passengers (not exceeding two in any one ship) with or without their wives and children as second-class passengers and any number of Government contract passengers (not exceeding 10 in any one ship) with or without their wives and children as third-class passengers to be berthed below deck (due notice being given if practicable to the Company or to their agent at the port of embarkation of all such passengers as may be required to be received provided for victualled and conveyed as aforesaid) and that whenever the Company shall convey any third-class Government contract passengers (other than those hereinbefore specially provided for) the Company shall provide them with proper accommodation below deck.

Their passage money.

21. That the passage money for all passengers to be conveyed on the requisition of the Postmaster-General or any persons acting under or by his authority other than and except the naval officer in charge of mails and his servant (if any) or the civil officer of the Post Office in charge thereof and his assistant (if any) shall be paid in full of all charge for mess and victualling at and after the fares and rates charged by the Company for ordinary passengers of a similar description or in cases where there is no charge to correspond at such rates as may be agreed upon between the Lords Commissioners of the Admiralty and the Company.

Their accommodation.

22. That Government contract passengers shall be treated in no respect whatever in an inferior manner to ordinary passengers of the same class and in a manner at least equal to that required by the regulations of Her Majesty's Transport Service and the messing of the first and second class Government contract passengers shall include each day an imperial pint of good sound bottled or draught ale or beer and that of the first class in addition an imperial pint of good foreign wine either port or white The several classes of Government contract passengers shall mess in separate places and they shall be provided free of extra charge with medical attendance medicine and medical comforts and with mess utensils and fittings cooking utensils articles for table use mess places cabins and berths fuel lights requisite articles of bedding and all other necessaries and all third-class Government contract passengers shall have hammocks or bunks subject to the approval of the naval authorities placed between decks.

What "passage money" is to include.

23. That the passage money for Government contract passengers shall be the same as that charged by the said Company for ordinary passengers of a similar kind and shall include everything specified in the last preceding article of this Agreement and the freight of baggage according to Government scale and returns of the embarkation and disembarkation of all Government contract passengers shall be furnished to the Director of Transport Services immediately after the departure and arrival of each vessel.

Company to give notice of alterations of their ordinary passenger fares.

24. That whenever any alterations of rates for ordinary passengers shall be made by the said Company notice of such alterations shall forthwith be given by the Company to the Postmaster-General and to the Lords Commissioners of the Admiralty.

Passage money, how paid.

25. That payments for passage money of Government contract passengers shall be applied for by invoices (according to a form to be obtained from the Office of the Director of Transport Services) to be lodged in the office of the Accountant-General of the Navy by the said Company or their successors and upon the production to such Director of the orders for the passengers together with a certificate under the hand of the Commanding Officer specifying the number of the third-class passengers (men women and children) conveyed with the ages and sexes of such children and stating the periods during which such third-class passengers have been regularly supplied while on board with provisions and also of a certificate under the hand of each first and second class passenger of his or her having been landed at the place of destination and of having been properly accommodated and messed during the voyage and specifying the dates inclusive from and to which they were so messed computed from the first to the last dinner meal and upon the lodging of such invoices as aforesaid bills for the amounts which after examination shall be found to be due thereon shall be made out to the said Company or their successors payable by Her Majesty's Paymaster-General in three days from and after the respective dates thereof.

Passage money of families of commissioned and civil officers.

26. That the passage money for the families and wives of commissioned and civil officers or other persons when not ordered to be conveyed at the public expense shall be paid to the Company by the officers themselves at the rates charged to ordinary passengers of a similar description.

Company to convey Admiralty stores.

27. That the Company will receive on board of every such vessel any number of small packages containing astronomical instruments charts wearing apparel medicines or other articles and convey and deliver the same to from or between the said ports or places to from or between which the said mails are to be conveyed when and as often as directed by the Postmaster-General his Officers or Agents or by the British Naval Officer in command of the station or at any port where the vessel may touch free from all costs and charges and also will receive on board of every such vessel and convey and deliver to from and between all or any of the said ports or places (on receiving from the Postmaster-General his officers or agents or from the British Naval Officer in command of the station two days' previous notice) any naval or other stores not exceeding 10 tons in weight or 15 tons of 40 cubic feet each in measurement at any one time in any one vessel at the lowest rate of freight charged by the Company for private goods of a similar description and that the Company shall in all cases be strictly responsible for the due custody and safe delivery of the said packages articles and stores and shall give immediately notice to the said Commissioners of any alteration in the rate of freight charged by them for private goods provided always that stores consisting of liquids chemical preparations or other articles of a dangerous or damaging nature shall not be ordered to be conveyed under this Agreement.

Penalties to be considered as ascertained damages, and may be retained by the Postmaster-General.

28. That all and every the sums of money hereby stipulated to be paid by the Company unto Her Majesty her heirs and successors shall be considered as stipulated or ascertained damages whether any damage or loss have or have not been sustained and shall and may be retained by the Postmaster-General out of any monies payable or which may thereafter become payable to the Company or the payment may be enforced as a debt due to Her Majesty with full costs of suit at the discretion of the Postmaster-General Provided however that the payment by the Company of any sums of money by way of penalties shall not in any manner prejudice the right of the Postmaster-General to treat the failure if any on the part of the Company to provide a proper vessel or to perform any voyage at or within the times herein-before respectively mentioned in that behalf as a breach of this Agreement.

Subsidy.

29. And in consideration of the due and faithful performance by the said Company of all the services hereby agreed to be by them performed the said Postmaster-General doth hereby covenant and agree that there shall be paid to the said Company (out of such aids or supplies as may be from time to time provided and appropriated by Parliament for the purpose) so long as they perform the voyages between Point de Galle and Sydney and the other services herein contracted to be performed in the manner and with such vessels as herein respectively mentioned the sums of money following (that is to say)

A sum after the rate of 120,000 *l.* per annum so long as the said Company shall

shall upon the requisition of the Postmaster-General cause to be performed one such voyage each way in every calendar month.

A sum after the rate of 130,000 *l.* per annum if and so long as the said Company shall upon the requisition of the Postmaster-General cause to be performed one such voyage each way in every lunar month of four weeks.

A sum after the rate of 170,000 *l.* per annum if and so long as the said Company shall upon the requisition of the Postmaster-General cause to be performed two such voyages each way in every calendar month.

A sum after the rate of 184,166 *l.* per annum if and so long as the said Company shall upon the requisition of the Postmaster-General cause to be performed two such voyages each way in every lunar month of four weeks.

And that the said payments shall be made in equal quarterly payments on the first day of April the first day of July the first day of October and the first day of January in each year and shall accrue due from day to day and the said payments shall be received by the said Company as full compensation for all costs and expenses which they may incur or be put unto by reason or on account of all and singular the services hereby contracted to be performed subject however to the abatement of any sums of money in respect of forfeitures which the said Company may have incurred or to the addition of any sums in respect of premiums as the case may be as herein provided.

And it is hereby further agreed and declared between and by the said parties to these presents:

Disputes to be referred to arbitration.

30. That if at any time during the continuance of this Agreement or after the determination thereof any dispute shall arise between the parties hereto or their successors respectively concerning any breach or alleged breach by or on the part of the Company of this Agreement or the sufficiency of any such breach to justify the Postmaster-General in putting an end to the same or concerning the amount of consideration to be paid to or allowed by the Company as the case may be for such altered services as herein-before in that behalf mentioned or concerning any of the covenants matters or things herein-before contained or in anywise relating thereto and notwithstanding the power herein contained to determine this agreement and any execution or attempted execution of such power such dispute shall be referred to two arbitrators one to be chosen from time to time by the Postmaster-General and the other by the Company and if such arbitrators should at any time or times not agree in the matter or question referred to them then such question in difference shall be referred by them to an umpire to be chosen by such arbitrators before they proceed with the reference to them and the joint and concurrent award of the said arbitrators or the separate award of the said umpire when the said arbitrators cannot agree shall be binding and conclusive upon both parties.

All postage to be at the disposal of the Postmaster-General.

31. That the whole postage of all mails conveyed in the vessels employed under this agreement shall belong to Her Majesty and shall be at the disposal of Her Majesty's Postmaster-General.

Commencement and duration of contract.

32. That this Agreement shall commence on and from the first day of February 1866 and shall continue in force until one of the said parties hereto shall give to the other of them 24 calendar months' notice of his or their desire to determine the same and on the expiration of such notice this agreement shall determine accordingly without prejudice nevertheless to any right of action or other proceeding which shall then have accrued to either party for any breach thereof.

Penalties for failing to commence service on 1st February 1866, and not having vessels ready for survey on the 15th January 1866.

33. AND IT IS HEREBY FURTHER AGREED that in case the Company shall fail to commence the performance of the services herein agreed to be by them performed on the first day of February 1866 then and in such case the Company shall forfeit and pay unto Her Majesty her heirs and successors the sum of 100 *l.* and also the further sum of 100 *l.* for every successive period of 24 hours which shall elapse after the first day of February 1866 until the actual and *bonâ fide* commencement of the performance by the Company of the services herein agreed to be by them performed and further that in case the Company shall fail to have the said vessels to be used in the execution of this contract complete and ready for final survey on the 15th day of January 1866 the Company shall forfeit and pay unto Her Majesty her heirs and successors the sum of 10 *l.* for every successive

cessive day which shall elapse after the said 15th day of January 1866 until such vessel shall be so complete and ready for final survey as aforesaid Provided always that the total amount of the penalties to be incurred by the said Company by reason of such failures as aforesaid respectively shall not exceed the sum of 25,000 *l.*

Company not to assign &c. contract.

34. That the Company shall not assign underlet or dispose of this Agreement or any part thereof without the consent of the Postmaster-General signified in writing under his hand or under the hand of the Secretary or one of the Assistant Secretaries of the Post Office and that in case of the same or any part thereof being assigned underlet or otherwise disposed of or of any great or habitual breach of this Agreement or of any covenant matter or thing herein contained on the part of the Company their officers agents or servants and whether there be or be not any penalty or sum of money payable by the Company for any breach it shall be lawful for the Postmaster-General if he shall think fit (and notwithstanding there may or may not have been any former breach of this contract) by writing under his hand or under the hand of the Secretary or one of the Assistant Secretaries of the Post Office to determine this Agreement without any previous notice to the Company or their agents nor shall the Company be entitled to any compensation in respect of such determination.

Postmaster-General may determine contract on breach without notice.

On determination, voyages begun to be completed.

35. That if on the determination of this Agreement any vessel or vessels should have started or should start with the mails in conformity with this Agreement such voyage or voyages shall be continued and performed and the mails be delivered and received during the same as if this Agreement had remained in force with regard to any such vessels and services and with respect to such vessels and services as last aforesaid this Agreement shall be considered as having terminated when such vessels and services shall have reached their port or place of destination and been performed.

As to notices.

36. That all notices or directions which the Postmaster-General his officers agents or others are hereby authorized to give to the Company their officers servants or agents other than any notice of termination of this contract may at the option of the Postmaster-General his officers agents or others either be delivered to the master of any of the said vessels or other officer or agent of the Company in the charge or management of any vessel employed in the performance of this Agreement or left for the Company at their office or house of business in London or at their or any of their last known places of business or abode and any notices or directions so given or left shall be binding on the Company Provided always that any notice of termination of this Contract shall be served on the Company their officers servants or agents at their office or last known office in London.

Admiralty may purchase or charter vessels.

37. That the Lords Commissioners of the Admiralty for the time being shall at any time during the continuance of this Agreement in case of great public emergency have power to purchase all or any of the said vessels at a valuation or to charter the same exclusively for Her Majesty's service at a rate of hire to be mutually fixed and agreed on by the said Commissioners and the Company but if any difference should at any time or times arise as to the amount of valuation or hire so to be paid or as to the amount of damages consequent upon such purchase or hiring such difference shall be referred to two arbitrators or an umpire to be chosen respectively as aforesaid and that the said Commissioners in the case of hiring any such vessel shall return the same to the Company in the same state and condition as she was in at the time of any such hiring reasonable wear and tear excepted and if any difference should arise upon that point the same shall be settled in the same manner as the amount for the hiring is to be settled in case of difference.

And Company to provide others if they can.

38. That in case of such purchase or hire the service hereby agreed to be performed shall be performed by other vessels of the Company if the Company can in due and proper time furnish them such other vessels as to construction machinery equipment officers and crew to be subject to the like approval as other vessels employed under this Agreement but in case the Company be unable to furnish such other vessels it shall be lawful for them to determine this Agreement from the date of such purchase or hire but the same shall be considered as in force until the completion of any voyages then already undertaken.

39. That

If services reduced, reduced subsidy to be agreed on.

39. That in the event of the Company being allowed by the Postmaster-General to continue to perform only a portion of the service there shall be paid to them such annual sum of money as shall be agreed upon by the Postmaster-General and the Company and in case of their differing as to the amount such difference shall be settled by two arbitrators or an umpire to be chosen respectively as aforesaid.

Any reference to be made a rule of Court.

40. That any submission to arbitration in pursuance of this Agreement shall be made a rule of any of Her Majesty's Courts of Record pursuant to the Statute in that case made and provided on the application of either party.

No Member of Parliament to be admitted to any interest in Contract.

41. That in pursuance of the provisions contained in the Act of Parliament passed in the 22d year of the reign of King George the 3rd intituled "An Act "for restraining any person concerned in any Contract Commission or Agreement "made for the public service from being elected or sitting and voting as a "Member of the House of Commons" no Member of the House of Commons shall be admitted to any share or part of this Agreement or to any benefit to arise therefrom.

Contract to be laid on the Table of the House of Commons.

42. That this Agreement shall not be binding until it has lain upon the table of the House of Commons for one month without disapproval unless it be previously approved by a resolution of the said House of Commons.

Bond clause.

43. And for the due and faithful performance of all and singular the covenants conditions provisoes clauses articles and agreements hereinbefore contained and which on the part and behalf of the said Company their officers agents or servants are or ought to be observed performed fulfilled and kept the said Company do hereby bind themselves and their successors unto Her Majesty the Queen in the sum of 25,000 *l.* sterling to be paid to Her Majesty her heirs and successors by way of stipulated or ascertained damages hereby agreed upon between the said Postmaster-General and the said Company in case of the failure on the part of the Company in the execution of this Contract or any part thereof.

In witness whereof the said Edward John Lord Stanley of Alderley Her Majesty's Postmaster-General hath hereunto set his hand and seal and the said Peninsular and Oriental Steam Navigation Company have caused their common seal to be hereunto affixed the day and year first above written.

Stanley of Alderley. L. S.

The

CUNARD MAIL STEAMERS.

RETURN, from 1861 to the present Time, of the Passages of the Cunard Mail Steamers to and from *England*, *Ireland*, and *America*; showing the Hour of Sailing of the Steamers from *Liverpool*, Arrival at *Queenstown*, Departure from *Queenstown*, Arrival at *Halifax*, Departure from *Halifax*, &c. (in continuation of Parliamentary Paper, No. 188, of Session 1862).

(*Mr. Weguelin.*)

Ordered, by The House of Commons, *to be Printed,*
8 *May* 1866.

253.

Under 2 oz.

CUNARD, &c. STEAMERS.

RETURN to an Order of the Honourable The House of Commons, dated 20 April 1866;—*for*,

RETURN, "in a Tabular Form, of the STEAMERS belonging to the CUNARD and to the LIVERPOOL, NEW YORK, and PHILADELPHIA COMPANY which, during the Years 1864 and 1865, left the Port of *Liverpool* for the Ports of *New York* and *Boston* in *North America*, arranged in Chronological Order according to the Dates of their Departures respectively; specifying, as far as may be, the Name of each Steamer; the Company to which it belonged; whether Screw or Paddle; the Exact Time of its Departure from *Liverpool*; of its Arrival at *Queenstown*; of its Demurrage at *Queenstown*; and of its Departure thence and Arrival at *Boston* or *New York*; and also the Exact Time at which the Mail intended for such Steamer was Despatched from *London*; the Time at which it Arrived in *Cork*; and the Time from the Arrival of the Mail Train in *Cork* until the Departure of the Steamer for *America*:"

"Similar RETURN as respects the STEAMERS belonging to the said Companies which, during the same Years 1864 and 1865, left the Ports of *New York* and *Boston* for the Port of *Liverpool*;"

"And, RETURN, in a Tabular Form, of the Average Time occupied by each of the aforesaid STEAMERS in their Voyages from *Liverpool* to *New York* or *Boston*, and from *Boston* and *New York* to *Liverpool*, arranged in the Order of the Time occupied between *Queenstown* and *America*, beginning with the Shortest Average, and stating also the Registered Tonnage and Horse Power, and the Number of Voyages made during the Two Years, and specifying the Average Duration of Time occupied in the Voyages between *Liverpool* and *Queenstown*; the Delay at *Queenstown* and in the Voyages between *Queenstown* and *New York* and *Boston*."

General Post Office,
6 June 1866.

JOHN TILLEY,
Secretary.

(*Mr. Pim.*)

Ordered, by The House of Commons, *to be Printed*,
8 *June* 1866.

RETURN of the STEAMERS belonging to the CUNARD and to the LIVERPOOL, NEW YORK, and PHILADELPHIA COMPANY
America, arranged in Chronological Order, according to the Dates of their Departures respectively; specifying, as far as
Departure from *Liverpool*; of its Arrival at *Queenstown*; of its Demurrage at *Queenstown*; and of its Departure thence
patched from *London*; the Time at which it Arrived in *Cork*; and the Time from the Arrival of the Mail Train in *Cork*
panies which, during the same Years 1864 and 1865, left the Ports of *New York* and *Boston* for the Port of *Liverpool*:—
or *Boston*, and from *Boston* and *New York* to *Liverpool*, arranged in the Order of the Time occupied between *Queens-*
the Number of Voyages made during the Two Years; and specifying the Average Duration of Time occupied in the
York and *Boston*.

EASTERN MAILS.

RETURN to an Order of the Honourable The House of Commons,
dated 2 August 1866;—*for*,

COPY "of REPORT from Captain *Tyler*, R.E., to Her Majesty's Postmaster General, of his recent Inspection of the Railways and Ports of *Italy*, with reference to the Use of the Italian Route for the Conveyance of the EASTERN MAILS."

Treasury Chambers,
2 August 1866.

GEORGE WARD HUNT.

REPORT.

My Lord Duke, 1 Whitehall, 19 July 1866.

I HAVE now the honour to report, for your Grace's information, that in compliance with the instructions which I received in February last from Lord Stanley of Alderley, I have, during the months of May and June, examined the railways and ports of Italy, and inspected the works of the tunnel of the Alps, and of the Mont Cenis Railway; and have also placed myself in communication with the public officers and the chief officers of the railway companies in France and Italy on the subject of the conveyance through Italy of the eastern mails.

Under existing circumstances, the fast mails between Great Britain and the East must necessarily pass through Egypt, and it is only requisite to determine at present the best route through Europe towards Alexandria and Suez. The fast route now employed, measuring 853 English miles from London to Marseilles, and 1,460 nautical miles from Marseilles to Alexandria, is in point of distance nearly the shortest that can be adopted; but inasmuch as it is practicable to travel more than twice as fast on land, where good railways are available, as by sea, and with less risk of delay from stress of weather, it becomes advantageous to decrease the sea passage as far as possible, when this can be done without too heavy a cost, in order to effect a saving of time. When the railway down the east coast of Italy was opened for traffic in May 1865, it became obvious that it would be possible, at no very distant date, to substitute some port in the south of Italy for the port of Marseilles, as the point of departure for Egypt, and I took the opportunity in June of that year to refer to the subject in my report to the Board of Trade on the experimental railway then constructed on the Mont Cenis.

Of the Italian ports to which railway communication has up to this time been extended, the nearest to Egypt is Brindisi, which is 1,504 English miles from London by the Mont Cenis route, and 822 nautical miles from Alexandria, thus affording a decrease of 638 nautical (734 English) miles in the sea passage, and an increase of 651 English miles in the land passage. The distance between Valetta and Alexandria being the same within a few miles as that between Brindisi and Alexandria, it may be said, indeed, as far as the sea is concerned, that the voyage from Marseilles to Malta would be avoided by the adoption of Brindisi as the terminus for the land journey, while the total distance from London to Alexandria would be 83 English miles shorter by the Brindisi route than by the Marseilles route.

There are other ports in the south of Italy, such as Otranto and Gallipoli, which are each 37 nautical miles nearer to Alexandria than Brindisi, while Taranto and Reggio (in the Straits of Messina) are practically at the same distance from Alexandria as Brindisi and Malta.

The Meridional Railway of Italy is already working to Lecce, 39 kilometres south of Brindisi, but the works have been suspended upon the line to Otranto, which is 45 kilometres further; and it is a question whether that portion will now be completed for some time to come. Looking to the relative importance of the two places, it is probable that the branch from Lecce to Gallipoli, which is 20 kilometres long from its probable junction with the Otranto line, will be made before the portion to Otranto; but the studies have not yet been definitively made for the Gallipoli branch.

The port of Otranto (the ancient Hydruntum), of which I enclose a diagram, with soundings marked upon it, contains 420,000 superficial metres of water, with depths varying from 2 to 13 metres. But it possesses no protection for bad weather from a north-easterly direction, and no accommodation or facilities for a mail packet station. It could only be fitted for that purpose by the expenditure of a large sum of money, and the Italian Government have no idea of devoting money to its improvement. I did not even consider it worth while to visit Otranto, though I made a personal inspection of all the other Italian ports to which I have referred, as well as those of Naples and Genoa.

The port of Gallipoli has greater natural advantages, and is more used for purposes of commerce. Oil is shipped here in great quantities. The promontory on which the town is built affords shelter on either side of it according to the direction of the wind. But little money has yet been expended to turn its natural advantages to account, and the only project for its improvement is indicated in the accompanying diagram, on which also the soundings are shown. The existing mole is to be extended to a total length of 300 metres, and this will afford a superficial area in the northern harbour of 90,000 metres of water, varying in depth from 1½ to 11 fathoms.

In the direction of Taranto, the Meridional Railway has not yet been opened for traffic further than Gioja, which is 53 kilometres from the main line at Bari; but the portion between Gioja and Taranto, 63 kilometres long, is under construction, and is expected to be ready for traffic in two years. The town of Taranto (the ancient Tarentum) separates the outer harbour, which contains 36,000,000 superficial metres of water from the "mare piccolo" (little sea), or "seno interno" (internal bay), containing 19,000,000; the depth of water varying in the greater part of the former from 8 to 36 metres, and of the latter from 6 to 13 metres. There is at present no means of communication by large vessels from one to the other, as will be seen by the enclosed diagram.

The northern channel is spanned by a masonry viaduct which forms the principal means of communication with the town, and the southern channel (also crossed by a masonry bridge) is very shallow, having, in fact, been excavated originally by Ferdinand the First of Arragon, as a ditch only to the fortress which it bounds. There are projects for widening and deepening this south channel, to allow of the passage of the largest vessels into what will then become the internal harbour; but no money has yet been voted for the purpose, or indeed for any works for the improvement of the harbour, although it is much used for the Italian men of war, and is indeed the chief naval station of the south of Italy.* Considering the extent of the harbour, its great natural advantages in a military as well as in a naval point of view, and the extent and position of the "seno interno," it is no matter of surprise that Taranto should have been selected for a military port; and looking to their relative situations, the Italian Government appear to have wisely determined upon making Taranto their principal military, and Brindisi their principal commercial southern port. I may here add that they would not be willing, if for this reason alone, to see the Egyptian mail steamers running to Taranto.

There are, however, other reasons against the adoption of Taranto as a mail station. The distance, indeed, by sea from Alexandria to Taranto is, as I have stated, nearly equal to that to Brindisi, and the distance by land is only five kilometres

---

* The construction of some magazines on the shore of the "mare interno" has, however, been authorised.

kilometres longer by Taranto than by Brindisi, while the anchorage is good at both ports; but the weather is frequently bad, and the sea rough at the entrance (66 miles across) to the Gulf of Taranto; much of the land is low at the sides of the gulf; a misty atmosphere is frequently experienced with southerly winds in winter; the lights are not at present so good as those at Brindisi, and generally in bad weather Brindisi is an easier port to make than Taranto; considerations which are of great importance in the case of mail packets timed to run at high speed, and expected, as far as possible, to be punctual in all weathers. Besides the want of a railway, there is no dock or landing pier at Taranto, and the hotel accommodation in the town is very limited and indifferent.

The railway from Taranto to Reggio, 448 kilometres (278 English miles) in length has been commenced; but the works are now suspended, and there appears to be little probability of its completion for some time to come. The total distance from London to Reggio would be 453 kilometres (281 English miles) further than from London to Brindisi. Reggio has the advantage of being on the straight course of a steamer proceeding by the straits of Bonifacio and the Straits of Messina from Marseilles to Alexandria, but it is merely an open roadstead without protection, particularly from southerly gales; and though the anchorage is good, the postal steamers of the Italian Government are frequently unable to communicate with the shore during the winter, and are obliged to take the mails into the harbour of Messina.

There have been four projects for forming a port at Reggio: (1) opposite the town for small craft now abandoned; (2) north of the town by diverting the course of a small river; (3) south of the town by excavation, which would involve a considerable outlay, and does not meet with approval; (4) 300 metres long by 150 metres wide at Pentimele, 2,000 metres north of Reggio, to be connected with the railway station; but as the station is on the south of the town, and the town is situated on a hill sloping abruptly to the sea, this connection would not be easily made. The Government is bound to provide a port by the time that the railway is completed, and proposes to expend 4,200,000 francs for the purpose; but many years will probably elapse before it is carried out. There is no idea of forming a dry dock at Reggio, there being one in course of construction at Messina, 100 metres long, which is to be completed in five years.

The width of the Straits of Messina is here about 13,000 yards, and the numerous currents through them, which, with the liability to heavy gusts of wind, were so alarming to the ancients, have formed an interesting subject of study and report by an Italian commission, as well as by Admiral Smyth and others. Their effect upon the large steamers of the present day is, however, comparatively unimportant.

It will thus be seen that it would not be practicable to adopt Reggio as a port of communication for the eastern mails, at all events for many years to come, as well for the want of a port as for the want of a railway; and that even when the railway and the port shall have been completed, the land journey would be increased (by the only route which can now be contemplated) by 281 miles, while the length of the sea passage would be about the same as by Brindisi.

Naples would appear to be in some respects a more desirable place of call for steamers running between Marseilles and Alexandria than Reggio. But the sea voyage between Naples and Alexandria would be increased by 180 nautical miles, or 18 hours, as compared with the sea passage *viá* Brindisi; and there is as yet no complete means of railway communication between Naples and the north of Italy. The shortest route to Naples will be *viá* Genoa and Rome, by which the distance from Susa to Naples is 996 kilometres, as against 1,152 from Brindisi, showing a saving of 156 kilometres or 96 English miles. But there are two breaks in the railway communication of this route—the first from Genoa to Spezzia, for 87 kilometres, where the railway works are now suspended, and the second from Nunciatella to Civita Vecchia, for 58 kilometres, where the railway is under construction, though not apparently with much activity. Another route, *viá* Ancona and Foggia, measures 1,117 kilometres from Susa to Naples, showing a saving of 35 kilometres (21 English miles) over the land route by Brindisi. There are other routes to Naples, such as that *viá* Bologna, Pistoja, Pisa, Livorno, which is, measured from Susa, 1,165 kilometres in length, or 13 kilometres further than to Brindisi. And on this line there is only the break above mentioned between Civita Vecchia and Nunciatella. There are also routes by Firenze and Torricella, with a break to Foligno; and by Firenze, Empoli, Siena, Orvieto, with a break to Orte. But they do not offer any advantages for a mail route at present.

There is no landing-stage, or pier, or dry dock in the Porto Grande, which is the commercial port at Naples; but there is a dock 75 metres long in the "Porto Militare." The existing quays in the Porto Grande are small, but plans are being prepared for their extension, as indicated in red lines on the accompanying chart. It is proposed to construct a new quay, 600 metres long, with a pier 150 metres long by 50 metres wide, and these may be commenced in 1867. There will be seven metres of water at the head of the pier, and the same depth will probably be obtained alongside of the quay. The anchorage is tolerably good, and there are plenty of buoys. The pier of the "Porto Militare" is being extended, as shown in red on the chart, of which 300 metres are to be completed this year, and 500 metres more are to be completed in 1871.

When railway communication is completed to Naples *viâ* Foggia, or, still more, when it is complete *viâ* Genoa and Rome, and when the Roman territory shall belong to or be available for through transit to the Italians, Naples may become an important place of call for steamers running between Marseilles and Alexandria; but the Naples route can never successfully compete with the Brindisi route, in consequence of the extra length of the sea passage; and it is impossible to contemplate the employment of Naples at present as the port for the eastern mails.

The harbour of Brindisi, which it becomes my duty next to describe, is composed, as will be seen by the accompanying tracing, of an outer port, 2,000 metres long by 1,000 metres wide, connected by a channel 260 metres long and 60 metres wide, with two inner arms; of these, the western arm is 1,500 metres long and 250 metres wide, and the eastern arm is 1,100 metres long and 200 metres wide. Of the numerous soundings noted on the tracing, the figures marked with one line were taken in 1864, those marked with two lines in January 1866, and those unmarked by lines in May 1866.

Brindisi (the well-known Brundusium) was formerly in much repute, and was commonly used by the Romans in crossing to Dyrachium, on their way to Greece, as being the best harbour on the west coast of the Adriatic; but the town declined after the Prince of Taranto destroyed the entrance to the inner arms by sinking ships in the channel, to keep his enemies out, in the 15th century; and the recent operations appear to have been the first serious attempt made to remove the accumulation of sand and silt, &c. that followed upon these obstructions.

There is now a clear depth of more than six metres, or 19½ feet, through the channel, into the western arm; and this depth is, I understand, to be increased to eight metres, or upwards of 26 feet. The approach to the harbour is well lighted, and the anchorage is good. The contract steamers of the Italian Government (the Adriatico-Orientale Company) have now ceased to run to Trieste and Ancona, and they ply between Brindisi and Alexandria only. Three of them were in the harbour while I was at Brindisi, in May last, one in the outer harbour, and two within a few yards of the quays of the town; they are about 267 feet long by 24 feet beam, and are less than 1,000 tons measurement; they draw 15 feet of water when fully loaded, but they were not drawing at that time more than 13 ft. 6 in. to 14 feet of water; and with this draught they had no difficulty in going to their coaling hulk in the western arm.

The ordinary rise and fall of the tide does not exceed 0·5 of a metre, or rather more than a foot and a half; and there is not therefore the same facility for docking vessels in the Mediterranean as in this country. There is, for this reason, a greater tendency to use "scali d'alaggio," or hauling slips. The Italian Government have granted a concession for such a slip (L. M. in drawing) for vessels up to 2,000 tons burthen, and it is to be constructed in two years, from April 1866, at the inner extremity of the western arm. Contracts were signed in June also for the other works, shown in red upon the drawing, including—

(1.) A quay (I. K.), 500 metres long, "near the Forte di Terra," at a cost of 580,000 francs, to be finished in 30 months.

(2.) A boundary wall for the "Canal d'Ingresso," or channel between the outer harbour and the inner arms, at a cost of 550,000 francs, to be finished in 30 months.

(3.) A breakwater (A B) 380 metres long, for closing the "Bocca di Puglia," between the mainland and the island of St. Andrea; a mole (C D) 260 metres long projecting to the east from the Forte di Mare; a retaining wall (E F), 950 metres long, on the Costa Morena; all to be finished in three years, at a cost of 1,700,000 francs. There are, further, in course of construction (at N O) 260 metres of quays, destined for the goods station of the railway; and the general excavation of the harbour, to a depth of 7½ metres, is being proceeded with. At P and Q (near which there is a fountain of good water) there are to be a site for the deposit of coal and a coaling-stage; and there is a project for constructing (at R), at the extremity of the eastern arm, a graving-dock, 120 metres long; but this has not yet been decided upon.

The littoral current runs south at this part of the coast, at the rate of, say, quarter knot per hour, varying, of course, according to wind and tide. The closing of the Bocca di Puglia and the mole on the south-east of the Forte di Mare, are important, as well for the protection of the excellent anchorage which exists south of that fort, as for the prevention of the deposit brought into the harbour by this littoral current. But all that is required in order that mail steamers may conveniently ply to the port is to push forward the excavations by dredging, so as to enable those steamers, of whatever company, to run into a convenient landing-stage to be constructed inside the channel leading to the inner arms. The Italian Government express their readiness, if the British Government should determine to forward their mails by the Brindisi route, to provide such accommodation, if necessary, by the Spring of 1867; either at No, which they are preparing for the railway goods station, or at some other point in the internal port to which they would construct a branch railway; so as, in any case, to provide a means of transferring the mails without delay from the railway to the steamer, and *vice versâ*.

Under all the circumstances of the case, I am of opinion that the harbour of Brindisi will be better adapted for a mail port than any other harbour in the south of Italy, and there appears to me to be no reason why good temporary accommodation should not be afforded by next spring, as proposed, pending the completion of the permanent works above described. The Italian Government wished, however, that the alternative of the two places of landing should, while I was in Italy, be left undecided. The hotel accommodation at Brindisi is at present very limited and of an inferior description; but from what I have heard from various quarters I can have little doubt that better hotels will readily be supplied, by private or joint stock enterprise, as soon as the question of route is settled, as would no doubt be the case in regard to any part that might be selected.

I shall next proceed to refer to the land route by which the Port of Brindisi may be approached.

The mail trains would of course run to Paris, and as far as Macon, over the same railways, as at present; but would diverge at Macon from the Marseilles line and take the line to Amberien, Culoz, Chambery, and St. Michel, the distance from Macon to St. Michel being 146 miles. In addition to owning the line to Culoz, the Paris, Lyons, and Mediterranean Company have lately acquired also that to St. Michel.

There is a double line of way as far as Culoz, but a single line, doubled at the stations, from that place to St. Michel. The gradients are steep and the curves sharp in places, especially between Amberien and Culoz. The steepest gradient near St. Michel is 1 in 43, and the sharpest curve between Culoz and St. Michel has a radius of 400 metres. The permanent way is laid with rails of different sections, some with, some without chairs, and weighing from 34 to 36 kilogrammes per metre. The chairs or rails are secured by trenails, spikes, or dog-spikes, to transverse sleepers. The joints of the rails are all fished between Culoz and St. Michel's, but the fishing has not yet been completed from Macon to Culoz. There are nine single line tunnels, making a total of 3151 metres, between Culoz and St. Michel. There is no night service as yet

on

on this line, so as to provide for a train leaving Paris in the morning for Italy, the only through train now leaving Paris at 8.40 p.m.

The journey from Macon to St. Michel is now performed by the "direct" trains in six hours and five minutes. This time might be shortened by one hour for a mail train; and the construction of a new curve at Amberien would prevent the necessity which at present exists for running into that station and out again. But I shall, in my calculations of time, continue to allow six hours five minutes for this journey.

The service by horses and mules from St. Michel over the Mont Cenis to Susa can be performed, during the summer season, with as much regularity as any other part of the route, but it is uncertain during the winter. The past winter was a mild one, and the service was performed with comparatively little interruption; but in looking through the returns with which the Italian Government have been so good as to furnish me, of the running of the Courier to Susa for the last six winters, I find that in January 1863 the delays were both frequent and serious, in consequence of storms on the Mont Cenis.

The Courier that left St. Michel on the 20th of that month did not reach Susa until the 22d, as much as 48 hours 25 minutes having been occupied in the passage. On the 11th of March of the same year, 14 hours 30 minutes are recorded; but the Courier made the journey either on sledges or by diligence during the other five winters, in times varying from 7 hours 30 minutes as a minimum, to 12 hours and 35 minutes as a maximum. I have been informed that the Italian Government would willingly undertake the conveyance of 20 passengers and their luggage, besides mails up to 10 or 12 tons in weight, in eight hours between St. Michel and Susa, besides delays at these places of altogether 2 hours and 20 minutes, made up of 1 hour and 40 minutes at one end, and 40 minutes at the other end.

With regard to the Summit Railway over the Mont Cenis from St. Michel to Susa, I find that since my Report of the 12th June of last year, the trials on the experimental portion of line have been completed to the satisfaction of the French and Italian Governments, and that concessions were granted for the construction of the railway (subject to the approval of the detailed plans) by the French Government on the 4th November, and by the Italian Government on the 12th December. That year was thus unfortunately lost for the works; and indeed the spring of 1866 has been principally occupied in preliminary arrangements, and in preparing plans, sections, and cross-sections on a scale of 1 in 500 for the two Governments. These plans had been authorised for 50 kilometres, while for the remaining 27 kilometres they had been prepared, and were awaiting authorization when I left St. Michel.

I observed in returning from Italy that tunnels and embankments for the rectification of the sharpest curves had been commenced, and were in active progress in six places on the Italian side of the mountain, and I learnt that two others were to be immediately commenced, the whole to be completed in, say, three months. The deviation along Napoleon's Road on that side, to avoid the well-known "escalier," was also to be commenced at once, and the masonry-covered ways, as a protection against the drift-snow and avalanches which have caused that road to be abandoned, were to be finished as well as other tunnels or masonry-covered ways within the next few months, though it was not intended that the timber-covered ways, which are to protect the railway from lighter drifts or falling snow, should be constructed till next summer. The rails on the Italian side (27 kilometres) have been contracted for in England, and 3,000 tons (of rails, chairs, fish-plates, &c.) are to be delivered by the contractors, Messrs. Brogden & Company, between the 12th July and the end of September.

On the French side of the mountain, comprising 40 kilometres from Lanslebourg to St. Michel, and 10 kilometres from Lanslebourg to the summit, three bridges near St. Michel were far advanced, and were to be finished in six weeks.

A viaduct and two bridges near Fort Lessaillon were in progress, and were to be finished in two months. The deviations on this side are numerous, to avoid villages or sharp turns in the road. That at St. Michel was far advanced, and was to be completed in a few weeks. Those at Modane and Vernet were to be commenced shortly, and to be finished in little more than a month.

month. That at Termignon, the heaviest piece of work on the French side, was on the point of commencement; and it was hoped that it might be completed in two months. That at Lanslebourg was to be commenced shortly, and completed in two months.

Of four deviations between Lanslebourg and the summit, one was finished, and three were in progress; and a less important one near Lanslebourg was not commenced. All these were to be finished in two months. The widening and levelling of the road in places, the rebuilding of retaining walls and abutments of bridges, were partly completed and partly in progress, and were expected to be finished in two months. The contract for the rails, chairs, &c. for the French side had been undertaken by the "Terre Noire" Company of Lyons, under the obligation to deliver 1,000 tons a month from the 1st July.

Out of 80,000 sleepers 50,000 had been purchased, and 30,000 cut. Ballast was provided for 20,000 lineal mètres, equal to 20 kilomètres of permanent way, extending from St. Michel to four kilomètres beyond Modane; and 15 to 20 kilomètres of fencing had been prepared for erection, and were at once to be put up.

The precise details having been fixed upon, after much careful consideration for the engines, they have been contracted for, and are to be delivered, the 1st in December next; and the whole, 12 in number, by the 1st April 1867. The tenders for the carriages were still under consideration. No. 2 engine has been strengthened in some of its parts since my visit of last year; and I tried some further experiments with it on the experimental line, both in ascending with a load, and in stopping suddenly, on a signal being given, in the descent.

I see no reason to alter the favourable opinion I have already expressed in regard to the principle involved, but every reason, on the contrary, to believe that it will be worked out to a successful issue. I have heard from Mr. Fell, since leaving the mountain, in a letter, dated 13th July, that he had been again, with two of the directors of the company, over the works; and that they had found them making good progress on the French side; but had thought it desirable to change the contractors on the Italian side, with a view to increased activity, and to insure their completion this year. The new contractors have undertaken this obligation, and are to employ at least 1,250 men on that side.

The printed prospectus of the company refers to the 1st May 1867 as the date on which this railway is to be opened throughout from St. Michel to Susa for public traffic, and the calculations of the directors have been based upon that supposition; but to this end the line and works from Lanslebourg to Molaret, 27 kilomètres over the mountain, must be completed before the mountain is covered with snow in the autumn of this year; and it cannot be doubted that every exertion will be made to complete and open the line, inasmuch as the profit of the company depends upon its early employment. They cannot count upon any paying traffic after the completion of the grand tunnel and the permanent line; and, indeed, their concessions hold good only up to the opening of that line for traffic.

In the original programme prepared for the French and Italian governments 4 hours and 30 minutes were allowed for the mail and express trains by the summit railway from St. Michel to Susa; but subsequent experiments have shown that this journey might be made in 4 hours. I shall still, however, allow 4½ hours for it, and I shall add three-quarters of an hour at each end for the transfer of mails and passengers, on account of the break of gauge; the gauge of the Mont Cenis Railway being 3′ 7⅝″, while that of the French and Italian railways is 4′ 8½″. I enclose plans of the arrangements proposed for running the summit railway into the stations at St. Michel and Susa. There would be cranes on the platform for transferring the mails across it from the one line to the other, and under these circumstances half an hour ought to be ample for the transfer; but I have preferred to allow a good margin, as above, so as to be well within the mark in my estimate of time.

Through the favour of the Italian government I walked into the headings at both ends of the Grand Tunnel, and I found that very considerable progress had been made during the previous year, in spite of the numerous difficulties which had been encountered

At the Modane (French) end hard quartz rock had been found at 2,094·10 mètres from the entrance, on the 13th June 1865, and the heading had been driven through that rock for 198·90 mètres up to the 9th May 1866, making a total

total advance at that end, from the 9th May 1865, of 302·75 metres, and from the commencement of the works, in the year 1857, of 2,293 metres.

At the Bardennèche (Italian) end the heading was progressing more rapidly, through the same schistose rock, which has been found at that end from the commencement; 772 metres had been pierced between the 9th May 1865 and the 9th May 1866, making a total advancement for that end of 3,361·50 metres.

The total progress at both ends for the year ending 9th May 1866 was thus 1,074·75 metres, and the total amount pierced, with the heading, was 5,654·50 metres (about 3½ miles), out of 12,220 metres (about 7½ miles), leaving 6,565·50 metres (about 4 miles) to be pierced.

The greatest progress that was made in any one year by manual labour was 257·57 metres in 1858, at the Bardonneche end, while the progress by machinery has increased as follows:—

Year.	Bardonneche.	Modane.	——
1861 - - - - -	170	- - -	193 by hand labour.
1862 - - - - -	380	- - -	243 ditto.
1863 - - - - -	426	376	
1864 - - - - -	621·20	466·65	
1865 - - - - -	765·30	458·40	

And the above figures for 1865 were, in spite of a severe attack of cholera at Bardonneche during the months of November and September, which seriously retarded the works at that end, and indirectly, also, those at the Modane end; in spite of two accidental explosions, which tended greatly to alarm the workmen, one at the face of the excavation and the other outside the tunnel; and, in spite of the quartz rock, encountered during the latter half of the year, at the Modane end.

The cholera, indeed, retarded the full-sized excavation, and the masonry lining at the Bardonneche end much more than the heading, and much ground has to be made up in this respect.

Two extra water wheels are however, being constructed at that end, in addition to the five already at work, for the improvement of the ventilation; and this being provided, there is no reason why, if money and labourers be forthcoming in sufficient quantity, this backward condition of the permanent work should not be made up.

The question as to when the tunnel is likely to be completed depends principally upon (1) the thickness of the quartz, (2) the thickness and quality of the rock which is interposed between the quartz and the schistose rock of Bardonneche, and (3) the supply of money and labour. Unfortunately 400 men, and amongst them some of the best workmen, were leaving the tunnel works for the army whilst I was on the spot; and the financial condition of Italy, at present most unsatisfactory, must depend upon the duration of the present war. As quartz rock does not lie in strata with parallel sides, there can be no good reason for believing that the thickness of it, 500 metres, which has been observed on the surface of the mountain, will also be found at the level of the tunnel; and the question of its extent at that level must remain an element of uncertainty until it has been completely bored through.

The rock which succeeds it has been called compact limestone, and its thickness has been stated at 2,500 metres; but the engineers of the tunnel believe it to be gypsum, more easy to work than the schist of Bardonneche, or the anthracite rock of Modane, and 300 metres thick. Supposing an average distance of 800 metres a year to be pierced for the next five years, at the Bardonneche end, and an average of 513·1 metres a year to be pierced during the same period from the Modane end, then the headings would be driven through so as to meet each other in five years from May 1866, or by May 1871; and the permanent tunnel might be completed, say, by the end of that year. But there are also the approaches to the tunnel to be constructed on the Italian side

side by the Italian Government, and on the French side by the Victor Emanuel, now the Paris, Lyons, and Mediterranean Railway Company. These approaches, comprising other tunnels and heavy works, and being altogether about 35 miles long, have not yet been commenced. The shortest time, looking at the matter solely in an engineering point of view, in which the permanent line can be completed, will be, therefore, as far as can be foreseen, towards the end of 1871; and it is impossible to calculate, at present, upon the future financial condition of Italy, and the effect it may have upon the progress of the works.

After the construction of the whole permanent line, the tunnel route will be an immense advantage to the mail traffic as well as to all other traffic between France and Italy, inasmuch as the break of gauge, and therefore change of vehicles and consequent inconvenience and delay, which must be incurred in the use of the summit line at St. Michel and Susa, will be avoided. The gradients will indeed be very steep, even on the tunnel line, there being a rising gradient from the French side, half way through the grand tunnel of 1 in 45½, and the steepest gradient on the line being 1 in 28.

But it may reasonably be expected that in a few years, and not long after 1871, mail trains will run through from Calais to Brindisi for 1,390 miles, without break of gauge, in about 54 hours.

The railway from Susa, *viâ* Turin, Alessandria, and Piacenza, to Bologna, forms part of the system of the Ferrovie dell 'Alta Italia; out of 387 kilometres between Susa and Bologna, 253 are laid with a single, and 134 with a double line of rails, there being 90 miles of double line between Turin and Alessandria, and 44 (out of 147) between Piacenza and Bologna. Of the gradients, 2½ kilometres are between 1 in 70 and 1 in 100, and 39 kilometres are between 1 in 100 and 1 in 200, and the remainder are less steep than one in 200. Of the curves there is one with a radius of 500 metres, 819 metres long, between Piacenza and Bologna; and there are only two others, with a total length of 834 metres, which have radii of less than 600 metres; the permanent way differs in different parts of the line, and altogether 281 kilometres, out of 387, have the joints of the rails fished; dog-spikes only are used to secure the flat-bottomed rails (where these are employed) to the sleepers, as commonly on the Continent, though I observe that through-bolts are now being employed in place of them on the *Chemin-de-fer du Nord* of France. The fences are inefficient in many parts of the line, and an iron chain attached to two posts, or a swinging bar frequently takes the place of gates.

It is not the practice to use either chock-blocks for the security of vehicles standing on the sidings, or indicators for the facing points, on the single line as in England.

The Company offer to run a mail train from Susa to Bologna in 7 hours 45 minutes, including 40 minutes of stoppages at the various stations, which is 10 minutes less than the "direct" trains of the summer service; and from Bologna to Susa (the greater rise being in that direction) in 8 hours and 8 minutes, including the same total amount of stoppages. I shall adopt the latter figures, with 10 minutes added for stoppage at Bologna, in circulating the time for the whole journey.

The portion of the Strada Ferrata Meridionale, or Meridional Railway of Italy, which lies between Bologna and Brindisi, is 763 kilometres long, and is laid with a single line throughout. It was opened for traffic from Ancona to Bologna in 1861, from Ancona to Pescara in 1863, to Foggia in April 1864, to Trani in August 1864, to Bari in February 1865, to Brindise in May 1865; and, in continuation to Leece in January 1866. There are excellent station buildings at 47 intermediate stations, mostly finished, but some in progress. There are crossing places and sidings at all of these stations, with a minimum length of 500 metres, and they are more than enough for all the traffic that can at present be expected. Good masonry houses (*case cantonieri*) have been constructed as in other parts of Italy, about a kilometre apart, for nearly the whole length of the line. There are four rooms in each for the accommodation of the platelayers and "guardians," and these men are, therefore, most of them always on the spot, and ready by day or night in case of need.

Out of the whole distance of 763 kilometres, 645 kilometres are quite straight. The sharpest curves, six in number, and of a total length of 4,080 metres, have radii of 400 metres. There are two curves of 450 metres radius, together 250 metres

metres long, and there are 13½ kilometres of curves with radii of 500 metres, but the majority have radii of upwards of 600 metres. The steepest gradient is 1 in 67 for a short distance south of Ancona. There is no other gradient steeper than 1 in 100, and the greater part of the line (and that part more particularly between Foggia and Brindise) may be considered, as regards curves and gradients, to be a first-rate running line. The permanent way is laid with rails of a flat-bottomed section , in lengths of 5½ or 6 metres, weighing 37 kilogrammes per metre. The joints of the rails are fished throughout. The sleepers are laid transversely, about a metre apart on an average, from centre to centre, and are of oak, except for 188 kilometres between Monopoli and Lecee, where they are partly of oak and partly of beech. The rails are secured to the sleepers by means of dog spikes only, as in other parts of Italy and of the Continent generally. Such a fastening is not considered sufficient in this country, but these spikes have a far better hold in oak sleepers than in the fir or other sleepers of soft wood which we employ, and none of the curves are sharp on this line.

The bridges and viaducts generally appear to have been carefully and substantially constructed in brickwork, masonry, and iron. Of the bridges at Ninna, Massignano, Mero, Trivolo, Sangro, Orente, Asinello, Sinarca and Fortore, which are still in wood; that at Sangro, being more substantial than the others, will probably remain in its present condition for several years, while those at Ninna, Massignano, and Orente, will be replaced by permanent bridges in two years, and the remainder within 12 months.

Much expense has been incurred since the line was first opened, and no necessary expense seems to have been spared in making the line secure against encroachments of the sea as at Vasto, or on soft ground, or in regard to the cuttings and embankments.

There are as yet no fences over a great part of the line, even where roads run near, or by the side of the railway; and, except at the most important level-crossings there are no gates, a swinging bar or a chain on two posts, being used, under the charge of a servant of the company, in place of them. But the absence of gates and substantial fences which is so frequently observable on the Continent does not appear, in spite of occasional accidents, to have been attended hitherto with the same bad results as in England, partly in consequence of the system which largely prevails of watching the beasts at pasture, and partly because they are most easily kept within bounds.

No fast service of trains has yet been run over this line, as there has not been traffic to justify the extra expense they involve; but the company undertake to run the whole distance from Bologna to Brindisi in 18½ hours, including altogether 1 hour and 22 minutes of stoppages at 17 intermediate stations, with mail trains. They have now 93 locomotive engines, besides 84 under construction; and 329 passenger carriages, besides 219 under construction.

In working this great length of single line, the telegraph only is employed to secure the safety of the trains, when they are not "in orario," that is to say, not running according to the printed time tables. Morse's instruments, by which all the messages are printed on slips of paper in dots and dashes, are those most in use; and they are worked under a good system by responsible men. There is at least a "direct" and an "omnibus" instrument at every station, and there are also instruments for practice at some of the stations. Any deviations from the usual crossing places of the trains are arranged between the station masters upon these instruments, and written instructions are given in such cases to the "*capo-conduttiori*" (head guards) of the trains. All the *employés* at the stations are taught to work the instruments, and to understand them by the ear, as well as to read the printed slips. Special trains are now run over the line when required for royal and other trains at very short notice, and that which was placed at my disposal afforded an excellent illustration of the system. The company undertake willingly to run an "Indian mail" train special over the line at any time of the day or night, within two hours after the arrival of the steamer from Egypt, in 18½ hours; and they do not at all object to any disarrangement of their ordinary traffic, which may be necessary for that purpose.

The outward mail from London might be expected to run through to Brindisi at stated times, and there would be no occasion for a special irregular service in that direction; but the homeward mail could not, as I took occasion to point out

out, be timed to any particular hour at Brindisi. And the Italian Government, as well as the railway companies, offer, therefore, to send the homeward mail through by a special train to St. Michel, so that no delay need occur in Italian territory. After the Egyptian steamer had been signalled off Brindisi the telegraph would to this end be employed to give notice of the hour at which the Eastern mail train would leave each station to St. Michel; and even to Calais and London. I am authorised further to state that the Italian Government would be willing to perform this service according to the times proposed by the railway companies, that is to say, in 18½ hours between Brindisi and Bologna, in 7 hours 45 minutes one way, and 8 hours 5 minutes the other way between Bologna and Susa; with 8 hours for the passage of the Mont Cenis, besides altogether 2 hours and 20 minutes delay at Susa and St. Michel, at the rate of 0·75 lire or 75 centimes per ounce of letters, and the same per kilogramme (or 0·33975 lire per English pound) of printed papers. These terms, which are very considerably less in proportion to the distance than is paid by Her Majesty's Government for the passage of the mails through France, appear to me to be exceedingly moderate.

The Italian Government would also be willing to undertake the sea service from Brindisi to Alexandria with their contract steamers of the Adriatico-Orientale Company, either on a similar system of charges, or for a lump sum within specified weights. The figures that were at first given to me for the sea service were 0·50 lire (50 centimes) for each English ounce of letters, and the same for each kilogramme of printed matter, but I was subsequently informed that if the British Government had really an idea of entrusting the sea service to the Italian Government, and were inclined to make a positive offer for it, either a tariff of 0·30 lire (30 centimes) for each ounce of letters and each kilogramme of printed papers, or a lump sum of 3,000 lire per voyage for weights of mails not exceeding 12 tons as a maximum or 4 tons as an average going and returning, might probably be accepted. This charge was considered to correspond to nearly 11 lire per league of voyage, or a third of what the Italian Government pay to the contractors, Messrs. Palmer & Co., for the mail steamers from Brindisi to Alexandria.

In comparing the route *viâ* Marseilles with that *viâ* Brindisi to Egypt, as regards the time occupied, it will only be necessary, as both routes go together to Macon, to make that station the common point of departure.

The following may be taken as the time occupied by the existing route:

	Hours.	*min.*
From Macon to Marseilles - - - - -	10	43
Transfer mails at Marseilles - - - - -	2	0
Marseilles to Alexandria, 1,460 nautical miles, including four hours' detention at Malta - - -	150	0
Macon to Alexandria - - - - - -	162	43

And the following would be the time for the Brindisi route, if the passage were made by horses and mules over the Mont Cenis.

	Hours.	*min.*
Macon to St. Michel - - - - - -	6	5
Delay at St. Michel - - - - - -	1	40
Passage of Mont Cenis to Susa - - - -	8	0
Delay Susa - - - - - - - -	0	40
Susa to Bologna - - - - - - -	8	8
Delay at Bologna - - - - - - -	–	10
Bologna to Brindisi - - - - - -	18	30
Transfer mails at Brindisi - - - - -	2	0
Brindisi to Alexandria, 822 nautical miles - -	82	15
Macon to Alexandria - - - - - -	127	28

For

For the Brindisi route by the summit railway over the Mont Cenis, when that shall have been completed, the time would be—

	Hours.	min.
Macon to St. Michel - - - - - - -	6	5
Delay at St. Michel - - - - - -	0	45
St. Michel to Susa - - - - - -	4	30
Delay at Susa - - - - - - -	0	45
Susa to Bologna - - - - - - -	8	8
Delay at Bologna - - - - - - -	0	10
Bologna to Brindisi - - - - - -	18	30
Transfer mails to steamer at Brindisi - - -	2	0
Brindisi to Alexandria, 822 nautical miles - -	82	15
	123	8

Again, when the tunnel through the Alps and the permanent line in connection with it are complete, the delays at St. Michel and Susa will be avoided, and the journey between these places may be performed without break of gauge, or change of vehicles, including stoppages, in 3 hours. There will, therefore, be an advantage of 35¼ hours in favour of the Brindisi route previous to the construction of the Mont Cenis Summit Railway; of 39½ hours after the construction of that railway; and of 42½ hours after the completion of the permanent tunnel line from St. Michel to Susa.

In communicating with the Italian Government, and with the officers of the Italian railways, I have pointed out that, in laying down the periods of time on which the above calculations have been made, it was desirable to fix, not the shortest time in which the journeys could be performed, but such rates of speed as would admit of punctuality. And I believe that in the above figures a sufficient margin has been left to cover any accidental delays that may occur, to a moderate extent, on so long a journey. I am of opinion, further, that the time may be kept with greater certainty *viâ* Brindisi than *viâ* Marseilles, because—(1) land transit generally may be performed more punctually than sea transit—(2) the sea passage would be less stormy and more certain, inasmuch as the worst part of it, across the Gulf of Lyons, would be avoided—(3) there would be a special railway service through Italy.

But, in order that all the advantages of this route might be realized, it would be desirable that arrangements should be made by which the special service *from* the East should be continued also through France.

Some further time might also be saved in both directions if the mail trains could be timed to run through from Calais, stopping, say, one hour only at Paris, and making use of the railway which connects the Northern and Mediterranean lines together for avoiding a change of vehicles in that city.

With reference to these subjects, I am happy to be able to inform your Grace of the cordial promise of general co-operation which I received at Paris from M. Vandal, the Director General of the French Posts. I had the advantage of conferring with M. Vandal, both in going to and returning from Italy; and when I informed him, on the latter occasion, of the result of my journey, of the amount of time that could be saved, and the price at which the Italian Government were willing to perform the service, M. Vandal replied at once that the question was virtually decided. He observed that such an improved means of communications would advance the important interests of the French Empire in connection with the East, as well as our own; and he begged me to assure Her Majesty's Government of his readiness to afford every assistance in furthering this object.

Under all the circumstances of the case, I am of opinion that the route, *viâ* Brindisi, may properly be adopted for the Eastern Mail Service, as affording greater advantages at the present time than any other route; and further, that it it might be brought into operation by the 1st June 1867. It is probable that the Mont Cenis Railway will be opened for traffic before that time, and even if such should not be the case, there would still be no difficulty as regards the passage of the mountain by horses and mules until the autumn; and I cannot doubt that the summit railway will be complete and working, at all events, before the following winter.

It will thus be possible next year to convey the Eastern mails between London and Alexandria punctually, and without difficulty, in 150½ hours, and at some time after 1871, when the permanent line between St. Michel and Susa is at work in 147½ hours. The longest portion of the journey that can be made at present, or next year, without change of vehicle, is from Susa to Brindisi, 716 miles, or 27 hours; but it may be expected, when the tunnel line is completed after 1871, that mails and passengers will travel, without change of vehicles between Calais and Brindisi, 1,391 miles in 54 hours, or, if the arrangement above referred to, of using the connecting railway at Paris, be adopted, in 52 or 53 hours. In either case it is exceedingly desirable that sleeping carriages with proper conveniences should be provided for the journey. I have not failed to represent this want to the Italian Government and railway companies, and I am happy to be able to inform your Grace that the Italian Government undertakes to convey the passengers in special carriages of this description at fares not exceeding, for each, 15 centimes per kilomètre. In the meantime, the mails must necessarily be transferred, if not at Paris, at all events from the 4′ 8½″ to the 3′ 7⅝″ gauge, and *vice versâ* at St. Michael and Susa; and with a view to this being more easily effected, as well as to facilitate the transfers on the remainder of the whole route, I would venture to suggest that some improvements might be made in the system of packing them.

The average number of boxes of wood or iron forwarded by the mail of the 26th of each month, through France to the East, is now 325, with a gross weight of 9 tons 14 cwt. 2 qrs. 21 lbs., and a gross cubic content of 1,178 feet; and each of these boxes is now thrown down with great violence, perhaps on stone or iron, whenever a transfer is made: 1st, from the "left" at the General Post Office to the Post Office van; 2d, from Post Office van to the railway station in London; 3d, from the train to the steamer at Dover, and so on. I understand that the attempt has already been made to substitute bags for boxes, but that it was given up, when the cholera was raging last year in Egypt, because the bags were supposed to harbour infection more readily than the boxes. But I apprehend that this objection might be got over if the bags were enclosed in water-tight wooden chests of larger dimensions. The places of transfer being always the same, these chests might be moved by cranes, from the General Post Office to the street, from the street to the railway, from the railway pier to the steamer, and so on. And the hatchways of the steamers employed might be fitted to receive them without any difficulty, whatever the precise form and size decided upon. A great saving would thus be effected, in the weight, the cost, and the wear and tear of the cases, as well as in the time consumed in making the cases up, in making lists of them during the transfers, and in transferring them. And there would probably be less risk of loss. A truck on the Mont Cenis Summit Railway would not, of course, take so many of these large chests as one on the ordinary railways.

As I have intimated at the commencement of this Report, the question to be now solved is solely that of communication through Europe to the east of the Mediterranean. But in saying so much concerning the postal routes to the East, I would ask your Grace's permission to touch also upon the still more important saving of time and distance that may be obtained hereafter, by avoiding the passage of the Red Sea, where a railway shall be constructed from the coast of the Mediterranean along the Euphrates Valley to the Persian Gulf. By this route many hundred miles of distance, and many days of time, might be saved between London and Bombay, which will become within the next two years (when the railways to Madras and Calcutta are completed) the principal port of India. The navigation by the Persian Gulf to Bombay will be far preferable to that, *viâ* Suez and the Red Sea to Bombay; and even that amount of navigation may ultimately be avoided by the connection together of Bagdad and Bombay by railway. But in the meantime the Euphrates Valley scheme has been for many years almost in abeyance. The mere guarantee of the

Turkish Government has not been found sufficient even to render the construction of the first portion from the coast to Aleppo practicable; and the financial state of that empire renders progress now all but impossible. But I have so strong a conviction of the important bearing, that the construction of such a railway would have, commercially and strategically, upon the British Empire, that I could not but take this opportunity of recommending the subject to the serious consideration of Her Majesty's Government.

I have, &c.
(signed) *H. W. Tyler,*
Captain, Royal Engineers.

His Grace the Duke of Montrose,
Postmaster General,
&c. &c. &c.

EASTERN MAILS.

COPY of REPORT from Captain *Tyler*, R.E., to Her Majesty's Postmaster General, of his recent Inspection of the Railways and Ports of *Italy*, with reference to the use of the Italian Route for the Conveyance of the EASTERN MAILS.

NORTH AMERICAN MAILS.

RETURN to an Order of The Honourable the House of Commons,
dated 16th July 1866;—*for*,

COPIES "of the CORRESPONDENCE between the Liverpool Chamber of Commerce and the Postmaster-General, and between the Postmaster-General and the Contractors for carrying the NORTH AMERICAN MAILS in reference to a Change in the Day of Dispatch of the Mails:"

"And, of the CORRESPONDENCE between other Chambers and Commercial Associations and the Postmaster-General, and the REPLIES of the Postmaster-General thereto."

General Post Office,
25 July 1866.

JOHN TILLEY,
Secretary.

— No. 1. —

President of the Liverpool Chamber of Commerce to the Postmaster General.

Chamber of Commerce, Liverpool,
15 March 1866.

My Lord,

I HAVE been requested by the Council of the Liverpool Chamber of Commerce to submit the question of the day of sailing of American mail packets from this port from Saturday, the present day, to Friday.

A representation has been made to the Council that the dispatch of the American mail on the Saturday materially interferes with the increasing desire on the part of the community to make that day a half-holiday.

It is also alleged that the increase and efficiency of the volunteer force are affected by the existing arrangement.

The attention of the Council has also been directed to the question of a change by a member of the Chamber largely engaged in the American trade, whose views they beg leave to submit:—

"In the early part of the year 1860 the Post Office arranged that the Cunard steamers should call at Queenstown to embark and land the mails for and from the United States and the British Provinces. In consequence of this arrangement, the time of making up the mails in London, and most of the post offices of Great Britain, was changed from Friday evening to Saturday evening. This change is a source of great inconvenience to the commercial body, and it is of no corresponding benefit to any class.

"We now desire the Post Office to revert to the old system of making up the mails on the Friday evening, and to allow the steamers to be dispatched from Queenstown on the Saturday, instead of on the Sunday afternoon, as at present.

"As business in all the great commercial centres closes at one or two o'clock on the Saturday, a steamer sailing from Queenstown at half-past four on that day would, by means of the telegraph, take out all the commercial news of any importance which she now takes, sailing on the Sunday.

"Friday having always been a foreign post day in London, and the day on which the brokers in London and Liverpool issue their weekly statements, it is the day on which it is most convenient to merchants to write to their foreign correspondents. The change of the post day from Friday to Saturday has been the cause of inconvenience and additional labour to the merchants of this country engaged in trade with the United States and British possessions of North America.

"A large amount of public money is spent upon the important object of securing a regular and rapid communication with America; but in consequence of the steamers sailing from Queenstown on the Sunday instead of on the Saturday, 24 hours are lost before they start on the voyage. By means of the telegraph, all the news of importance which now goes by the steamer on Sunday would be transmitted to Queenstown by the Saturday afternoon; consequently, if the Post Office will revert to the old day of departure from the United Kingdom, namely, the Saturday, our correspondents in America would receive the news just 24 hours earlier than they now do.

"As the fast steamers, such as the 'Scotia' and 'Persia,' usually arrive at New York, and those bound for Halifax usually arrive there on the Tuesday, it follows that by starting on the Saturday instead of on the Sunday, they would arrive on the Monday. Hence, a communication leaving London on a Saturday afternoon by telegraph, would be received in New Orleans on the morning of the following Monday se'night. Thus only one business week would be occupied in the transmission of an order from London to New Orleans, or from any town in the United Kingdom to any town in the United States or British North America.

"The French Government have granted a subsidy to a line of steamers to run from Brest to New York, which are to start on the Saturdays. Unless the British mail steamers start on the Saturday also, the slight advantage which we possess in distance will be surrendered to the French, and their steamers, carrying exactly the same commercial news as ours, will always anticipate ours in their time of arrival at New York. We shall be compelled to send telegrams by way of Brest, and shall thus be put to unnecessary expense, and to the liability to mistakes in their transmission through a foreign country."

In these representations the Council of this Chamber entirely concur, and they desire I should add that they communicated with the various commercial bodies throughout the United Kingdom, whose opinions were asked as to the change proposed, and they have received replies in favour of the change from the Chambers of Bristol, Belfast, Dundee, Glasgow, Goole, Huddersfield, Halifax, Kendal, Manchester, North Shields and Tynemouth, Waterford and Wolverhampton; from the cotton brokers, shipowners, underwriters, and wine and spirit associations of Liverpool; from the Manchester Cotton Supply Association; and from Glasgow Merchants' House, who concur in opinion with this Chamber as to the desirableness of the change, and agree to co-operate in securing it, while the only reply adverse to the question is from the Chamber at Sheffield, who state "that, so far as Sheffield is concerned, the change made in 1860 is an advantage, the mails being made up one day later, and yet arriving in America as soon as under the old system, and that letters by the incoming steamer being sometimes delivered on the Saturday, merchants have an opportunity of replying to them the same day, which they could not do if the out-going steamer left Queenstown on that day."

I am also to add, that the Chambers at Worcester and Nottingham came to no resolution upon the question; that the American Chamber resolved that it was undesirable for that body to move in the matter at present; and that from "Lloyd's" they received the reply, that the opinions of the leading houses are so conflicting with regard to it, that the Committee do not think it desirable to express any opinion of their own.

In conclusion, I am to state on the part of the Council their confidence that this question will receive the best consideration your Lordship can give to it, with the view that the desire of so large a section of the commercial community may be met by a change being made in the day of sailing hence of the American mail steamers from the Saturday to Friday, and from Queenstown from Sunday to the evenings of Saturday.

Gentlemen,

I ENCLOSE the copy of a letter which has been addressed to the Postmaster General by the Liverpool Chamber of Commerce, representing the inconvenience arising from Saturday being the day of the week fixed for the departure from Liverpool of the British line of mail packets to the United States, and suggesting that the day of such departure should be changed from Saturday to Friday, with a departure from Queenstown (with supplemental mails) on Saturday.

Memorials to a like effect have been received from other towns.

The Postmaster General requests to be furnished with your observations respecting this suggestion, and his Lordship will be glad if, in offering your opinion as to the day which appears to you to be best for the departure of the packets, you will favour him with the grounds on which you rest such opinion, so that he may have the matter fully before him.

I am, &c.
(signed) *F. Hill.*

— No. 4. —

Messrs. *Cunard, Burns,* and *Mac Iver* to Mr. *F. Hill.*

Sir,

Glasgow, 18 May 1866.

WITH reference to your communication registered, No. 311 R., enclosing copy of a letter from the president of the Liverpool Chamber of Commerce, suggesting a change in the sailing days of the British and North American Royal Mail Steamers, we beg leave to submit to his Lordship, the Postmaster General, that in our opinion a change at the present time would be most detrimental, not only to the interests of the public generally, but to the revenue of the Post Office.

In complying with the wish of the Postmaster General to be furnished with the reasons on which we rest our opinion, we think it unnecessary to trouble his Lordship with a correction in detail of Mr. H. W. Meade King's letter, which has gone the round of all the Chambers of Commerce in the kingdom; because, however much the opinion of Chambers of Commerce and kindred institutions may be entitled to respect, on certain subjects, we consider that on this subject our position enables us better to become acquainted with the requirements of the public generally, and therefore we have no hesitation in expressing our belief that the proposal referred to has not the sympathy of the mercantile

mercantile community in general, or of Liverpool in particular, where the larger firms engaged in the American trade are opposed to any alteration.

With regard, however, to our particular reasons against the alteration, we desire respectfully to call the attention of his Lordship, the Postmaster General, briefly to the points hereafter mentioned, viz.:

> I. The mail steamers from America arrive generally on Fridays or Saturdays, thereby affording an opportunity to receivers of letters to answer them sometimes from Liverpool, and, at all events, almost always *viâ* Queenstown, by the outgoing steamer, and consequently the shortening of the time between the arrival of the steamer from America, and the sailing of the outgoing steamer would undoubtedly give great dissatisfaction to the American mercantile houses.
>
> II. The change of day would also prove very disadvantageous as regards the working of the steamers on arrival at Halifax, inasmuch as in many cases it would cause the steamers to arrive in Halifax on Sunday, on which day it would be difficult, if not impossible, to procure labour to coal, and thus serious detention would occur to the vessels on their voyage to Boston.
>
> III. The dispatch of the mail steamers on the Friday would, in all probability, prove very injurious to the Post Office Revenue, as many of the letters would consequently go by a non-contract steamer on the Saturday.

In conclusion, we take leave respectfully to suggest that inasmuch as our present contract is on the eve of its termination, and new arrangements will shortly fall to be made, as regards the North American Mail Service, it would appear to us to be most inopportune to sanction any change; the present day of sailing having been the same for upwards of 20 years, and identified with commercial usage in regard to the receipt and dispatch of letters both in this country and America, and a departure from which would, no doubt, entail great public inconvenience and dissatisfaction.

Apologising for the interval which, owing to necessary correspondence on the subject, has unavoidably elapsed since the receipt of your letter,

We have, &c.

Secretary of the Sheffield Chamber of Commerce and Manufactures to the Postmaster General.

Chamber of Commerce and Manufactures,
Sheffield, 14 December 1865.

My Lord,

This Chamber having been informed that the Chamber of Commerce at Liverpool are intending to present a memorial, praying that arrangements may be made for the departure of American mail steamers on Fridays instead of Saturdays, I am directed to forward to your Lordship a copy of a letter addressed by this Chamber in reply to one received from Liverpool, inviting concurrence with their views.

It will be seen that the merchants of Sheffield are averse from any change.

I remain, &c.,
(signed) *W. Smith,* Secretary.

To the Postmaster General,
London.

Enclosure in No. 7.

Sailing of American Mail Steamers.

Chamber of Commerce and Manufactures,
Sheffield, 25 November 1865.

Dear Sir,

In further reply to your circular of the 16th inst., I am instructed to say, that as far as Sheffield is concerned, the change made in 1860 has been an advantage, the mails being made up one day later, and yet arriving in America as soon as under the old system. It also happens that letters by the incoming steamer are sometimes delivered on Saturday, and the merchants here have an opportunity of replying to them the same day, which they could not do if the outgoing steamer left Queenstown on a Saturday.

I am informed that this very day the American letters have been received, and the steamer to-morrow will take out replies.

Saturday is, on the whole, a more convenient day for the merchants to write to their foreign correspondents than Friday.

With regard to the starting of the French steamers on the Saturday, one day earlier than the British, the French might similarly start a packet on a Tuesday, a day before our mid-week steamer sails; but we cannot concur in the inference that we ought also to start on Tuesday. Probably the time is not far distant when the mail service will be transacted by daily steamers.

I remain, &c.,

Chamber of the Kendal Chamber of Commerce to the Postmaster General.

To Lord *Stanley of Alderley*, Her Majesty's Postmaster General.

The Memorial of the Kendal Chamber of Commerce,

Respectfully showeth,

THAT the attention of your memorialists has been drawn to the time of starting the American mails from Liverpool and Queenstown.

That your memorialists believe it would be for the interests of the mercantile community, both here and in America, if the mails left Liverpool on Friday, and called at Queenstown on Saturday afternoon for the telegrams and latest advices. By this means the reports of the Saturdays markets would reach America a day earlier than by the present plan, and no corresponding disadvantage would result from the change.

Your memorialists therefore beg to draw your Lordship's attention to the subject, trusting that the change mentioned above may commend itself to your Lordship's judgment, and may be carried out with as little delay as possible.

On behalf of the Chamber,

THAT the existing arrangements for the despatch of the mails for America are attended with much inconvenience to the merchants engaged in trade with that country, and are productive of no corresponding advantages to any other class of the community.

That the inconvenience complained of might be easily obviated.

That in consequence of the arrangement made in the year 1860 for the embarkation and landing of the American mails at Queenstown, the time for making up the London and other mails for that country was changed from Friday evening to Saturday evening.

That your memorialists would respectfully submit that it would be a matter of very great convenience to the mercantile community should your Lordship resume the original system of making up the mails on Friday evening, and cause the steamer to be despatched from Queenstown on the Saturday, thus saving 24 hours, which are at present lost before actually sailing on the outward voyage.

That Friday being a foreign post day in London and elsewhere, and also being the day on which the brokers issue their weekly statements, it is the most convenient for merchants writing to their correspondents abroad.

That the business in most of the large commercial cities in England closes at an early hour on Saturday, so that any news of importance might be communicated by telegraph in time for the steamer sailing from Queenstown at half-past four on that day.

> May it therefore please your Lordship to take this matter into your early and favourable consideration, and cause arrangements to be made for resuming the original system of closing the mails for America on the evening of Friday.
>
> And your memorialists will ever pray, &c.

Signed for and on behalf of the Directors of the Manchester Chamber of Commerce.

Merchants' House, Glasgow,
4 April 1866.

My Lord,

At a recent meeting at this house, the subject of the alteration in the period of dispatch of the American mails from Saturday to Friday was brought before it, when it was unanimously resolved that the proposed alteration is much to be desired, and that this house shall do all in its power to promote it.

I was requested, therefore, to communicate to your Lordship the result of this meeting, and also respectfully to solicit your Lordship's earnest consideration of the arguments in favour of the change contemplated.

I shall not go at length into these, taking leave merely to mention two; namely, that by continuing present arrangements this country gives way to France in celerity of communication, an object of the greatest importance to the mercantile community; and, second, that by dispatching the steamers from Queenstown upon Sundays, in place of Saturdays, I understand a delay of from 20 to 24 hours is uniformly incurred.

I trust your Lordship, for these and other considerations, will see it to be your duty to make a trial of the proposed alteration, which seems in every point of view so likely to benefit the mercantile interests of the United Kingdom.

Chamber of Commerce and Manufactures
(Incorporated by Royal Charter, 1783),
Glasgow, 13 April 1866.

My Lord,

I have been requested by the Directors of this Chamber to call your Lordship's attention to the importance to the mercantile community engaged in the trade with America of an alteration in the day of sailing of the American mail packets from the port of Liverpool to Friday, instead of Saturday, the present day of sailing.

In 1860, as your Lordship must be aware, in consequence of arrangements for embarking and landing at Queenstown the American mails, the time for making up the mails here was changed from Friday evening to Saturday evening. This change has been the cause of much inconvenience and dissatisfaction,—not only does it interfere with the increasing and reasonable desire to make Saturday a half holiday, but, as all news of importance which now goes by the steamer on Sunday could be telegraphed to Queenstown on Saturday afternoon, 24 hours are thus unnecessarily lost before the steamer can start on her outward voyage; by the present arrangement fast steamers usually arrive in New York on Tuesday; could the mails be accelerated by 24 hours, only one business week would be occupied in transmitting an order from this city to any town in the United States or British North America.

The Directors feel confident that the change they have proposed will receive your Lordship's best consideration, and they hope arrangements may be made for

for the sailing of the American mail packets from Liverpool on Friday, and from Queenstown on the evening of Saturday.

The Secretary of the Glasgow Shipowners' Association to the Postmaster General.

Shipowners' Association, 12, James Watt-street,
Glasgow, 24 April 1866.

My Lord,

I am requested by the Directors of the Glasgow Shipowners' Association to bring under your Lordship's consideration the desirability of altering the day of sailing of the American mail packets from the port of Liverpool to Friday, instead of Saturday, the present day of sailing.

The working of the present arrangement has been productive of much inconvenience and dissatisfaction, 24 hours being unnecessarily lost on account of the delay of sailing of the vessel from Queenstown till Sunday with the news which might have been telegraphed to her on Saturday afternoon.

Fast steamers would also be enabled to arrive in New York on Monday, so that only one business week would be occupied in transmitting an order from this city to any town in British North America.

Saturdays' sailing also interferes with the increasing and reasonable desire of making Saturday a half-holiday.

The Directors of this Association therefore feel assured that the proposed change will receive your Lordship's favourable consideration, and they hope that arrangements may be made for the sailing of the American mail packet from Liverpool on Friday, and from Queenstown on the evening of Saturday.

Reg. No. 36,905.

Sir, General Post Office, 4 May 1866.

I am directed by the Postmaster General to acknowledge the receipt of your letter, dated the 30th ultimo, expressing, on behalf of the Leicester Chamber of Commerce, an opinion in favour of changing the day of dispatch from this country of the American mails conveyed by British contract packet, and I am to inform you that this matter will receive his Lordship's attention.

I am, &c.
(signed) *F. Hill.*

The Secretary,
Leicester Chamber of Commerce.

— No. 29. —

Mr. *Frederic Hill* to the Secretary, Sheffield Chamber of Commerce.

No. 580 R.

Sir, General Post Office, 28 May 1866.

Referring to your letter of the 14th December last, showing that the Sheffield Chamber of Commerce object to the proposal of the Chamber of Commerce of Liverpool, that the departure from Liverpool of the British contract mail packets for America should take place on Fridays instead of Saturdays, I am directed by the Postmaster General to inform you, that having communicated with the contractors on this subject, and having fully considered the whole

whole question, he is not prepared to make any alteration in the dispatch of the North American mails until the present contract (which has to run on only till the end of next year) has terminated, when it is probable that several important changes will have to be made.

I am, &c.
(signed) *F. Hill.*

The Secretary,
Sheffield Chamber of Commerce.

— No. 30. —

Mr. *Frederic Hill* to the Chairman, Kendal Chamber of Commerce.

No. 580 R.

General Post Office,
29 May 1866.

Sir,

WITH reference to the Memorial of the Kendal Chamber of Commerce, in favour of changing from Saturday to Friday the date of departure from Liverpool of the British contract mail packet for America, I am directed by the Postmaster General to inform you that, having communicated with the contractors on this subject, and having fully considered the whole question, his Lordship is not prepared to make any alteration in the dispatch of the North American mails until the present contract (which has to run on only to the end of next year) has terminated, when it is probable that several important changes will have to be made.

I am, &c.
(signed) *F. Hill.*

The Chairman,
Kendal Chamber of Commerce.

— No. 31. —

A REPLY, dated 29th May 1866, similar to that given to the Kendal Chamber of Commerce (*see* No. 30) was sent to the Chambers of Commerce at Bradford, Belfast, Dundee, Glasgow, Manchester, and Leicester, and to the Glasgow Merchants' House, the Glasgow Shipowners' Association, and to the Manchester Cotton Supply Association.

NORTH AMERICAN MAILS.

COPIES of the CORRESPONDENCE between the Liverpool Chamber of Commerce and the Postmaster General, and between the Postmaster General and the Contractors for carrying the NORTH AMERICAN MAILS, in reference to a Change in the Day of Dispatch of the Mails; and, of the CORRESPONDENCE between other Chambers and Commercial Associations and the Postmaster General, and the REPLIES of the Postmaster General thereto.

PENINSULAR AND ORIENTAL STEAM NAVIGATION COMPANY.

RETURN to an Order of the Honourable The House of Commons,
dated 6 June 1866; *for*,

COPY "of the AGREEMENT made between HER MAJESTY'S POSTMASTER GENERAL and the PENINSULAR and ORIENTAL STEAM NAVIGATION COMPANY, dated the 27th day of February 1866."

CONTRACT, 27th February 1866.

ARTICLES of AGREEMENT made and entered into the 27th day of February, in the year 1866, between The Right Honourable *Edward John* Lord *Stanley* of *Alderley*, Her Majesty's Postmaster General (on behalf of Her Majesty), of the one part, and The Peninsular and Oriental Steam Navigation Company of the other part.

WHEREAS by two several Articles of Agreement, dated respectively the 1st day of January 1853 and the 7th day of July 1854, and respectively made between the said Company of the one part and the Commissioners for executing the office of Lord High Admiral of the United Kingdom of Great Britain and Ireland, for and on behalf of Her Majesty, of the other part, for the considerations therein respectively mentioned the said Company contracted and agreed to convey Her Majesty's Mails to and from the several places, and in manner therein respectively mentioned.

And whereas by virtue of an Act of Parliament passed in the 23d year of the reign of Her present Majesty, intituled "An Act to transfer to the Postmaster General Securities entered into with the Commissioners of the Admiralty in relation to the Packet Service," all the interests, rights, powers, and authorities of the said Commissioners under the hereinbefore recited Contracts were transferred to and are now vested in the said Postmaster General;

And whereas by Articles of Agreement, dated the 1st day of June 1861, and made between the said Company of the one part and the said Edward John Lord Stanley of Alderley, Her Majesty's Postmaster General for the time being of the other part, for the considerations therein mentioned it was amongst other things agreed, that, from the annual sum for the time being payable to the said Company under the said Contracts of the 1st day of January 1853 and the 7th day of July 1854 there should be retained or deducted by the Postmaster General for the time being an annual sum after the rate of 15,000 *l.*;

And whereas, by Articles of Agreement, dated the 16th day of April 1861, and made between the said Company of the one part and the said Edward John Lord Stanley of Alderley, Her Majesty's Postmaster General for the time being of the other part, for the considerations therein mentioned, the said Company contracted and agreed to convey Her Majesty's Mails to and from the several places and in manner therein mentioned;

And whereas by Articles of Agreement dated the 17th day of November 1865, and made between the said Edward John Lord Stanley of Alderley, Her Majesty's Postmaster General for the time being, of the one part, and the said Company of the other part, for the considerations therein mentioned, the said Company contracted and agreed to convey Her Majesty's Mails to and from the several places and in manner therein mentioned;

And whereas, it has been agreed between the parties hereto that the terms of the several hereinbefore recited Contracts shall be modified in manner hereinafter appearing.

Now these presents witness, and each of them the said Company and the said Postmaster General do and doth for themselves and himself, their and his successors and assigns, covenant, agree, and declare with and to the other of them the said Company and the said Postmaster General, their and his successors and assigns, in manner following (that is to say)—

1. Except as hereinafter provided Her Majesty's Postmaster General hereby releases the said Company from the obligation of those parts of the said Articles of Agreement of the 1st day of January 1853, which provide—

(1.) That the vessels, engines, equipments, engineers, officers, and crew employed in and about the services therein mentioned shall be subject in the first instance, and from time to time, and at all times afterwards, to the approval of the said Commissioners of the Admiralty, and of such other persons as shall at any time or times, or from time to time have authority under the said Commissioners to inspect and examine the same.

(2.) That the said Company shall previously to any vessel being built for or which is intended to be employed in the performance of the said Contract submit the designs, plans, and sections of each and every of such vessels to the said Commissioners, and be bound to adopt such fittings, scantling, and such dispositions of hatchways as the said Commissioners shall declare in writing to be necessary for carrying and firing the armament in the said articles of agreement in that behalf mentioned.

(3.) That the said Company shall and will from time to time and at all times during the continuance of the said Contract make such alterations or improvements in the construction, equipments, and machinery of the vessels which shall be used in the performance of the said Contract as the advanced state of science may suggest and the said Commissioners may direct; and that if at any time during the continuance of the said Contract the progress of science should enable the vessels employed in the performance of the said Contract to be propelled at a much greater speed than is therein provided, the said Commissioners may if they think fit order such necessary improvements to be made, granting such compensation to the said Company as may by arbitration be determined to be due for the increased expenditure, if any, arising from the making of such improvements.

(4.) That the said Commissioners shall have full power, whenever and as often as they may deem it requisite, to survey, by any of their officers or agents, all or every the vessels employed and to be employed in the performance of the said Contract, and the hulls thereof, and the engines, machinery, furniture, tackle, apparel, stores, equipments, and the officers, engineers, and crew of every such vessel, and that the said vessels shall be opened in their hulls whenever the said officers may require; and that if any such vessel or any part thereof, or any engines, machinery, furniture, tackle, apparel, boats, stores, or equipments, shall on any such survey be declared by any of such officers or agents unseaworthy or not adapted to the service thereby contracted to be performed, or if the said Commissioners shall deem it necessary or expedient that any alteration or improvement shall be made therein or in any part thereof in order to keep pace with the more advanced state of science, every vessel which shall be disapproved of, or in which such deficiency, defect, or want of improvement shall appear, shall be deemed inefficient for any service thereby contracted to be performed, and shall not be employed again in the conveyance of Her Majesty's Mails until such defect or deficiency shall have been repaired or supplied, or the alterations and improvements, as the case may be, shall have been made to the satisfaction of the said Commissioners, and that if employed before such defect or deficiency shall have been supplied, or such alterations or improvements as the case may be shall have been made to the satisfaction of the said Commissioners, the said Company shall forfeit and pay to Her Majesty, Her heirs and successors, the sum of 500 *l.*

2. Except as hereinafter provided, the rights and obligations of the Postmaster General and the said Company respectively, under the said Articles of Agreement of the 1st day of January 1853, shall henceforth be the same in all respects as if the provisions thereof hereinbefore set forth and numbered 1 to 4 inclusive had been omitted therefrom.

3. Except as hereinafter provided, Her Majesty's Postmaster General hereby releases the said Company from the obligation of those parts of the said Articles of Agreement of the 7th day of July 1854, which provide—

(1.) That the vessels, engines, equipments, engineers, officers, and crew employed in and about the services therein mentioned shall be subject in the first instance, and from time to time, and at all times afterwards, to the approval of the said Commissioners, and of such other persons as shall at any time or times, or from time to time, have authority under the said Commissioners to inspect and examine the same.

(2.) That the said Company shall, previously to any vessel being built for or which is intended to be employed in the performance of the said Contract, submit the designs, plans, and sections of each and every of such vessels to the said Commissioners, and be bound to adopt such fittings, scantling, and such dispositions of hatchways as the said Commissioners shall declare in writing to be necessary for carrying and firing the armament in the said Articles of Agreement in that behalf mentioned.

(3.) That the said Company shall and will, from time to time and at all times during the continuance of this contract, make such alterations or improvements in the construction, equipments, and machinery of the vessels which shall be used in the performance of the said contract as the advanced state of science may suggest and the said Commissioners may direct, and that if at any time during the continuance of the said Contract, the progress of science should enable the vessels employed in the performance of the said Contract to be propelled at a much greater speed than thereinbefore provided, the said Commissioners may (if they think fit) order such necessary improvements to be made, granting such compensation to the said Company as may by arbitration be determined to be due for the increased expenditure, if any, arising from the making of such improvements.

(4.) That the said Commissioners shall have full power, whenever and as often as they may deem it requisite, to survey, by any of their officers or agents, all or every the vessels employed and to be employed in the performance of the said Contract, and the hulls thereof and the engines, machinery, furniture, tackle, apparel, stores, equipments, and the officers, engineers, and crew of every such vessel, the said vessels to be opened in their hulls whenever the said officers may require; and if any such vessels or any part thereof, or any engines, machinery, furniture, tackle, apparel, boats, stores, or equipments, shall on any such survey be declared by any of such officers or agents unseaworthy or not adapted to the service thereby contracted to be performed, or if the said Commissioners shall deem it necessary or expedient that any alteration or improvement shall be made therein or any part thereof in order to keep pace with the more advanced state of science, every vessel which shall be disapproved of, or in which such deficiency, defect, or want of improvement shall appear, shall be deemed inefficient for any service thereby contracted to be performed, and shall not be employed again in the conveyance of Her Majesty's Mails until such defect or deficiency shall have been repaired or supplied or the alterations or improvements, as the case may be, shall have been made to the satisfaction of the said Commissioners, and if employed before such defect or deficiency shall have been supplied, or such alterations or improvements, as the case may be, shall have been made to the satisfaction of the said Commissioners, the said Company shall forfeit and pay to Her Majesty, Her heirs and successors, the sum of 500 *l.*

4. Except as hereinafter provided, the rights and obligations of the Postmaster General and the said Company respectively, under the said Articles of Agreement of the 7th day of July 1854, shall henceforth be the same in all respects as if the provisions thereof hereinbefore set forth and numbered 1 to 4 inclusive had been omitted therefrom.

5. Except as hereinafter provided, Her Majesty's Postmaster General hereby releases the said Company from the obligation of those parts of the said Articles of Agreement of the 16th day of April 1861, which provide—

(1.) That the vessels, engines, equipments, officers, engineers, and crew employed in or about the services therein mentioned shall be in all respects subject to the approval of the said Postmaster General, or of such other person or persons as he shall at any time or times, or from time to time, authorize to inspect and examine the same.

(2.) That the said Company shall, if required, submit the designs, plans, and sections of each vessel to be employed in the performance of the said contract to the said Postmaster General.

(3.) That the said Postmaster General shall have full power, whenever and as often as he may deem it requisite, to survey, by any of his officers or agents, all or any of the vessels employed and to be employed in the performance of the said Agreement, and the hulls thereof, and the engines, machinery, furniture, tackle, apparel, stores, equipments, and the officers, engineers, and crew of every such vessel, and that for the purposes aforesaid the said vessels shall (if necessary) be opened in their hulls whenever the said officers may require; and if any such vessels, or any part thereof, or any engines, machinery, furniture, tackle, apparel, boats, stores, or equipments, shall on any such survey be declared by any of such officers or agents unseaworthy, or not adapted to the service thereby agreed to be performed, every vessel which shall be disapproved of, or in which such deficiency or defect shall appear, shall be deemed inefficient for any service thereby agreed to be performed, and shall not be employed again in the conveyance of Her Majesty's mails, until such defect or deficiency shall have been repaired or supplied to the satisfaction of the said Postmaster General.

6. Except as hereinafter provided, the rights and obligations of the Postmaster General and the said Company respectively, under the said Articles of Agreement of the 16th day of April 1861, shall henceforth be the same in all respects as if the provisions thereof hereinbefore set forth and numbered 1 to 3 inclusive were omitted therefrom.

7. Her Majesty's Postmaster General hereby releases the said Company from the obligation of those parts of the said Articles of Agreement of the 17th day of November 1865, which provide—

(1.) That the vessels, engines, equipments, officers, engineers, and crew shall be subject, in the first instance, and from time to time, and at all times afterwards to the approval of the Postmaster General, or of such other person or persons as he shall at any time or times authorise to inspect and examine the same.

(2.) That the Company shall (if required by the Postmaster General) submit the designs, plans, and sections of every vessel intended to be employed in the performance of the said Agreement to the Postmaster General, and be bound to adopt such fittings and scantlings as he or the Lords Commissioners for executing the office of Lord High Admiral of the United Kingdom of Great Britain and Ireland shall consider suitable and requisite, and that no vessel shall be employed under the said Agreement until it and its machinery shall have been previously tried under weigh and finally approved as aforesaid.

(3.) That the Postmaster General shall have full power, whenever and as often as he may deem it requisite, to survey, by any of his officers or agents, all or any of the vessels employed and to be employed in the performance of the said Agreement, and the hulls thereof, and the engines, machinery, furniture, tackle, apparel, stores, equipments, and the officers, engineers, and crew of every such vessel; and any defect or deficiency that may be discovered on any such survey shall be forthwith repaired or supplied by the Company, and that for the purposes aforesaid the said vessels shall, if necessary, be opened in their hulls whenever the said officers may require; and if any of such vessels, or any part thereof, or any engines, machinery, furniture, tackle, apparel, boats, stores, or equipments, shall on any such survey be declared by any of such officers or agents unseaworthy, or not adopted to the service thereby agreed to be performed, every vessel which shall be disapproved of, or in which such deficiency or defect shall

appear

appear, shall be deemed inefficient for any service thereby agreed to be performed, and shall not be again employed in the conveyance of mails, until such defect or deficiency has been repaired or supplied to the satisfaction of the Postmaster General.

8. Except as hereinafter provided, the rights and obligations of the Postmaster General and the said Company respectively, under the said Articles of Agreement of the 17th day of November 1865, shall henceforth be the same in all respects as if the provisions hereinbefore set forth and numbered 1 to 3 inclusive were omitted therefrom.

9. If the said Company shall fail to deliver Her Majesty's mails at any port at which the same ought to be delivered in pursuance of any of the two firstly hereinbefore recited contracts for 24 hours or more after the time at which the same ought to be delivered according to the provisions of such contract which shall for the time being be in force, the time, exclusive of stoppages in respect of both the said contracts until further altered as in the said contracts respectively provided, to be that hereinafter specified and shown, so far as regards the several ports hereinafter named: that is to say, between Southampton and Alexandria 310 hours, between Marseilles and Alexandria 155 hours, between Suez and Calcutta 499 hours, between Sandheads and Suez 488 hours, between Bombay and Hong Kong 413 hours, between Hong Kong and Shanghai 84 hours, and between Suez and Bombay 312 hours, from the expiration of which several periods of hours respectively the said period of 24 hours shall in each case commence, then and in every such case the said Company shall forfeit and pay to Her Majesty, Her heirs and successors, the sum of 50 *l.* for every complete period of 24 hours during which the delivery of such mails shall be delayed beyond the time at which the same ought to be delivered as aforesaid; provided always, that the payment of any such penalty as aforesaid shall not be enforced against the said Company if it be shown by them to the satisfaction of the Postmaster General that the delay has arisen from causes over which they, the said Company, had not, and could not have had, any control.

10. If the said Company shall deliver Her Majesty's mails at any port at which the same ought to be delivered in pursuance of any of the hereinbefore recited contracts 24 hours or more before the time at which the Company is bound to deliver the same according to the provisions of such contract which shall for the time being be in force, such time to be at present as in the last preceding paragraph provided, then and in every such case Her Majesty's Postmaster General shall pay to the said Company a premium of 25 *l.* for every complete period of 24 hours by which the delivery of such mails shall have been accelerated as aforesaid.

11. Provided always, and it is hereby declared, that the extra time allowed in any of the hereinbefore recited contracts during the seasons of the south-west and north-east monsoons, shall be taken into account in all questions relating to penalties, but shall not be taken into account in any question relating to premiums.

12. If Her Majesty's Postmaster General shall consider any of the Company's vessels unfit for the conveyance of mails in pursuance of any of the hereinbefore recited contracts, he may, by writing under his hand, or under the hand of the secretary, or of any of his assistant secretaries for the time being, require the said Company to show cause why such vessel should not be withdrawn from the aforesaid service, and unless within six weeks after such requisition the said Company shall show cause to the contrary to the satisfaction of the said Postmaster General, he may at any time after the expiration of the said period of six weeks, by writing under his hand, or under the hand of his secretary, or of any of his assistant secretaries for the time being, declare such vessel to be unfit for the conveyance of mails, and after such declaration shall have been made, it shall not be lawful for the said Company to employ such vessel in the performance of any of the hereinbefore recited contracts. And, in order to determine whether the said Postmaster General shall be justified in declaring any vessel unfit for the conveyance of mails, or whether the said Company shall be able to show cause to the contrary, a special examination shall be made of the hull and machinery of any such vessel by such person or persons as may be selected for that purpose by the Postmaster General.

13. The equipments, officers, engineers and crew of each vessel when such vessel is in any British port, shall continue to be subject at all times to the inspection of the said Postmaster General, or of such other person or persons as he shall at any time or times authorize to make such inspection.

14. The following annual sums shall, as from the date of these presents, be deducted and retained by the Postmaster General from the annual sums payable to the said Company under the hereinbefore recited contracts respectively; (that is to say),—

> An annual sum, after the rate of 4,500*l.* per annum (in addition to the annual sum of 15,000*l.* deducted by virtue of the said Agreement of the 1st day of June 1861), from and out of the aggregate of the annual sums payable to the said Company under the said contracts of the 1st day of January 1853, and the 7th day of July 1854.
>
> An annual sum, after the rate of 500*l.* per annum, from and out of the annual sum payable to the said Company under the said contract of the 16th day of April 1861, or from and out of the annual sum payable to the said Company under the said contract of the 17th day of November 1865.

15. Nothing herein contained shall exempt the vessels of the Company from liability to be surveyed by or on behalf of the Board of Trade with reference to the accommodation for passengers or otherwise.

16. All and singular the provisions and stipulations of the hereinbefore recited contracts, and each of them, are hereby confirmed, except so far as the same are hereby discharged or modified.

In witness whereof the said Edward John Lord Stanley of Alderley, Her Majesty's Postmaster General, hath hereunto set his hand and seal, and the Peninsular and Oriental Steam Navigation Company have caused their Common Seal to be hereunto affixed the day and year first above written.

WEST AFRICAN MAIL CONTRACT.

RETURN to an Order of the Honourable The House of Commons,
dated 10 April 1866; *for*,

COPY "of Correspondence between Mr. *Gregory* and the Post Office with reference to the renewal of the West African Mail Contract."

General Post Office,
20 April 1866.

JOHN TILLEY,
Secretary.

— No. 1. —

Mr. *Gregory* to the Secretary of the Post Office.

20, York Buildings, Adelphi, W. C.
1 November 1865.

Sir,

I have the honour to herein enclose my Tender for the conveyance of Her Majesty's Mails from the United Kingdom to the West Coast of Africa, and in accordance to the terms of said contract.

I may add that I have had considerable knowledge and practical experience in the West African Trade, having shipping for years on that coast to and from the United Kingdom, also my personal acquaintance with every port on the coast and its people.

I have, &c.
(signed) *Lesley Alexander Gregory.*

To the Secretary of the Post Office.

Enclosure, in No. 1.

TENDER for conveying Her Majesty's Mails between the United Kingdom and the West Coast of Africa.[*]

Sir,

I hereby offer to convey Her Majesty's Mails by steam vessels between the United Kingdom and Bonny, and on the conditions marked A., once each way in each calendar month, for the sum of 22,000 *l.* per annum, and twice each way in each calendar month for the sum of 40,000 *l.* (Forty) per annum.

The port in the United Kingdom at which the mails are to be embarked and landed to be Plymouth or Falmouth.

Should the service be extended to St. Paul de Loanda, the vessels calling also at Cabenda, I will perform it once each way in each calendar month, for the sum of 2,000 *l.* per annum; and twice each way in each calendar month for the sum of 4,000 *l.* per annum.

If the 13th condition be dispensed with at any time I will agree to an abatement of 1,000 *l.* per annum if the service be monthly, and to an abatement of 2,000 *l.* per annum if it be bi-monthly.

I will agree to an abatement of 2,000 *l.* in the amount of the subsidy, on condition that the penalties for delay on the voyage, instead of being absolute, shall not be payable when

---

[*] All tenders must be addressed to the Secretary of the Post Office, with the words, "Tender for the conveyance of mails between the United Kingdom and the West Coast of Africa," in the left hand corner of the envelope. Other things equal, a preference will be given to a tender made upon this printed form, and in exact accordance therewith. Even, however, when this form is used, the parties tendering may, in a separate letter, to be forwarded with the tender, suggest for consideration any alteration in the conditions or otherwise. The Postmaster General does not engage, irrespective of other considerations, to accept the lowest tender, or even to accept any tender.

when it is proved to the satisfaction of the Postmaster General that the delay has arisen from causes beyond my control.

I will further agree to an abatement of   *l.** in the amount of the subsidy, if, in lieu of Conditions 6, 7, 8, and 9, the Postmaster General be merely invested with power to require the withdrawal from the service of any vessel shown, by experience, to be unfit for the performance of the terms of the contract.

If the contract be made for five years certain I will agree to a yearly abatement of 1,000*l.* from the subsidy, and if it be made for seven years certain I will agree to a yearly abatement of 1,400*l.*

I propose as my sureties, in the penalty of 5,000*l.*, Mr. John Dudgeon, of 10, London-street, E. C., and Mr. Timothy Harrington, of Gracechurch-street, E. C., and I refer you to the Union Bank for Mr. Dudgeon, and Messrs. Bower, Sons, & Gotton for Mr. Harrington, as persons of whom inquiry can be made as to the responsibility of such sureties.

I engage that the vessels shall be complete and ready for sea on the 24th September 1866, in failure of which I agree to pay to Her Majesty the sum of 10 *l.* for every day's delay beyond that time. And should the 6th, 7th, 8th, and 9th conditions be retained, I further engage that the hulls of the vessels shall be ready for survey on the 1st July 1866, and that the vessels shall be complete and ready for final survey on the 1st August 1866, in failure at either of which times I agree to pay to Her Majesty a like sum of 10 *l.* for every day's delay, but so that these penalties shall not in the aggregate exceed the sum of 5,000 *l.*

I agree to commence the service on the 24th September 1866, and should such service not be commenced on such day, or on the first day thereafter which the Postmaster General may fix as the day of sailing, I agree to pay to her Majesty the sum of 100 *l.* for every day from that time until the said service shall be begun by us; but so that the whole amount of penalties for such failure shall not exceed 5,000 *l.*

And I agree to execute a contract for the performance of the said service, according to the said conditions marked A.

I am, &c.
(signed) *Lesley Alexander Gregory.*
20, York Buildings, Adelphi, W. C..

The Secretary of the Post Office.

CONDITIONS.

(Referred to as marked A.)

1. THE contractors to convey, during the continuance of the contract, Her Majesty's Mails between the United Kingdom and Bonny by steam vessels, such vessels to call on the voyage in both directions at Madeira, Teneriffe, Bathurst, Sierra Leone, Cape Palmas, Cape Coast Castle, Accra, Lagos, and the Rivers Benin, Nun, and Brass. The contractors also to supply a small steamer to be employed in the conveyance of the mails between Bonny and Fernando Po; such vessel on the outward voyage to proceed direct to Fernando Po, and on the return voyage to call at the rivers Cameroons, Old Calabar, Nun, and Brass.

2. The mails must be conveyed from the United Kingdom to Bonny in 590 hours, and from Bonny to the United Kingdom in 600 hours, exclusive of stoppages, the duration of which will be fixed by the Postmaster General.

3. Under the term "Her Majesty's Mails," are comprehended all boxes, bags, or packages of letters, newspapers, books or printed papers, and all other articles transmissable by the post, without regard either to the place to which they may be addressed, or to that in which they may have originated; also all empty bags, empty boxes, and other stores and articles used or to be used in carrying on the Post Office service, which shall be sent by or to or from the Post Office.

4. A penalty of 500*l.*, to be incurred on each occasion, when the contractors fail in providing a vessel in accordance with their contract ready to put to sea at the appointed time, and a further penalty of 100*l.* for every day's failure in providing such a vessel, after such appointed time, but so that these penalties shall not in the aggregate exceed the part of the subsidy applicable to a single voyage, plus a sum of 1000*l.* The contractors also to be subject to a penalty of 50*l.* for every complete period of 12 hours consumed on any voyage, from whatever cause arising, beyond the number of hours allowed for the voyage, but so that the total amount of the last-named penalty for delay on any one voyage shall never exceed the part of the subsidy applicable to such voyage.

5. The

---

* It is not compulsory to fill up these blanks.

5. The payment by the contractors of any penalties shall in no way prejudice the right of the Postmaster General to treat the failure, to provide a proper vessel at the appointed time, or to perform a voyage at or within the appointed period as a breach of the contract.

6. The contractors to supply, during the continuance of the contract, and to the satisfaction of the Postmaster General, a sufficient number of steam-vessels of adequate power, and in all respects suited for the performance of the service between the United Kingdom and Bonny, within the time stipulated in the tender. The steam-vessel to be employed between Bonny and Fernando Po to be in like manner suitable for the service to be performed, and to be subject to the approval of the Postmaster General.

7. The Postmaster General to have power to require that the vessels to be used for the purposes of the contract shall be built on plans previously approved of by the Lords of the Admiralty.

8. The vessels to be always supplied with all necessary and proper machinery, engines, apparel, furniture, stores, tackle, boats, fuel, lamps, oil, tallow, provisions, anchors, cables, fire-pumps, and other proper means for extinguishing fire, lightning conductors, charts, chronometers, proper nautical instruments, and whatsoever else may be necessary for equipping the said vessels, and rendering them constantly efficient for the service to be performed. The vessels to be manned by legally qualified and competent officers, and a sufficient crew of engineers, able seamen, and other men.

9. The vessels to be subject at all times to survey by officers in the employment of the Admiralty or Post Office, and any defect discovered on such survey to be immediately made good by the contractors; failing which, the vessel to be considered unfit for use, and the contractors to become liable to the penalties named in the 4th condition. The survey to extend not only to the vessels themselves, but also to the officers, engineers, crew, machinery, and every thing which the contractors are bound to provide.

10. The days and hours of departure, and arrival at each port, to be fixed by the Postmaster General, and to be subject to alteration from time to time by him on a notice to the contractors of three months. The Postmaster General also to have power, by an order to the commander, to delay the departure of any vessel from any port for a period not exceeding 24 hours, and to delegate this power to any person to whom he may think fit to entrust it.

11. On giving reasonable notice to the contractors, the Postmaster General to be at liberty otherwise to modify the service to be performed; as, for example, to increase or decrease the frequency of the conveyance of mails between any of the ports, or to extend the conveyance of mails to other ports, or to discontinue the conveyance of mails to any port. The amount to be paid or deducted for any alteration to be settled by agreement, or, failing that, by arbitration in the usual manner.

12. The contractors to provide, to the satisfaction of the Postmaster General, a separate and convenient place of deposit for the mails on board each vessel.

13. Proper accommodation and mess to be provided for an officer of the Royal Navy in charge of the mails, and also, if required, for his servant.

14. At each port, where the mails are to be delivered or received, the officer having charge of them shall, whenever he may deem it necessary, be conveyed to and from the shore with or without the mails (as he may desire) in a suitable boat of not less than four oars, to be furnished with effectual covering for the mails, and to be properly manned and equipped.

15. The contractors and all commanding and other officers of the vessels which may be employed in the performance of the contract, and all agents, seamen, and servants of the contractors, shall, at all times, during the continuance of the contract, punctually attend to the orders of the Postmaster General, or of any of his officers or agents, as to the mode, time, and place of embarking and disembarking mails.

16. Should the Postmaster General at any time deem it expedient to place the mails, or any part thereof, in the care of the commander of any vessel, such commander shall take charge of them and be responsible for their due receipt and delivery. The commander shall also make the usual Post Office declaration, and furnish such journal returns and other information, and perform such other services as the Postmaster General or his officers may from time to time require.

17. Except such letters as are not required by law to pass through the Post Office, the contractors not to receive or permit to be received for conveyance on board any of the vessels employed under the contract any letters other than those contained in Her Majesty's mails. No mails must be conveyed, on behalf of any colony or foreign country, without permission of Her Majesty's Postmaster General, and the whole postage of every mail shall under all circumstances be at his disposal.

18. Every vessel which may have started, or which should have started before the termination of the contract, must complete its voyage in like manner as if the contract remained in force.

19. The

19. The contractors, when so required, to be bound to convey from any one port of departure or call to any other such port any number of Government passengers, not exceeding eight of the first class, with their wives, children, and servants, two of the second class, with their wives and children, and four of the third class; such passengers, with their families to be treated in no respect, whether as regards food, cabin or other accommodation, or aught else, in a way inferior to that of ordinary passengers of the same class, or that required by the Regulations of Her Majesty's Transport Service. The messing of the first and second class Government passengers to include each day an imperial pint of good sound bottled or draught ale or beer, and that of the first class, in addition, an imperial pint of good foreign wine, either port or white. The several classes of passengers to mess in separate places. Medical attendance, medicine, and medical comforts to be provided, as also mess utensils and fittings, cooking utensils, articles for table use and mess places, fuel, lights, requisite articles of bedding, and all other necessaries. Third class passengers to have hammocks or bunks (subject to the approval of the naval authorities) placed between decks.

20. The passage money for Government passengers or their families to be the same as that charged by the contractors for ordinary passengers of a similar kind, and to include all the requisites specified in the 19th condition, and the freight of baggage according to Government scale. Whenever any alterations of rates for ordinary passengers may be made, the Postmaster General and the Lords Commissioners of the Admiralty to be immediately apprised of such alterations.

21. Returns of the embarkation and disembarkation of all Government passengers to be furnished to the Director of Transport Services immediately after the departure and arrival of each vessel.

22. Payments for passage money of Government passengers to be applied for by invoices, according to a form to be obtained from the office of the Director of Transport Services, and to be made upon the production to the Director of the orders for the passages, together with a certificate, under the hand of the commanding officer, specifying the number of the third class passengers (men, women, and children) conveyed, with the ages and sexes of the latter, and stating the periods during which these have been regularly supplied while on board with provisions, and also of a certificate, under the hand of each first and second class passenger, of his or her having been landed at the place of destination, and of having been properly accommodated and messed during the voyage, and specifying the dates from and to which they were so messed, computed from the first to the last dinner-meal.

23. The passage money for the wives and families of commissioned and civil officers when not ordered to be conveyed at the public expense, to be paid to the contractors by the officers themselves.

24. In all cases where an officer in the civil, naval, or military service of Her Majesty, who may not be entitled to a passage at the public expense, shall require a passage on board any of the vessels employed in the performance of the contract, the contractors to be bound to provide such passage in preference to private passengers, and to charge no higher rate for such passage than is chargeable for passengers entitled to a passage at the public expense.

25. The contractors to receive on board each of the vessels employed in the performance of the contract, and to convey, on behalf of the Admiralty, without charge, any small packages which may be ordered for conveyance, containing astronomical instruments, charts, wearing apparel, medicines, or other articles; and also (on receiving from the Postmaster General, or his officers or agents, or from the British naval officer in command of the station two day's previous notice), to receive on board any naval or other stores not exceeding 10 tons weight, or 15 tons of 40 cubic feet each in measurement, at any one time, in any one vessel; and to convey and deliver such stores at the lowest rate of freight charged by the contractors for private goods, immediate notice being given to the Lords Commissioners of the Admiralty of any alteration in such rate of freight. The contractors to be in all cases responsible for the custody and safe and speedy delivery of the packages and stores.

26. The contractors to make any arrangements which may be required relative to quarantine.

27. Except where otherwise specified, none of the duties enumerated in the foregoing conditions to give the contractors any claim to remuneration beyond the general subsidy.

28. Every sum of money forfeited by the contractors to be considered as stipulated or ascertained or liquidated damages, and to be payable, whether any damage shall or shall not have been sustained by reason of the breach for which the penalty may be levied. The amount to be deducted by the Postmaster General out of any moneys then payable or which may thereafter become payable to the contractors, or, at his discretion, the payment thereof may be enforced with full costs of suit.

29. The contract to continue in force until the expiration of a 24 calendar months' notice to be given in writing at any time by either party.

30. The contract will not be binding until it has lain upon the table of the House of Commons for one month without disapproval, unless previous to the lapse of that period it has been approved of by a resolution of the House.

31. Subject to deductions for penalties or otherwise, payments to be made quarterly at the General Post Office, out of moneys to be provided by Parliament.

32. All notices which the Postmaster General, or any of his officers or agents, are authorised to give either to be delivered to the commander of any vessel of the contractors, or to any officer or agent of the contractors in charge of any such vessel or to be left at the office or last known place of business of the contractors.

33. The contractors not to assign, underlet, or dispose of the contract, or any part thereof, without the consent, in writing, of the Postmaster General.

34. In case of the breach of the 33rd condition, or in case of a great or habitual breach of the contract of any other kind, the Postmaster General to have power, and that without previous notice, to terminate the contract; such termination not to give the contractors any claim to compensation.

35. In pursuance of the provisions of the Act 22 Geo. 3, c. 45, no Member of the House of Commons to be admitted to any share of the contract, or to any benefit arising therefrom.

36. For the due fulfilment of the contract the contractors to enter into a bond with two responsible sureties, to be named in their tenders, in the penalty of 5,000*l.*, such penalty to be considered and recoverable as liquidated damages.

37. Should any dispute arise respecting the interpretation of any part of the contract to be framed on the basis of these conditions, the same to be settled by arbitration in the usual manner, and a submission to arbitration may be made a rule of Court.

Mr. *F. Hill* to Mr. *Gregory*.

(No. 87,271.)

Sir, General Post Office, 2 November 1865.

In acknowledging the receipt of your letter of the 1st instant, enclosing a tender for the conveyance of mails between the United Kingdom and the West Coast of Africa, I have to request that you will be good enough to refer me to some person who may be able to satisfy the Postmaster General as to your ability to perform that service in an efficient and satisfactory manner in the event of your tender being accepted.

I am, &c.
L. A. Gregory, Esq. (signed) *F. Hill.*

— No. 3. —

Mr. *Gregory* to Mr. *F. Hill*.

(In reply to Letter numbered 87,271.)

Offices, 20, York Buildings, Adelphi, W.C.
Sir, 3 November 1865.

I have the honour to acknowledge the receipt of your letter of the 2nd instant (numbered as above) relative to my "ability," in reference to my carrying out the West African Royal Mail Contract, for which I have tendered.

In reply, I beg leave to refer you to Messrs. James Hartley & Co., of Leadenhall-street, City, E.C., Directors of the National Bank of Ireland in London.

I have, &c.
F. Hill, Esq., Secretary, (signed) *Lesley Alexander Gregory.*
General Post Office.

— No. 4. —

Mr. *Gregory* to Mr. *F. Hill.*

24 November 1865.

Sir,

WITH reference to the conversation I had with you relative to the withdrawal of my present sureties for the West African Mail Contract, I now beg leave to submit to you the following gentlemen as my bondsmen: viz.

Mountjoy Pearse, Esq., Iron Ship Builder, Stockton-on-Tees, and
George Fossick, Esq., Engineer, Stockton-on-Tees,

both of whom refer you to their bankers, Messrs. Barclay, Bevan & Co., of Lombard-street, E.C. I will feel obliged if you will kindly substitute these two names in place of Messrs. Dudgeon & Harrington.

I have, &c.
(signed) *Lesley A. Gregory.*

F. Hill, Esq.,
General Post Office.

— No. 5. —

Mr. *Gregory* to Mr. *F. Hill.*

20, York Buildings, Adelphi, W.C.
1 December 1865.

Sir,

REFERRING to the conversations I had on Tuesday and Wednesday last with a gentleman of your office upon the subject of my tender for the West African Mail Contract, and my reference to Messrs. James Hartley & Co., I would remark that I considered when invited by your letter of 2d instant to give a reference that in naming said firm, and satisfying them of my ability to carry out the contract, if obtained, I had conformed to the requirements usual in such cases, and having regard to the fact that upon my having given said firm proof of my financial power to carry out the transaction, they wrote to your Department to the effect that they had assured themselves I was perfectly able to carry out the contract, if obtained, efficiently and to the satisfaction of Her Majesty's Government.

Feeling that your second letter to Messrs. Hartley and Co., asking a categorical reply to your questions, and their answer places me in somewhat of a peculiar position, I feel bound to state that having entered upon negotiations for the present contract upon legitimate grounds alone, I had formed my plans for its being carried out in an efficient and comprehensive manner, and I may state, as a matter of fact, that in said arrangements personal considerations may be made quite a matter of secondary importance.

I mentioned to the gentleman above alluded to that I had made arrangements with first-class builders and engineers to build ships specially adapted for the service, according to the election of the Post Office, for a monthly or bi-monthly service; also that I had arranged with the firm of Joseph Tucke & Co., Limited, of 17, Old Broad-street, a house of high respectability and position, and whose reference is the National Bank, for the necessary capital to work the line, in the event of my obtaining the contract.

My bondsmen, I presume, are perfectly satisfactory.

You will easily understand my anxiety to be enlightened upon the subject of this contract, as the time which has already elapsed will have a material effect upon my interests as regards the building of the ships for the service in the event of my obtaining the same.

I have, &c.
(signed) *Lesley A. Gregory.*

F. Hill, Esq., Secretary,
General Post Office.

Vessels to be equipped and manned and subject to approval.

2. That the vessels to be employed under this Agreement shall be always furnished with all necessary and proper machinery engines apparel furniture stores tackle boats fuel lamps oil tallow provisions anchors cables fire-pumps and other proper means for extinguishing fire lightning conductors charts chronometers nautical instruments and whatsoever else may be requisite for equipping the said vessels and rendering them constantly efficient for the service hereby agreed to be performed and also manned and provided with competent officers with appropriate certificates granted pursuant to the Act or Acts of Parliament in force for the time being relative to the granting certificates to officers in the Merchant Service and with a sufficient number of efficient engineers and a

sufficient crew of able seamen and other men to be in all respects as to vessels engines equipment officers engineers and crew subject in the first instance and from time to time and at all times afterwards to the approval of the Postmaster General or of such other person or persons as he shall at any time or times or from time to time authorize to inspect and examine the same And the Company shall (if required by the Postmaster General) submit the designs plans and sections of every vessel intended to be employed in the performance of this Agreement to the Postmaster General and be bound to adopt such fittings and scantlings as he or the Lords Commissioners for executing the office of Lord High Admiral of the United Kingdom of Great Britain and Ireland shall consider suitable and requisite and no vessel shall be employed under this Agreement until it and its machinery shall have been previously tried under weigh and finally approved as aforesaid.

Times of starting.

3. That one of such vessels so approved equipped and manned as aforesaid shall once in every calendar month on such days and at such hours as shall be fixed by the Postmaster General upon or before the day hereinafter appointed for the commencement of this Agreement (until and unless any other days or hours shall under the proviso herein in that behalf contained be substituted instead thereof) and immediately after the mails are embarked put to sea from the ports of Liverpool and Fernando Po and the Company shall convey in such vessels to and from and cause to be delivered and received at each and every of the ports or places hereinbefore mentioned all such mails as shall or may be tendered or delivered to or received by the Company or any of their agents officers or servants by or from the Postmaster General or any of his officers or agents.

Postmaster General may delay starting for twenty-four hours.

4. That should it be deemed by the Postmaster General his officers or agents requisite for the public service that any vessel to be employed under this agreement should at any time or times delay her departure from any port from which the mails are to be conveyed under this Agreement beyond the period appointed for her departure therefrom the Postmaster General his officers or agents shall have power to order such delay (not however exceeding 24 hours) by letter addressed by him or them to the master of any such vessel or person acting as such and which shall be deemed a sufficient authority for such detention.

Duration of voyage.

5. That the Company shall convey the said mails from Liverpool to Fernando Po as aforesaid and back from Fernando Po to Liverpool as aforesaid in 1228 hours (which period of 1228 hours is exclusive of all stoppages for the purpose of the delivery and reception of mails the duration of which will be from time to time fixed by the Postmaster General) And it is hereby agreed that if the Company shall fail to convey the said mails from Liverpool to Fernando Po and back from Fernando Po to Liverpool in 1228 hours then and in such case and so often as the same shall happen the Company shall forfeit and pay to Her Majesty Her heirs and successors the sum of 50 *l.* for every complete period of 12 hours consumed on the voyage beyond the period hereinbefore specified Provided always that the full amount of such sums payable on any one voyage shall never exceed the portion of the subsidy hereinafter agreed to be paid by the Postmaster General applicable to such voyage.

Penalty for delay.

Postmaster General may alter times of departure and arrival.

6. That if at any time or times the Postmaster General shall desire to alter the particular days times or hours of departure from and arrival at any of the ports or places to or from which Her Majesty's mails are to be conveyed under this Agreement he shall be at liberty so to do on giving three calendar months previous notice in writing of such his desire to the Company at their offices in London.

And may make certain modifications in the services on terms.

7. That if at any time or times the Postmaster General shall desire otherwise to modify the services hereby agreed to be performed as for example to increase or decrease the frequency of the conveyance of mails between any of the ports or places to or from which such mails are to be conveyed under this Agreement or to extend the conveyance of such mails to any other ports or places not specified in this Agreement or to discontinue the conveyance of mails to any port he shall be at liberty so to do on giving reasonable notice to the Company and on paying to them for such increased or extended services such further consideration

consideration and in the event of the services hereby agreed to be performed being reduced on his paying to them such reduced consideration as may be mutually agreed upon between the Company and the Postmaster General or failing such mutual agreement by arbitration in the manner hereinafter provided.

Such alterations to be binding on the Company.

8. That the particular days times and hours of departure from and arrival at any such ports or places or other services if any which may be appointed by any such alteration under the two preceding clauses shall for the time being be deemed to be the days times and hours of departure and arrival of mails and other services under this Agreement and shall be observed and kept by the Company accordingly.

Penalties for failing to provide vessels.

9. That if the Company fail to provide an efficient vessel at Liverpool or Fernando Po in accordance with the terms of this Agreement ready to put to sea on and at the appointed day and hour then and so often as the same shall happen the Company shall forfeit and pay unto Her Majesty Her heirs and successors the sum of £. 500 and also the further sum of £. 100 for every successive 24 hours which shall elapse until such vessel shall actually proceed to sea on her voyage in the performance of this Agreement Provided always that the aggregate amount of penalties to be recovered under this clause in respect of any one voyage or contemplated voyage shall not exceed by more than the sum of £. 1,000 the portion of the subsidy hereinafter agreed to be paid by the Postmaster General applicable to such voyage.

Company to receive a naval officer and servant on each vessel.

Duties of officer.

10. That the Company shall if required receive and allow to remain on board each of the vessels so to be and while employed in the performance of this Agreement and also while remaining at any port or place to or from which the mails are to be conveyed under this Agreement and with or without mails in charge an officer in Her Majesty's Navy to be appointed by the Postmaster General to take charge of the said mails and also a servant of the said officer (if required) and that every such officer shall be recognised and considered by the Company their officers agents and seamen as the agent of the Postmaster General in charge of mails and as having full authority in all cases to require a due and strict performance of this Agreement on the part of the Company their officers servants and agents and to determine so far as relates to the levying of penalties every question whenever arising relative to proceeding to sea or putting into harbour or the necessity of stopping to assist any vessel in distress or to save human life and that the decision of such officer as aforesaid shall in every case be final and binding on the Company unless the Postmaster General on appeal by the Company thinks proper to decide otherwise Provided however that the words "to determine every question" shall not confer upon such officer the power of control over the commander of the vessel conveying the said mails.

Accommodation for officer and servant to be provided.

11. That a suitable first-class cabin with appropriate bed bedding and furniture shall at the cost of the Company be provided and appropriated by them for the exclusive use and accommodation of every such naval officer and also (to the satisfaction of the Postmaster General) a proper and convenient place of deposit on board with secure lock and key for the mails and that every of the said officers shall be victualled by the Company as a chief cabin passenger without any charge either for his passage or victualling and that should any such naval officer require a servant such servant shall also be provided with a proper and suitable berth and be duly victualled by and at the cost of the Company as a fore cabin passenger without any charge being made for the same.

Also a boat to convey officer between vessel and the shore.

12. That at each port or place where the mails are to be delivered and received the officer having charge of mails shall whenever and as often as by him shall be deemed practicable or necessary be conveyed on shore and also from the shore to the vessel employed for the time being in the performance of this Agreement together with or (if such officer shall consider it requisite for the purposes of this Agreement so to do) without mails in a suitable and seaworthy boat of not less than four oars to be furnished with effectual covering for the mails and properly provided manned and equipped by the Company and that the directions of such officer shall in all cases be obeyed as to the mode time and place of landing delivering and receiving mails.

Postmaster General may require masters of vessels to take charge of mails.

13. That if the Postmaster General during the continuance of this Agreement think fit to entrust the charge and custody of the mails to the master or commander of the vessels to be employed for the time being in the performance of this Agreement and in all cases where the officer or other person appointed to have charge of the mails shall be absent the master or commander of such vessel shall (without any charge other than that herein provided to be paid to the Company) take due care of and the Company shall be responsible for the receipt safe custody and delivery of the said mails and each of such masters or commanders shall make the usual oath or declaration or declarations required or which may hereafter be required by the Postmaster General in such and similar cases and furnish such journals returns and information to and perform such services as the Postmaster General or his agents may require And every such master or commander or officer duly authorised by him having the charge of mails shall himself immediately on arrival at any of the said ports or places of any such vessel deliver all mails for such port or place into the hands of the Postmaster or other person at such port or place as the Postmaster General shall authorise to receive the same receiving in like manner all the return or other mails to be forwarded in due course.

No letters to be received on board but Her Majesty's mails.

14. That the Company shall not nor shall any of the masters of any of the vessels employed or to be employed under this Agreement receive or permit to be received on board any of the vessels employed under this Agreement any letters for conveyance other than those duly in charge of the said naval officer or other person authorised to have charge of the said mails or which are or may be privileged by law nor any mails for conveyance on behalf of any colony or foreign country without the consent of the Postmaster General And the said naval officer or other person shall report to the Postmaster General any default in these respects And in case of any such default respectively the Company shall be liable to be proceeded against for a breach of this Agreement.

Postmaster General may survey vessels.

15. That the Postmaster shall have full power whenever and as often as he may deem it requisite to survey by any of his officers or agents all or any of the vessels employed and to be employed in the performance of this Agreement and the hulls thereof and the engines machinery furniture tackle apparel stores equipments and the officers engineers and crew of every such vessel and any defect or deficiency that may be discovered on any such survey shall be forthwith repaired or supplied by the Company And that for the purposes aforesaid the said vessels shall (if necessary) be opened in their hulls whenever the said officers may require And if any of such vessels or any part thereof or any engines machinery furniture tackle apparel boats stores or equipments shall on any such survey be declared by any of such officers or agents unseaworthy or not adapted for the service hereby agreed to be performed every vessel which shall be disapproved of or in which such deficiency or defect shall appear shall be deemed insufficient for any service hereby agreed to be performed and shall not be again employed in the conveyance of mails until such defect or deficiency has been repaired or supplied to the satisfaction of the Postmaster General.

Postmaster General's orders as to the landing &c. of the mails to be attended to.

16. That the Company and all commanding and other officers of the vessels employed in the performance of this Agreement and all agents seamen and servants of the Company shall at all times punctually attend to the orders and directions of the Postmaster General his officers or agents as to the mode time and place of landing delivering and receiving mails.

Company to convey Government passengers.

17. That the Company shall when and as often as in writing they or the masters of their respective vessels are required so to do by the Postmaster General or by any officers or agents acting under his authority (such writing to specify the rank or description of the person or persons to be conveyed and the accommodation to be provided for him or them) receive provide for victual and convey to and from and between any of the ports or places to which any vessels are to proceed in the performance of this Agreement on board every or any of the vessels to be employed in the performance of this Agreement (in addition to the naval officer authorised to have charge of the said mails) any

number

number of naval military or civil officers or other persons in the service of Her Majesty hereinafter described as government contract passengers not exceeding eight in any one ship with or without their wives children and servants as first-class passengers and any number of Government contract passengers not exceeding two in any one ship with or without their wives and children as second-class passengers and any number of Government contract passengers not exceeding four in any one ship) with or without their wives and children as third-class passengers to be berthed below deck (due notice being given if practicable to the Company or their agent at the port of embarkation of all such passengers as may be required to be received provided for victualled and conveyed as aforesaid) and that whenever the Company shall convey any third-class Government contract passengers (other than those hereinbefore specially provided for) the Company shall provide them with proper accommodation below deck Provided always that the Company shall not be under any obligation to receive or convey from or out of the port of Liverpool any third-class Government passenger.

Their passage money.

18. That the passage money for all passengers to be conveyed on the requisition of the Postmaster General or any persons acting under or by his authority other than and except the naval officer in charge of mails and his servant if any shall be paid in full of all charges for mess and victualling at and after the fares and rates charged by the Company for ordinary passengers of a similar description or in cases where there is no charge to correspond at such rates as may be agreed upon between the Lords Commissioners of the Admiralty and the Company.

Their accommodation.

19. That Government contract passengers shall be treated in no respect whatever in an inferior manner to ordinary passengers of the same class and in a manner at least equal to that required by the regulations of Her Majesty's transport service the messing of the first and second class Government contract passengers shall include each day an imperial pint of good sound bottled or draught ale or beer and that of the first class in addition an imperial pint of good foreign wine either port or white and the victualling of the third-class Government contract passengers shall be in accordance with the regulations of Her Majesty's transport service. The several classes of Government contract passengers shall mess in separate places and they shall be provided free of extra charge with medical attendance medicine and medical comforts and with mess utensils and fittings cooking utensils articles for table use mess places cabins and berths fuel lights requisite articles of bedding and all other necessaries and all third-class Government contract passengers shall have hammocks or bunks subject to the approval of the naval authorities placed between decks.

What passage money is to include.

20. That the passage money for Government contract passengers and their families shall include everything specified in the last preceding Article of this Agreement and the freight of baggage according to Government scale and returns of the embarkation and disembarkation of all Government contract passengers shall be furnished to the Director of Transport Services immediately after the departure and arrival of each vessel.

Company to give notice of alterations of their ordinary passenger fares.

21. That whenever any alterations of rates for ordinary passengers shall be made by the said Company notice of such alterations shall forthwith be given by the Company to the Postmaster General and to the Lords Commissioners of the Admiralty.

Passage money how paid.

22. That payments for passage money of Government contract passengers shall be applied for by invoices (according to a form to be obtained from the office of the Director of Transport Services) to be lodged in the office of the Accountant General of the Navy by the said Company or their successors and upon the production to such director of the orders for the passages together with a certificate under the hand of the commanding officer specifying the number of the third-class passengers men women and children conveyed with the ages and sexes of such children and stating the periods during which such third-class passengers have been regularly supplied while on board with provisions and also of a certificate under the hand of each first and second class passenger of his or her having been landed at the place of destination and of having been properly accommodated and messed during the voyage and specifying the dates inclusive

inclusive from and to which they were so messed (computed from the first to the last dinner meal) and upon the lodging of such invoices as aforesaid bills for the amounts which after examination shall be found to be due thereon shall be made out to the said Company or their successors payable by Her Majesty's Paymaster General in three days from and after the respective dates thereof.

Passage money of families of commissioned and civil officers.

23. That the passage money for the families and wives of commissioned and civil officers or other persons when not ordered to be conveyed at the public expense shall be paid to the Company by the officers themselves at the rates charged to ordinary passengers of a similar description and in all cases where an officer in the civil naval or military service of Her Majesty who may not be entitled to a passage at the public expense shall require a passage on board any of the vessels employed in the performance of this Agreement the Company shall be bound to provide such passage in preference to private passengers and shall not charge any higher rate for such passage than that which they shall be then charging to ordinary passengers of a similar description.

Cattle to be conveyed inter colonially whenever required by the Lords Commissioners of the Admiralty.

24. That the Company shall and will whenever and so often as directed so to do by the Lords Commissioners of the Admiralty or by the proper authorities at the ports hereinafter mentioned receive and take on board each and every or any and either of the said vessels and convey to from or between all or any of the said ports or places all such cattle (not exceeding the numbers stated against the said places respectively) as may from time to time or at any time or times during the continuance of this contract be ordered to be conveyed together with all necessary forage for their subsistence during the voyage (the forage to be provided by and at the expense of Her Majesty the remains if any being returned into the charge of the officer to whom the cattle shall have been consigned) and that the Company shall find and provide at their own proper costs and charges a full and sufficient supply of water for the said cattle and shall also use their utmost endeavours both for the due care of the said cattle during the passage and for the delivery of the said cattle into the charge of the proper receiving officer or officers at the ports or places to which they may be consigned In consideration of which services the Company shall receive payment from the said Commissioners for each animal actually shipped at and after the rates per head following that is to say

For any Number of Cattle not exceeding 30 in any one Vessel actually Shipped for Conveyance between	Rate per Head without Forage.		
	£.	s.	d.
1. Sierra Leone and Cape Coast Castle	2	1	8
2. Lagos and Sierra Leone	3	2	6
3. Lagos and Cape Coast Castle	1	–	10

For any Number of Cattle not exceeding 20 in any one Vessel actually Shipped for Conveyance between	Rate per Head without Forage.		
	£.	s.	d.
4. Teneriffe and Bathurst	3	2	6
5. Sierra Leone and Bathurst	2	1	8

Company to convey Admiralty stores.

25. That the Company will receive on board of every such vessel any number of small packages containing astronomical instruments charts wearing apparel medicines or other articles and convey and deliver the same to from or between the said ports or places to from or between which the said mails are to be conveyed when and as often as directed by the Postmaster General his officers or agents or by the British naval officer in command of the station or at any port where the vessel may touch free from all costs and charges and also will receive on board of every such vessel and convey and deliver to from and between all or any of the said ports or places (on receiving from the Postmaster General his officers or agents or from the British naval officer in command of the station two days' previous notice) any naval or other stores not exceeding 10 tons in weight

weight or 15 tons of 40 cubic feet each in measurement at any one time in any one vessel at the lowest rate of freight charged by the Company for private goods of a similar description excepting for provisions and other victualling stores which will be paid for at such rates as may from time to time be agreed upon and that the Company shall in all cases be strictly responsible for the due custody and safe delivery of the said packages articles and stores and shall give immediate notice to the said Commissioners of any alteration in the rate of freight charged by them for private goods.

Penalties to be considered as ascertained damages and may be retained by the Postmaster General.

26. That all and every the sums of money hereby stipulated to be paid by the Company unto Her Majesty Her heirs and successors shall be considered as stipulated or ascertained damages whether any damage or loss have or have not been sustained and shall and may be retained by the Postmaster General out of any monies payable or which may thereafter become payable to the Company or the payment may be enforced as a debt due to Her Majesty with full costs of suit at the discretion of the Postmaster General Provided however that the payment by the Company of any sums of money by way of penalties shall not in any manner prejudice the right of the Postmaster General to treat the failure if any on the part of the Company to provide a proper vessel or to perform any voyage at or within the times hereinbefore respectively mentioned in that behalf as a breach of this Agreement.

Subsidy.

27. And in consideration of the due and faithful performance by the Company of all the services hereby agreed to be by them performed the said Postmaster General doth hereby covenant and agree that there shall be paid to the Company (out of such aids or supplies as may be from time to time provided and appropriated by Parliament for the purpose) so long as they perform the voyages between Liverpool and Fernando Po and the other services herein contracted to be performed in the manner and with such vessels as herein respectively mentioned an annual subsidy or sum of money after the rate of 20,000 *l.* per annum in equal quarterly payments on the 1st day of January the 1st day of April the 1st day of July and the 1st day of October in each year which payments shall accrue due from day to day and be received by the Company as full compensation for all costs and expenses which they may incur or be put unto by reason or on account of all and singular the services hereby contracted to be performed subject however to the abatement of any sums of money in respect of forfeitures which the Company may have incurred as herein provided.

And it is hereby further agreed and declared between and by the said parties to these presents

Disputes to be referred to arbitration.

28. That if at any time during the continuance of this Agreement or after the determination thereof any dispute shall arise between the parties hereto or their successors respectively concerning any breach or alleged breach by or on the part of the Company of this Agreement or the sufficiency of any such breach to justify the Postmaster General in putting an end to the same or concerning the amount of consideration to be paid to or allowed by the Company as the case may be for such altered services as hereinbefore in that behalf mentioned or concerning any of the covenants matters or things hereinbefore contained or in anywise relating thereto and notwithstanding the power herein contained to determine this Agreement and any execution or attempted execution of such power such dispute shall be referred to two arbitrators one to be chosen from time to time by the Postmaster General and the other by the Company and if such arbitrators should at any time or times not agree in the matter or question referred to them then such question in difference shall be referred by them to an umpire to be chosen by such arbitrators before they proceed with the reference to them and the joint and concurrent award of the said arbitrators or the separate award of the said umpire when the said arbitrators cannot agree shall be binding and conclusive upon both parties.

All postage to be at the disposal of the Postmaster General.

29. That the whole postage of all mails conveyed by the vessels employed under this Agreement shall belong to Her Majesty and shall be at the disposal of Her Majesty's Postmaster General.

Commencement and duration of contract.

30. That this Agreement shall commence on the 26th day of September 1866 and continue in force for six years and then determine in case a 24 calendar months' notice in writing of an intention to such effect shall have been given by either party to the other and if no such notice shall be given this Agreement shall continue still in force until the expiration of some such notice and thereupon determine but any such determination of this Agreement as aforesaid shall be without prejudice to any right of action or other proceeding which shall then have accrued to either party for any breach thereof.

Penalties for failing to commence service on 26th September 1866.

31. That in case the Company shall fail to commence the performance of the services herein agreed to be by them performed on the 26th day of September 1866 then and in such case the Company shall forfeit and pay unto Her Majesty Her heirs and successors the sum of 100 *l.* for every successive period of 24 hours which shall elapse after the 26th day of September 1866 until the actual and bonâ fide commencement of the performance by the Company of the services herein agreed to be by them performed Provided always the total amount of the sums to be forfeited by the Company by reason of such failure as aforesaid shall not exceed the sum of 5000 *l.*

Company not to assign &c. contract.

Postmaster General may determine contract on breach without notice.

32. That the Company shall not assign underlet or dispose of this Agreement or any part thereof without the consent of the Postmaster General signified in writing under his hand or under the hand of the Secretary or one of the Assistant Secretaries of the Post Office and that in case of the same or any part thereof being assigned underlet or otherwise disposed of or of any great or habitual breach of this Agreement or of any covenant matter or thing herein contained on the part of the Company their officers agents or servants and whether there be or be not any penalty or sum of money payable by the Company for any breach it shall be lawful for the Postmaster General if he shall think fit (and notwithstanding there may or may not have been any former breach of this contract) by writing under his hand or under the hand of the Secretary or one of the Assistant Secretaries of the Post Office to determine this Agreement without any previous notice to the Company or their agents nor shall the Company be entitled to any compensation in respect of such determination.

On determination voyages begun to be completed.

33. That if on the determination of this Agreement any vessel or vessels should have started or should start with the mails in conformity with this Agreement such voyage or voyages shall be continued and performed and the mails be delivered and received during the same as if this Agreement had remained in force with regard to any such vessels and services and with respect to such vessels and services as last aforesaid this Agreement shall be considered as having terminated when such vessels and services shall have reached their port or place of destination and been performed.

As to notices.

34. That all notices or directions which the Postmaster General his officers agents or others are hereby authorised to give to the Company their officers servants or agents other than any notice of termination of this contract may at the option of the Postmaster General his officers agents or others either be delivered to the master of any of the said vessels or other officer or agent of the Company in the charge or management of any vessel employed in the performance of this Agreement or left for the Company at their office or house of business in London or at their or any of their last known places of business or abode and any notices or directions so given or left shall be binding on the Company Provided always that any notice of termination of this contract shall be served on the Company their officers servants or agents at their office or last known office in London.

If services reduced reduced subsidy to be fixed by agreement or arbitration.

35. That in the event of the Company being allowed by the Postmaster General to continue to perform only a portion of the service there shall be paid to them such annual sum of money as shall be agreed upon by the Postmaster General and the Company and in case of their differing as to the amount such difference shall be settled by two arbitrators or an umpire to be chosen respectively as aforesaid.

Any reference to be made a rule of court.

36. That any submission to arbitration in pursuance of this Agreement shall be made a rule of any of Her Majesty's Courts of Record pursuant

to

to the statute in that case made and provided on the application of either party.

No Member of Parliament to be admitted to any interest in contract.

37. That in pursuance of the provisions contained in the Act of Parliament passed in the 22nd year of the reign of King George the 3rd intituled "An Act "for restraining any person concerned in any contract commission or agreement "made for the public service from being elected or sitting and voting as a Member "of the House of Commons" no Member of the House of Commons shall be admitted to any share or part of this Agreement or to any benefit to arise therefrom.

Contract to be laid on the Table of the House of Commons.

38. That this Agreement shall not be binding until it has lain upon the Table of the House of Commons for one month without disapproval unless it be previously approved by a resolution of the said House of Commons.

Quarantine.

39. That the Company shall undertake for themselves all arrangements relative to quarantine as connected with the due and regular performance of the conditions of this agreement.

Subsidy to be in full for all claim except where otherwise expressed.

40. That (except where otherwise specially provided) none of the services hereinbefore stipulated to be performed by the Company shall give them any claim to any further or other remuneration over and above the said subsidy so agreed to be paid to them as aforesaid.

Bond clause.

41. And for the due and faithful performance of all and singular the covenants conditions provisoes clauses articles and agreements hereinbefore contained and which on the part and behalf of the Company their officers agents or servants are or ought to be observed performed fulfilled and kept the said Company do hereby bind themselves and their successors unto Her Majesty the Queen in the sum of £5000 sterling to be paid to Her Majesty Her heirs and successors by way of stipulated or ascertained damages hereby agreed upon between the Postmaster General and the Company in case of the failure on the part of the Company in the execution of this contract or any part thereof.

In witness whereof the said Edward John Lord Stanley of Alderley Her Majesty's Postmaster General hath hereunto set his hand and seal and the said African Steam Ship Company have caused their common seal to be hereunto affixed the day and year first above written.

Signed, sealed, and delivered by the abovenamed Edward John, Lord Stanley of Alderley, Her Majesty's Postmaster General, in the presence of
W. H. Ashurst,
Solicitor to the Post Office.
Stanley of Alderley.
L.S.

The Common Seal of the African Steam Ship Company affixed by order of the Board of Directors held on the 6th July 1866, in presence of
P. D. Hadow,
Chairman.
Duncan Campbell,
Secretary.
Company's Seal.

CONTRACT for the CONVEYANCE of the WEST AFRICAN MAILS, dated 4th July 1866.

THIS Contract, which has been entered into by the Postmaster General with the African Steam Ship Company, is for the conveyance by means of efficient steam vessels of the mails between Liverpool and Fernando Po, in the Bight of Biafra, on the West Coast of Africa, *viâ* Madeira, Teneriffe, Bathurst, Sierra Leone, Monrovia, Cape Palmas, Cape Coast Castle, Accra, Jellah Coffee, Lagos, Benin, Bonny, Old Calabar, and Camerorus, the vessels calling during the fine season, that is to say, from November to April, both inclusive, in every year during which this Contract may exist, off the mouths of the Rivers Brass and Nun, for the purpose of disembarking and embarking mails.

The Contract is to take effect from the 26th day of September next, and to continue in force for six years, and then determine in case 24 months' notice has been given by either party.

The subsidy payable to the Company for the service in question is 20,000 *l.* a-year, being 10,000 *l.* a-year less than the amount now paid to the same Company (under the contract which expires on the 23d September next) for the conveyance of the West African Mails.

Geo. A. Hamilton,
Assistant Secretary.

Treasury Chambers,
17 July 1866

MAILS (WEST INDIES).

RETURN from the POST OFFICE of certain Particulars connected with the Receiving and Delivering of LETTERS carried by the ROYAL MAIL STEAM COMPANY'S VESSELS between this Country and the *West Indies*, extending from 2 March 1864 to 2 March 1866, both Days inclusive.

(*Mr. Crum-Ewing.*)

Ordered, by The House of Commons, *to be Printed,*
12 *June* 1866.

337.

Under 1 *oz.*

POST OFFICE.

RETURN to an Order of the Honourable The House of Commons,
dated 26 June 1866;—*for*,

COMPARATIVE STATEMENT "of the GROSS REVENUE, COST of MANAGEMENT, and NET REVENUE of the POST OFFICE, for each Year from 1838 to 1865 inclusive; to be made in a manner similar to that adopted in Appendix F. of the Postmaster General's Ninth Report, that is to say, calculated throughout in the mode in use when Penny Postage was established, excluding on the one hand the Cost of the Packet Service and of Stationery, and on the other hand the Produce of the Impressed Newspaper Stamp."

General Post Office,
6 July 1866.

JOHN TILLEY,
Secretary.

COMPARATIVE STATEMENT of the GROSS REVENUE, COST of MANAGEMENT, and NET REVENUE of the POST OFFICE for each Year from 1838 to 1865 inclusive; made in a manner similar to that adopted in Appendix F. of the Postmaster General's Ninth Report, that is to say, calculated throughout in the mode in use when Penny Postage was established, excluding on the one hand the Cost of the Packet Service and of Stationery, and on the other hand the Produce of the Impressed Newspaper Stamp.

[*Complete Accounts, containing the Omitted Items for the last* 12 *Years, will be found in the Postmaster General's Tenth, Eleventh, and Twelfth Annual Reports, presented to both Houses of Parliament by Command of Her Majesty.*]

(a) Namely, the Gross Receipts, after deducting the Returns for "Refused Letters," &c.

(b) Including all payments out of the Revenue in its progress to the Exchequer, except advances to the Money Order Office. Of the sums under the head "Cost of Management," 10,307 *l.* per annum is, up to 1855 inclusive, for Pensions which have no relation to the Service of the Post Office, and in the year 1856 the sum was not less than 29,310 *l.*; but of this amount 19,003 *l.* was expended in the purchase of part of the Pension settled on the Duke of Schomberg and his heirs.

(c) 1838 was the last complete year before the general reduction of postage.

(d) On the 5th December 1839, the maximum inland postage for a single letter was reduced to 4 *d.*

(e) On the 10th January 1840, the postage on all inland letters weighing not more than ½ oz. was reduced to a uniform charge of one penny.

(f) This includes a payment of 196,086 *l.* for the conveyance of mails by railway in previous years.

(g) This includes a payment of 192,975 *l.* for the conveyance of mails by railway in previous years.

(h) This includes the postage chargeable against the Census Office in the year.

(i) The Revenue and Expenditure of the North American Provinces, amounting for the last complete year to 96,164 *l.* and 71,171 *l.* respectively, no longer appear in the Accounts of this Department, except that the Accounts for 1853 include one quarter's Revenue and Expenditure for Canada.

(j) This includes a payment of 128,000 *l.* for the conveyance of mails by railway in previous years.

(k) This includes the Official Postage charged on the General Post Office and on the East India Company, which was excluded from the Return in former years.

General Post Office,
6 July 1866.

Geo. Chetwynd,
Receiver and Accountant General.

POST OFFICE.

COMPARATIVE STATEMENT of the Gross Revenue, Cost of Management, and Net Revenue of the Post Office, for each Year from 1838 to 1865 inclusive; &c.

COPY of TREASURY MINUTE, dated 13 February 1866.

READ the following Reports of the Commissioners of Audit on the Expenditure Accounts of the Revenue Departments for the financial year ended 31 March 1865, submitted to this Board, in accordance with the provisions of the Act 24 & 25 Vict. c. 93, viz. :—

(1124-66.)	Customs - - - -	Report, dated	17 January 1866.
(1044-66.)	Inland Revenue - - -	ditto -	17 January 1866.
(899-66.)	Post Office - - - -	ditto -	15 January 1866.
(1293-66.)	Non-effective Services of the three Departments	ditto -	20 January 1866.

Customs.

The Commissioners of Audit have offered no observations upon the Customs Account.

Inland Revenue.

In the Report upon the Inland Revenue Account, attention is drawn to several errors in the castings, and to an understatement of the expenditure against the Vote for Miscellaneous Expenses.

The Commissioners also refer to their observations in previous Reports respecting the practice of making certain deductions from the Gross Estimate for sums to be received from other departments, in repayment of expenses incurred for those Departments, and they notice that the practice has been continued in the Account now reported upon.

Post Office.
Packet Service.

Observations on the same subject occur in the Reports upon the Accounts of the Post Office and the Packet Service.

My Lords have appointed a Committee to inquire generally into the subject of the extra receipts of the various Departments, and they await the result of this inquiry.

Post Office.

In the Report of the Commissioners upon the Post Office Account several errors of charge are noticed.

With regard to the paragraph of the Report which alludes to the present mode of examining the details of the expenditure of the Provincial Post Offices, my Lords have only to observe that, in accordance with their directions, the Report of the Committee which they appointed to inquire into this subject was laid before the Select Committee of the House of Commons of last Session on Public Accounts, and that as no alteration in the mode of rendering the Post Office Accounts was recommended by the Committee of inquiry, they have not thought it necessary to give any other directions.

Superannuations.

The Commissioners offer no remarks upon the Accounts of the Non-effective Services of the Departments, except in regard to an erroneous charge in the Post Office Effective Account, which involves a transfer to the Account of the Non-effective Services of that Department.

Let an Abstract be prepared of the total expenditure of the Votes for the Revenue Departments for the year 1864-5, and of the savings upon the Votes, amended in accordance with the Reports of the Commissioners of Audit, and let the respective savings be surrendered in the usual manner.

Acquaint the Comptroller General of the Exchequer.

Acquaint the Paymaster General with the amount surrendered out of the Vote for Superannuations of the Revenue Departments.

Transmit copy of this Minute to the Commissioners of Customs, the Commissioners of Inland Revenue, the Postmaster General, and the Commissioners of Audit, for their information and guidance.

Let the Accounts and Reports of the Commissioners of Audit be laid before the House of Commons, in compliance with the Act 24 & 25 Vict. c. 93, together with a copy of this Minute, and of the Abstract Statement of the Expenditure.

Treasury,
13 February 1866.

HUGH C. E. CHILDERS.

COPIES of the ORIGINAL ACCOUNTS prepared by the REVENUE DEPARTMENTS, with the REPORTS of the COMMISSIONERS of AUDIT, transmitting the same to the TREASURY.

C. Macaulay.

Audit Office, Somerset House, London, W. C.,
17 January 1866.

My Lords,

In accordance with the provisions of the 24 & 25 Vict. c. 93, we have the honour to transmit herewith, for presentation to the House of Commons, a copy of the Account of the Appropriation of the Parliamentary Grant for the service of the Customs Department for the year ended the 31st of March 1865, which has been rendered to us by Mr. Dobell, the Comptroller General of the Board of Customs, and to state that we have no observations to make thereon.

12,362*l.* 18*s.* 1*d.* We learn, by a letter from the Comptroller General of the Exchequer, dated the 6th of December 1865, that the sum of 12,362*l.* 18*s.* 1*d.* has been surrendered, as the savings out of the Customs' Grant for the year 1863–4, in pursuance of your Lordships' Minute of the 13th of February 1865.

The Non effective Services of this Department having been provided for in one and the same Grant with those of the Inland Revenue and Post Office, they will, together with them, form the subject of a separate Report.

We have, &c.
(signed) *R. Vaughan Davis.*
C. Macaulay.

The Lords Commissioners of
Her Majesty's Treasury,
&c. &c. &c.

We hereby certify that the foregoing is a correct Account.

(signed) *W. H. Stephenson.*
Henry Roberts.

Inland Revenue,
27 June 1865.

We, the Commissioners for Auditing the Public Accounts, do hereby certify that the foregoing account has been examined by officers under our directions, and that, subject to the observations contained in our Report, No. 12, dated the 17th January 1866, accompanying this account, the above is a correct statement of the expenditure of the sums granted by Parliament for the charges of collection of the Inland Revenue of the year 1864-5.

Dated at the Audit Office, Somerset House, this 17th day of January 1866.

W. L. Maberly.
C. Macaulay.

Audit Office, Somerset House, London, W. C.,
17 January 1866.

My Lords,

In accordance with the provisions of the 24th & 25th Vict. c. 93, we have the honour to transmit to your Lordships, for presentation to the House of Commons, a copy of the Account of the Appropriation of the Grant for the year ended 31st March 1865, for the service of the Inland Revenue, which has been rendered to us by Mr. Hawthorne, a Chief Accountant of the Board of Inland Revenue, classified in accordance with the 1st section of the above-mentioned Act.

1. It appears by a letter addressed to us by the Comptroller General of the Exchequer
£. 66,083. 13. on the 6th December 1865, that the sum of 66,083 *l.* 13 *s.* has been duly surrendered as
the savings out of the grant for the year 1863–4, in pursuance of your Lordships' Minute
of 13th February 1865.

2. In the present Account we have to notice the following errors, arising from miscastings of the details of Expenditure under the several Heads of Service mentioned below, viz.:

"Salaries and Allowances on the Establishment in England:"

£. 607,275. 17. 1. The Total Amount is stated at 607,275 *l.* 17 *s.* 1 *d.* instead of 607,295 *l.* 17 *s.* 1 *d.*
£. 607,295. 17. 1.

"Poundage to Clerks to the Local Commissioners of Taxes:"

£. 68,368. 7. 10. The Total is stated at 68,368 *l.* 7 *s.* 10 *d.* instead of 68,358 *l.* 7 *s.* 10 *d.*
£. 68,358. 7. 10.

"Miscellaneous Expenses:"

£. 91,316. 3. 3. The Total is stated at 91,316 *l.* 3 *s.* 3 *d.* instead of 91,306 *l.* 3 *s.* 3 *d.*;
£. 91,306. 3. 3.

but as the overcastings in the two latter cases are equal in their joint amount, to the under-casting in the former, the General Balance of Account is not hereby affected.

£. 1,000. 3. Under the Head of "Miscellaneous Expenses" a sum of 1,000 *l.* only is charged
against the Vote, as having been paid in respect of the allowances of 500 *l.* per annum to
each of the Universities of Oxford and Cambridge, in consideration of their loss of the
exclusive privilege of printing Almanacks; whereas the payments made during the year
£. 1,250. amounted to 1,250 *l.*; the allowance to the University of Oxford having included 250 *l.*,
£. 250. which remained due at the termination of the preceding year.

£. 250. 4. The addition of this sum of 250 *l.* would raise the return of expenditure, as against
£. 91,306. 3. 3. the Vote under the Head of "Miscellaneous Services," from the previously mentioned
£. 91,556. 3. 3. sum of 91,306 *l.* 3 *s.* 3 *d.*, to 91,556 *l.* 3 *s.* 3 *d.*, and that of the expenditure for the service, as
£. 1,317,994. 4. 3. against the total Vote, from 1,317,994 *l.* 4 *s.* 3 *d.* to 1,318,244 *l.* 4 *s.* 3 *d.*; it would also
£. 1,318,244. 4. 3. increase the excess of Expenditure over the Vote from 4,527 *l.* 4 *s.* 3 *d.* to 4,777 *l.* 4 *s.* 3 *d.*

£. 4,527. 4. 3. 5. Recurring to the observations contained in our previous Reports on the Appropria-
£. 4,777. 4. 3. tion Accounts of this service, respecting the deduction from the Gross Estimates of the
anticipated Receipts from other Departments, for business to be done on their account, and
the application, in aid of the Vote, of the sums afterwards received from them, we have
now to report that the Gross Estimate for the present year has been reduced, in respect
£. 3,635. of such receipts, by the sum of 3,635 *l.*; that the receipts from the Departments amount
to the same sum; that expenditure, to an equal amount, has been deducted from the Gross
Expenditure; and the net amount only has been charged against the Vote in the Appropriation Account.

6. On the subject of this practice of taking net Estimates of Expenditure in certain
cases, and of charging net expenses against the Votes, we beg to refer your Lordships to
No. 9. the observations in our Report on the Post Office Appropriation Account for 1864–5,
dated 15th instant, only adding here that the practice is one which seems to be at variance
with directions repeatedly given by your Lordships; and especially with the following
direction in the last clause of the 4th paragraph of your Lordships' Minute of 8th February
1864, viz., "My Lords desire, however, that in future Estimates the full charge be pro-
"vided for in the Estimates of the Department which performs the service."

7. The Non-effective Services of this Department being provided for in one and the same grant with those in the Customs and Post Office, we propose, as usual, to combine the three Accounts of the Appropriation of this Grant in a separate Report.

We have &c.
(signed) *W. L. Maberly.*
C. Macaulay.

The Lords Commissioners of
Her Majesty's Treasury,
&c. &c. &c.

(signed) *Stanley of Alderley,*
Postmaster General.

We, the Commissioners for auditing the Public Accounts, do hereby certify that the foregoing Account has been examined by officers under our directions; and that, subject to the observations contained in our Report, No. 9, dated the 15th instant, accompanying this Account, the above is a correct statement of the expenditure of the sums granted by Parliament for the Post Office Service of the year 1864-65.

Dated at the Audit Office, Somerset House, this 15th day of January 1866.

(signed) *Wm. Dunbar.*
W. L. Maberly.
C. Macaulay.

Audit Office, Somerset House, London, W.C.,
15 January 1866.

My Lords,

1. In accordance with the requirements of the 24 & 25 Vict. cap. 93, we have the honour to transmit to your Lordships, for submission to the House of Commons, a copy of the Appropriation Account for the year ended the 31st March 1865, of the Sums granted by Parliament for the Service of the Post Office.

2. This Account, classified in accordance with the main heads of the Estimates, as required by the 1st section of the above-named Act, has been furnished to us by the Postmaster General, and is so framed as to show, under separate divisions, viz. :—

1st. The Appropriation of the Grant for the General Service of the Post Office:

2d. The Appropriation of the Grant for the Packet Service:

3d. The Appropriation of so much of the Grant for the Non-Effective Services of the Revenue Department as appears by the Estimates for that Grant to have been intended for the Post Office Service.

We proceed to offer such remarks as have been suggested to us upon the examination of the Account, under each of the three divisions above specified.

1st. The General Service.

3. We are informed by a letter from the Comptroller General of the Exchequer, dated 6th December 1865, that the Sum of 66,467 *l.* 12 *s.* 11 *d.*, the amount of the savings out of the corresponding Vote for 1863–4, has been surrendered in accordance with your Lordships' Minute of 13th February 1865.

4. Under the head of "Chief Offices in London, Dublin, and Edinburgh," (marked A.), pensions to the amount of 77 *l.* 17 *s.* 1 *d.*, chargeable to the Vote for Non-Effective Services, are included in the amount charged against this Vote. There is also charged, under this head, a sum of 10 *l.* 6 *s.* for Letter Carriers' Wages which were not paid, making together an overcharge against this Vote, under the head of "Chief Offices, &c.," of 88 *l.* 3 *s.* 1 *d.* On the other hand, a payment of 19 *s.* 6 *d.* for a telegram, chargeable to this Vote and head of Service, has been charged against the Vote for the Packet Service. The balance or net amount overcharged against the Vote under the head of "Chief Offices, &c.," would thus appear to be 87 *l.* 3 *s.* 7 *d.*

5. With regard to the head of "Conveyance of Mails," (marked G.), we have to observe that two sums are deducted from the gross Estimate for the Service, as having been recovered from the Australian Colonies, viz., 1,250 *l.* for their proportion of the cost of mail boxes, and 3,250 *l.* for the conveyance of the Australian mails through Egypt. No sums appear, however, to have been received from those Colonies in respect of either of these Services, and therefore the whole amount of the expenditure has been charged to the Parliamentary Grant.

6. Under the head of "Buildings and Repairs," (marked H.), we notice that the amount charged against the Vote includes a sum of 349 *l.* 7 *s.* 5 *d.* as having been spent under the superintendence of the Board of Works for the Post Office; whereas it appears, by an extract from a letter of that Board to the Post Office, dated 22d August 1865, which has been furnished to us by the latter department, that the sum in question was expended on Works for the Post Office Savings Banks, and is therefore not chargeable to this Vote.

7. By the deduction of the above-mentioned sum, viz. 87*l.* 3*s.* 7*d.*, from the charge under the head of "Chief Offices, &c.," the charge under that head would be reduced from 563,111 *l.* 13 *s.* 1½ *d.* to 563,024 *l.* 9 *s.* 6½ *d.*; and by the deduction of 349 *l.* 7 *s.* 5 *d.* expended for Savings Banks from the charge for "Buildings, &c.," the amount under the latter head of Expenditure would be reduced from 49,067 *l.* 9 *s.* 7 *d.* to 48,718 *l.* 2 *s.* 2 *d.* The abatement of these two sums would reduce the total charge against the Vote for the General Service of the Post Office from 2,060,007 *l.* – *s.* 9¼ *d.* to 2,059,570 *l.* 9 *s.* 9¼ *d.*, the balance of savings to be surrendered being thereby increased from 54,608 *l.* 19 *s.* 2¾ *d.* to 55,045 *l.* 10*s.* 2¾*d.*

8. We had occasion, in our Report of 7th February 1863, on the Post Office Appropriation Account for 1861–2, to notice that the Expenditure for the "Chief Offices, &c." was returned less than the amount actually paid, by the amount of rents received for premises belonging to the Post Office, such rents being thus applied in aid of the Vote. We then expressed our opinion, that the Votes having been taken for the Gross Expenditure, those rents should have been paid into the Exchequer as "Extra Receipts;" an opinion in which your Lordships concurred, and the Receipts then in question were ultimately paid into the Exchequer, in pursuance of your Lordships' Minute of the 12th February 1863.

9. We

9. We have now to report that the former system of applying these rents in aid of the Vote, and of charging Net Expenditure against the Vote, has been reverted to. In the present instance, however, the anticipated receipts in respect of rent having been deducted on the Estimates from the gross amount of the Vote, it would seem that the sums received on account of rent cannot be treated as "Extra Receipts." The actual sums so received were 1,227 *l.*, under the head of "Chief Offices," and 25 *l.* under that of "Conveyance of Mails;" the estimated receipts under these heads having been 1,700 *l.* and 25 *l.* respectively; and according to the practice hitherto followed in these cases, expenditure equal in amount to the sums received from rent has been excluded from this Account, so that the actual amount of the payments does not appear upon the face of the Appropriation Account.

10. We have only to add that the observation which we made in our Report of last year on the Appropriation Account of this Service for 1863-4, as to not having been furnished with the vouchers for the Expenditure of provincial Post Offices, applies also to the present Account.

2d. PACKET SERVICE.

11. The sum of 23,012 *l.* 6 *s.* 9 *d.*, the amount of the Savings out of the Vote for this Service for 1863-4, has been surrendered in pursuance of your Lordships' Minute of 13th February 1865, as we are informed by the before-mentioned letter from the Comptroller General of the Exchequer.

12. We mentioned in the former part of this Report, that a sum of 19 *s.* 6 *d.*, paid for a telegram on account of the general Service, had been charged against the Vote for this Service. The transfer of this sum to its proper place would reduce the charge against the Packet Service Vote from 846,718 *l.* 13 *s.* 7 *d.* to 846,717 *l.* 14 *s.* 1 *d.* and leave 13,558 *l.* 5 *s.* 11 *d.* to be surrendered as Savings.

13. We observe that sums amounting to 173,294 *l.* were deducted from the gross estimated cost of this Service, as being the proportion thereof payable by India and the Colonies; but it appears that the amount received and applied in aid of the Vote was only 141,402 *l.* 18 *s.* 9 *d.*

The remarks we have already made with reference to the practice, in certain cases, of deducting anticipated receipts from the estimated amount of gross expenditure, and of appropriating the sums received in aid of the Votes, apply also to the deductions from the Estimates for the Packet Service.

3d. NON-EFFECTIVE SERVICE.

14. The Superannuation and Compensation Allowances in the Post Office being provided for in one and the same Vote with those of the Customs and Inland Revenue, we propose, as heretofore, to include the Appropriation Accounts of the three Departments in a separate Report.

We have, &c.

C. Macaulay.

Audit Office, Somerset House, London, W.C.,
20 January 1866.

My Lords,

In accordance with the provisions of the 24 & 25 Vict. c. 93, we have the honour to transmit herewith copies of the accounts of the appropriation of the Grant for the Non-
3. Effective Services of the Customs, Inland Revenue, and Post Office Departments, for the year ended the 31st of March 1865, rendered to us by the several accountants already mentioned in our Reports on the accounts of the appropriation of the Grants for the Effective Services of those Departments respectively, for the same period.

We are informed by a letter from the Comptroller General of the Exchequer, dated the 6th of December 1865, that the sum of 27,408 *l.* 12 *s.* 10 *d.* has been surrendered, in accordance with your Lordships' Minute of the 13th February 1865, as the savings out of the Grant, for the Non-Effective Services of the three departments above mentioned, for the year 1863-4.

On the Customs and Inland Revenue Accounts of Non-Effective Services for the present year, we have no observations to make.

In our Report of the 15th instant (No. 9), on the Post Office Appropriation Account of Effective Services, we mentioned that pensions to the amount of 77 *l.* 17 *s.* 1 *d.* which should have been included in this account, had been charged against the vote for the Effective Services of the Post Office.

The transfer of that sum to its proper place would raise the return of expenditure under the head of Superannuation Allowances in the Post Office Account, from 54,263 *l.* 16 *s.* 9 *d.* to 54,341 *l.* 13 *s.* 10 *d.*, and increase the excess of expenditure beyond the Estimates for the Post Office Non-Effective Services from 2,579 *l.* 16 *s.* 2 *d.* to 2,657 *l.* 13 *s.* 3 *d.*

We subjoin a Statement exhibiting the Amount of Expenditure for Non-Effective Services as compared with the Estimates in the Appropriation Account of each of the Revenue Departments, exhibiting also the aggregate Amount charged in the Appropriation Accounts of the three Departments against the Vote.

	Estimates.			Expenditure.			£.	s.	d.
Amount of the Grant							492,536	–	–
	£.	s.	d.	£.	s.	d.			
Customs	241,643	–	–	229,015	7	8			
Inland Revenue	194,893	–	–	185,249	5	11			
Post Office	56,000	–	–	58,579	16	2			
	492,536	–	–	Total Expenditure			472,844	9	9
				BALANCE		£.	19,691	10	3

The effect of the addition of the above-mentioned sum of 77 *l.* 17 *s.* 1 *d.* to the expenditure for Non-Effective Services in the Post Office, would be to raise the total expenditure of the three Departments from 472,844 *l.* 9 *s.* 9 *d.* to 472,922 *l.* 6 *s.* 10 *d.*, and to reduce the balance of savings on the Vote from 19,691 *l.* 10 *s.* 3 *d.* to 19,613 *l.* 13 *s.* 2 *d.*

We have, &c.
(signed) *W. Dunbar.*
C. Macaulay.

The Lords Commissioners of
Her Majesty's Treasury,

dated 20 February 1866;—*for*,

A RETURN "of the AVERAGE RATE of INTEREST actually allowed by the TRUSTEES of SAVINGS BANKS in *England* to DEPOSITORS, for the Year ending the 20th day of November 1865."

THE Average Rate of Interest actually allowed by the Trustees of Savings Banks in England to Depositors, for the Year ending 20th November 1865, has been—

£.2 16*s.* 6½*d.*

National Debt Office,
7th March 1866.

A. Y. SPEARMAN,
Comptroller General.

SAVINGS BANKS.

RETURN of the Average Rate of Interest actually allowed by the Trustees of Savings Banks in *England* to Depositors, for the Year ending 20 November 1865.

(*Mr. Goldney.*)

Ordered, by The House of Commons, *to be Printed,*
12 *March* 1866.

106.

SAVINGS BANKS.

RETURN to an Order of the Honourable The House of Commons, dated 9 February 1866;—*for*,

RETURN "in continuation of Parliamentary Paper, No. 250, of Session 1865, of Accounts relating to Savings Banks, for the Year ending the 20th day of November 1865."

RETURN in continuation of Parliamentary Paper, No. 250, of Session 1865, giving, under the Head No. 1, the altered Form of Classification of DEPOSITORS' BALANCES, as rendered by the BANKS to the NATIONAL DEBT COMMISSIONERS for 1851; and, under Head No. 5, showing, in addition to the detailed Statements there given, the aggregate Amount of STOCKS and SECURITIES Sold and Purchased by the COMMISSIONERS on account of SAVINGS BANKS for the Year ending on the 20th day of November 1865.

(No. 1.)—ACCOUNTS of the Number of Individual DEPOSITORS, and of CHARITABLE INSTITUTIONS and FRIENDLY SOCIETIES depositing their FUNDS in SAVINGS BANKS, and of the SUMS DEPOSITED, divided into Classes, as rendered by the Banks to the National Debt Commissioners on the 20th day of November 1865:

(No. 2.)—Of the Amount of PRINCIPAL MONEY Received from, and of INTEREST Credited to, and of PRINCIPAL and INTEREST MONEY Paid to the TRUSTEES of SAVINGS BANKS (distinguishing *Great Britain* and *Ireland*), by the NATIONAL DEBT COMMISSIONERS, upon the 20th day of November 1865; of the Amount of MONEY, Principal and Interest, due to the Trustees by the Commissioners, on the 20th day of November 1865; of the SECURITIES held by the Commissioners on the 20th day of November 1865; and of the VALUE of those SECURITIES at the Prices of that day (stating such Prices), to provide the Amount due by the Commissioners to the Trustees on that day for Principal and Interest:

(No. 3.)—Of the Aggregate Amount of INTEREST Paid and Credited to the TRUSTEES of SAVINGS BANKS (distinguishing *Great Britain* and *Ireland*) by the Commissioners, and the Aggregate Amount of INTEREST or DIVIDENDS Received by and Due to the Commissioners on the Stocks, Funds, Exchequer Bills, Exchequer and other Bonds held by them on account of the Trustees, upon the 20th day of November 1865; and stating also the Difference in Amount between the Amounts so Paid and Credited, and Received, up to the 20th day of November 1865:

(No. 4.)—Stating, in detail, the CHANGES which may have been made in the BANK ANNUITIES, EXCHEQUER BILLS, EXCHEQUER and other BONDS held by the NATIONAL DEBT COMMISSIONERS, on account of the TRUSTEES of SAVINGS BANKS, under the Authority of the Act 26 & 27 Vict. c. 87; showing, in separate Columns, the Date, Description and Extent of each of such Changes, and the Rates at which the Changes were effected, from the 20th day of November 1864 to the 20th day of November 1865:

(No. 5.)—Stating, in detail, the PURCHASES and SALES of BANK ANNUITIES, EXCHEQUER BILLS, EXCHEQUER and other BONDS effected by the NATIONAL DEBT COMMISSIONERS on account of the TRUSTEES of SAVINGS BANKS, under the Authority of the Act 26 & 27 Vict. c. 87; showing, in separate Columns, the Dates, Description and Extent of each of such Purchases and Sales, and the Rate at which each of such Purchases and Sales was effected, in the Year ended the 20th day of November 1865; and the aggregate Amount of Stocks and Securities Sold and Purchased by the Commissioners on account of Savings Banks in the Year ended the 20th day of November 1865:

(No. 6.)—And, RETURN of the NAME of each SAVINGS BANK and PAROCHIAL SOCIETY in the United Kingdom, which had availed itself of the Powers given by the Acts 3 Will. 4, c. 14, and 7 & 8 Vict. c. 45, to grant Annuities not exceeding £. 30 each, to the Industrious Classes, from Commencement, at the 26th day of March 1834, up to the 5th day of January 1866, showing, in separate Columns,—

1. The Number and Amount of each Description of Annuity granted by the Trustees of each Bank and Society;
2. The Amount of Money paid to the National Debt Commissioners by the Trustees of each Bank and Society for the Annuities so granted;
3. The Number and Amount of each Description of Annuity granted by each Bank and Society which may have fallen in;
4. The Number and Amount of each Description of Annuity payable by the Trustees of each Bank and Society on the 5th day of January 1866;
5. The Amount of Money returned by the National Debt Commissioners to the Trustees of each Bank and Society on account of Persons who had contracted for Deferred Annuities, having died or become unable to continue the Payments previous to the Commencement of such Annuities; and,
6. The Manner in which the Money paid for the Purchase of the said Annuities was invested or disposed of, and the Description and Amount of such Investments—(in continuation of Parliamentary Paper No. 250, of Session 1865).

(*Mr. Henley.*)

Ordered, by The House of Commons, *to be Printed,*
25 *April* 1866.

CONTENTS.

(No. 1.)—Account of the Number of Individual Depositors, and of Charitable Institutions and Friendly Societies depositing their Funds in Savings Banks, and of the Sums Deposited, divided into Classes, as rendered by the Banks to the National Debt Commissioners on the 20th day of November 1865 - - - - - - - - - - p. 3

(No. 2.)—Account of the Amount of Principal Money Received from, and of Interest Credited to, and of Principal and Interest Money Paid to the Trustees of Savings Banks (distinguishing Great Britain and Ireland), by the National Debt Commissioners, up to the 20th day of November 1865; of the Amount of Money, Principal and Interest, due to the Trustees by the Commissioners, on the 20th day of November 1865; of the Securities held by the Commissioners on the 20th day of November 1865; and of the Value of those Securities at the Prices of that day (stating such Prices), to provide the Amount due by the Commissioners to the Trustees on that day for Principal and Interest - - - - - - - - - - - - - - p. 4

(No. 3.)—Account of the Aggregate Amount of Interest Paid and Credited to the Trustees of Savings Banks (distinguishing Great Britain and Ireland) by the Commissioners, and the Aggregate Amount of Interest or Dividends Received by and Due to the Commissioners on the Stocks, Funds, Exchequer Bills, Exchequer and other Bonds held by them on account of the Trustees, upon the 20th day of November 1865; and stating also the Difference in Amount between the Amounts so Paid and Credited, and Received, up to the 20th day of November 1865 - - - - - - - p. 5

(No. 4.)—Account stating, in detail, the Changes which may have been made in the Bank Annuities, Exchequer Bills, Exchequer and other Bonds held by the National Debt Commissioners, on account of the Trustees of Savings Banks, under the Authority of the Act 26 & 27 Vict. c. 87; showing, in separate Columns, the Dates, Description and Extent of each of such Changes, and the Rates at which such Changes were effected, from the 20th day of November 1864 to the 20th day of November 1865 - - p. 5

(No. 5.)—Account stating, in detail, the Purchases and Sales of Bank Annuities, Exchequer Bills, Exchequer and other Bonds effected by the National Debt Commissioners on account of the Trustees of Savings Banks, under the Authority of the Act 26 & 27 Vict. c. 87; showing, in separate Columns, the Date, Description and Extent of each of such Purchases and Sales, and the Rate at which each of such Purchases and Sales was effected, in the Year ended the 20th day of November 1865; and the Aggregate Amount of Stocks and Securities Sold and Purchased by the Commissioners on account of Savings Banks in the Year ended the 20th day of November 1865 - p. 6

(No. 6.)—Return of the Name of each Savings Bank and Parochial Society in the United Kingdom, which had availed itself of the Powers given by the Acts 3 Will. 4, c. 14, and 7 & 8 Vict. c. 45, to grant Annuities not exceeding £. 30 each, to the Industrious Classes, from Commencement, at the 26th day of March 1834, up to the 5th day of January 1866 - - - - - - - - - - - - - - p. 8

(No. 1.)

AN ACCOUNT of the Number of Individual DEPOSITORS, and of CHARITABLE INSTITUTIONS and FRIENDLY SOCIETIES depositing their FUNDS in SAVINGS BANKS, and of the SUMS DEPOSITED, divided into Classes, as rendered by the Banks to the National Debt Commissioners on the 20th day of November 1865.

*The Stock held by the Commissioners has always been valued in these Accounts (because that mode of valuation is prescribed by the Statute,) at the Prices on 20th November in each year, whatever those Prices may be. If those Prices be higher at one period than another, in the same degree will the value of the securities appear to be greater or less, and so of the Balance deficient. The prices of Stock on 20th November 1864 and 20th November 1865 were as follows:—

	1864.	1865.
Consolidated 3 per Cents. - - - - - - - - -	$91\frac{1}{8}$	$89\frac{3}{8}$
Reduced 3 per Cents. - - - - - - - - -	$88\frac{3}{4}$	$87\frac{5}{8}$
New 3 per Cents. - - - - - - - - - -	$88\frac{3}{4}$	$87\frac{3}{8}$
New 2½ per Cents. - - - - - - - - - -	$71\frac{1}{2}$	$70\frac{1}{2}$
Annuities for Terms of Years Expire 5th April, 1885 - - -	$14\frac{1}{4}$	$13\frac{11}{16}$
Red Sea and India Telegraph Annuities - - - - - - -	20	$19\frac{11}{16}$

Upon this principle the Balance deficient on 20th November 1865 is made to appear £. 3,871,136. 15. –., while the same principle made it appear £. 3,615,401. 18. –, on 20th November 1864.

(No. 3.)

AN ACCOUNT of the Aggregate Amount of INTEREST Paid and Credited to the TRUSTEES of SAVINGS BANKS (distinguishing *Great Britain* and *Ireland*) by the Commissioners, and the Aggregate Amount of INTEREST or DIVIDENDS Received by and Due to the Commissioners on the Stocks, Funds, Exchequer Bills, Exchequer and other Bonds held by them on account of the Trustees upon the 20th day of November 1865; and stating also the Difference in Amount between the Amounts so Paid and Credited, and Received, up to the 20th day of November 1865.

SAVINGS BANKS.

RETURN to an Order of the Honourable The House of Commons,
dated 9 February 1866;—*for*,

RETURN "in continuation of Parliamentary Paper, No. 250—I., of Session 1865, of Accounts relating to SAVINGS BANKS, for the Year ending the 20th day of November 1865."

A RETURN showing, in Parallel Columns, the Weekly and Total Amounts of INCREASE and DECREASE of SUMS Paid in or Withdrawn by the TRUSTEES of SAVINGS BANKS, in Account with the COMMISSIONERS for the REDUCTION of the NATIONAL DEBT (including the Amounts of INTEREST credited in May and November), between the 20th November 1864 and the 20th November 1865; together with the Weekly and Total Amounts of STOCK Purchased or Sold by the said Commissioners; the Weekly and Total Amounts (in Detail) of INCIDENTAL EXPENSES Defrayed by the Commissioners and Charged upon the Fund of SAVINGS BANKS, and the Weekly and Total Amount of DIVIDENDS Received by the Commissioners on STOCK Invested during the same Period; also the Aggregate Amount of the foregoing in the Year 1865, ending on the 20th November; and the Weekly Amount of the Uninvested BALANCES in the hands of the said Commissioners on Account of SAVINGS BANKS, from the 20th November 1864 to the 20th November 1865.

(*Mr. Henley.*)

Ordered, by The House of Commons, *to be Printed*,
25 *April* 1866.

212.—I.

A RETURN showing, in Parallel Columns, the Weekly and Total Amounts of INCREASE and DECREASE of SUMS Paid in or Withdrawn by the TRUSTEES of SAVINGS BANKS, in Account with the COMMISSIONERS for the REDUCTION of the NATIONAL DEBT (including the Amounts of INTEREST credited in May and November), between the 20th November 1864 and the 20th November 1865; together with the Weekly and Total Amounts of STOCK Purchased or Sold by the said Commissioners; the Weekly and Total Amounts (in Detail) of INCIDENTAL EXPENSES Defrayed by the Commissioners and Charged upon the Fund of SAVINGS BANKS, and the Weekly and Total Amount of DIVIDENDS Received by the Commissioners on STOCK Invested during the same Period; also the Aggregate Amount of the foregoing in the Year 1865, ending on the 20th November; and the Weekly Amounts of the Uninvested BALANCES in the hands of the said Commissioners on Account of SAVINGS BANKS, from the 20th November 1864 to the 20th November 1865.

—	1. Excess Paid in by Savings Banks beyond the Sums Drawn out.	2. Excess Drawn out by Savings Banks, beyond the Sums paid in, including Interest paid on the Sums Drawn out.	3. Sums paid for the Purchase of Stock Exchequer Bills, Exchequer and other Bonds, Terminable Annuities, and Advanced to Metropolitan Board of Works for Thames Embankment and New Street to the Mansion House, per Act 27 & 28 Vict. c. 61.	4. Sums Received for Sale of Stock, and for Exchequer Bills and Exchequer and other Bonds Paid off and Sold.	5. Incidental Expenses Defrayed by the Commissioners, and Charged upon the Fund of Savings Banks, per 26 & 27 Vict. c. 87, s. 66.	6. Dividends Received by the Commissioners on Stock invested and Interest on Exchequer Bills, Exchequer and other Bonds, and Terminable Annuities.	7. Balance Remaining Last Day of each Week.

THE Amount of INTEREST Credited to SAVINGS BANKS in *Great Britain* and *Ireland*, during the Year ending the 20th November 1865.

	£. s. d.
Amount of Interest credited to Savings Banks on the Capital Sums invested with Commissioners—	
Half-year ending 20th May 1865 - - - - - - - - - - - - - -	620,751 16 9
Half-year ending 20th November 1865 - - - - - - - - - - - - -	617,027 5 5
£.	1,237,779 2 2
Add, Interest actually paid during the period on drafts drawn by Trustees, and included in Column No. 2	17,487 3 11
The TOTAL AMOUNT so credited, and paid therefore to the Trustees in their Account with the Commissioners for the Reduction of the National Debt - - - - - - - - - £.	1,255,266 6 1

The sums actually paid to the Trustees as interest on the amounts withdrawn, as stated above, viz., £. 17,487. 3. 11., being the cash transactions, and affecting cash balances, are included in Column 2 of this Return.

The amounts of interest credited, but not paid, have, on the other hand, not been so inserted, because they are not cash transactions affecting the balances of money in the hands of the Commissioners; they are the amounts credited to the Trustees, and added to the capital of the Savings Banks in the Books of the National Debt Office, under the directions of the Act 26 & 27 Vict. c. 87.

The Sums applied for Incidental Expenses, paid out of the Funds of Savings Banks during the Year 1865, were as follows:—

From 20th November 1864 to 20th November 1865 (*see* Detail in Column 5 of this Account) - - £. 509. 11. 6.

The above-stated SUM of £. 509. 11. 6. was applied as follows, viz.:—	£. s. d.
Salary to Barrister and Clerk - - - - - - - - - - -	307 10 –
Postage of Letters - - - - - - - - - - - - -	202 1 6
TOTAL - - - £.	509 11 6

National Debt Office,
21 April 1866.

A. Y. Spearman,
Comptroller General.

SAVINGS BANKS.

RETURN of the Weekly and Total INCREASE or DECREASE of SUMS Paid or Withdrawn by the TRUSTEES of SAVINGS BANKS, between 20 November 1864 and 20 November 1865, with the Amounts of STOCK Purchased or Sold by the COMMISSIONERS for the REDUCTION of the NATIONAL DEBT, and Amount of Uninvested BALANCES in the hands of the said Commissioners on Account of SAVINGS BANKS, during the same period.—(In continuation of Parl. Paper, No. 250—I., of Sess. 1865.)

(*Mr. Henley.*)

Ordered, by The House of Commons, *to be Printed,*
25 *April* 1866.

212.—I.

Under 1 *oz.*

SAVINGS BANKS.

1865.

RETURN to an Order of the Honourable The House of Commons,
dated 1 March 1866;—*for*,

RETURN "from each SAVINGS BANK in *England* and *Wales, Scotland,* and *Ireland,* containing, in Columns, the Names of the OFFICERS, their respective SALARIES, and other ALLOWANCES, if any; the Amount of SECURITY each gives; the Number of ACCOUNTS remaining Open; the TOTAL AMOUNT Owing to DEPOSITORS; the TOTAL AMOUNT Invested with the COMMISSIONERS for the REDUCTION of the NATIONAL DEBT; the Rate of INTEREST Paid to DEPOSITORS on the various Amounts of Deposit, and the AVERAGE RATE of INTEREST on all ACCOUNTS; and the TOTAL AMOUNT of the separate SURPLUS FUND, on the 20th day of November 1865; the Rate per Centum per Annum on the Capital of the Bank for the EXPENSES of MANAGEMENT; the Annual Number of RECEIPTS from DEPOSITORS; the Annual Number of PAYMENTS; the Average Amount of RECEIPTS; the Average Amount of PAYMENTS; the Number and Amount of ANNUITIES Granted; the Annual EXPENSES of MANAGEMENT, inclusive of all PAYMENTS and SALARIES, for the Year ended the 20th day of November 1865; also, the Year in which Business commenced in each Bank, and the Name of the Day or Days, and the Number of Hours in the Week, on which the Banks are Open for the Deposit and Withdrawal of Monies (in continuation of Parliamentary Paper, No. 439, of Session 1865)."

[Prepared under the directions of the Commissioners for the Reduction of the National Debt, from the Accounts rendered to their Office by the several Savings Banks in the United Kingdom.]

National Debt Office,
1 June 1866.

A. Y. SPEARMAN,
Comptroller General.

(*Viscount Cranborne.*)

Ordered, by The House of Commons, *to be Printed,*
4 *June* 1866.

RETURN from each SAVINGS BANK in *England* and *Wales*, *Scotland*, and *Ireland*, containing, in Columns, the Names of
of ACCOUNTS remaining Open; the TOTAL AMOUNT Owing to DEPOSITORS; the TOTAL AMOUNT Invested with the
Amounts of Deposit, and the AVERAGE RATE of INTEREST on all ACCOUNTS; and the TOTAL AMOUNT of the separate
EXPENSES of MANAGEMENT; the Annual Number of RECEIPTS from DEPOSITORS; the Annual Number of PAYMENTS;
the Annual EXPENSES of MANAGEMENT, inclusive of all PAYMENTS and SALARIES, for the Year ended the 20th day of
Number of Hours in the Week on which the Banks are Open for the Deposit and Withdrawal of Monies.

General Note.—The Number of Hours given in the last column does not in numerous instances, as appears by the Returns received at the National Debt Office, show to anything like the full extent the time occupied in transacting the whole business of the Banks; the attention of the Officers and Clerks being much occupied with Correspondence, attendance on Trustees and Managers at their meetings, half-yearly Balances of Accounts, preparation of Returns to the Commissioners and to Parliament, and various incidental matters in addition to the ordinary business arising from receipt and payment of money.

SAVINGS BANKS.

1865.

RETURN from each SAVINGS BANK in *England* and *Wales*, *Scotland*, and *Ireland*, containing the Names of the Officers, their respective Salaries, and other Allowances, if any; the Amount of Security each gives; the Number of Accounts remaining Open; the Total Amount Owing to Depositors; the Total Amount Invested with the Commissioners for the Reduction of the National Debt; the Rate of Interest Paid to Depositors on the various Amounts of Deposit, and the Average Rate of Interest on all Accounts; and the Total Amount of the separate Surplus Fund, on 20th November 1865; &c.

(Viscount Cranborne.)

NATIONAL DEBT
(SAVINGS BANKS AND FRIENDLY SOCIETIES).

SAVINGS BANKS AND FRIENDLY SOCIETIES:

1.—AN ACCOUNT of the GROSS AMOUNT of all SUMS Received and Paid by the COMMISSIONERS for the REDUCTION of the NATIONAL DEBT on account of BANKS for SAVINGS and FRIENDLY SOCIETIES in *Great Britain* and *Ireland*, from their Commencement at 6th August 1817 to the 20th November 1865 inclusive:—Of the AGGREGATE AMOUNT of the Separate SURPLUS FUND of all SAVINGS BANKS at 20th November 1865, and of the GROSS AMOUNT of all SUMS Transferred to or Paid out of such Surplus Fund in the course of the Year ended 20th November 1865:—And, of all EXPENSES incurred by the said COMMISSIONERS for SALARIES of CLERKS, or other Incidental Expenses, during the Year ended 20th November 1865.

2.—AN ACCOUNT, setting forth in detail the whole of the several Transactions which have taken place during the Year ended 20th November 1865, in the INVESTMENT of all MONIES which came into the hands of the COMMISSIONERS for the REDUCTION of the NATIONAL DEBT, for SAVINGS BANKS and FRIENDLY SOCIETIES, and of all the Variations which have taken place during such Year in the Securities held by the said COMMISSIONERS for those Institutions.

3.—AN ACCOUNT showing the AGGREGATE AMOUNT of the LIABILITIES of the Government to the TRUSTEES of SAVINGS BANKS and FRIENDLY SOCIETIES respectively, on 20th November 1865, and the Nature, Amount, and Value of the Securities (taken at the Price of that day) held by the COMMISSIONERS for the REDUCTION of the NATIONAL DEBT to meet the same, and the Amount of the Deficiency thereon.

ANNUITIES:

4.—AN ACCOUNT of the GROSS AMOUNT of all BANK ANNUITIES and LONG ANNUITIES, and any other ANNUITIES for TERMS of YEARS Transferred, and of all Sums paid to the COMMISSIONERS for the REDUCTION of the NATIONAL DEBT; and the GROSS AMOUNT of ANNUITIES for LIVES and for TERMS of YEARS which have been granted for the same, under the Provisions of the Acts 10 Geo. IV. c. 24, 3 Will. IV. c. 14, 16 & 17 Vict. c. 45, and 27 & 28 Vict. c. 46, within the Year ended 5th January 1866.

MILITARY SAVINGS BANKS:

5.—AN ACCOUNT of the GROSS AMOUNT of all MONIES Received and Paid by the COMMISSIONERS for the REDUCTION of the NATIONAL DEBT, and of the Gross Amount of STOCK Bought and Sold by and Transferred to the said COMMISSIONERS, on account of "The FUND for the MILITARY SAVINGS BANKS," pursuant to Act 8 & 9 Vict. c. 27, s. 5, from the 19th September 1845 to the 5th January 1866.

(PRESENTED PURSUANT TO ACTS OF PARLIAMENT.)

Ordered, by The House of Commons, *to be Printed,*
16 *February* 1866.

				TOTAL £.	211,495	8	3

* The Stock held by the Commissioners has always been valued in these Accounts (because that mode of valuation is prescribed by the Statute) at the Prices on 20th November in each year, whatever those Prices may be. If those Prices be higher at one period than another, in the same degree will the value of the Securities appear to be greater or less, and so of the Balance deficient. The Prices of Stock on 20th November 1864 and 20th November 1865, were as follows:—

	1864	1865
Consolidated 3 per Cents.	$91\frac{1}{8}$	$89\frac{3}{8}$
Reduced 3 per Cents.	$88\frac{3}{4}$	$87\frac{5}{8}$
New 3 per Cents.	$88\frac{3}{4}$	$87\frac{3}{8}$
New 2½ per Cents.	$71\frac{1}{2}$	$70\frac{1}{2}$
Annuities for Terms of Years, expire 5 April 1885	$14\frac{1}{4}$	$13\frac{11}{16}$
Red Sea and India Telegraph Annuity	20	$19\frac{11}{16}$

Upon this principle the Balance deficient on 20th November 1865 is made to appear 3,871,136 *l.* 15 *s.*; while the same principle made it appear 3,615,401 *l.* 18 *s.* on 20th November 1864.

SOUTH KENSINGTON MUSEUM (NEW BUILDINGS).

COPY of CORRESPONDENCE between the TREASURY and the SCIENCE and ART DEPARTMENT.

The Right Honourable *H. A. Bruce*, M.P., to the Secretary to the Treasury.

Sir, 5 December 1865.

I. THE Lords of the Committee of Council on Education having now obtained sufficient knowledge of the extent of space wanted, as well as of the nature and style of the buildings desirable for the South Kensington Museum, offices, and schools, have caused plans to be prepared which they desire to bring before the consideration of the Lords Commissioners of Her Majesty's Treasury, in order that they may be submitted to Parliament at an early period.

II. Before their Lordships call attention to the plans which are herewith submitted, it appears desirable to describe briefly the several buildings which have been erected since the department was transferred to South Kensington from Marlborough House in 1856. At that time an iron building was in course of construction under the direction of Sir William Cubitt, who acted on behalf of Her Majesty's Commissioners for the Exhibition of 1851, which was intended to serve as a temporary structure only. For this building Parliament voted 15,000 *l.*, to which sum Her Majesty's Commissioners for the Exhibition added considerably from their own funds. To enable the offices and schools of the department to be removed from Marlborough House, and the old houses on the site to be fitted up, Parliament voted 10,000 *l.* This expenditure also was incurred for an object avowedly temporary.

III. In the year 1857, Mr. Sheepshanks offered the gift of his collection of modern British pictures, then valued at 60,000 *l.*, for the use of the public, on the condition that there should be first erected to receive them a fire-proof suitable gallery which he should approve of. This was done at a cost of 3,500 *l.*; although of a permanent character, this building did not form part of any general design.

IV. In 1858–59, it being necessary to remove the Vernon and Turner pictures from Marlborough House, it was found to be the cheapest and most convenient arrangement to build fire-proof brick galleries to receive them at South Kensington, rather than adopt the Riding School at Carlton Ride. These buildings cost 8,198 *l.*, and subsequently a long fire-proof gallery was built, costing 4,000 *l.* Thus before 1860, and before any general plan had been matured, the sum of 40,698 *l.* had been expended on buildings so far partaking of a temporary character that they were not designed as part of any general scheme. Portions have since been worked into it. In 1860 the subject of the buildings necessary for the South Kensington Museum was brought by Mr. Lowe, the Vice President at the time, to the notice of the House of Commons, which appointed a Select Committee to report, not only on that subject, but on the nature and management of the museum generally. The cost of the buildings already erected was laid before this Committee, together with a hypothetical plan and elevation, in which the brick buildings already existing were brought into use. The Committee did not specifically recommend the adoption of this plan, but reported in favour of a further expenditure of 44,000 *l.* on works, "as matters of extreme urgency," for buildings immediately necessary, and forming part of a definite and permanent plan. The Report stated, that "the museum is yet in course of formation, and the Committee think it unwise to commit the country to a heavy expense in anticipation of its wants." The Committee recommend "that any plan which may be adopted for the buildings to be erected should be capable of being worked into a general plan, which would at once fully occupy the ground, and be susceptible of a proper amount of decoration."

V. It may be observed that the general plan and elevation which were submitted to the Select Committee by Captain Fowke, and laid before Parliament, were estimated by him to cost 214,000 *l.*, but he told the Committee (2410) that "such was quite a rough estimate," and further (2431) that "he would rather not be bound by these estimates, which he had only made in a very few minutes, cubing out the building." This sum of 214,000 *l.* was estimated to give about 6,500,000 cubic feet of buildings, the various portions of which were estimated to cost respectively 3 *d.*, 4 *d.*, 6 *d.*, and 1 *s.* per cubic foot, or 8 *d.* per cubic foot for the whole. Generally, on this basis, and according to the ground plan, two large courts having nearly as much light as the open air, but under perfect control, together with their surrounding cloisters; five new picture galleries, top-lighted, where pictures may be seen without any glitter whatever; two new art training schools, having no architectural pretensions, but which are thoroughly commodious and convenient; four official residences, new workshops, barracks, stores, offices, and two important staircases, have been erected, containing a total of 3,292,936 cubic feet, being rather more than half the amount of space which it was proposed to occupy in 1860. These buildings have cost 92,987 *l.*, or at $6\frac{17}{22}$ *d.* per cubic foot, being below the average rate of the original estimate. By carrying the erections higher than was intended in the first plan a considerable economy of ground has also been obtained. Of the remaining amount of cubic feet as proposed in 1860 about 777,581 cubic feet are now in course of construction for the lecture theatre, refreshment rooms, and museum corridor (marked G. on plan). But in this case the cost is estimated for this building at 1 *s.* per cubic foot, making 38,879 *l.* This sum, added to 92,987 *l.*, will make a total expenditure of 131,866 *l.*, leaving a balance of 82,134 *l.* of the amount, as estimated in 1860, to be expended on future buildings.

VI. Whilst in all parts, excepting the lecture theatre and adjacent portions, only a very moderate average expenditure, under 7 *d.* a cubic foot, has been incurred, in this portion the architect has attempted a novel combination of terra cotta and red brick ornamentation, to which work my Lords venture to call special attention as very successful, original, and appropriate, and they recommend with confidence that the rest of the plan should be executed according to this sample, both in respect of style, size, and decoration. To provide efficiently for the growing wants of the art and education divisions of the museum, their libraries, the School of Naval Architecture, laboratories, with the necessary corridors, passages of communication, and fully occupy the ground, it is proposed to add 9,001,959 cubic feet of space to the amount already erected. Thus making the total of the space now proposed 13,072,476 cubic feet, instead of 6,500,000 proposed in 1860. Although it might be possible to limit the space and the expenditure at the sum named in 1860, my Lords consider that it would be an unwise economy and against the general public interests to do so.

The total cost of the whole buildings erected since 1860, with those now proposed, is estimated to amount to 481,072 *l.* This sum will include all exterior sculptures and decorations, both external and internal, but not pictures, mosaics, bronze work, and the like, which it may be found expedient to insert from time to time. The cost of such works obviously cannot be estimated correctly before they are designed, and the designs must be regulated by the wishes and liberality of Parliament. Considering the highly ornate character of portions, this museum, if completed according to the present plan, will probably be the cheapest public building of architectural pretensions ever erected in this country. It will afford accommodation of a fire-proof, most suitable, and varied character. The buildings will be well lighted by day and night, thoroughly warmed and ventilated, and properly decorated, and they will have cost only the very moderate sum of 9·06*d.* per cubic foot, which is below the cost of a first-class private house.

VII. In submitting this estimate my Lords think it useful to compare it with the cost of other public buildings. The expenditure on the British Museum has exceeded 1,100,000 *l.* for a smaller area than that which will be occupied by the South

South Kensington Museum, and the cubic foot in the British Museum building has been estimated to have cost 1*s*. 6*d*. The Royal Exchange was estimated to cost 11*d*. per cubic foot, whilst the cost of the Houses of Parliament has exceeded two millions of pounds, estimated at between 2*s*. and 3*s*. per cubic foot.

VIII. The sums which have been voted since 1860 for the new buildings at South Kensington already amount to 99,000*l*., leaving a balance of 382,070*l*. To this sum should be added 10 per cent. for contingencies, say 38,000*l*., making a total estimate of 420,070*l*. for completing the works as proposed.

IX. My Lords are aware that this outlay may be larger than the Lords Commissioners may think it right to sanction at once, and they have accordingly caused to be prepared a modified plan which would provide for the probable wants of the department for a considerable time, omitting certain portions which are among the most decorated, and therefore the most costly parts of the building. The portions in this modified plan which it is proposed should be proceeded with are tinted red, and they are estimated to cost 220,000*l*.

X. My Lords trust that this is an outlay which the Lords Commissioners may be disposed to sanction, if spread over a fixed period, the extent of which they leave to the decision of the Treasury.

I am, &c.

The Secretary to Her Majesty's Treasury. (signed) *H. A. Bruce.*

(17,986—65.)

The Secretary to the Treasury to the Right Honourable *H. A. Bruce*, M.P.

Sir, Treasury Chambers, 26 December 1865.

The Lords Commissioners of Her Majesty's Treasury have had before them your letter of the 5th instant, with the plan for the new buildings at the South Kensington Museum, and I am to state, for the information of the Lords of the Committee of Privy Council for Education, that my Lords have communicated with the First Commissioner of Works on the subject, with a view to his considering the question in connection with the statement of the expense of other public buildings which he is now preparing.

My Lords have requested the First Commissioner to put himself into communication with your department, with the view of obtaining more detailed information for the purpose of that statement than is given in your above-mentioned letter.

I am, &c.

Right Honourable H. A. Bruce, M.P. (signed) *H. C. E. Childers.*
&c. &c. &c.

Mr. *H. Cole*, C.B., to the Secretary to the Treasury.

Sir, 11 May 1866.

I am directed by the Lords of the Committee of Privy Council on Education to transmit, for the information of the Lords Commissioners of Her Majesty's Treasury, a Report on the new buildings of the South Kensington Museum, which has been concurred in by the First Commissioner of Works and the Vice President of the Committee of Privy Council on Education.

I have, &c.

The Secretary to Her Majesty's Treasury. (signed) *Henry Cole.*

REPORT.

South Kensington Museum, 10 May 1866.

In accordance with the desire expressed by the Lords Commissioners of Her Majesty's Treasury, that a plan for proceeding with the new buildings of the South Kensington Museum should be jointly submitted by ourselves for the consideration of Her Majesty's Government, we beg leave to state, that having examined carefully the plan already sent to the Treasury, with its accompanying explanatory letter, dated 5th December 1865, we now submit an amended plan, and recommend that the parts of it tinted red should be proceeded with and executed during the next four years, but that the erection of the ornamental screen in front of the lecture theatre should be postponed, as well as parts not tinted.

The execution of the red-tinted portions will provide only for the urgent and immediate wants of the department; and whilst some frontages of these buildings will be of a plain brick character for the present, others will be decorated in the style so successfully commenced in the inner quadrangle.

Excluding the cost of the works already executed, which is now close upon 119,000 *l.*, it is estimated that the cost of the works which we now advise should be proceeded with will amount to 195,000 *l.*, and we recommend that the expenditure of this sum, if concurred in, should be spread over a period of four years.

(signed) *William Cowper.*
H. A. Bruce.

(8313—66.)

The Secretary to the Treasury to the Right Honourable *H. A. Bruce*, M.P.

Sir, Treasury Chambers, 24 May 1866.

The Lords Commissioners of Her Majesty's Treasury have had before them the Report signed by yourself and Mr. Cowper, on the proposed permanent buildings for the South Kensington Museum, which accompanied Mr. Cole's letter of the 11th instant, and I am directed to convey to you, for the information of the Lords of the Committee of Privy Council for Education, the approval of my Lords of an expenditure of a sum not exceeding 195,000 *l.* on those buildings, as proposed in the said Report.

I am, at the same time, to state that my Lords cannot consent to an annual expenditure of a larger sum than will be sufficient to defray the total estimated sum in a period of six years.

I am, &c.
(signed) *Hugh C. E. Childers.*

Right Honourable H. A. Bruce, M.P.,
&c. &c. &c.

SOUTH KENSINGTON MUSEUM.

Office of Woods,
21 August 1865.

We, the Commissioners for Auditing the Public Accounts, do hereby certify, that the foregoing Accounts have been examined by Officers under our directions, and that, subject to the observations contained in our Report, No. 24, dated 29th January 1866, accompanying these Accounts, the foregoing are correct statements of the Receipt and Expenditure for the Services in question for the Year 1864-65. Dated at the Audit Office, Somerset House, this 29th day of January 1866.

(signed) W. L. MABERLY.
C. MACAULAY.

Examined.

Inspector.

REPORT of the COMMISSIONERS of AUDIT, dated 29 January 1866.

(No. 24.)

Audit Office, Somerset House, London, W. C.,
29 January 1866.

My Lords,

1. IN pursuance of the 39th section of the 14 & 15 Vict. c. 42, we have the honour to transmit copies of Abstract Accounts showing the Receipt and Expenditure of the Commissioners of Her Majesty's Woods, Forests, and Land Revenues, in the year ended the 31st of March 1865.

2. The only portions of the Expenditure defrayed out of Grants of Parliament are the Salaries and Expenses of, first, the Office of Woods; and, second, the Landed Estates Record Offices (Office in London).

3. With respect to the first of these Services we have to observe that the unexpended Balance on the 31st March 1865 has been paid to Her Majesty's Paymaster General; but no evidence of the payment of this amount into the Exchequer has been laid before us.

4. We have also to observe that, having brought under your Lordships' notice two payments (amounting together to 1,088 *l.* 14 *s.*) for law expenses, which had been charged by the Commissioners of Woods to the Income of the Land Revenue, your Lordships were pleased to inform us of your concurrence in the recommendation of the Commissioners of Woods, that those payments should, in the present instance, be charged to the income of the Land Revenue; but that henceforth such payments are to be provided for in the Estimate and made out of the Vote.

5. The Account then, according to us, as well as to the Commissioners of Woods, stands thus:—

	£.	*s.*	*d.*
Grant for 1864-65 - - - - - - - - -	28,225	–	–
Expenditure - - - - - - - - -	26,357	3	5
Balance to be surrendered to the Exchequer - - -	£. 1,867	16	7

6. With respect to the Landed Estates Record Offices, the Commissioners of Woods account for only that portion of the Vote which relates to the Office in London. As the sum accounted for by the Commissioners of Woods is only a portion of the Vote, a comparison of the Expenditure with the whole of the Vote cannot be made in their Account.

7. The Commissioners of Woods have, as in former instances, brought forward the Balance on the preceding Account, namely, 155 *l.* 8 *s.* 3 *d.*

8. The comparison between the Grant and the Expenditure is as follows:—

	£.	*s.*	*d.*
Amount entered in the Estimate as applicable to the Office in London - - - - - - - - - -	1,209	–	–
Expenditure - - - - - - - - - -	1,307	7	10
Showing an Excess of Expenditure above the Estimate of - - - - - -	£. 98	7	10

We have, &c.

(signed) *W. L. Maberly.*
C. Macaulay.

The Lords Commissioners of Her Majesty's
Treasury, &c. &c. &c.

WOODS, FORESTS, AND LAND REVENUES.

1864–65.

examined by Officers under our directions, and that, subject to the observations contained in our Report No. 25, dated the Services in question for the year 1864–65. Dated at the Audit Office, Somerset House, this 30th day of January 1866.

W. L. MABERLY.
C. MACAULAY.

AUDITORS' REPORT.

(No. 25.)

Audit Office, Somerset House, London, W.C.,
30 January 1866.

My Lords,

1. In pursuance of the 39th section of the 14 & 15 Vict. c. 42, we have the honour to transmit copies of the Abstract Accounts of Receipt and Expenditure of the Moneys granted, or otherwise received and appropriated in the Department under the control and management of the Commissioners of Her Majesty's Works and Public Buildings, in the year ended 31st March 1865.

2. The Balances unexpended of the Votes for 1863-4, as shown in the Statement annexed to our Report of the 30th January 1865, amounting in all to 84,228 *l.* 11 *s.*, have been surrendered to the Exchequer, as well as the three outstanding Balances of previous years, mentioned in paragraph 3 of that Report, and amounting to 1,146 *l.* 10 *s.* 8 *d.*

3. Your Lordships were pleased, by your Minute of 13th March 1865, to direct that provision should be made in the Estimates of 1865-6 for the sum of 894 *l.* 1 *s.* 5 *d.*, expended in 1863-4 on certain works at the British Embassy at Paris, and we presume that provision has been made for carrying this direction into effect, by the arrangement which is subsequently described in paragraph 9.

4. It appears to us that the Commissioners of Works have adopted a mode of stating some of their accounts which is open to objection, as tending to interfere with a comparison between the Votes as granted by Parliament and the payments chargeable to those Votes. Thus, under the head of " Royal Palaces," instead of bringing to charge the gross amount of the Vote, a sum of 62 *l.* 19 *s.* 2 *d.*, which was granted to make good a deficiency on the previous account, has been deducted from the gross Vote, and although really a charge upon the Vote, is altogether excluded from the discharge side of the account. A sum of 216 *l.* 17 *s.* 7 *d.*, under the head of "The British Embassy House, Paris," and a sum of 556 *l.* 11 *s.* 8 *d.*, under the head of " British Consulate and Embassy Houses, Constantinople," have been similarly dealt with. In each of these cases, we conceive that the whole of the Parliamentary Grant should have been charged, and that credit should have been taken on the discharge side for the sums above specified. Inasmuch, however, as the sums in question have been withdrawn by the Commissioners from both sides of their accounts, the Balances thereon are correct.

5. Under the head " Office of Works, Salaries and Expenses," and also under the head " British Consulate and Embassy Houses, Constantinople," credit is taken for certain repayments to Civil Contingencies in respect of advances therefrom in previous years. The Estimates, however, for the Votes against which these repayments are charged do not refer to the proposed repayments, and thus the overdrawn Votes of previous years have been adjusted without the direct or indirect sanction of Parliament. We apprehend that whenever it is intended to obtain from Parliament the means of adjusting the account of an overdrawn Vote, Parliament should either be asked to grant an express Vote for the purpose, or the amount required should at least be included as a specific item in the Estimates for the ordinary grants.

6. We enclose a statement showing how far the expenditure of the Commissioners of Her Majesty's Works in 1864-5 has fallen short of or exceeded the grants for that year. It will be found to differ from their statement in the following particulars:—

First.—Public Buildings.

7. The Commissioners of Works have charged under your Lordships' authority against this Vote a sum of 525 *l.* paid to Mr. Hunt for professsional services in connection with the Exhibition Building at South Kensington. The Exhibition Building not having been a Public Building under the charge of the Commissioners of Her Majesty's Works and Public Buildings, and no provision for any expenses relating to it appearing to have been made in the Estimate for Public Buildings 1864-5, we consider that we have no alternative but to report the payment in question as not properly chargeable to the above Vote, and we have accordingly deducted the sum of 525 *l.* from the amount of the expenditure stated by the Commissioners of Works.

Second.—British Embassy House, Paris.

	£.	s.	d.
8. The expenditure shown in the account is - - - -	1,071	7	4
and a repayment to Civil Contingencies - - - - - - -	95	–	–
	£. 1,166	7	4
to which we have added a repayment to the Exchequer deducted by the Commissioners of Works from the grant, as stated in paragraph 4 - -	216	17	7
and the amount expended out of the produce of the sale of land in the Rue d'Anjou, Paris, shown among the Special Accounts unconnected with Votes of Parliament - - - - - - - - -	3,186	4	1
Making in all - - -	£. 4,569	9	–

9. The sale of land at Paris, and the application of the proceeds to works on the British Embassy House there, were brought under your Lordships' notice in our Report of the 30th January 1865, and in your Minute of 13th March 1865 your Lordships expressed an opinion that the money derived from the sale of land should be treated as an extra receipt. A sum of 4,000 *l.* was included in the Estimates for 1865–6, to provide for the payment into the Exchequer of the amount received for such sale. We are not aware what payments into the Exchequer have been charged to this sum, but we have been informed by the Commissioners of Works that the final adjustment between the Vote Account for "British Embassy Houses Abroad—Paris and Madrid," and the separate account for the "Sale of Land Fund," will be made in the course of the current year 1865–6. In the meantime, we can only regard the receipts in respect of the sale of land as payable into the Exchequer, and the expenditure on account of the British Embassy House at Paris as chargeable to the Vote for that service.

10. In our Report of 30th January 1864, No. 47, upon the account of the Commissioners of Works for 1862–3, we called your Lordships' attention to a pension of 20 *l.* per annum granted to Flora Lucas, daughter of one of the keepers in Richmond Park, and directed to be paid out of the Vote for Royal Parks and Pleasure Gardens, and we observed that the Vote for Superannuation Allowances includes Pensions to widows of gamekeepers in the Royal Forests, formerly paid out of Land Revenue. This pension continues to be provided for in the Vote for Royal Parks; and we also observe in the account now under consideration, that your Lordships have been pleased to authorise a compassionate allowance of 15 *l.* a year to W. Hoare, formerly a labourer in Kew Pleasure Gardens, to be charged to the funds "applicable to the maintenance of Kew Gardens."

11. With regard to "Extra Receipts" we have to report that the amounts stated in our Report of 30th January 1865 as coming under this head have been paid into the Exchequer.

	£.	s.	d.
12. The balance of "Extra Receipts" in 1864–5, remaining on 31st March 1865, to be paid into the Exchequer, as stated by the Commissioners of Works, is - - - - - - - - - - -	9,192	18	6
out of which there has been paid into the Exchequer in 1865–6 - -	4,003	15	2
	5,189	3	4
to which we submit should be added, subject to the remark contained in the concluding sentence of paragraph 9, the amount received in 1864–5 for the sale of land at Paris - - - - - - - -	3,149	1	3
	£. 8,338	4	7

13. It would appear from the foregoing observations that the total amount to be made good by supplemental Votes is 5,101 *l.* 10 *s.* 10 *d.*; that the total amount of savings on Votes to be surrendered to the Exchequer is 78,174 *l.* 19 *s.*, and that the total amount payable into the Exchequer as "Extra Receipts" is 8,338 *l.* 4 *s.* 7 *d.*

We have, &c.

(a) See paragraph 7, in Report of Commissioners of Audit, dated 30th January 1866.
(b) See paragraph 8, in Report of Commissioners of Audit, dated 30th January 1866.

COPY of TREASURY MINUTE, dated 21 March 1866, on the foregoing Report of the Commissioners of Audit.

WRITE to the Commissioners of Audit, with reference to the statement in this Report that no direct mention appears in the Estimates in regard to certain repayments of advances out of Civil Contingencies, and that although provision was made on account of these services, the effect has been that overdrawn Votes have been adjusted without the notice of Parliament being specially directed to them,—that with the view of avoiding any such apparent omission for the future, my Lords are of opinion that any deficiencies which may hereafter arise upon Grants under the control of the Commissioners of Works may be provided for by Special Votes, as in the case of Army and Navy Expenditure. 1952/66. par. 4—5.

My Lords will give the necessary consideration to the subject, with the view of adopting some general regulations with respect to all Public Departments, as soon as the Exchequer and Audit Department (Public Moneys and Accounts) Bill shall have become law.

My Lords concur with the Commissioners, that the Pensions referred to in paragraph 10 should for the future be made chargeable against the Superannuation Vote.

Observe however with reference to their observations as to the payment of the sum of 525 *l.* to Mr. Hunt, that as the services rendered by him on that occasion had for their object the purchase of the Exhibition Building 1862 for public purposes, my Lords consider that the amount is fairly chargeable against the Vote for Public Buildings.

Taking therefore this into account, as well as the net deficiency on the Vote for British Embassies, the amount of Savings to be surrendered will be 77,500 *l.* 3 *s.* 4 *d.*, and of the Deficiencies 4,951 *l.* 15 *s.* 2 *d.*

Transmit copy to the Commissioners of Works, and acquaint him that a Supplementary Estimate will be at once submitted to Parliament for the amount of the Deficiencies.

Let directions be given accordingly.

Let the necessary directions be given for the surrender of the sum of 77,500 *l.* 3 *s.* 4 *d.*

Acquaint Controller General of the Exchequer and Paymaster General.

Accounts, &c. to be laid before Parliament, with copy of this Minute.

WORKS AND PUBLIC BUILDINGS.
